# TV-rundtur

---

## 1.1

## Professionel tilstand

---

### Hvad du kan gøre

Når Professionel tilstand er aktiveret, har du adgang til et stort antal ekspertindstillinger, som giver avanceret betjening af TV'ets tilstand eller tilføjer yderligere funktioner.

Denne tilstand er beregnet til installationer af TV'er på steder som hoteller, krydstogtskibe, stadioner eller andre former for professionelle miljøer, hvor en sådan kontrol er påkrævet.

Hvis du bruger TV'et derhjemme, anbefales det at bruge det med Professionel tilstand deaktiveret.

Se Professionel-installationsvejledning for yderligere oplysninger.

# Opsætning

## 2.1

### Læs om sikkerhed

Læs sikkerhedsanvisningerne, før du anvender TV'et.

## 2.2

### Vægmontering

Du finder anvisningerne til montering af TV-standeren i den medfølgende Lynhåndbog. Har du mistet denne vejledning, kan du downloade den fra [www.philips.com](http://www.philips.com).

Brug produkttypenummeret på TV'et til at søge efter og downloade **Lynhåndbogen**.

TV'et er også forberedt til et VESA-kompatibelt vægbeslag (sælges separat).

Brug følgende VESA-kode ved køb af vægbeslaget. . .

- 50BFL2114  
VESA MIS-F 200x200, M6 (min.: 12 mm, maks.: 14 mm)
- 58BFL2114  
VESA MIS-F 300x200, M6 (min.: 18 mm, maks.: 22 mm)
- 65BFL2114  
VESA MIS-F 400x300, M6 (min.: 12 mm, maks.: 18 mm)
- 70BFL2114  
VESA MIS-F 400x200, M8 (min.: 18 mm, maks.: 23 mm)
- 75BFL2114  
VESA MIS-F 600x400, M8 (min.: 18 mm, maks.: 28 mm)

#### Forberedelse

Fjern først de to plastskruehætter fra gevindbøsningerne bag på TV'et (på 50" og 65").  
Kontroller, at metalskrueene til montering af TV'et på det VESA-kompatible beslag går ca. 10 mm ind i

gevindbøsningerne på TV'et.

#### Forsigtig

Vægmontering af TV'et kræver særlig ekspertise og bør kun udføres af kvalificerede fagfolk.  
Vægmonteringen til TV'et skal overholde sikkerhedskravene i forhold til TV'ets vægt. Læs også sikkerhedsforskrifterne, før du placerer TV'et.  
TP Vision Europe B.V. påtager sig intet ansvar for forkert montering eller montering, der resulterer i en ulykke eller personskaade.

## 2.3

### Tip om placering

- Placer TV'et et sted, hvor der ikke falder lys direkte på skærmen.
- Den ideelle synsafstand til TV'et er 3 gange skærmens diagonale længde. Når du sidder ned, bør dine øjne befinde sig ud for midten af skærmen.
- Hvis du vil vægmontere TV'et, skal det placeres højst 15 cm fra væggen.

#### Bemærk:

Undgå, at TV'et kommer i kontakt med støvproducerende kilder, som f.eks. ovne. Det anbefales at fjerne støv regelmæssigt for at undgå, at der kommer støv ind i TV'et.

## 2.4

### Strømkabel

- Sæt strømkablet i stikket **POWER** bag på TV'et.
- Kontroller, at strømkablet er sat korrekt i stikket.
- Kontroller, at stikket i stikkontakten hele tiden er tilgængeligt.
- Når du tager ledningen ud, skal du altid holde i stikket, aldrig i ledningen.

---

2.5

## Antennekabel

Tilslut antennestikket til Antennetilslutningen bag på TV'et, og kontrollér, at det sidder korrekt.

Du kan tilslutte din egen antenne eller et antennesignal fra en antenneforening. Brug et IEC koaksialt 75 Ohm RF-antennestik.

Brug denne antennetilslutning til DVB-T- og DVB-C-indgangssignaler.

# Fjernbetjening

3.2

## IR-sensor

TV'et kan modtage kommandoer fra en fjernbetjening, som bruger IR (infrarød) til at sende kommandoer. Hvis du bruger denne type fjernbetjening, skal du altid pege med fjernbetjeningen på den infrarøde sensor på forsiden af TV'et.

### Advarsel

Undgå at stille genstande foran TV'ets infrarøde sensor, da det kan blokere det infrarøde signal.

---

3.3

## Rengøring

Din fjernbetjening er behandlet med en belægning, der kan modstå ridser.

Rengør fjernbetjeningen med en blød, fugtig klud. Brug aldrig stoffer som sprit, kemikalier eller husholdningsprodukter på fjernbetjeningen.

# Tænd/sluk

## 4.1

### Tændt eller Standby

Kontroller, at TV'et er tilsluttet lysnettet. Tilslut det medfølgende strømkabel til AC-indgangsstikket på bagsiden af TV'et. Indikatorlampen i bunden af TV'et lyser.

#### Tænd

Tryk på  på fjernbetjeningen for at tænde for TV'et. Du kan også trykke på  /  Home. Du kan også trykke på den lille joystickknap nederst eller bag på TV'et for at tænde for TV'et, hvis du ikke kan finde fjernbetjeningen, eller dens batterier er løbet tør.

