Healthcare remote control

Hygienic and easy to clean

Designed for use in healthcare environments, this Philips Professional Remote Control features a simple, color-coded button layout on an easy-clean surface.

Benefits

[Easy to use. Easy to see.](#)

- Top surface can be cleaned with alcohol
- White design for the healthcare environment

[Cost-effective, secure solution](#)

- Lockable battery compartment

- Low-battery detection with TV notification

[Smarter by design](#)

- Multi-RC settings memory

Features

[Top surface can be cleaned](#)

The top surface of this Philips Professional Remote Control is flat, making it easy to clean with alcohol. The flat surface is also hygienic: no raised buttons means no crevices for germs to get into.

[White design for healthcare](#)

The white design and rounded edges give this remote a clean, friendly appearance-perfect for use in healthcare environments. Essential buttons are color-coded and conveniently placed, ensuring ease of operation.

PHILIPS

Lockable battery compartment

The lockable battery compartment is secured with a screw, ensuring batteries can only be removed or changed by staff.

Low-battery detection

When the battery in your Philips Professional Remote Control runs low, a notification appears on the TV screen. Allowing you to change the batteries before service is affected.?

Multi-RC settings memory

Keep your settings exactly the same between battery changes. Multi-RC saves your configuration in a permanent storage for effortless maintenance.
