TV-rundtur

1.1

Professionel tilstand

Hvad du kan gøre

Når Professionel tilstand er aktiveret, har du adgang til et stort antal ekspertindstillinger, som giver avanceret betjening af TV'ets tilstand eller tilføjer yderligere funktioner.

Denne tilstand er beregnet til installationer af TV'er på steder som hoteller, krydstogtskibe, stadioner eller andre former for professionelle miljøer, hvor en sådan kontrol er påkrævet.

Hvis du bruger TV'et derhjemme, anbefales det at bruge det med Professionel tilstand deaktiveret.

Se Professionel-installationsvejledning for yderligere oplysninger.

Opsætning

2.1

Læs om sikkerhed

Læs sikkerhedsanvisningerne, før du anvender TV'et.

2.2

TV-stander og vægmontering

TV-stander

Du finder anvisningerne til montering af TV-standeren i den medfølgende Lynhåndbog. Har du mistet denne vejledning, kan du downloade den fra www.philips.com.

Brug produkttypenummeret på TV'et til at søge efter og downloade Lynhåndbogen.

Vægmontering

TV'et er også forberedt til et VESA-kompatibelt vægbeslag (sælges separat). Brug følgende VESA-kode ved køb af vægbeslaget. . .

• 19HFL5014W
VESA MIS-F 75x75, M4 (min.: 8 mm, maks.: 10 mm)

Forsigtig

Vægmontering af TV'et kræver særlig ekspertise og bør kun udføres af kvalificerede fagfolk. Vægmonteringen til TV'et skal overholde

sikkerhedskravene i forhold til TV'ets vægt. Læs også sikkerhedsforskrifterne, før du placerer TV'et. TP Vision Europe B.V. påtager sig intet ansvar for forkert montering eller montering, der resulterer i en ulykke eller personskaade.

2.3

Tip om placering

- Placer TV'et et sted, hvor der ikke falder lys direkte på skærmen.
- Den ideelle synsafstand til TV'et er 3 gange skærmens diagonale længde. Når du sidder ned, bør dine øjne befinde sig ud for midten af skærmen.

Bemærk:

Undgå, at TV'et kommer i kontakt med støvproducerende kilder, som f.eks. ovne. Det anbefales at fjerne støv regelmæssigt for at undgå, at der kommer støv ind i TV'et.

2.4

Strømkabel

- Sæt strømkablet i stikket **POWER** bag på TV'et.
- Kontroller, at strømkablet er sat korrekt i stikket.
- Kontroller, at stikket i stikkontakten hele tiden er tilgængeligt.
- Når du tager ledningen ud, skal du altid holde i stikket, aldrig i ledningen.

Antennekabel

Tilslut antennestikket til Antennetilslutningen bag på TV'et, og kontrollér, at det sidder korrekt.

Du kan tilslutte din egen antenne eller et antennesignal fra en antenneforening. Brug et IEC koaksialt 75 Ohm RF-antennestik.

Brug denne antennetilslutning til DVB-T- og DVB-C-indgangssignaler.

Armbeslag

3.1

Håndtag

Du finder anvisningerne til montering af håndtaget i Lynhåndbogen fra www.philips.com.

Brug produkttypenummeret på TV'et til at se efter Lynhåndbogen, til at downloade.

3.2

Armbeslag

TV'et er også forberedt til et VESA-kompatibelt armbeslag (sælges separat).
Brug følgende VESA-kode ved køb af armbeslaget. . .

For at fastgøre beslaget på en sikker måde skal du bruge skruer med en længde som vist på tegningen.

• 19HFL5014W – VESA MIS-F 75x75, M4

Installeret med håndtag: (Min. 14mm, maks. 16mm)

Installeret uden håndtag: (Min. 8mm, maks. 10mm)

Forsigtig

Armmontering af TV'et kræver særlig ekspertise og bør kun udføres af kvalificerede fagfolk. Armbeslaget til TV'et skal overholde sikkerhedskravene i forhold til TV'ets vægt. Læs også sikkerhedsforskrifterne, før du placerer TV'et.

TP Vision Europe B.V. påtager sig intet ansvar for forkert montering eller montering, der resulterer i en ulykke eller personskade.

Bemærk

Før du monterer TV'et på armen, skal du fjerne de eksisterende VESA-skruer på bagpanelet.

Advarsel

Følg instruktionerne, der følger med TV-beslaget. TP Vision Europe B.V. påtager sig ikke ansvar for ukorrekte TV-monteringer, der medfører ulykker, kvæstelse eller skader.

For at undgå beskadigelse af kabler og stik skal der

være en afstand på mindst 5,5 cm/2,2" fra bagsiden af TV'et.

Før du monterer TV'et på armen, skal du finde den korrekte skruelængde. Find den korrekte skruelængde ved at lægge tykkelsen af armbeslaget til skruens længde.

Knapper på TV

Brug knapperne på frontpanelet til at betjene skærmen. Frontpanelet har følgende vigtige knapper:

1. Strøm: Tænder TV'et eller sætter det tilbage på standby.
2. Lydløs: Slår lyden til eller fra.
3. Kanal CH+/-: Skifter til den næste eller forrige kanal på kanallisten.
4. Lydstyrke ◀+ : Regulere lydstyrken.
5. Tilbage: Skifter tilbage til den forrige kanal, du valgte. Vender tilbage til forrige menu.
6. Hjem 🏠: Åbner Home-menuen.
7. Lysstyrke: justerer lysstyrken af lyset i bunden af TV'et.
8. Afslut: Skifter tilbage til at se TV.
9. Pile-/navigationstaster: Navigerer op ▲, ned ▼, mod venstre ◀ eller højre ▶.
10. OK: Bekræfter et valg eller en indstilling.
11. Ur: Viser det aktuelle klokkeslæt. Indstiller vækkeuret.

Tænd/sluk

5.1

Tændt eller Standby

Kontroller, at TV'et er tilsluttet lysnettet. Tilslut det medfølgende strømkabel til AC-indgangsstikket på bagsiden af TV'et.

Tænd

Tryk på  på TV'et for at tænde.

Skifte til standby

Sæt TV'et i standbytilstand, når du ikke bruger TV'et.

Du kan sætte TV'et på standby ved at trykke på  på TV'et.

TV'et er stadig tilsluttet lysnettet i standbytilstand, men det bruger kun ganske lidt strøm.

Sluk helt for TV'et ved at tage strømtikket ud. Når du tager strømtikket ud, skal du altid trække i stikket, aldrig i ledningen. Sørg for, at du til enhver tid har nem adgang til strømtik, strømkabel og stikkontakt.

Brug den strømadapter, der fulgte med TV'et.

Bortskaffelse

Bortskaffelse af udtjente produkter og batterier

Dit produkt er udviklet og fremstillet i materialer og komponenter af høj kvalitet, som kan genbruges.

Når et produkt er forsynet med dette symbol med en overkrydset affaldsspand på hjul, betyder det, at produktet er omfattet af EU-direktiv 2012/19/EU.

Forhør dig på den lokale genbrugsstation for elektriske og elektroniske produkter.

Dine gamle produkter skal bortskaffes i overensstemmelse med den lokale lovgivning og ikke sammen med almindeligt husholdningsaffald. Korrekt bortskaffelse af udtjente produkter er med til at forhindre negativ påvirkning af miljø og mennesker.

Dit produkt indeholder batterier, som er omfattet af EU-direktivet 2006/66/EC, og som ikke må bortskaffes sammen med almindeligt husholdningsaffald.

Undersøg lokale regulativer vedr. separat indsamling af batterier, eftersom korrekt bortskaffelse af batterier er med til at forhindre negativ påvirkning af miljø og mennesker.

Tilslut enheder

7.1

Tilslut enheder

Tilslutningsvejledning

Slut altid en enhed til TV'et med tilslutningen med den bedste tilgængelige kvalitet. Brug også kabler af god kvalitet, så du kan sikre en god overførsel af billede og lyd.

Når du tilslutter en enhed, genkender TV'et dens type og giver hver enhed et korrekt typenavn. Du kan ændre typenavnet efter behov. Hvis et korrekt typenavn er indstillet for en enhed, skifter TV'et automatisk over til de mest ideelle TV-indstillinger, når du skifter over til enheden i kildemenuen.

Antennestik

Har du en set-top-boks (en digital modtager) eller optager, skal du tilslutte antennekablerne, således at antennesignalet går gennem set-top-boksen og/eller optageren, før det når TV'et. På den måde kan antennen og set-top-boksen sende ekstra kanaler, som optageren kan optage.

HDMI-porte

Betjening af enheder

Hvis du vil betjene en enhed, der er sluttet til HDMI og konfigureret med EasyLink, skal du vælge enheden – eller dens aktivitet – på listen over TV-tilslutninger.

Professionel tilstand deaktiveret – Tryk på  Hjem, vælg  Apps, vælg  SOURCES . Vælg en enhed, som er sluttet til en HDMI-tilslutning, og tryk på **OK**.

Professionel tilstand aktiveret – Tryk på  Hjem, vælg  TV-kanaler, og vælg  Kilder. Vælg en enhed, som er sluttet til en HDMI-tilslutning, og tryk på **OK**.

HDMI-kvalitet

En HDMI-forbindelse har den bedste billed- og lyd-kvalitet. Et HDMI-kabel kombinerer video- og lyd-signaler. Brug et HDMI-kabel til TV-signal.

For at få den bedste signaloverførsel skal du bruge et højhastigheds-HDMI-kabel og ikke bruge et HDMI-kabel, der er længere end 5 m.

Kopibeskyttelse

HDMI-kabler understøtter HDCP (High-bandwidth Digital Content Protection). HDCP er et kopibeskyttelsessignal, der forhindrer kopiering af indhold fra en DVD eller Blu-ray-disk. Løsningen kaldes også DRM (Digital Rights Management).

HDMI ARC

Alle HDMI-tilslutningerne på TV'et har **HDMI ARC** (Audio Return Channel – lydreturkanal).

Hvis enheden, typisk et HTS (hjemmebiografssystem), også har HDMI ARC-tilslutning, skal du slutte den til en af HDMI-tilslutningerne på TV'et. Med HDMI ARC-tilslutningen behøver du ikke at tilslutte det ekstra lydkabel, som sender TV-billedets lyd til HTS. HDMI ARC-tilslutningen kombinerer begge signaler.

Du kan bruge alle HDMI-tilslutningerne på TV'et til at tilslutte HTS, men ARC er kun tilgængelig for 1 enhed/tilslutning ad gangen.

HDMI CEC – EasyLink

En HDMI-forbindelse har den bedste billed- og lyd-kvalitet. Et HDMI-kabel kombinerer video- og lyd-signaler. Brug et HDMI-kabel til High Definition (HD) TV-signaler. For at få den bedste signaloverførsel skal du bruge et højhastigheds-HDMI-kabel og ikke bruge et HDMI-kabel, der er længere

end 5 m.

Slut HDMI CEC-kompatible enheder til dit TV.

EasyLink HDMI CEC skal være aktiveret på TV'et og den tilsluttede enhed.

Bemærk:

- EasyLink fungerer muligvis ikke sammen med enheder fra andre producenter.
- HDMI CEC-funktionaliteten har forskellige navne hos forskellige producenter. Eksempler: Anynet, Aquos Link, Bravia Theatre Sync, Kuro Link, Simplink og Viera Link. Ikke alle fabrikater er fuldt kompatible med EasyLink. Eksemplerne på HDMI CEC-varemærker tilhører de respektive ejere.

EasyLink til eller fra

Du kan slå EasyLink til eller fra. TV'et leveres med EasyLink-indstillingerne slået til.