#### Skifte til standby

Du kan sætte TV'et på standby ved at trykke på  på fjernbetjeningen. Du kan også trykke på den lille joystickknap nederst eller bag på TV'et.

TV'et er stadig tilsluttet lysnettet i standbytilstand, men det bruger kun ganske lidt strøm.

Sluk helt for TV'et ved at tage strømsvikket ud. Når du tager strømsvikket ud, skal du altid trække i stikket, aldrig i ledningen. Sørg for, at du til enhver tid har nem adgang til strømsvik, strømkabel og stikkontakt.

## 4.2

### Knapper på TV

Hvis du har mistet fjernbetjeningen, eller dens batteri er fladt, kan du stadig betjene grundlæggende TV-funktioner.

Sådan åbner du grundmenuen...

- 1 - Når TV'et er tændt, skal du trykke på joystickknappen nederst eller bag på TV'et for at åbne standardmenuen.
- 2 - Tryk venstre eller højre for at vælge  Lydstyrke,  Kanal eller  Kilder.
- 3 - Tryk op eller ned for at regulere lydstyrken eller finde næste eller forrige kanal. Tryk op eller ned for at gennemgå listen over kilder, herunder valg af tuner.
- 4 - Menuen forsvinder automatisk.

Hvis du vil sætte TV'et på standby, skal du vælge  og trykke på joystick-tasten nederst eller bag på TV'et.

### Bortskaffelse

#### Bortskaffelse af udtjente produkter og batterier

Dit produkt er udviklet og fremstillet i materialer og komponenter af høj kvalitet, som kan genbruges.

Når et produkt er forsynet med dette symbol med en overkrydset affaldsspand på hjul, betyder det, at produktet er omfattet af EU-direktiv 2012/19/EU.

Forhør dig på den lokale genbrugsstation for elektriske og elektroniske produkter.

Dine gamle produkter skal bortskaffes i overensstemmelse med den lokale lovgivning og ikke sammen med almindeligt husholdningsaffald. Korrekt bortskaffelse af udtjente produkter er med til at forhindre negativ påvirkning af miljø og mennesker.

Dit produkt indeholder batterier, som er omfattet af EU-direktivet 2006/66/EC, og som ikke må bortskaffes sammen med almindeligt husholdningsaffald.

Undersøg lokale regulativer vedr. separat indsamling af batterier, eftersom korrekt bortskaffelse af batterier er med til at forhindre negativ påvirkning af miljø og mennesker.

# Tilslut enheder

## 6.1

## Tilslut enheder

### Tilslutningsvejledning

Slut altid en enhed til TV'et med tilslutningen med den bedste tilgængelige kvalitet. Brug også kabler af god kvalitet, så du kan sikre en god overførsel af billede og lyd.

Når du tilslutter en enhed, genkender TV'et dens type og giver hver enhed et korrekt typenavn. Du kan ændre typenavnet efter behov. Hvis et korrekt typenavn er indstillet for en enhed, skifter TV'et automatisk over til de mest ideelle TV-indstillinger, når du skifter over til enheden i kildemenuen.

### Antennestik

Har du en set-top-boks (en digital modtager) eller optager, skal du tilslutte antennekablerne, således at antennesignalet går gennem set-top-boksen og/eller optageren, før det når TV'et. På den måde kan antennen og set-top-boksen sende ekstra kanaler, som optageren kan optage.

### HDMI-porte

#### Betjening af enheder

Hvis du vil betjene en enhed, der er sluttet til HDMI og konfigureret med EasyLink, skal du vælge enheden – eller dens aktivitet – på listen over TV-tilslutninger.

Professionel tilstand deaktiveret – Tryk på  /  Home, vælg  Apps, vælg  SOURCES . Vælg en enhed, som er sluttet til en HDMI-tilslutning, og tryk på OK.

Professionel tilstand aktiveret – Tryk på  /  Home, vælg  TV-kanaler, vælg  Kilder. Vælg en enhed, som er sluttet til en HDMI-tilslutning, og tryk på OK.

Når enheden er valgt, kan TV-fjernbetjeningen styre enheden. Men tasterne  /  Home og  OPTIONS og nogle andre Tv-taster videresendes ikke til enheden. Hvis den tast, du skal bruge, ikke findes på TV-fjernbetjeningen, kan du vælge tasten i menuen Indstillinger.

Tryk på  OPTIONS, og vælg **Betjeningslementer** i menulinjen. Vælg den enhedstast, du har brug for, på skærmen, og tryk på OK. Visse meget specifikke enhedstaster er muligvis ikke tilgængelige i menuen Betjeningslementer.

Bemærk: Kun enheder, der understøtter **EasyLink-fjernbetjeningsfunktionen**, vil reagere på TV-fjernbetjeningen.

#### HDMI-kvalitet

En HDMI-forbindelse har den bedste billed- og lyd-kvalitet. Et HDMI-kabel kombinerer video- og lydsignaler. Brug et HDMI-kabel til TV-signal.

For at få den bedste signaloverførsel skal du bruge et højhastigheds-HDMI-kabel og ikke bruge et HDMI-kabel, der er længere end 5 m.

#### Kopibeskyttelse

HDMI-kabler understøtter HDCP (High-bandwidth Digital Content Protection). HDCP er et kopibeskyttelsessignal, der forhindrer kopiering af indhold fra en DVD eller Blu-ray-disk. Løsningen kaldes også DRM (Digital Rights Management).

