Power

- Mains power: 100 - 240V, 50/60Hz
- Power consumption: 70 W
- Ambient temperature: 5 °C to 40 °C
- Standby power consumption: < 2 W

Dimensions

- Set dimensions (W x H x D): 497 x 428 x 80 mm
- Product weight: 7.5 kg
- Box dimensions (W x H x D): 548 x 528 x 185 mm
- Weight incl. Packaging: 10.4 kg
- Product weight (+stand): 8.55 kg
- Set dimensions with stand (W x H x D): 497 x 472 x 218 mm
- VESA wall mount compatible: 100 x 100 mm

Accessories

- Included accessories: Power cord, Remote Control, Table top stand, User Manual, Batteries for remote control, Quick start guide
- Optional accessories: Set up Remote RC2573GR, SmartLoader 22AV1135

Highlights

Switch On Channel Programming

Perfect for in-house advertising or information channels as it allows to show a predefined channel when the TV is turned on.

Digital Crystal Clear

Digital Crystal Clear is a processing technology that digitally adjusts and enhances picture quality by optimizing contrast, color and sharpness levels, resulting in more vivid cinema-like images.

Front/Side controls locking

By selecting in the set up menu the option to lock or unlock access to the front and side controls of the TV, unauthorized access to the TV menu is prevented saving the hotelier time and effort of re-installing.

Volume limitation

This feature predefines the volume range with which the TV set is allowed to operate, preventing excessive volume adjustments and avoiding disturbance of next door guests.

Welcome message

A welcome greeting is displayed each time the TV set is switched on.

VESA mounting

A unified industry standard for wall/ceiling mounting equipment set by the Video Electronics Standards Association. This offers a great flexibility in mounting possibilities and a wide choice of mounting brackets.

Eco-friendly Design

Philips TVs are designed and produced according to our EcoDesign principles aimed at minimizing overall environmental impact, through lower power consumption, removal of hazardous substances, lower weight, more efficient packaging and better recyclability.

Flame retardant housing

Philips TVs have a special housing of flame retardant material. Independent tests carried out by emergency fire services have shown that whereas TVs can sometimes intensify fires caused by external sources, Philips TVs will not contribute to the fire.