Sådan slås EasyLink helt fra...

Professionel tilstand deaktiveret – Tryk på Hjem. Tryk på (ned), vælg Indstillinger, og tryk på OK.

Vælg Kilder > EasyLink, og tryk på OK.

Vælg EasyLink, og tryk på OK.

Vælg Fra, og tryk på OK.

Tryk om nødvendigt gentagne gange på BACK, for at lukke menuen.

Professionel tilstand aktiveret – Se installationsvejledningen.

7.2

Modtager – set-top-boks

Brug 2 antennekabler til at slutte antennen til set-top-boksen (en digital modtager) og TV'et.

Ud over antenneforbindelserne tilføjes et HDMI-kabel for tilslutning af set-top-boksen til TV'et.

7.3

Blu-ray-afspiller

Brug et højhastigheds-HDMI-kabel til at tilslutte Blu-ray-afspilleren til TV'et.

Hvis Blu-ray-afspilleren har EasyLink HDMI CEC.

7.4

Øretelefoner

Du kan tilslutte et sæt hovedtelefoner til -stikket bag på TV'et. Stikket er et 3,5 mm mini-jackstik. Du kan regulere hovedtelefonernes lydstyrke separat.

7.5

Spillekonsol

HDMI

Slut spilkonsollen til TV'et med et højhastigheds-HDMI-kabel for at opnå den bedste kvalitet.

7.6

USB-flash-drev

Du kan se fotos eller afspille musik og videoer fra et tilsluttet USB-flashdrev.

Indsæt et USB-flashdrev i en af USB-tilslutningerne på TV'et, mens TV'et er tændt.

TV'et registrerer flashdrevet og åbner en liste, der viser indholdet.

Hvis indholdslisten ikke vises automatisk ...

Professionel tilstand deaktiveret – Tryk på Hjem, vælg Apps, vælg Kilder. Vælg USB, og tryk på OK.

Professionel tilstand aktiveret – Tryk på Hjem, vælg TV-kanaler , og vælg SOURCES. Vælg USB, og tryk på OK.

Hvis du vil stoppe med at se USB-flashdrevets

indhold, skal du trykke på eller vælge en anden aktivitet.

Du kan når som helst frakoble USB-flashdrevet ved at trække det ud.

7.7

Computer

Connect

Du kan slutte computeren til TV'et og bruge TV'et som computerskærm.

Med HDMI

Brug et HDMI-kabel for at slutte computeren til TV'et.

Optimal indstilling

Hvis du tilslutter en computer, anbefales det at give den tilslutning, som computeren er tilsluttet, den korrekte enhedstypenavn i menuen Kilde. Hvis du skifter til **Computer** i menuen Kilde, indstilles TV'et automatisk til den optimale computerindstilling.

Sådan indstiller du TV'et til den optimale indstilling...

Professionel tilstand deaktiveret – Tryk på Hjem. Tryk på (ned), vælg **Indstillinger**, og tryk på OK.

Vælg **Billede**, og tryk på (højre) for at åbne menuen. Vælg **Billedtype** > **Computer**, og tryk på OK.

Vælg **Til** eller **Fra**, og tryk på OK.

Tryk om nødvendigt på gentagne gange for at lukke menuen.

Professionel tilstand aktiveret – Tryk på Hjem > Mere > Indstillinger > Billede. Tryk på OK.

Vælg **Billedtype** > **Computer**, og tryk på OK.

Vælg **Til** eller **Fra**, og tryk på OK.

Tryk om nødvendigt på gentagne gange for at

lukke menuen.

(For oplysninger om professionel tilstand henvises til
installationsvejledningen)

Videoer, fotos og musik

8.1

Fra en USB-forbindelse

Du kan se dine fotos eller afspille musik og videoer fra et tilsluttet USB-flashdrev eller en USB-harddisk.

Med TV'et tændt skal du sætte et USB-flashdrev eller en USB-harddisk i en af USB-tilslutningerne. TV'et registrerer enheden og viser dine mediefiler på en medieliste.

Gør følgende, hvis listen over filer ikke vises automatisk...

- 1 - Tryk på  Hjem, vælg TV-kanaler .
- 2 - Vælg  USB og tryk på OK.
- 3 - Du kan gennemse dine filer i mappestrukturen, som du har organiseret på drevet.

Tilslut dit Android TV

Netværk og internet

Hjemmenetværk

For at få mest muligt ud af funktionerne i dit Philips Android TV skal dit TV være forbundet til internettet.

Opret forbindelse fra TV'et til et hjemmenetværk med en hurtig internetforbindelse. Du kan tilslutte dit TV trådløst eller kabelbaseret til din netværksrouter.

Opret forbindelse til netværk

Trådløs forbindelse

Det skal du bruge

For at tilslutte TV'et trådløst til internettet skal du bruge en Wi-Fi-router med forbindelse til internettet.

Brug en højhastighedsforbindelse (bredbånd) til internettet.

Opret forbindelse

Opret forbindelse - TRÅDLØS

Tryk på Hjem > Indstillinger > Trådløs og netværk > Opret forbindelse til netværk > TRÅDLØS.

- 1 - I listen over registrerede netværk skal du vælge dit trådløse netværk. Hvis dit netværk ikke findes på listen, fordi netværksnavnet er skjult (du har slået routerens SSID-udsendelse fra), skal du vælge Tilføj nyt netværk for selv at indtaste netværksnavnet.
- 2 - Alt afhængigt af routertypen skal du nu angive din krypteringsnøgle - WEP, WPA eller WPA2. Hvis du har angivet krypteringsnøglen for dette netværk før, kan du vælge OK for at oprette forbindelsen med det samme.
- 3 - En meddelelse bekræfter, når forbindelsen er oprettet.

Opret forbindelse - WPS

Tryk på Hjem > Indstillinger > Trådløs og netværk > Opret forbindelse til netværk > WPS.

Hvis din router har WPS, kan du oprette forbindelse til routeren direkte uden at scanne efter netværk. Hvis du har enheder i dit trådløse netværk, der bruger WEP-sikkerhedskrypteringssystemet, kan du ikke anvende WPS.

- 1 - Tryk på WPS-knappen på din router og vend tilbage til TV'et inden for 2 minutter.
- 2 - Vælg Tilslut for at oprette forbindelsen.
- 3 - En meddelelse bekræfter, når forbindelsen er oprettet.

Opret forbindelse - WPS MED PIN-KODE

Tryk på Hjem > Indstillinger > Trådløs og netværk > Opret forbindelse til netværk > WPS MED PIN-KODE.

Hvis din router har WPS med en PIN-kode, kan du oprette forbindelse til routeren direkte uden at scanne efter netværk. Hvis du har enheder i dit trådløse netværk, der bruger WEP-sikkerhedskrypteringssystemet, kan du ikke anvende WPS.

- 1 - Noter den 8-cifrede PIN-kode, der vises på skærmen, og indtast den i routerens software på din computer. Se i vejledningen til routeren, hvor du skal indtaste PIN-koden i routerens software.
- 2 - Vælg Tilslut for at oprette forbindelsen.
- 3 - En meddelelse bekræfter, når forbindelsen er oprettet.

Problemer

Trådløst netværk blev ikke fundet eller er forvrænget

- Mikrobølgeovne, DECT-telefoner eller andre Wi-Fi 802.11b/g/n/ac-enheder kan forstyrre et trådløst netværk.
- Kontroller, at firewalls i dit netværk tillader adgang for den trådløse TV-forbindelse.
- Hvis det trådløse netværk i dit hjem ikke fungerer korrekt, kan du prøve med en kablet netværksinstallation.

Internettet fungerer ikke

- Hvis forbindelsen til routeren er i orden, skal du kontrollere routerens forbindelse til internettet.

PC'en og internetforbindelsen er langsom

- Se brugervejledningen til den trådløse router for at få oplysninger om indendørs rækkevidde, overførselshastighed og andre faktorer, der påvirker signalkvaliteten.
- Brug en internetforbindelse med høj hastighed (bredbånd) til din router.

DHCP

- Hvis forbindelsen mislykkes, kan du kontrollere routerens DHCP-indstilling (Dynamic Host Configuration). DHCP skal være sat på Til.

Kablet forbindelse

Det skal du bruge

For at tilslutte TV'et til internettet skal du bruge en netværksrouter med forbindelse til internettet. Brug en højhastighedsforbindelse (bredbånd) til internettet.

Opret forbindelse

Opret forbindelse – KABELFORBUNDET

Tryk på Hjem > Indstillinger > Trådløs og netværk > Opret forbindelse til netværk > KABELFORBUNDET.

- 1 – Slut routeren til TV'et med et netværkskabel (Ethernet-kabel**).
- 2 – Kontrollér, at routeren er tændt.
- 3 – TV'et søger konstant efter en netværksforbindelse.
- 4 – En meddelelse bekræfter, når forbindelsen er oprettet.

Hvis forbindelsen mislykkes, kan du kontrollere routerens DHCP-indstilling. DHCP skal være sat på Til.

**For at opfylde EMC-regulativerne skal du bruge et afskærmet FTP Cat. 5E Ethernet-kabel.

Google-konto

Log på

For at få mest muligt ud af funktionerne i dit Philips Android TV kan du logge på Google med din Google-konto.

Ved at logge på kan du spille dine yndlingsspil på telefon, tablet og TV. Du kan også få tilpassede video- og musikanbefalinger på din TV-startskærm samt få adgang til YouTube, Google Play og andre apps.

Brug din eksisterende **Google-konto** for at logge på Google på dit TV. En Google-konto består af en e-mailadresse og en adgangskode. Hvis du ikke har en Google-konto, kan du bruge din computer eller tablet til at oprette en (accounts.google.com). Du skal have en Google+ profil for at kunne spille spil med Google Play. Hvis du ikke loggede på under den første TV-installation, kan du altid logge på senere.

Log på

Tryk på Hjem > Apps > Google Play.

Brug tastaturet på skærmen til at indtast din e-mailadresse og din adgangskode, og tryk på den samme **OK**-tast for at logge på.

Android-indstillinger

Du kan angive eller se flere Android-specifikke indstillinger og oplysninger. Du kan finde listen over de apps, der er installeret på dit TV, samt den nødvendige lagringsplads. Du kan angive det sprog, du gerne vil bruge sammen med stemmesøgning. Du kan konfigurere tastaturet på skærmen eller give dine

apps tilladelse til at bruge din lokalitet. Udforsk de forskellige Android-indstillinger.

På www.support.google.com/androidtv kan du få flere oplysninger om disse indstillinger.

Gør følgende for at åbne disse indstillinger

Tryk på Hjem > Indstillinger > Indstillinger > Android-indstillinger.

Antenne-/kabelinstallation

Søg efter kanaler

Du kan geninstallere alle kanaler og lade alle andre TV-indstillinger urørte.

Hvis der er angivet en PIN-kode, skal du indtaste denne kode, før du kan geninstallere kanaler.

Sådan søger du efter kanaler...

- 1 – Tryk på Hjem > Indstillinger > Installér kanaler, og tryk på **OK**.
- 2 – Vælg RF-kanalinstallation, og tryk på **OK**.

- 3 – Indtast din PIN-kode, hvis det er nødvendigt.

Vælg **Søg efter kanaler**, og tryk på **OK**.

Vælg **Start**, og tryk på **OK**.

Vælg det land, hvor du er nu, og tryk på **OK**.

Vælg **Start**, og tryk på **OK**.

Vælg den ønskede installationstype, **Antenne (DVB-T)** eller **Kabel (DVB-C)**, og tryk på **OK**.