#### HDMI ARC

Alle HDMI-tilslutningerne på TV'et har **HDMI ARC** (Audio Return Channel – lydreturkanal).

Hvis enheden, typisk et Home Theatre System (HTS), også har HDMI ARC-tilslutning, skal du slutte den til en af HDMI-tilslutningerne på TV'et. Med HDMI ARC-tilslutningen behøver du ikke at tilslutte det ekstra lydkabel, som sender TV-billedets lyd til HTS. HDMI ARC-tilslutningen kombinerer begge signaler.

Du kan bruge alle HDMI-tilslutningerne på TV'et til at tilslutte HTS, men ARC er kun tilgængelig for 1 enhed/tilslutning ad gangen.

## HDMI CEC – EasyLink

En HDMI-forbindelse har den bedste billed- og lyd-kvalitet. Et HDMI-kabel kombinerer video- og lyd-signaler. Brug et HDMI-kabel til High Definition (HD) TV-signaler. For at få den bedste signaloverførsel skal du bruge et højhastigheds-HDMI-kabel og ikke bruge et HDMI-kabel, der er længere end 5 m.

Ved at slutte HDMI CEC-kompatible enheder til TV'et kan du betjene det med TV-fjernbetjeningen.

EasyLink HDMI CEC skal være aktiveret på TV'et og den tilsluttede enhed.

### Bemærk:

- EasyLink fungerer muligvis ikke sammen med enheder fra andre producenter.
- HDMI CEC-funktionaliteten har forskellige navne hos forskellige producenter. Eksempler: Anynet, Aquos Link, Bravia Theatre Sync, Kuro Link, Simplink og Viera Link. Ikke alle fabrikater er fuldt kompatible med EasyLink. Eksemplerne på HDMI CEC-varemærker tilhører de respektive ejere.

## EasyLink til eller fra

Du kan slå EasyLink til eller fra. TV'et leveres med EasyLink-indstillingerne slået til.

Sådan slås EasyLink helt fra...

Professionel tilstand deaktiveret – Tryk på / Home. Tryk på (ned), vælg Indstillinger, og tryk på OK.

Vælg Kilder > EasyLink, og tryk på OK.

Vælg EasyLink, og tryk på OK.

Vælg Fra, og tryk på OK.

Tryk om nødvendigt gentagne gange på BACK, for at lukke menuen.

Professionel tilstand aktiveret – Se installationsvejledningen.

## EasyLink-fjernbetjening

Hvis du vil have enhederne til at kommunikere uden at betjene dem via fjernbetjeningen til TV'et, kan du slå EasyLink-fjernbetjeningen fra separat.

Gør følgende for at slå EasyLink-fjernbetjeningen til eller fra...

Professionel tilstand deaktiveret – Tryk på / Home. Tryk på (ned), vælg Indstillinger, og tryk på OK.

Vælg Kilder > EasyLink, og tryk på OK.

Vælg EasyLink-fjernbetjening, og tryk på OK.

Vælg Til eller Fra, og tryk på OK.

Tryk om nødvendigt gentagne gange på BACK, for at lukke menuen.

Professionel tilstand aktiveret – Se installationsvejledningen.

## CAM med smartkort – CI+

### CI+

Dette TV er klar til CI+ Conditional Access.

Med CI+ kan du se premium-HD-programmer, f.eks. film og sport, som udbydes af digital-TV-udbydere i din region. Disse programmer er kodet af TV-operatøren og skal afkodes med et forudbetalt CI+-modul.

Udbydere af digital-TV leverer et CI+-modul (Conditional Access Module – CAM) og et medfølgende smartkort, når du abonnerer på deres premium-programmer. Disse programmer har et højt niveau af kopibeskyttelse.

Kontakt en udbyder af digital-TV for at få flere oplysninger om vilkår og betingelser.

## Smartkort

Udbydere af digital-TV leverer et CI+-modul (Conditional Access Module - CAM) og et medfølgende smartkort, når du abonnerer på deres premium-programmer.

Sæt smartkortet i CAM-modulet. Se vejledningen, du har modtaget fra udbyderen.

Sådan sættes CAM-modulet i TV'et...

- 1 - Se CAM-kortet for at få oplysninger om den korrekte isætningsmetode. Ukorrekt isætning kan beskadige CAM-modulet og TV'et.
- 2 - Når du ser bag på TV'et, og forsiden af CAM-modulet vender ind imod dig selv, skal du forsigtigt sætte det i stikket **COMMON INTERFACE**.
- 3 - Skub CAM-modulet helt ind. Lad det sidde permanent i stikket.

Når du tænder for TV'et, kan det tage nogle få minutter, før CAM-modulet aktiveres. Hvis et CAM-modul indsættes, og abonnementet er betalt (abonnementsmetoderne kan variere), kan du se kodede kanaler, der understøttes af CAM-smartkortet.

CAM-modul og smartkort er udelukkende til dit TV. Hvis du tager CAM-modulet ud, vil du ikke længere kunne se kodede kanaler, der understøttes af CAM-modulet.

6.3

## Modtager – set-top-boks

Brug 2 antennekabler til at slutte antennen til set-top-boksen (en digital modtager) og TV'et.

Ud over antenneforbindelserne tilføjes et HDMI-kabel for tilslutning af set-top-boksen til TV'et.