Vælg **Næste**, og tryk på **OK**.

Vælg den kanaltype, du vil have, **Digitale og analoge kanaler** eller **Kun digitale kanaler**, og tryk på **OK**.

Vælg **Næste**, og tryk på **OK**.

Vælg **Start**, og tryk på **OK** for at opdatere de digitale kanaler. Dette kan tage nogle få minutter. Tryk på **◀** (venstre) for at gå et trin tilbage, eller tryk på **← BACK** for at lukke menuen.

Automatisk kanalopdatering

Hvis du modtager digitale kanaler, kan du indstille TV'et til automatisk at opdatere disse kanaler.

En gang om dagen, kl. 6:00 om morgenen, opdaterer TV'et kanalerne og gemmer nye kanaler. Nye kanaler gemmes i Kanallisten og markeres med en **★**. Kanaler uden signal fjernes. TV'et skal være på standby for automatisk at kunne opdatere kanaler. Du kan slå automatisk kanalopdatering fra.

Sådan slår du automatisk opdatering fra...

- 1 - Tryk på **🏠** Hjem > **⚙️** Indstillinger > **Installer kanaler**, og tryk på **OK**.
- 2 - Vælg **RF-kanalinstallation**, og tryk på **OK**.
- 3 - Indtast din PIN-kode, hvis det er nødvendigt.
- 4 - Vælg **Automatisk kanalopdatering**, og tryk på **OK**.
- 5 - Vælg **Fra**, og tryk på **OK**.
- 6 - Tryk på **◀** (venstre) for at gå et trin tilbage, eller tryk på **← BACK** for at lukke menuen.

Kanal, automatisk kanalopdatering

Når nye kanaler er fundet, eller hvis kanaler opdateres eller fjernes, vises en meddelelse, når TV'et tændes. For at undgå, at denne meddelelse vises efter hver kanalopdatering, kan du slå den fra.

Sådan slås meddelelsen fra...

- 1 - Tryk på **🏠** Hjem > **⚙️** Indstillinger > **Installer kanaler**, og tryk på **OK**.
- 2 - Vælg **RF-kanalinstallation**, og tryk på **OK**.
- 3 - Indtast din PIN-kode, hvis det er nødvendigt.
- 4 - Vælg **Automatisk kanalopdatering**, og tryk på **OK**.
- 5 - Vælg **Fra**, og tryk på **OK**.
- 6 - Tryk på **◀** (venstre) for at gå et trin tilbage, eller tryk på **← BACK** for at lukke menuen.

I visse lande udføres den automatiske kanalopdatering, mens du ser TV, eller når TV'et er på standby.

Digital: Manuel installation

Digitale TV-kanaler kan installeres manuelt en efter en.

Sådan installerer du digitale kanaler manuelt...

- 1 - Tryk på **🏠** Hjem > **⚙️** Indstillinger > **Installer kanaler**, og tryk på **OK**.

- 2 - Vælg **RF-kanalinstallation**, og tryk på **OK**.
- 3 - Vælg **Digital: Manuel installation**, og tryk på **OK**.
- 4 - Vælg **Søg**, og tryk på **OK**. Du kan selv indtaste en frekvens for at finde en kanal, eller du kan lade TV'et søge efter en kanal. Tryk på **➤** (højre) for at vælge **Søg**, og tryk på **OK** for automatisk at søge efter en kanal. Den fundne kanal vises på skærmen, og hvis der er dårlig modtagelse, skal du trykke på **Søg** igen. Hvis du vil gemme kanalen, skal du vælge **Udført** og trykke på **OK**.

Analog: Manuel installation

Analoge TV-kanaler kan installeres manuelt en efter en.

Sådan installerer du analoge kanaler manuelt.

- 1 - Tryk på **🏠** Hjem > **⚙️** Indstillinger > **Installer kanaler**, og tryk på **OK**.
- 2 - Vælg **RF-kanalinstallation**, og tryk på **OK**.
- 3 - Vælg **Analoge: Manuel installation**, og tryk på **OK**.

- **System**

Konfigurer Tv-systemet ved at vælge **System**. Vælg dit land eller den del af verden, hvor du befinder dig nu, og tryk på **OK**.

- **Søg efter**

Du finder en kanal ved at vælge **Søg efter kanal** og trykke på **OK**. Du kan selv indtaste en frekvens for at finde en kanal, eller du kan lade TV'et søge efter en kanal. Tryk på **➤** (højre) for at vælge **Søg**, og tryk på **OK** for automatisk at søge efter en kanal. Den fundne kanal vises på skærmen, og hvis der er dårlig modtagelse, skal du trykke på **Søg** igen. Hvis du vil gemme kanalen, skal du vælge **Udført** og trykke på **OK**.

- **Gem**

Du kan gemme kanalen på det aktuelle kanalnummer eller som et nyt kanalnummer.

Vælg **Gem aktuel kanal** eller **Gem som ny kanal**, og tryk på **OK**. Det nye kanalnummer vises kortvarigt.

Trinene kan gentages, indtil du har fundet alle tilgængelige, analoge TV-kanaler.

GNU LIBRARY GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1991 Free Software Foundation, Inc.

51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Library General Public License, applies to some specially designated Free Software Foundation software, and to any other libraries whose authors decide to use it. You can use it for your libraries, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library, or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link a program with the library, you must provide complete object files to the

recipients so that they can relink them with the library, after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

Our method of protecting your rights has two steps: (1) copyright the library, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the library.

Also, for each distributor's protection, we want to make certain that everyone understands that there is no warranty for this free library. If the library is modified by someone else and passed on, we want its recipients to know that what they have is not the original version, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that companies distributing free software will individually obtain patent licenses, thus in effect transforming the program into proprietary software. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License, which was designed for utility programs. This license, the GNU Library General Public License, applies to certain designated libraries. This license is quite different from the ordinary one; be sure to read it in full, and don't assume that anything in it is the same as in the ordinary license.

The reason we have a separate public license for some libraries is that they blur the distinction we usually make between modifying or adding to a program and simply using it. Linking a program with a library, without changing the library, is in some sense simply using the library, and is analogous to running a utility program or application program. However, in a textual and legal sense, the linked executable is a combined work, a derivative of the original library, and the ordinary General Public License treats it as such.

Because of this blurred distinction, using the ordinary General Public License for libraries did not effectively promote software sharing, because most developers did not use the libraries. We concluded that weaker conditions might promote sharing better.

However, unrestricted linking of non-free programs would deprive the users of those programs of all benefit from the free status of the libraries themselves. This Library General Public License is intended to permit developers of non-free programs to use free libraries, while preserving your freedom as a user of such programs to change the free libraries that are incorporated in them. (We have not seen how to achieve this as regards changes in header files, but we have achieved it as regards changes in the actual

functions of the Library.) The hope is that this will lead to faster development of free libraries.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, while the latter only works together with the library.

Note that it is possible for a library to be covered by the ordinary General Public License rather than by this special one.

GNU LIBRARY GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Library General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associate interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the squareroot function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective

works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License.

Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of

the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also compile or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

c) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified

materials from the same place.

d) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based

on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Library General

Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation,

Everyone is permitted to copy and distribute verbatim
copies of this license document, but changing it is
not allowed.

[This is the first released version of the Lesser GPL. It
also counts as the successor of the GNU Library
Public License, version 2, hence the version number
2.1.]

Preamble

The licenses for most software are designed to take
away your freedom to share and change it. By
contrast, the GNU General Public Licenses are
intended to guarantee your freedom to share and
change free software--to make sure the software is
free for all its users.

This license, the Lesser General Public License,
applies to some specially designated software
packages--typically libraries--of the Free Software
Foundation and other authors who decide to use it.
You can use it too, but we suggest you first think
carefully about whether this license or the ordinary
General Public License is the better strategy to use in
any particular case, based on the explanations below.

When we speak of free software, we are referring to
freedom of use, not price. Our General Public
Licenses are designed to make sure that you have
the freedom to distribute copies of free software (and
charge for this service if you wish); that you receive
source code or can get it if you want it; that you can
change the software and use pieces of it in new free
programs; and that you are informed that you can
do these things.

To protect your rights, we need to make restrictions
that forbid distributors to deny you these rights or to

ask you to surrender these rights. These restrictions
translate to certain responsibilities for you if you
distribute copies of the library or if you modify it.

For example, if you distribute copies of the library,
whether gratis or for a fee, you must give the
recipients all the rights that we gave you. You must
make sure that they, too, receive or can get the
source code. If you link other code with the library,
you must provide complete object files to the
recipients, so that they can relink them with the
library after making changes to the library and
recompiling it. And you must show them these terms
so they know their rights.

We protect your rights with a two-step method: (1) we
copyright the library, and (2) we offer you this
license, which gives you legal permission to copy,
distribute and/or modify the library.

To protect each distributor, we want to make it very
clear that there is no warranty for the free library.
Also, if the library is modified by someone else and
passed on, the recipients should know that what
they have is not the original version, so that the
original author's reputation will not be affected by
problems that might be introduced by others.

Finally, software patents pose a constant threat to the
existence of any free program. We wish to make
sure that a company cannot effectively restrict the
users of a free program by obtaining a restrictive
license from a patent holder. Therefore, we insist
that any patent license obtained for a version of the
library must be consistent with the full freedom of
use specified in this license.

Most GNU software, including some libraries, is
covered by the ordinary GNU General Public
License. This license, the GNU Lesser General
Public License, applies to certain designated libraries,
and is quite different from the ordinary General
Public License. We use this license for certain
libraries in order to permit linking those libraries into
non-free programs.

When a program is linked with a library, whether
statically or using a shared library, the combination
of the two is legally speaking a combined work, a
derivative of the original library. The
ordinary General Public License therefore permits
such linking only if the entire combination fits its
criteria of freedom. The Lesser General Public
License permits more lax criteria for linking other code
with the library.

We call this license the "Lesser" General Public
License because it does Less to protect the user's
freedom than the ordinary General Public License.
It also provides other free software developers
Less of an advantage over competing non-free
programs. These disadvantages are the reason we
use the ordinary General Public License for
many libraries. However, the Lesser license provides

advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

GNU LESSER GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square

roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any

portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License.

Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-

readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be

distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or

to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

ARPHIC PUBLIC LICENSE

Copyright (C) 1999 Arphic Technology Co., Ltd.

All rights reserved except as specified below.

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is forbidden.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the ARPHIC PUBLIC LICENSE specifically permits and encourages you to use this software, provided that you give the recipients all the rights that we gave you and make sure they can get the modifications of this software.

Legal Terms

Throughout this License, "Font" means the TrueType fonts "AR PL Mingti2L Big5", "AR PL KaitiM Big5" (BIG-5 character set) and "AR PL SungtiL GB", "AR PL KaitiM GB" (GB character set) which are originally distributed by Arphic, and the derivatives of those fonts created through any modification including modifying glyph, reordering glyph, converting format, changing font name, or adding/deleting some characters in/from glyph table.

"PL" means "Public License".

"Copyright Holder" means whoever is named in the copyright or copyrights for the Font.

"You" means the licensee, or person copying, redistributing or modifying the Font.

"Freely Available" means that you have the freedom to copy or modify the Font as well as redistribute copies of the Font under the same conditions you received, not price. If you wish, you can charge for this service.

You may copy and distribute verbatim copies of this Font in any medium, without restriction, provided that you retain this license file (ARPHICPL.TXT) unaltered in all copies.

You may otherwise modify your copy of this Font

in any way, including modifying glyph, reordering glyph, converting format, changing font name, or adding/deleting some characters in/from glyph table, and copy and distribute such modifications under the terms of Section 1 above, provided that the following conditions are met:

a) You must insert a prominent notice in each modified file stating how and when you changed that file.

b) You must make such modifications Freely Available as a whole to all third parties under the terms of this License, such as by offering access to copy the modifications from a designated place, or distributing the modifications on a medium customarily used for software interchange.

c) If the modified fonts normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the Font under these conditions, and telling the user how to view a copy of this License.

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Font, and can be reasonably considered independent and separate works in themselves, then this License and its terms, do not apply to those sections when you distribute them as separate works. Therefore, mere aggregation of another work not based on the Font with the Font on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

You may not copy, modify, sublicense, or distribute the Font except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Font will automatically retroactively void your rights under this License. However, parties who have received copies or rights from you under this License will keep their licenses valid so long as such parties remain in full compliance.

You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to copy, modify, sublicense or distribute the Font. These actions are prohibited by law if you do not accept this License. Therefore, by copying, modifying, sublicensing or distributing the Font, you indicate your acceptance of this License and all its terms and conditions.

Each time you redistribute the Font, the recipient automatically receives a license from the original licensor to copy, distribute or modify the Font subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of

the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Font at all. For example, if a patent license would not permit royalty-free redistribution of the Font by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Font.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

BECAUSE THE FONT IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE FONT, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS OR OTHER PARTIES PROVIDE THE FONT "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE FONT IS WITH YOU. SHOULD THE FONT PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING, IN NO EVENT WILL ANY COPYRIGHTT HOLDERS, OR OTHER PARTIES WHO MAY COPY, MODIFY OR REDISTRIBUTE THE FONT AS PERMITTED ABOVE, BE LIABLE TO YOU FOR ANY DIRECT, INDIRECT, CONSEQUENTIAL, INCIDENTAL, SPECIAL OR EXEMPLARY DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE FONT (INCLUDING BUT NOT LIMITED TO PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA OR PROFITS; OR BUSINESS INTERRUPTION), EVEN IF SUCH HOLDERS OR OTHER PARTIES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

Bitstream Vera Fonts Copyright

The fonts have a generous copyright, allowing derivative works (as long as "Bitstream" or "Vera" are not in the names), and full redistribution (so long as they are not *sold* by themselves). They can be bundled, redistributed and sold with any software.

The fonts are distributed under the following copyright:

The Font Software may be modified, altered, or added to, and in

particular the designs of glyphs or characters in the Fonts may be

modified and additional glyphs or characters may be added to the

Fonts, only if the fonts are renamed to names not containing either

the words "Bitstream" or the word "Vera".

This License becomes null and void to the extent applicable to Fonts

or Font Software that has been modified and is distributed under the

"Bitstream Vera" names.

The Font Software may be sold as part of a larger software package but

no copy of one or more of the Font Software typefaces may be sold by itself.

Copyright FAQ

=====

1. I don't understand the resale restriction... What gives?

Bitstream is giving away these fonts, but wishes to ensure its
competitors can't just drop the fonts as is into a font sale system
and sell them as is. It seems fair that if Bitstream can't make money
from the Bitstream Vera fonts, their competitors should not be able to
do so either. You can sell the fonts as part of any software package,
however.

2. I want to package these fonts separately for distribution and

sale as part of a larger software package or system. Can I do so?

Yes. A RPM or Debian package is a "larger software package" to begin

with, and you aren't selling them independently by themselves.

See 1. above.

3. Are derivative works allowed?

Yes!

4. Can I change or add to the font(s)?

Yes, but you must change the name(s) of the font(s).

5. Under what terms are derivative works allowed?

You must change the name(s) of the fonts. This is to ensure the

quality of the fonts, both to protect Bitstream and Gnome. We want to

ensure that if an application has opened a font specifically of these

names, it gets what it expects (though of course, using fontconfig,

substitutions could still could have occurred during font

opening). You must include the Bitstream copyright. Additional

copyrights can be added, as per copyright law. Happy Font Hacking!

6. If I have improvements for Bitstream Vera, is it possible they might get

adopted in future versions?

Yes. The contract between the Gnome Foundation and Bitstream has

provisions for working with Bitstream to ensure quality additions to

the Bitstream Vera font family. Please contact us if you have such

additions. Note, that in general, we will want such additions for the

entire family, not just a single font, and that you'll have to keep

both Gnome and Jim Lyles, Vera's designer,

happy! To make sense to add

glyphs to the font, they must be stylistically in keeping with Vera's

design. Vera cannot become a "ransom note" font. Jim Lyles will be

providing a document describing the design elements used in Vera, as a

guide and aid for people interested in contributing to Vera.

7. I want to sell a software package that uses these fonts: Can I do so?

Sure. Bundle the fonts with your software and sell your software

with the fonts. That is the intent of the copyright.

8. If applications have built the names "Bitstream Vera" into them,

can I override this somehow to use fonts of my choosing?

This depends on exact details of the software. Most open source

systems and software (e.g., Gnome, KDE, etc.) are now converting to

use fontconfig (see www.fontconfig.org) to handle font configuration,

selection and substitution; it has provisions for overriding font

names and substituting alternatives. An example is provided by the

supplied local.conf file, which chooses the family Bitstream Vera for

"sans", "serif" and "monospace". Other software (e.g., the XFree86

core server) has other mechanisms for font substitution.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,

and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by

the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all

other entities that control, are controlled by, or are under common

control with that entity. For the purposes of this definition,

"control" means (i) the power, direct or indirect, to cause the

direction or management of such entity, whether by contract or

otherwise, or (ii) ownership of fifty percent (50%) or more of the

outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity

exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,

including but not limited to software source code, documentation

source, and configuration files.

"Object" form shall mean any form resulting from mechanical

transformation or translation of a Source form, including but

not limited to compiled object code, generated documentation,

and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or

Object form, made available under the License, as indicated by a

copyright notice that is included in or attached to the work

(an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object

form, that is based on (or derived from) the Work and for which the

editorial revisions, annotations, elaborations, or other modifications

represent, as a whole, an original work of authorship. For the purposes

of this License, Derivative Works shall not include works that remain

separable from, or merely link (or bind by name) to the interfaces of,

the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including

the original version of the Work and any modifications or additions

to that Work or Derivative Works thereof, that is intentionally

submitted to Licensor for inclusion in the Work by the copyright owner

or by an individual or Legal Entity authorized to submit on behalf of

the copyright owner. For the purposes of this definition, "submitted"

means any form of electronic, verbal, or written communication sent

to the Licensor or its representatives, including but not limited to

communication on electronic mailing lists, source code control systems,

and issue tracking systems that are managed by, or on behalf of, the

Licensor for the purpose of discussing and improving the Work, but

excluding communication that is conspicuously marked or otherwise

designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity

on behalf of whom a Contribution has been received by Licensor and

subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of

this License, each Contributor hereby grants to You a perpetual,

worldwide, non-exclusive, no-charge, royalty-free, irrevocable

copyright license to reproduce, prepare Derivative Works of,

publicly display, publicly perform, sublicense, and distribute the

Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of

this License, each Contributor hereby grants to You a perpetual,

worldwide, non-exclusive, no-charge, royalty-free, irrevocable

(except as stated in this section) patent license to make, have made,

use, offer to sell, sell, import, and otherwise transfer the Work,

where such license applies only to those patent claims licensable

by such Contributor that are necessarily infringed by their

Contribution(s) alone or by combination of their Contribution(s)

with the Work to which such Contribution(s) was submitted. If You

institute patent litigation against any entity (including a

cross-claim or counterclaim in a lawsuit) alleging that the Work

or a Contribution incorporated within the Work constitutes direct

or contributory patent infringement, then any patent licenses

granted to You under this License for that Work shall terminate

as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the

Work or Derivative Works thereof in any medium, with or without

modifications, and in Source or Object form, provided that You

meet the following conditions:

(a) You must give any other recipients of the Work or

Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices

stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works

that You distribute, all copyright, patent, trademark, and

attribution notices from the Source form of the Work,

excluding those notices that do not pertain to any part of

the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its

distribution, then any Derivative Works that You distribute must

include a readable copy of the attribution notices contained

within such NOTICE file, excluding those notices that do not

pertain to any part of the Derivative Works, in at least one

of the following places: within a NOTICE text file distributed

as part of the Derivative Works; within the Source form or

documentation, if provided along with the Derivative Works; or,

within a display generated by the Derivative Works, if and

wherever such third-party notices normally appear. The contents

of the NOTICE file are for informational purposes only and

do not modify the License. You may add Your own attribution

notices within Derivative Works that You distribute, alongside

or as an addendum to the NOTICE text from the Work, provided

that such additional attribution notices cannot be construed

as modifying the License.

You may add Your own copyright statement to Your modifications and

may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or

for any such Derivative Works as a whole, provided Your use,

reproduction, and distribution of the Work otherwise complies with

the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,

any Contribution intentionally submitted for inclusion in the Work

by You to the Licensors shall be under the terms and conditions of

this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify

the terms of any separate license agreement you may have executed

with Licensors regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade

names, trademarks, service marks, or product names of the Licensors,

except as required for reasonable and customary use in describing the

origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or

agreed to in writing, Licensors provide the Work (and each

Contributor provides its Contributions) on an "AS IS" BASIS,

WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or

implied, including, without limitation, any

warranties or conditions

of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A

PARTICULAR PURPOSE. You are solely responsible for determining the

appropriateness of using or redistributing the Work and assume any

risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,

whether in tort (including negligence), contract, or otherwise,

unless required by applicable law (such as deliberate and grossly

negligent acts) or agreed to in writing, shall any Contributor be

liable to You for damages, including any direct, indirect, special,

incidental, or consequential damages of any character arising as a

result of this License or out of the use or inability to use the

Work (including but not limited to damages for loss of goodwill,

work stoppage, computer failure or malfunction, or any and all

other commercial damages or losses), even if such Contributor

has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing

the Work or Derivative Works thereof, You may choose to offer,

and charge a fee for, acceptance of support, warranty, indemnity,

or other liability obligations and/or rights consistent with this

License. However, in accepting such obligations, You may act only

on Your own behalf and on Your sole responsibility, not on behalf

of any other Contributor, and only if You agree to indemnify,

defend, and hold each Contributor harmless

for any liability

incurred by, or claims asserted against, such Contributor by reason

of your accepting any such warranty or additional liability.

SIL OPEN FONT LICENSE Version 1.1 - 26 February 2007

PREAMBLE

The goals of the Open Font License (OFL) are to stimulate worldwide development of collaborative font projects, to support the font creation efforts of academic and linguistic communities, and to provide a free and open framework in which fonts may be shared and improved in partnership with others.

The OFL allows the licensed fonts to be used, studied, modified and redistributed freely as long as they are not sold by themselves. The fonts, including any derivative works, can be bundled, embedded, redistributed and/or sold with any software provided that any reserved names are not used by derivative works. The fonts and derivatives, however, cannot be released under any other type of license. The requirement for fonts to remain under this license does not apply to any document created using the fonts or their derivatives.

DEFINITIONS

"Font Software" refers to the set of files released by the Copyright Holder(s) under this license and clearly marked as such. This may include source files, build scripts and documentation.

"Reserved Font Name" refers to any names specified as such after the copyright statement(s).

"Original Version" refers to the collection of Font Software components as distributed by the Copyright Holder(s).

"Modified Version" refers to any derivative made by adding to, deleting, or substituting -- in part or in whole -- any of the components of the Original Version, by changing formats or by porting the Font Software to a new environment.

"Author" refers to any designer, engineer, programmer, technical writer or other person who contributed to the Font Software.