6.4

## Home Theatre System - HTS

### Opret forbindelse med HDMI ARC

Brug et HDMI-kabel for tilslutning af et Home Theatre System (HTS) til TV'et. Du kan tilslutte en Philips Soundbar eller et HTS med en indbygget diskafspiller.

#### HDMI ARC

Hvis dit Home Theatre System har en HDMI ARC-tilslutning, kan du tilslutte den via en vilkårlig HDMI-tilslutning på TV'et. Med HDMI ARC behøver du ikke tilslutte det ekstra lydkabel. HDMI ARC-tilslutningen kombinerer begge signaler.

Alle HDMI-tilslutninger på TV'et kan give ARC-signal (Audio Return Channel). Men når først du har tilsluttet dit Home Theatre System, kan TV'et kun sende ARC-signalet til denne HDMI-tilslutning.

#### Audio- og videosynkronisering (synk)

Hvis lyden ikke passer til billedet på skærmen, kan du

angive en forsinkelse på de fleste Home Theatre Systems med en diskafspiller, så lyd og billede kommer til at passe sammen.

---

6.5

## Blu-ray-afspiller

Brug et højhastigheds-HDMI-kabel til at tilslutte Blu-ray-afspilleren til TV'et.

Hvis Blu-ray-afspilleren har EasyLink HDMI CEC, kan du betjene afspilleren med TV-fjernbetjeningen.

---

6.6

## Øretelefoner

Du kan tilslutte et sæt hovedtelefoner til -stikket bag på TV'et. Stikket er et 3,5 mm mini-jackstik. Du kan regulere hovedtelefonernes lydstyrke separat.

---

6.7

## Spillekonsol

### HDMI

Slut spillekonsollen til TV'et med et højhastigheds-HDMI-kabel for at opnå den bedste kvalitet.

---

6.8

## USB-flash-drev

Du kan se fotos eller afspille musik og videoer fra et tilsluttet USB-flashdrev.

Indsæt et USB-flashdrev i en af USB-tilslutningerne på TV'et, mens TV'et er tændt.

TV'et registrerer flashdrevet og åbner en liste, der viser indholdet.

Hvis indholdslisten ikke vises automatisk ...

Professionel tilstand deaktiveret – Tryk på  /  Home, vælg  Apps, vælg  Kilder. Vælg USB, og tryk på OK.

Professionel tilstand aktiveret – Tryk på  /  Home, vælg TV-kanaler , vælg  KILDER. Vælg USB, og tryk på OK.

Hvis du vil stoppe med at se USB-flashdrevets indhold, skal du trykke på  eller vælge en anden aktivitet.

Du kan når som helst frakoble USB-flashdrevet ved at trække det ud.

---

6.9

## Computer

### Connect

Du kan slutte computeren til TV'et og bruge TV'et som computerskærm.

#### Med HDMI

Brug et HDMI-kabel for at slutte computeren til TV'et.

---

## Optimal indstilling

Hvis du tilslutter en computer, anbefales det at give den tilslutning, som computeren er tilsluttet, den korrekte enhedstypenavn i menuen Kilde. Hvis du skifter til **Computer** i menuen Kilde, indstilles TV'et automatisk til den optimale computerindstilling.

Sådan indstiller du TV'et til den optimale indstilling...

Professionel tilstand deaktiveret – Tryk på / Home. Tryk på (ned), vælg **Indstillinger**, og tryk på **OK**.

Vælg **Billede**, og tryk på (højre) for at åbne menuen. Vælg **Billedtype** > **Computer**, og tryk på **OK**.

Vælg **Til** eller **Fra**, og tryk på **OK**.

Tryk om nødvendigt på gentagne gange for at lukke menuen.

Professionel tilstand

aktiveret – Tryk på / Home > **Mere** > **Indstillinger** > **Billede**. Tryk på **OK**.

Vælg **Billedtype** > **Computer**, og tryk på **OK**.

Vælg **Til** eller **Fra**, og tryk på **OK**.

## Om Android TV-startskærmen

For at drage fordel af dit Android TV skal du oprette forbindelse fra TV'et til internettet.

Ligesom på din Android-smartphone eller tablet er startskærmen midt på TV-skærmen. Fra startskærmen kan du beslutte, hvad du vil se, ved at gennemse underholdningsmuligheder fra app og direkte TV. Startskærmen har kanaler, så du kan se det fantastiske indhold fra dine foretrukne apps. Du kan også tilføje flere kanaler eller finde nye apps for at få mere indhold.

## 11.2

## Åbn Android TV-startskærmen

Professionel tilstand aktiveret - Se installationsvejledningen.

Professionel tilstand deaktiveret - Åbner Android TV-startskærmen og åbner et element...

1 - Tryk på Menu, og naviger til "Philips-samling", og tryk derefter på OK.

2 - Vælg en aktivitet vha. piletasterne, og tryk på OK for at starte aktiviteten.

3 - Tryk på ← for at lukke startmenuen uden at ændre den aktuelle aktivitet.

Når du åbner Android TV-startskærmen, stopper programmet i baggrunden/afspilningen af indhold. Du

skal vælge programmet eller indholdet på Android TV-startskærmen for at genoptage.

## Android TV-indstillinger

### Billede

#### Billedindstillinger

##### Billedtype

##### Vælg en type

Tryk på / > Indstillinger > Billede > Billedtype.