PERMISSION & CONDITIONS

Permission is hereby granted, free of charge, to any person obtaining

a copy of the Font Software, to use, study, copy, merge, embed, modify,

redistribute, and sell modified and unmodified copies of the Font

Software, subject to the following conditions:

- 1) Neither the Font Software nor any of its individual components,
in Original or Modified Versions, may be sold by itself.
- 2) Original or Modified Versions of the Font Software may be bundled,
redistributed and/or sold with any software, provided that each copy
contains the above copyright notice and this license. These can be
included either as stand-alone text files, human-readable headers or
in the appropriate machine-readable metadata fields within text or
binary files as long as those fields can be easily viewed by the user.
- 3) No Modified Version of the Font Software may use the Reserved Font
Name(s) unless explicit written permission is granted by the corresponding
Copyright Holder. This restriction only applies to the primary font name as
presented to the users.
- 4) The name(s) of the Copyright Holder(s) or the Author(s) of the Font
Software shall not be used to promote, endorse or advertise any
Modified Version, except to acknowledge the contribution(s) of the
Copyright Holder(s) and the Author(s) or with their explicit written
- 5) The Font Software, modified or unmodified, in part or in whole,
must be distributed entirely under this license, and must not be
distributed under any other license. The requirement for fonts to
remain under this license does not apply to any document created
using the Font Software.

TERMINATION

This license becomes null and void if any of the above conditions are not met.

DISCLAIMER

THE FONT SOFTWARE IS PROVIDED "AS IS",

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the library GPL. It

is numbered 2 because it goes with version 2 of the ordinary GPL.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Library General Public License, applies to some specially designated Free Software Foundation software, and to any other libraries whose authors decide to use it. You can use it for your libraries, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library, or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link a program with the library, you must provide complete object files to the recipients so that they can relink them with the library, after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

Our method of protecting your rights has two steps: (1) copyright the library, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the library.

Also, for each distributor's protection, we want to make certain that everyone understands that there is no warranty for this free library. If the library is modified by someone else and passed on, we want its recipients to know that what they have is not the original version, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that companies distributing free software will individually obtain patent licenses, thus in effect transforming the program into proprietary software. To prevent this, we

have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License, which was designed for utility programs. This license, the GNU Library General Public License, applies to certain designated libraries. This license is quite different from the ordinary one; be sure to read it in full, and don't assume that anything in it is the same as in the ordinary license.

The reason we have a separate public license for some libraries is that they blur the distinction we usually make between modifying or adding to a program and simply using it. Linking a program with a library, without changing the library, is in some sense simply using the library, and is analogous to running a utility program or application program. However, in a textual and legal sense, the linked executable is a combined work, a derivative of the original library, and the ordinary General Public License treats it as such.

Because of this blurred distinction, using the ordinary General Public License for libraries did not effectively promote software sharing, because most developers did not use the libraries. We concluded that weaker conditions might promote sharing better.

However, unrestricted linking of non-free programs would deprive the users of those programs of all benefit from the free status of the libraries themselves. This Library General Public License is intended to permit developers of non-free programs to use free libraries, while preserving your freedom as a user of such programs to change the free libraries that are incorporated in them. (We have not seen how to achieve this as regards changes in header files, but we have achieved it as regards changes in the actual functions of the Library.) The hope is that this will lead to faster development of free libraries.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, while the latter only works together with the library.

Note that it is possible for a library to be covered by the ordinary General Public License rather than by this special one.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software

library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

- a) The modified work must itself be a software library.
- b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
- c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
- d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same

sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

c) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

d) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library,

and explaining where to find the accompanying uncombined form of the same work.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

one line to give the library's name and an idea of what it does.

This library is free software; you can redistribute it

and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public License along with this library; if not, write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a sample; alter the names:

TERMS AND CONDITIONS FOR USE,
REPRODUCTION, AND DISTRIBUTION

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal

Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

You must give any other recipients of the Work or Derivative Works a copy of this License; and

You must cause any modified files to carry prominent notices stating that You changed the files; and

You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Time Zone Database

ICU uses the public domain data and code derived from Time Zone Database

for its time zone support. The ownership of the TZ database is explained

in BCP 175: Procedure for Maintaining the Time Zone Database section 7.

1 - Database Ownership

The TZ database itself is not an IETF Contribution or an IETF

document. Rather it is a pre-existing and regularly updated work

that is in the public domain, and is intended to remain in the public

domain. Therefore, BCPs 78 [RFC5378] and 79 [RFC3979] do not apply

to the TZ Database or contributions that individuals make to it.

Should any claims be made and substantiated against the TZ Database,

the organization that is providing the IANA Considerations defined in

this RFC, under the memorandum of understanding with the IETF,

currently ICANN, may act in accordance with all competent court

orders. No ownership claims will be made by ICANN or the IETF Trust

on the database or the code. Any person making a contribution to the

database or code waives all rights to future claims in that

contribution or in the TZ Database.

by the usual distribution terms of the Free Software Foundation; principally,

that you must include source code if you redistribute it. (See the file ansi2knr.c for

full details.)

However, since ansi2knr.c is not needed as part

of any program generated from the IJG code, this does not limit you more than

the foregoing paragraphs do.

The Unix configuration script "configure" was produced with GNU Autoconf.

It is copyright by the Free Software Foundation but is freely distributable.

The same holds for its supporting scripts (config.guess, config.sub,

ltconfig, ltmain.sh). Another support script, install-sh, is copyright

by M.I.T. but is also freely distributable.

It appears that the arithmetic coding option of the JPEG spec is covered by

patents owned by IBM, AT&T, and Mitsubishi. Hence arithmetic coding cannot

legally be used without obtaining one or more licenses. For this reason,

support for arithmetic coding has been removed from the free JPEG software.

(Since arithmetic coding provides only a marginal gain over the unpatented

Huffman mode, it is unlikely that very many implementations will support it.)

So far as we are aware, there are no patent restrictions on the remaining

The IJG distribution formerly included code to read and write GIF files.

To avoid entanglement with the Unisys LZW patent, GIF reading support has

been removed altogether, and the GIF writer has been simplified to produce

"uncompressed GIFs". This technique does not use the LZW algorithm; the

resulting GIF files are larger than usual, but are readable by all standard

GIF decoders.

We are required to state that

Additional IP Rights Grant (Patents)

"These implementations" means the copyrightable works that implement the WebM

codecs distributed by Google as part of the WebM Project.

Google hereby grants to you a perpetual, worldwide, non-exclusive, no-charge,

royalty-free, irrevocable (except as stated in this section) patent license to

make, have made, use, offer to sell, sell, import, transfer, and otherwise

run, modify and propagate the contents of these implementations of WebM, where

such license applies only to those patent claims, both currently owned by

Google and acquired in the future, licensable by Google that are necessarily

infringed by these implementations of WebM. This grant does not include claims

that would be infringed only as a consequence of further modification of these

or agree to the institution of patent litigation or any other patent

enforcement activity against any entity (including a cross-claim or

counterclaim in a lawsuit) alleging that any of these implementations of WebM

or any code incorporated within any of these implementations of WebM

constitute direct or contributory patent infringement, or inducement of

patent infringement, then any patent rights granted to you under this License

for these implementations of WebM shall terminate as of the date such

litigation is filed.

Unlimited Commercial Use

We try to make it clear that you may use all clipart from Openclipart even for unlimited commercial use. We believe that giving away our images is a great way to share with the world our talents and that will come back around in a better form.

May I Use Openclipart for?

We put together a small chart of as many possibilities and questions we have heard from people asking how they may use Openclipart. If you have an additional question, please email love@openclipart.org.

All Clipart are Released into the Public Domain.

Each artist at Openclipart releases all rights to the images they share at Openclipart. The reason is so that there is no friction in using and sharing images authors make available at this website so that each artist might also receive the same benefit in using other artists clipart totally for any possible reason.

; This is a header file for the x264ASM assembly
language, which uses

; NASM/YASM syntax combined with a large number
of macros to provide easy

; abstraction between different calling conventions
(x86_32, win64, linux64).

; It also has various other useful features to simplify
writing the kind of

; DSP functions that are most often used in x264.

; Unlike the rest of x264, this file is available under an
ISC license, as it

; has significant usefulness outside of x264 and we
want it to be available

; to the largest audience possible. Of course, if you
modify it for your own

; purposes to add a new feature, we strongly
encourage contributing a patch

; as this feature might be useful for others as well.
Send patches or ideas

FreeType Team.

The FreeType Project LICENSE

2006-Jan-27

Copyright 1996-2002,
2006 by

David Turner, Robert Wilhelm, and
Werner Lemberg

Introduction

=====

The FreeType Project is distributed in several
archive packages;

some of them may contain, in addition to the
FreeType font engine,

various tools and contributions which rely on, or
relate to, the

FreeType Project.

This license applies to all files found in such
packages, and

which do not fall under their own explicit
license. The license

affects thus the FreeType font engine,
the test programs,

documentation and makefiles, at the very least.

This license was inspired by the BSD,
Artistic, and IJG

(Independent JPEG Group) licenses, which all
encourage inclusion

and use of free software in commercial and
freeware products

alike. As a consequence, its main points are that:

o We don't promise that this software works.
However, we will be

interested in any kind of bug reports. ('as is'
distribution)

o You can use this software for whatever you

want, in parts or

full form, without having to pay us. ('royalty-free' usage)

o You may not pretend that you wrote this software. If you use

it, or only parts of it, in a program, you must acknowledge

somewhere in your documentation that you have used the

FreeType code. ('credits')

We specifically permit and encourage the inclusion of this

software, with or without modifications, in commercial products.

We disclaim all warranties covering The FreeType Project and

assume no liability related to The FreeType Project.

Finally, many people asked us for a preferred form for a

credit/disclaimer to use in compliance with this license. We thus

encourage you to use the following text:

""

Portions of this software are copyright ©<year> The FreeType

Project (www.freetype.org). All rights reserved.

""

Please replace <year> with the value from the FreeType version you actually use.

Legal Terms

Throughout this license, the terms 'package', 'FreeType Project',

and 'FreeType archive' refer to the set of files originally

distributed by the authors (David Turner, Robert Wilhelm, and

Werner Lemberg) as the 'FreeType Project', be they named as alpha,

beta or final release.

'You' refers to the licensee, or person using the project, where

'using' is a generic term including compiling the project's source

code as well as linking it to form a 'program' or 'executable'.

This program is referred to as 'a program using the FreeType

engine'.

This license applies to all files distributed in the original

FreeType Project, including all source code, binaries and

documentation, unless otherwise stated in the file in its

original, unmodified form as distributed in the original archive.

If you are unsure whether or not a particular file is covered by

this license, you must contact us to verify this.

The FreeType Project is copyright (C) 1996-2000 by David Turner,

Robert Wilhelm, and Werner Lemberg. All rights reserved except as

specified below.

THE FREETYPE PROJECT IS PROVIDED 'AS IS' WITHOUT WARRANTY OF ANY

KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO,

WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR

PURPOSE. IN NO EVENT WILL ANY OF THE AUTHORS OR COPYRIGHT HOLDERS

BE LIABLE FOR ANY DAMAGES CAUSED BY THE USE OR THE INABILITY TO

USE, OF THE FREETYPE PROJECT.

This license grants a worldwide, royalty-free, perpetual and irrevocable right and license to use, execute, perform, compile, display, copy, create derivative works of, distribute and sublicense the FreeType Project (in both source and object code forms) and derivative works thereof for any purpose; and to authorize others to exercise some or all of the rights granted herein, subject to the following conditions:

- o Redistribution of source code must retain this license file ('FTL.TXT') unaltered; any additions, deletions or changes to the original files must be clearly indicated in accompanying documentation. The copyright notices of the unaltered, original files must be preserved in all copies of source files.

- o Redistribution in binary form must provide a disclaimer that states that the software is based in part of the work of the FreeType Team, in the distribution documentation. We also encourage you to put an URL to the FreeType web page in your documentation, though this isn't mandatory.

These conditions apply to any software derived from or based on the FreeType Project, not just the unmodified files. If you use our work, you must acknowledge us. However, no fee need be paid to us.

Neither the FreeType authors and contributors

nor you shall use the name of the other for commercial, advertising, or promotional purposes without specific prior written permission.

We suggest, but do not require, that you use one or more of the following phrases to refer to this software in your documentation or advertising materials: 'FreeType Project', 'FreeType Engine', 'FreeType library', or 'FreeType Distribution'.

As you have not signed this license, you are not required to accept it. However, as the FreeType Project is copyrighted material, only this license, or another one contracted with the authors, grants you the right to use, distribute, and modify it. Therefore, by using, distributing, or modifying the FreeType Project, you indicate that you understand and accept all the terms of this license.

There are two mailing lists related to FreeType:

- o freetype@nongnu.org

Discusses general use and applications of FreeType, as well as future and wanted additions to the library and distribution.

If you are looking for support, start in this list if you

haven't found anything to help you in the documentation.

- o freetype-devel@nongnu.org

Discusses bugs, as well as engine internals, design issues, specific licenses, porting, etc.

MOZILLA PUBLIC
LICENSE

Version 1.1

1.0.1. "Commercial Use" means distribution or
otherwise making the
Covered Code available to a third party.

1.1. "Contributor" means each entity that creates
or contributes to
the creation of Modifications.

1.2. "Contributor Version" means the
combination of the Original
Code, prior Modifications used by a Contributor,
and the Modifications
made by that particular Contributor.

1.3. "Covered Code" means the Original Code or
Modifications or the
combination of the Original Code and
Modifications, in each case
including portions thereof.

1.4. "Electronic Distribution Mechanism" means
a mechanism generally
accepted in the software development
community for the electronic
transfer of data.

1.5. "Executable" means Covered Code in any
form other than Source
Code.

1.6. "Initial Developer" means the individual or
entity identified

as the Initial Developer in the Source Code
notice required by Exhibit

A.

1.7. "Larger Work" means a work which
combines Covered Code or

portions thereof with code not governed by the
terms of this License.

1.8. "License" means this document.

1.8.1. "Licensable" means having the right to
grant, to the maximum

extent possible, whether at the time of the
initial grant or

subsequently acquired, any and all of the rights
conveyed herein.

1.9. "Modifications" means any addition to or
deletion from the

substance or structure of either the Original
Code or any previous

Modifications. When Covered Code is released
as a series of files, a

Modification is:

A. Any addition to or deletion from the
contents of a file

containing Original Code or previous
Modifications.

B. Any new file that contains any part of
the Original Code or
previous Modifications.

1.10. "Original Code" means Source Code of
computer software code

which is described in the Source Code notice
required by Exhibit A as

Original Code, and which, at the time of its
release under this

License is not already Covered Code governed
by this License.

1.10.1. "Patent Claims" means any patent

claim(s), now owned or

hereafter acquired, including without limitation, method, process,

and apparatus claims, in any patent Licensable by grantor.

1.11. "Source Code" means the preferred form of the Covered Code for

making modifications to it, including all modules it contains, plus

any associated interface definition files, scripts used to control

compilation and installation of an Executable, or source code

differential comparisons against either the Original Code or another

well known, available Covered Code of the Contributor's choice. The

Source Code can be in a compressed or archival form, provided the

appropriate decompression or de-archiving software is widely available

for no charge.

1.12. "You" (or "Your") means an individual or a legal entity

exercising rights under, and complying with all of the terms of, this

License or a future version of this License issued under Section 6.1.

For legal entities, "You" includes any entity which controls, is

controlled by, or is under common control with You. For purposes of

this definition, "control" means (a) the power, direct or indirect,

to cause the direction or management of such entity, whether by

contract or otherwise, or (b) ownership of more than fifty percent

(50%) of the outstanding shares or beneficial ownership of such

entity.

2.1. The Initial Developer Grant.

The Initial Developer hereby grants You a world-wide, royalty-free,

non-exclusive license, subject to third party

intellectual property

claims:

(a) under intellectual property rights (other than patent or

trademark) Licensable by Initial Developer to use, reproduce,

modify, display, perform, sublicense and distribute the Original

Code (or portions thereof) with or without Modifications, and/or

as part of a Larger Work; and

(b) under Patents Claims infringed by the making, using or

selling of Original Code, to make, have made, use, practice,

sell, and offer for sale, and/or otherwise dispose of the

Original Code (or portions thereof).

(c) the licenses granted in this Section 2.1(a) and (b) are

effective on the date Initial Developer first distributes

Original Code under the terms of this License.

(d) Notwithstanding Section 2.1(b) above, no patent license is

granted: 1) for code that You delete from the Original Code; 2)

separate from the Original Code; or 3) for infringements caused

by: i) the modification of the Original Code or ii) the

combination of the Original Code with other software or devices.

2.2. Contributor Grant.

Subject to third party intellectual property claims, each Contributor

hereby grants You a world-wide, royalty-free, non-exclusive license

(a) under intellectual property rights (other than patent or

trademark) Licensable by Contributor, to

use, reproduce, modify,

display, perform, sublicense and distribute the Modifications

created by such Contributor (or portions thereof) either on an

unmodified basis, with other Modifications, as Covered Code

and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using, or

selling of Modifications made by that Contributor either alone

and/or in combination with its Contributor Version (or portions

of such combination), to make, use, sell, offer for sale, have

made, and/or otherwise dispose of: 1) Modifications made by that

Contributor (or portions thereof); and 2) the combination of

Modifications made by that Contributor with its Contributor

Version (or portions of such combination).

(c) the licenses granted in Sections 2.2(a) and 2.2(b) are

effective on the date Contributor first makes Commercial Use of

the Covered Code.

(d) Notwithstanding Section 2.2(b) above, no patent license is

granted: 1) for any code that Contributor has deleted from the

Contributor Version; 2) separate from the Contributor Version;

3) for infringements caused by: i) third party modifications of

Contributor Version or ii) the combination of Modifications made

by that Contributor with other software (except as part of the

Contributor Version) or other devices; or 4) under Patent Claims

infringed by Covered Code in the absence of Modifications made by

that Contributor.

3.1. Application of License.

The Modifications which You create or to which You contribute are

governed by the terms of this License, including without limitation

Section 2.2. The Source Code version of Covered Code may be

distributed only under the terms of this License or a future version

of this License released under Section 6.1, and You must include a

copy of this License with every copy of the Source Code You

distribute. You may not offer or impose any terms on any Source Code

version that alters or restricts the applicable version of this

License or the recipients' rights hereunder. However, You may include

an additional document offering the additional rights described in

Section 3.5.

3.2. Availability of Source Code.

Any Modification which You create or to which You contribute must be

made available in Source Code form under the terms of this License

either on the same media as an Executable version or via an accepted

Electronic Distribution Mechanism to anyone to whom you made an

Executable version available; and if made available via Electronic

Distribution Mechanism, must remain available for at least twelve (12)

months after the date it initially became available, or at least six

(6) months after a subsequent version of that particular Modification

has been made available to such recipients. You are responsible for

ensuring that the Source Code version remains available even if the

Electronic Distribution Mechanism is maintained by a third party.

3.3. Description of Modifications.

You must cause all Covered Code to which You contribute to contain a

file documenting the changes You made to create that Covered Code and

the date of any change. You must include a prominent statement that

the Modification is derived, directly or indirectly, from Original

Code provided by the Initial Developer and including the name of the

Initial Developer in (a) the Source Code, and (b) in any notice in an

Executable version or related documentation in which You describe the

origin or ownership of the Covered Code.

3.4. Intellectual Property Matters

(a) Third Party Claims.

If Contributor has knowledge that a license under a third party's

intellectual property rights is required to exercise the rights

granted by such Contributor under Sections 2.1 or 2.2,

Contributor must include a text file with the Source Code

distribution titled "LEGAL" which describes the claim and the

party making the claim in sufficient detail that a recipient will

know whom to contact. If Contributor obtains such knowledge after

the Modification is made available as described in Section 3.2,

Contributor shall promptly modify the LEGAL file in all copies

Contributor makes available thereafter and shall take other steps

(such as notifying appropriate mailing lists or newsgroups)

reasonably calculated to inform those who received the Covered

Code that new knowledge has been obtained.

(b) Contributor APIs.

If Contributor's Modifications include an application programming

interface and Contributor has knowledge of patent licenses which

are reasonably necessary to implement that API, Contributor must

also include this information in the LEGAL file.

(c) Representations.

Contributor represents that, except as disclosed pursuant to

Section 3.4(a) above, Contributor believes that Contributor's

Modifications are Contributor's original creation(s) and/or

Contributor has sufficient rights to grant the rights conveyed by

this License.

3.5. Required Notices.

You must duplicate the notice in Exhibit A in each file of the Source

Code. If it is not possible to put such notice in a particular Source

Code file due to its structure, then You must include such notice in a

location (such as a relevant directory) where a user would be likely

to look for such a notice. If You created one or more Modification(s)

You may add your name as a Contributor to the notice described in

Exhibit A. You must also duplicate this License in any documentation

for the Source Code where You describe recipients' rights or ownership

rights relating to Covered Code. You may choose to offer, and to

charge a fee for, warranty, support, indemnity or liability

obligations to one or more recipients of Covered Code. However, You

may do so only on Your own behalf, and not on behalf of the Initial

Developer or any Contributor. You must make it absolutely clear than

any such warranty, support, indemnity or

liability obligation is

offered by You alone, and You hereby agree to indemnify the Initial

Developer and every Contributor for any liability incurred by the

Initial Developer or such Contributor as a result of warranty,

support, indemnity or liability terms You offer.

3.6. Distribution of Executable Versions.

You may distribute Covered Code in Executable form only if the

requirements of Section 3.1–3.5 have been met for that Covered Code,

and if You include a notice stating that the Source Code version of

the Covered Code is available under the terms of this License,

including a description of how and where You have fulfilled the

obligations of Section 3.2. The notice must be conspicuously included

in any notice in an Executable version, related documentation or

collateral in which You describe recipients' rights relating to the

Covered Code. You may distribute the Executable version of Covered

Code or ownership rights under a license of Your choice, which may

contain terms different from this License, provided that You are in

compliance with the terms of this License and that the license for the

Executable version does not attempt to limit or alter the recipient's

rights in the Source Code version from the rights set forth in this

License. If You distribute the Executable version under a different

license You must make it absolutely clear that any terms which differ

from this License are offered by You alone, not by the Initial

Developer or any Contributor. You hereby agree to indemnify the

Initial Developer and every Contributor for any liability incurred by

the Initial Developer or such Contributor as a result of any such

terms You offer.

3.7. Larger Works.

You may create a Larger Work by combining Covered Code with other code

not governed by the terms of this License and distribute the Larger

Work as a single product. In such a case, You must make sure the

requirements of this License are fulfilled for the Covered Code.

If it is impossible for You to comply with any of the terms of this

License with respect to some or all of the Covered Code due to

statute, judicial order, or regulation then You must: (a) comply with

the terms of this License to the maximum extent possible; and (b)

describe the limitations and the code they affect. Such description

must be included in the LEGAL file described in Section 3.4 and must

be included with all distributions of the Source Code. Except to the

extent prohibited by statute or regulation, such description must be

sufficiently detailed for a recipient of ordinary skill to be able to

understand it.