For nem billedjustering kan du vælge en foruddefineret billedtype.

- Personlig - De billedpræferencer, du indstiller, første gang du tænder.
- Livagtig - Ideel til visning i dagslys
- Naturlig - Naturlige billedindstillinger
- Standard - Den mest energibevindste indstilling - Fabriksindstilling
- Film - Ideel til film
- Spil - Ideel til spil
- Computer - Ideel til tilslutning af computer

#### Farve, kontrast, skarphed, lysstyrke

##### Sådan justeres billedets farve

Tryk på / Home > Indstillinger > Billede > Farve.

Tryk på pilene (op) eller (ned) for at justere værdien for billedets farvemætning.

##### Sådan justeres billedets kontrast

Tryk på / Home > Indstillinger > Billede > Kontrast. Tryk på pilene (op) eller (ned) for at justere værdien for billedets kontrast.

Du kan mindske kontrasten for at reducere strømforbruget.

##### Sådan justeres billedets skarphed

Tryk på / Home > Indstillinger > Billede > Skarphed.

Tryk på pilene

##### Juster lysstyrke

Tryk på / Home > Indstillinger > Billede > Lysstyrke.

Tryk på pilene (op) eller (ned) for at angive

niveauet for billedsignalets lysstyrke.

**Bemærk:** Hvis lysstyrken indstilles for langt væk fra referenceværdien (50), kan det medføre en lavere kontrast.

### Farveindstillinger

---

#### Avancerede farveindstillinger

Juster farveforbedring

Tryk på  /  Home >  Indstillinger >

Billede > Avanceret > Farve > Farveforbedring.

Vælg Maksimum, Middel eller Minimum for at indstille farveintensitetsniveauet og detaljerne i lyse farver.

Vælg den forudindstillede farvetemperatur

Tryk på  /  Home >  Indstillinger >

Billede > Avanceret > Farve > Farvetemperatur.

Vælg Normal, Varm eller Kold for at indstille din foretrukne farvetemperatur.

Tilpas farvetemperatur

Tryk på  /  Home >  Indstillinger >

Billede > Avanceret

> Farve > Brugerdefineret farvetemperatur.

Vælg Brugerdefineret i menuen Farvetemperatur for selv at tilpasse en farvetemperatur. Tryk på pilene  (op) eller  (ned) for at justere værdien. HP er hvidt punkt, og SN er sort niveau. Du kan også vælge en af forudindstillingerne i denne menu.

---

## Avancerede kontrastindstillinger

---

### Kontrasttilstande

Tryk på  /  Home >  Indstillinger >

Billede > Avanceret >

Kontrast > Kontrasttilstand.

Vælg Normal, Optimeret til billede eller Optimeret til energibesparelser for at indstille TV'et til automatisk at reducere kontrasten for at opnå det bedste strømforbrug eller den bedste filmoplevelse, eller vælg Fra for at afslutte justeringen.

---

## Dynamisk kontrast

Tryk på  /  Home >  Indstillinger >

Billede > Avanceret > Kontrast > Dynamisk kontrast.

Vælg Maksimum, Middel eller Minimum for at angive

det niveau, hvor TV'et automatisk forbedrer detaljerne i billedets mørke, mellem mørke og lyse områder.

---

## Videokontrast, gamma

### Videokontrast

Tryk på  /  Home >  Indstillinger >

Billede > Avanceret > Kontrast > Videokontrast.

Tryk på pilene  (op) eller  (ned) for at justere niveauet for videokontrast.

### Gamma

Tryk på  /  Home >  Indstillinger >

Billede > Avanceret > Kontrast > Gamma.

Tryk på pilene  (op) eller  (ned) for at justere en ikke-lineær indstilling for billedets belysning og kontrast.

---

## Avancerede skarphedsindstillinger

---

### Ekstra høj opløsning

Tryk på  /  Home >  Indstillinger > Billede > Avanceret > Skarphed > Ultra-opløsning.

Vælg Til for at få en enestående skarphed i linjernes kanter og detaljer.

---

## Skarpere billedkvalitet

---

### Støjreduktion

Tryk på  /  Home >  Indstillinger > Billede > Avanceret > Skarpere billedkvalitet > Støjreduktion.

Vælg Maksimum, Middel eller Minimum for at indstille niveauet for fjernelse af støj i videoindhold.

Støj ses for det meste som små bevægelige prikker på billederne på skærmen.

---

## MPEG artefakt-reduktion

Tryk på  /  Home >  Indstillinger > Billede > Avanceret > Skarpere billedkvalitet > MPEG artefakt-reduktion.

Vælg Maksimum, Middel eller Minimum for at få forskellige grader af udglatning af artefakter i digitalt videoindhold.

MPEG-artefakter ses mest som små blokke eller takkede kanter på billederne på skærmen.

---

## Billedformat

Hvis billedet ikke udfylder hele skærmen, hvis der vises sorte bjælker i top og bund eller i begge sider, kan du indstille billedet, så det passer i fuldt skærmformat.

Sådan vælger du en af grundindstillingerne for udfyldning af skærmen...

- 1 - Mens du ser en TV-kanal, skal du trykke på  /  Home >  Indstillinger > Billede > Billedformat.
- 2 - Vælg et format på listen, og tryk på **OK**.
- 3 - Tryk om nødvendigt gentagne gange på  **BACK**, for at lukke menuen.