This License applies to code to which the Initial Developer has

attached the notice in Exhibit A and to related Covered Code.

6.1. New Versions.

Netscape Communications Corporation ("Netscape") may publish revised

and/or new versions of the License from time to time. Each version

will be given a distinguishing version number.

6.2. Effect of New Versions.

Once Covered Code has been published under a particular version of the

License, You may always continue to use it under the terms of that

version. You may also choose to use such Covered Code under the terms

of any subsequent version of the License published by Netscape. No one

other than Netscape has the right to modify the terms applicable to

Covered Code created under this License.

6.3. Derivative Works.

If You create or use a modified version of this License (which you may

only do in order to apply it to code which is not already Covered Code

governed by this License), You must (a) rename Your license so that

the phrases "Mozilla", "MOZILLAPL", "MOZPL", "Netscape",

"MPL", "NPL" or any confusingly similar phrase do not appear in your

license (except to note that your license differs from this License)

and (b) otherwise make it clear that Your version of the license

contains terms which differ from the Mozilla Public License and

Netscape Public License. (Filling in the name of the Initial

Developer, Original Code or Contributor in the notice described in

Exhibit A shall not of themselves be deemed to be modifications of

this License.)

COVERED CODE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS,

WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING,

WITHOUT LIMITATION, WARRANTIES THAT THE COVERED CODE IS FREE OF

DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT.

THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED CODE

IS WITH YOU. SHOULD ANY COVERED CODE

PROVE DEFECTIVE IN ANY RESPECT,

YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE

COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER

OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF

ANY COVERED CODE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

8.1. This License and the rights granted hereunder will terminate

automatically if You fail to comply with terms herein and fail to cure

such breach within 30 days of becoming aware of the breach. All

sublicenses to the Covered Code which are properly granted shall

survive any termination of this License. Provisions which, by their

nature, must remain in effect beyond the termination of this License

shall survive.

8.2. If You initiate litigation by asserting a patent infringement

claim (excluding declaratory judgment actions) against Initial Developer

or a Contributor (the Initial Developer or Contributor against whom

You file such action is referred to as "Participant") alleging that:

(a) such Participant's Contributor Version directly or indirectly

infringes any patent, then any and all rights granted by such

Participant to You under Sections 2.1 and/or 2.2 of this License

shall, upon 60 days notice from Participant terminate prospectively,

unless if within 60 days after receipt of notice You either: (i)

agree in writing to pay Participant a mutually agreeable reasonable

royalty for Your past and future use of Modifications made by such

Participant, or (ii) withdraw Your litigation claim

with respect to

the Contributor Version against such Participant. If within 60 days

of notice, a reasonable royalty and payment arrangement are not

mutually agreed upon in writing by the parties or the litigation claim

is not withdrawn, the rights granted by Participant to You under

Sections 2.1 and/or 2.2 automatically terminate at the expiration of

the 60 day notice period specified above.

(b) any software, hardware, or device, other than such Participant's

Contributor Version, directly or indirectly infringes any patent, then

any rights granted to You by such Participant under Sections 2.1(b)

and 2.2(b) are revoked effective as of the date You first made, used,

sold, distributed, or had made, Modifications made by that

Participant.

8.3. If You assert a patent infringement claim against Participant

alleging that such Participant's Contributor Version directly or

indirectly infringes any patent where such claim is resolved (such as

by license or settlement) prior to the initiation of patent

infringement litigation, then the reasonable value of the licenses

granted by such Participant under Sections 2.1 or 2.2 shall be taken

into account in determining the amount or value of any payment or

license.

8.4. In the event of termination under Sections 8.1 or 8.2 above,

all end user license agreements (excluding distributors and resellers)

which have been validly granted by You or any distributor hereunder

prior to termination shall survive termination.

UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT

(INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL

DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED CODE,

OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR

ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY

CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL,

WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER

COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN

INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF

LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY

RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW

PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE

EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO

THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU.

The Covered Code is a "commercial item," as that term is defined in

48 C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer

software" and "commercial computer software documentation," as such

terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48

C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995),

all U.S. Government End Users acquire Covered Code with only those

rights set forth herein.

This License represents the complete agreement concerning subject

matter hereof. If any provision of this License is held to be

unenforceable, such provision shall be reformed only to the extent

necessary to make it enforceable. This License shall be governed by

California law provisions (except to the extent applicable law, if

any, provides otherwise), excluding its conflict-of-law provisions.

With respect to disputes in which at least one party is a citizen of,

or an entity chartered or registered to do business in the United

States of America, any litigation relating to this License shall be

subject to the jurisdiction of the Federal Courts of the Northern

District of California, with venue lying in Santa Clara County,

California, with the losing party responsible for costs, including

without limitation, court costs and reasonable attorneys' fees and

expenses. The application of the United Nations Convention on

Contracts for the International Sale of Goods is expressly excluded.

Any law or regulation which provides that the language of a contract

shall be construed against the drafter shall not apply to this

License.

As between Initial Developer and the Contributors, each party is

responsible for claims and damages arising, directly or indirectly,

out of its utilization of rights under this License and You agree to

work with Initial Developer and Contributors to distribute such

responsibility on an equitable basis. Nothing herein is intended or

shall be deemed to constitute any admission of liability.

Initial Developer may designate portions of the Covered Code as

"Multiple-Licensed". "Multiple-Licensed"

means that the Initial

Developer permits you to utilize portions of the Covered Code under

Your choice of the NPL or the alternative licenses, if any, specified

by the Initial Developer in the file described in Exhibit A.

Fejlfinding

Tænd

TV'et tænder ikke

- Tag strømkablet ud af stikkontakten. Vent et minut, og sæt det derefter i igen.
- Sørg for, at strømledningen sidder ordentligt i stikket.

Knirkende lyd ved tænd og sluk

Når du tænder, slukker eller sætter TV'et på standby, kan du høre en knirkende lyd fra TV-kabinetet. Den knirkende lyd forårsages af normal udvidelse og sammentrækning af TV'et, når det køler af og varmer op. Dette påvirker ikke ydeevnen.

TV'et vender tilbage til standby, efter det har vist Philips-opstartsskærbilledet

Når TV'et er på standby, vises et Philips-opstartsskærbillede, og TV'et vender tilbage til standbytilstand. Dette er normalt. Når TV'et har været frakoblet strømmen og tilsluttes til strømforsyningen igen, vises opstartsskærbilledet, næste gang TV'et startes op.

Standby-lyset bliver ved med at blinke

Tag strømkablet ud af stikkontakten. Vent i 5 minutter, før du tilslutter strømkablet igen. Hvis TV'et bliver ved med at blinke, kontaktes Philips TV Consumer Care.

Billede

Intet billede/forvrænget billede

- Sørg for, at antennen er tilsluttet korrekt til TV'et.
- Sørg for, at den korrekte enhed er valgt som visningskilde.
- Sørg for, at den eksterne enhed eller kilde er korrekt tilsluttet.

Lyd, men intet billede

- Sørg for, at billedindstillingerne er korrekte.

Dårlig antennemodtagelse

- Sørg for, at antennen er tilsluttet korrekt til TV'et.
- Højttalere, ikke-jordede lydenheder, neonlys, høje bygninger og andre store genstande kan have indvirkning på modtagekvaliteten. Prøv om muligt at forbedre modtagekvaliteten ved at ændre antenneretningen eller flytte enheder væk fra TV'et.
- Hvis modtagelsen kun er dårlig for en enkelt kanal, kan du forsøge at finindstille den pågældende kanal.

Dårligt billede fra en enhed

- Sørg for, at enheden er korrekt tilsluttet.

- Sørg for, at billedindstillingerne er korrekte.

Billedet passer ikke til skærmen

Skift til et andet billedformat.

Billedpositionen er ikke korrekt

Billedsignaler fra nogle enheder passer ikke helt korrekt til skærmen. Kontroller den tilsluttede enheds signaludgang.

Computerbilledet er ikke stabilt

Sørg for, at pc'en kører med den understøttede opløsning og opdateringshastighed.

Lyd

Ingen lyd eller dårlig lydkvalitet

Hvis der ikke registreres noget lydsignal, deaktiverer TV'et automatisk lydengivelsen – dette indikerer ikke nogen funktionsfejl.

- Kontroller, at lydindstillingerne er indstillet korrekt.
- Sørg for, at alle kabler er korrekt tilsluttet.
- Sørg for, at lyden ikke er slået fra eller indstillet til nul.
- Sørg for, at TV-lydudgangen er sluttet til lydindgangen på den hjemmebiografenheten. Der bør komme lyd fra HTS-højttalerne.
- Nogle enheder kræver muligvis, at du aktiverer HDMI-lydudgangen manuelt. Hvis HDMI-lyden allerede er aktiveret, men du stadig ikke kan høre lyden, så prøv at ændre enhedens digitale lydformat til PCM (Pulse Code Modulation). Se anvisningerne i din enheds medfølgende dokumentation.

Tilslutninger

HDMI

- Vær opmærksom på, at understøttelse af HDCP (High-bandwidth Digital Content Protection) kan forsinke TV'ets gengivelse af indhold fra en HDMI-enhed.
- Hvis TV'et ikke genkender HDMI-enheden, og der ikke vises noget billede, skal du skifte kilde fra en enhed til en anden og tilbage igen.
- Hvis der forekommer periodiske lydforstyrrelser, skal du sørge for at udgangsindstillingerne fra HDMI-enheden er korrekte.
- Hvis du benytter en HDMI-til-DVI-adapter eller et HDMI-til-DVI-kabel, skal du sørge for, at der er tilsluttet et ekstra lydkabel til AUDIO IN (kun mini-jackstik), hvis dette er tilgængeligt.

EasyLink virker ikke

- Sørg for, at dine HDMI-enheder er HDMI-CEC-kompatible. EasyLink-funktioner virker kun på enheder, der er HDMI-CEC-kompatible.

Der vises intet lydstyrkeikon

- Dette er normalt, når en HDMI-CEC-lydenhed er tilsluttet.

Fotos, videoer og musik fra en USB-enhed vises ikke

- Sørg for, at USB-lagringsenheden er indstillet til kompatibel med masselagringsenhed som beskrevet i dokumentationen til lagringsenheden.
- Sørg for, at USB-lagringsenheden er kompatibel med TV'et.
- Sørg for, at lyd- og billedfilformater understøttes af TV'et.

Hakkende afspilning af USB-filer

- USB-enheds overførselsydeevne begrænser muligvis overførselshastigheden til TV'et, hvilket fører til dårlig afspilning.

Wi-Fi, internet og Bluetooth

Wi-Fi-netværk blev ikke fundet eller er forvrænget.

- Mikrobølgeovne, DECT-telefoner eller andre Wi-Fi 802.11b/g/n/ac-enheder kan forstyrre et trådløst netværk.
- Kontroller, at firewalls i dit netværk tillader adgang for den trådløse TV-forbindelse.
- Hvis det trådløse netværk i dit hjem ikke fungerer korrekt, kan du prøve med en kablet netværksinstallation.

Internettet fungerer ikke

- Hvis forbindelsen til routeren er i orden, skal du kontrollere routerens forbindelse til internettet.

PC'en og internetforbindelsen er langsom

- Se brugervejledningen til den trådløse router for at få oplysninger om indendørs rækkevidde, overførselshastighed og andre faktorer, der påvirker signalkvaliteten.
- Brug en internetforbindelse med høj hastighed (bredbånd) til din router.