Følgende format kan være tilgængeligt, afhængigt af billedet på skærmen . . .

- Bredformat
- Udfyld skærm
- Tilpas til skærm
- Uskaleret

---

## Lyd

### Lydtype

#### Vælg en type

Tryk på  /  Home >  Indstillinger > Lyd > Lydtype.

For nem justering af lyd kan du vælge en foruddefineret indstilling med lydtype.

- Personlig - Dine egne personlige valg som angivet i Tilpas billede og lyd
- Original - Den mest neutrale lydindstilling
- Film - Ideel til film
- Musik - Ideel til afspilning af musik
- Spil - Ideel til spil
- Nyheder - Ideel til tale

---

### Lydstyring

#### Vælg en enhed.

Tryk på  /  Home >  Indstillinger > Lyd > Lydstyring.

Konfigurer lydudgangsenheder.

- TV-højttalere - Indstil TV'et til at afspille lyden på TV eller på det tilsluttede lydsystem.
- Hovedtelefoner/badeværelsesshøjttalere - Til/Fra.
- Hovedtelefoner/badeværelsesshøjttalere med fast lydstyrke - Ved aktivering er lydstyrken i hovedtelefonerne/badeværelsesshøjttaleren baseret på aktiveringsindstillingerne.
- Registrering af hovedtelefoner - Til/Fra.

---

## TV-placering

Tryk på  /  Home >  Indstillinger > Lyd > TV-placering.

Vælg På en TV-stand eller På væggen for at opnå den bedste lyd gengivelse i henhold til indstillingen.

## Indstillinger for universaladgang

Tryk på   

Tilgængelighed > Universaladgang.  
Med Universaladgang slået til er TV'et forberedt til brug for døve, hørehæmmede, blinde eller svagtseende personer.

Aktivér indstillinger for universaladgang

Tryk på   

Tilgængelighed > Universaladgang > Til.

Universaladgang til hørehæmmede

Tryk på   

Tilgængelighed > Universaladgang  
> Hørehæmmede > Til.

- Visse digitale TV-kanaler udsender speciallyd og -undertekster, der er tilpasset hørehæmmede eller døve personer.
- Når den er aktiveret, skifter TV'et automatisk til den tilpassede lyd og de tilpassede undertekster, såfremt disse er tilgængelige.

Universaladgang for blinde og svagtseende

Tryk på   

Tilgængelighed > Universaladgang  
> Lydbeskrivelse > Lydbeskrivelse > Til.

Digitale TV-kanaler kan udsende særlige lydkommentarer, der beskriver, hvad der sker på skærmen.

 **Indstillinger** > Tilgængelighed  
> Universaladgang > Lydbeskrivelse > Kombineret lydstyrke, Lydeffekter, Tale.

- Vælg Kombineret lydstyrke for at kombinere lydstyrken for normal lyd med lydcommentarer. Tryk på pilene  (op) eller  (ned) for at justere værdien.
- Slå lydeffekten Til for at få ekstra lydeffekter i lydcommentarer, såsom stereolyd eller nedtoning.
- Vælg Tale for at angive talepræference, Beskrivende eller Undertekst.

## Indholdsvurdering

Vurderingsniveau

Tryk på   

Hvis du vil forhindre børn i at se et program, der ikke passer til deres alder, kan du angive en aldersgrænse. Digitale kanaler har aldersbestemt deres programmer. Hvis aldersgrænsen for et program er lig med eller højere end den alder, du har angivet for dit barn, låses programmet. Visning af et låst program kræver, at koden indtastes først.

Sådan indstiller du en aldersgrænse

Tryk på   

Vælg alder, og tryk på OK. Vælg Ingen for at deaktivere aldersgrænsen. I nogle lande skal du angive en aldersgrænse.

Indstil kode og Ændre kode

Tryk på  /  Home >  Indstillinger > Indholdsvurdering.

Koden til børnesikring bruges til at låse kanaler eller programmer eller låse dem op.

Indstil ny kode, eller nulstil Ændre kode.

Tryk på  /  Home >  Indstillinger > Indholdsvurdering > Ændre kode.

Bemærk:

Hvis du har glemt din PIN-kode, kan du omgå den nuværende kode ved at bruge 8888 og indtaste en ny kode.

## Tilslut dit Android TV

### Netværk og internet

Hjemmenetværk

For at få mest muligt ud af funktionerne i dit Philips Android TV skal dit TV være forbundet til internettet.

Opret forbindelse fra TV'et til et hjemmenetværk med en hurtig internetforbindelse. Du kan tilslutte dit TV trådløst eller kabelbaseret til din netværksrouter.

---

## Opret forbindelse til netværk

---

### Trådløs forbindelse

---

#### Det skal du bruge

For at tilslutte TV'et trådløst til internettet skal du bruge en Wi-Fi-router med forbindelse til internettet.

Brug en højhastighedsforbindelse (bredbånd) til internettet.

---

## Opret forbindelse

### Opret forbindelse - TRÅDLØS

Tryk på / Home > Indstillinger > Trådløs og netværk > Opret forbindelse til netværk > TRÅDLØS.

- 1 - I listen over registrerede netværk skal du vælge dit trådløse netværk. Hvis dit netværk ikke findes på listen, fordi netværksnavnet er skjult (du har slået routerens SSID-udsendelse fra), skal du vælge Tilføj nyt netværk for selv at indtaste netværksnavnet.
- 2 - Alt afhængigt af routertypen skal du nu angive din krypteringsnøgle - WEP, WPA eller WPA2. Hvis du har angivet krypteringsnøglen for dette netværk før, kan du vælge OK for at oprette forbindelsen med det samme.
- 3 - En meddelelse bekræfter, når forbindelsen er oprettet.

### Opret forbindelse - WPS

Tryk på / Home > Indstillinger > Trådløs og netværk > Opret forbindelse til netværk > WPS.

Hvis din router har WPS, kan du oprette forbindelse til routeren direkte uden at scanne efter netværk. Hvis du har enheder i dit trådløse netværk, der bruger WEP-sikkerhedskrypteringssystemet, kan du ikke anvende WPS.

- 1 - Tryk på WPS-knappen på din router og vend tilbage til TV'et inden for 2 minutter.
- 2 - Vælg Tilslut for at oprette forbindelsen.
- 3 - En meddelelse bekræfter, når forbindelsen er oprettet.

### Opret forbindelse - WPS MED PIN-KODE

Tryk på / Home > Indstillinger > Trådløs og netværk > Opret forbindelse til netværk > WPS MED PIN-KODE.

Hvis din router har WPS med en PIN-kode, kan du oprette forbindelse til routeren direkte uden at scanne efter netværk. Hvis du har enheder i dit trådløse netværk, der bruger WEP-sikkerhedskrypteringssystemet, kan du ikke anvende WPS.

- 1 - Noter den 8-cifrede PIN-kode, der vises på skærmen, og indtast den i routerens software på din computer. Se i vejledningen til routeren, hvor du skal indtaste PIN-koden i routerens software.
- 2 - Vælg Tilslut for at oprette forbindelsen.
- 3 - En meddelelse bekræfter, når forbindelsen er oprettet.

---

## Problemer

### Trådløst netværk blev ikke fundet eller er forvrænget

- Mikrobølgeovne, DECT-telefoner eller andre Wi-Fi 802.11b/g/n/ac-enheder kan forstyrre et trådløst netværk.
- Kontroller, at firewalls i dit netværk tillader adgang for den trådløse TV-forbindelse.
- Hvis det trådløse netværk i dit hjem ikke fungerer korrekt, kan du prøve med en kablet netværksinstallation.

### Internettet fungerer ikke

- Hvis forbindelsen til routeren er i orden, skal du kontrollere routerens forbindelse til internettet.

### PC'en og internetforbindelsen er langsom

- Se brugervejledningen til den trådløse router for at få oplysninger om indendørs rækkevidde, overførselshastighed og andre faktorer, der påvirker signalkvaliteten.
- Brug en internetforbindelse med høj hastighed (bredbånd) til din router.

### DHCP

- Hvis forbindelsen mislykkes, kan du kontrollere routerens DHCP-indstilling (Dynamic Host Configuration). DHCP skal være sat på Til.

---

## Kablet forbindelse

---

### Det skal du bruge

For at tilslutte TV'et til internettet skal du bruge en netværksrouter med forbindelse til internettet. Brug en højhastighedsforbindelse (bredbånd) til internettet.

---

## Opret forbindelse

### Opret forbindelse - KABELFORBUNDET

Tryk på / Home > Indstillinger > Trådløs og netværk > Opret forbindelse til netværk > KABELFORBUNDET.

- 1 - Slut routeren til TV'et med et netværkskabel (Ethernet-kabel\*\*).
- 2 - Kontrollér, at routeren er tændt.
- 3 - TV'et søger konstant efter en netværksforbindelse.
- 4 - En meddelelse bekræfter, når forbindelsen er oprettet.

Hvis forbindelsen mislykkes, kan du kontrollere routerens DHCP-indstilling. DHCP skal være sat på Til.

\*\*For at opfylde EMC-regulativerne skal du bruge et afskærmet FTP Cat. 5E Ethernet-kabel.

---

## Indstillinger

### Vis netværksindstillinger

Tryk på / Home > Indstillinger > Trådløs og netværk > Indstillinger > Vis netværksindstillinger.

Du kan se alle aktuelle netværksindstillinger her. IP- og MAC-adressen, signalstyrke, hastighed, krypteringsmetode osv.

### Netværkskonfiguration - DHCP/statisk IP

Tryk på / Home > Indstillinger > Trådløs og netværk > Indstillinger > Netværkskonfiguration > DHCP / statisk IP.

Vælg DHCP, eller du kan indstille dit netværk med statisk IP, hvis du er en avanceret bruger.

### Netværkskonfiguration - konfiguration af statisk IP

Tryk på / Home > Indstillinger > Trådløs og netværk > Indstillinger > Konfiguration af statisk IP.

- 1 - Vælg Konfiguration af statisk IP, og konfigurer forbindelsen.
- 2 - Du kan angive nummeret på IP-

adresse, Netmaske, Port, DNS 1 eller DNS 2.

### Wake on LAN (WoL)

Tryk på / Home > Indstillinger > Trådløs og netværk > Indstillinger > Wake on LAN (WoL).

Deaktiver/aktiver Wake on LAN (WoL). Du vækker TV'et via en ekstern enhed på samme lokale netværk.

### Wake on Wi-Fi (WoWLAN)

Tryk på / Home > Indstillinger > Trådløs og netværk > Indstillinger > Wake on Wi-Fi (WoWLAN).