DHCP

- Hvis forbindelsen mislykkes, kan du kontrollere routerens DHCP-indstilling (Dynamic Host Configuration). DHCP skal være sat på Til.

Bluetooth-forbindelsen blev afbrudt

- Steder med en stor mængde trådløs aktivitet - lejligheder med mange trådløse routere - kan hæmme den trådløse forbindelse.

Netværk

Wi-Fi-netværk blev ikke fundet eller er forvrænget.

- Mikrobølgeovne, DECT-telefoner eller andre Wi-Fi 802.11b/g/n/ac-enheder kan forstyrre et trådløst netværk.
- Kontroller, at firewalls i dit netværk tillader adgang for den trådløse TV-forbindelse.

Support og reparation

Du kan få support eller få foretaget reparation ved at ringe til Kundeservice i dit land. Vores serviceteknikere sørger for en reparation, hvis det er nødvendigt.

Find telefonnummeret i den trykte dokumentation, der fulgte med TV'et.

Eller gå til vores websted www.philips.com/support, og vælg om nødvendigt dit land.

TV'ets modelnummer og serienummer

Du bliver muligvis bedt om at oplyse TV'ets modelnummer og serienummer. Find disse numre på pakkedelen eller på typeetiketten på bagsiden eller i bunden af TV'et.

⚠ Advarsel

Prøv ikke at reparere TV'et selv. Dette kan medføre alvorlig personskaade, uoprettelige skader på TV'et og gøre garantien ugyldig.

Sikkerhed

ESD-deklaration

Skærmen flimrer under testen, men billedet gendannes automatisk efter testen. Dette tilladte tab af ydeevne er specificeret af producenten, og dette fænomen vil blive angivet tydeligt i brugervejledningen for at undgå misforståelser.

Vigtigt!

Sørg for at læse og forstå alle sikkerhedsinstruktioner, før du bruger TV'et. Hvis der opstår skader, fordi instruktionerne ikke følges, bortfalder garantien.

Dette udstyr må ikke ændres uden producentens godkendelse.

Risiko for elektrisk stød eller brand

- Udsæt ikke TV'et for regn eller vand. Placer aldrig væskeholdige beholdere, såsom vaser, i nærheden af TV'et.
- Hvis der spildes væsker på eller ned i TV'et, skal det straks tages ud af stikkontakten. Kontakt Philips' kundeservice for at få TV'et undersøgt før brug.
- Udsæt aldrig TV'et for stærk varme. Anbring dem aldrig i nærheden af brændende stearinlys, åben ild eller andre varmekilder, herunder direkte sollys.
- Indsæt aldrig genstande i ventilationsristene eller andre åbninger på TV'et.
- Stil ikke tunge genstande oven på netledningen.
- Undgå belastning af strømstik. Løse strømstik kan forårsage lysbuer eller brand. Sørg for ikke at belaste netledningen, når du drejer TV-skærmen.
- Du kan tage strømmen fra TV'et ved at frakoble TV'ets strømstik. Ved frakobling af strømmen må du kun trække i strømstikket, ikke i ledningen. Sørg for, at du til enhver tid har nem adgang til strømstik, strømkabel og stikkontakt.

Risiko for personskaade eller beskadigelse af TV'et

- Hvis du vil vægmontere TV'et, skal du sikre dig, at vægmonteringen er i stand til at bære TV'et. TP Vision er ikke ansvarlig for ukorrekte vægmonteringer, der medfører ulykker, kvæstelse eller skader.
- Dele af dette produkt er fremstillet af glas. Vær forsigtig for at undgå personskaade og beskadigelse af produktet.

Risiko for beskadigelse af TV'et!

Før du slutter TV'et til strømmen, skal du sikre dig, at spændingen svarer til den værdi, der er trykt bagpå TV'et. Tilslut aldrig TV'et til stikkontakten, hvis spændingen er forskellig fra denne værdi.

Pas på børn i nærheden

Følg disse forholdsregler for at undgå, at TV'et vælter og forårsager skade på børn:

- Anbring ikke TV'et på en overflade, der er dækket af tæpper eller andet materiale, der kan hives væk.
- Undgå, at dele af TV'et hænger ud over kanter eller overflader.
- Anbring aldrig TV'et højt oppe på møbler, f.eks. en reol, uden at fastgøre både møblet og TV'et til væggen eller et passende støttepunkt.
- Fortæl børnene, at de ikke må klatre op på møbler for at kunne nå TV'et.

Risiko for overophedning

Installer ikke TV'et på et trangt sted. Sørg altid for, at der er mindst 10 cm rundt om TV'et til ventilation. Sørg for, at gardiner eller andre genstande ikke dækker ventilationsristene på TV'et.

Tordenvejr

Afbryd strømmen til TV'et og antennen før tordenvejr.

Rør aldrig ved nogen dele af TV'et, strømkablet eller antennekablet under tordenvejr.

Risiko for høreskade

Undgå at bruge øretelefoner eller hovedtelefoner ved høj lydstyrke eller i længere perioder.

Lave temperaturer

Hvis TV'et transporteres ved temperaturer under 5 °C, skal du pakke TV'et ud og vente, indtil TV'et når stuetemperatur, før du slutter det til stikkontakten.

Fugtighed

I sjældne tilfælde, afhængigt af temperatur og luftfugtighed, kan der forekomme en smule kondensering på den indvendige side af TV-glasset (på nogle modeller). Du kan undgå dette ved ikke at udsætte TV'et for direkte sollys, varme eller ekstrem luftfugtighed. Hvis der opstår kondensering, forsvinder den af sig selv, når TV'et har været tændt i et par timer.

Kondensfugten skader ikke TV'et eller forårsager fejlfunktion.

14.2

Vedligeholdelse af skærmen

- Du må aldrig røre ved, skubbe til, gnide på eller slå til skærmen med nogen genstand.
- Tryk på den lille rengøringsknap bag på TV'et. Du skal trykke på knappen i 3 sekunder for at deaktivere TV'ets forreste betjeningsknapper før rengøring.

- Rengør TV'et og rammen med en blød, fugtig klud, og tør forsigtigt. Brug aldrig stoffer som sprit, kemikalier eller rengøringsmidler på TV'et.
- For at undgå deformationer og falmede farver skal du tørre vanddråber af så hurtigt som muligt.
- Undgå så vidt muligt statiske billeder. Statiske billeder er billeder, der vises på skærmen i lang tid ad gangen. Statiske billeder omfatter skærmmenuer, sorte bjælker, tidsvisninger m.v. Hvis du er nødt til at benytte statiske billeder, kan du reducere skærmens kontrast og lysstyrke for at forebygge skader på skærmen.

14.3

Erklæring om strålingseksponering

Dette udstyr overholder de CE-grænser for strålingseksponering, der er fastlagt for et ukontrolleret miljø. Dette udstyr skal installeres og betjenes med en minimumsafstand på 20 cm mellem køleren og kabinettet.

Frekvens, tilstand og den maksimale transmitterede effekt i EU er angivet nedenfor:

-2400-2483,5 MHz: < 20 dBm (EIRP)

-5150-5250 MHz: < 23 dBm (EIRP)

-5250-5350 MHz: < 23 dBm (EIRP)

-5470-5725 MHz: < 27 dBm (EIRP)

-5725-5825 MHz: < 13,98 dBm (EIRP)

Brugsvilkår – TV

2019 © TP Vision Europe B.V. Alle rettigheder forbeholdes.

Dette produkt er sendt på markedet af TP Vision Europe B.V. eller et af dets associerede selskaber, i det følgende benævnt TP Vision, som er producenten af produktet. TP Vision er garantigiver i forhold til TV'et, som er pakket sammen med denne brochure. Philips og skjoldlogoet fra Philips er registrerede varemærker tilhørende Koninklijke Philips N.V.

Specifikationerne kan ændres uden varsel. Varemærkerne tilhører Koninklijke Philips N.V. eller de respektive ejere. TP Vision forbeholder sig retten til at ændre produkter til enhver tid uden at være forpligtet til at justere tidligere tilbehør herefter.

Det skriftlige materiale, der fulgte med TV'et, og den manual, der findes i TV'ets hukommelse eller kan downloades fra Philips-webstedet www.philips.com/support, anses for at være passende til den påtænkte brug af systemet.

Materialet i denne brugervejledning anses for at være passende til den påtænkte brug af systemet. Hvis produktet, eller dets enkeltmoduler eller procedurer, anvendes til andre formål end de heri angivne, skal der opnås godkendelse af deres gyldighed og egnethed. TP Vision garanterer, at selve materialet ikke er i strid med US-patenter. Ingen yderligere garanti er udtrykt eller underforstået. TP Vision kan hverken drages til ansvar for fejl i indholdet af dette dokument eller for problemer opstået på baggrund af indholdet i dette dokument. Fejl, der rapporteres til Philips, vil snarest muligt blive tilpasset og offentliggjort på Philips-supportwebstedet.

Garantivilkår – Risiko for personskade, beskadigelse af TV'et eller bortfald af garantien!

Forsøg aldrig selv at reparere TV'et. Brug kun TV'et og dets tilbehør som tilsigtet af producenten.

Advarselsskiltet på bagsiden af TV'et angiver risiko for elektrisk stød. Fjern aldrig TV-inddækningen. Kontakt altid Philips TV-kundeservice i forbindelse med service eller reparationer. Find telefonnummeret i den trykte dokumentation, der fulgte med TV'et. Eller gå til vores websted www.philips.com/support, og vælg dit land, hvis det er nødvendigt. Enhver aktivitet, der udtrykkeligt er forbudt i denne betjeningsvejledning, eller tilpasninger og monteringsvejledninger, der ikke anbefales eller er godkendt i henhold til denne

brugervejledning, gør garantien ugyldig.

Pixelegenskaber

Dette LCD/LED-produkt har et højt antal farvepixels. Selv om det har en pixeleffektivitet på 99,999 % eller mere, kan der forekomme sorte prikker eller klare lyspunkter (røde, grønne eller blå) på skærmen. Dette er en konstruktionsmæssig egenskab ved skærmen (ligger inden for normale industristandarder) og er ikke en fejl.

CE-overensstemmelseserklæring

Hermed erklærer TP Vision Europe B.V., at dette TV er i overensstemmelse med de væsentlige krav og andre relevante bestemmelser i direktiverne 2014/53/EU (RED), 2009/125/EF (miljøvenligt design) og 2011/65/EF (RoHS).

Overensstemmelse med EMF-standarderne

TP Vision producerer og sælger mange forbrugerrelaterede produkter, som for ethvert andet elektronisk apparat generelt er i stand til at udsende og modtage elektromagnetiske signaler. Et af TP Visions overordnede forretningsprincipper er at tage alle nødvendige sundheds- og sikkerhedsforanstaltninger i forbindelse med vores produkter, så de på produktionstidspunktet overholder alle gældende lovkrav og ligger langt inden for de til enhver tid gældende standarder for elektromagnetiske felter (EMF).

TP Vision har forpligtet sig til at udvikle, producere og sende produkter på markedet, der ikke har sundhedsskadelige virkninger. TP Vision bekræfter, at dets produkter, så længe de håndteres korrekt i overensstemmelse med deres tiltænkte formål, kan anvendes sikkert i henhold til den videnskabelige dokumentation, der foreligger i dag. TP Vision spiller en aktiv rolle i udviklingen af internationale EMF- og sikkerhedsstandarder, der gør TP Vision i stand til at forudse yderligere udvikling inden for standardisering, som kan integreres i deres produkter på et tidligt stadie.