Deaktiver/aktiver Wake on Wi-Fi (WoWLAN). Du vækker TV'et via en ekstern enhed på samme trådløse netværk.

## Netværkstype

Tryk på / Home > Indstillinger > Trådløs og netværk > Indstillinger > Netværkstype.

- Kabelforbundet - Sådan opretter du forbindelse til et kabelbaseret netværk.
- Trådløs - I listen over registrerede netværk skal du vælge dit trådløse netværk. Hvis dit netværk ikke findes på listen, fordi netværksnavnet er skjult (du har slået routerens SSID-udsendelse fra), skal du vælge Tilføj nyt netværk for selv at indtaste netværksnavnet.
- WPS - Hvis din router har WPS, kan du oprette forbindelse til routeren direkte uden at scanne efter netværk. Hvis du har enheder i dit trådløse netværk, der bruger WEP-sikkerhedskrypteringssystemet, kan du ikke anvende WPS.
- WPS med PIN-kode - Hvis din router har WPS med en PIN-kode, kan du oprette forbindelse til routeren direkte uden at scanne efter netværk. Hvis du har enheder i dit trådløse netværk, der bruger WEP-sikkerhedskrypteringssystemet, kan du ikke anvende WPS.

## Google-konto

### Log på

For at få mest muligt ud af funktionerne i dit Philips Android TV kan du logge på Google med din Google-konto.

Ved at logge på kan du spille dine yndlingsspil på telefon, tablet og TV. Du kan også få tilpassede video- og musikanbefalinger på din TV-startskærm samt få adgang til YouTube, Google Play og andre apps.

Brug din eksisterende **Google-konto** for at logge på Google på dit TV. En Google-konto består af en e-mailadresse og en adgangskode. Hvis du ikke har en

Google-konto, kan du bruge din computer eller tablet til at oprette en (accounts.google.com). Du skal have en Google+ profil for at kunne spille spil med Google Play. Hvis du ikke loggede på under den første TV-installation, kan du altid logge på senere.

### Log på

Tryk på  Home >  Apps > Google Play.

Brug tastaturet på skærmen til at indtast din e-mailadresse og din adgangskode, og tryk på den samme OK-tast for at logge på.

---

## Android-indstillinger

Du kan angive eller se flere Android-specifikke indstillinger og oplysninger. Du kan finde listen over de apps, der er installeret på dit TV, samt den nødvendige lagringsplads. Du kan angive det sprog, du gerne vil bruge sammen med stemmesøgning. Du kan konfigurere tastaturet på skærmen eller give dine apps tilladelse til at bruge din lokalitet. Udforsk de forskellige Android-indstillinger.

På [www.support.google.com/androidtv](http://www.support.google.com/androidtv) kan du få flere oplysninger om disse indstillinger.

### Gør følgende for at åbne disse indstillinger

Tryk på  /  Home >  Indstillinger > Indstillinger > Android-indstillinger.

### Automatisk kanalopdatering

Hvis du modtager digitale kanaler, kan du indstille TV'et til automatisk at opdatere disse kanaler.

Én gang om dagen, kl. 6:00 om morgenen, opdaterer TV'et kanalerne og gemmer nye kanaler. Nye kanaler gemmes i Kanallisten og markeres med en **★**. Kanaler uden signal fjernes. TV'et skal være på standby for automatisk at kunne opdatere kanaler. Du kan slå automatisk kanalopdatering fra.

Sådan slår du automatisk opdatering fra...

1 - Tryk på **🏠 / 🏠 Home > ⚙ Indstillinger > Installer kanaler**, og tryk på **OK**.

2 - Vælg **RF-kanalinstallation**, og tryk på **OK**.

3 - Indtast din PIN-kode, hvis det er nødvendigt.

4 - Vælg **Automatisk kanalopdatering**, og tryk på **OK**.

5 - Vælg **Fra**, og tryk på **OK**.

6 - Tryk på **◀** (venstre) for at gå et trin tilbage, eller tryk på **←** BACK for at lukke menuen.

---

### Kanal, automatisk kanalopdatering

Når nye kanaler er fundet, eller hvis kanaler opdateres eller fjernes, vises en meddelelse, når TV'et tændes. For at undgå, at denne meddelelse vises efter hver kanalopdatering, kan du slå den fra.

Sådan slås meddelelsen fra...

1 - Tryk på **🏠 / 🏠 Home > ⚙ Indstillinger > Installer kanaler**, og tryk på **OK**.

2 - Vælg **RF-kanalinstallation**, og tryk på **OK**.

3 - Indtast din PIN-kode, hvis det er nødvendigt.

4 - Vælg **Automatisk kanalopdatering**, og tryk på **OK**.

5 - Vælg **Fra**, og tryk på **OK**.

6 - Tryk på **◀** (venstre) for at gå et trin tilbage, eller tryk på **←** BACK for at lukke menuen.

I visse lande udføres den automatiske kanalopdatering, mens du ser TV, eller når TV'et er på standby.

---

### Digital: Manuel installation

Digitale TV-kanaler kan installeres manuelt en efter en.

Sådan installerer du digitale kanaler manuelt...

1 - Tryk på **🏠 / 🏠 Home > ⚙ Indstillinger > Installer kanaler**, og tryk på **OK**.

2 - Vælg **RF-kanalinstallation**, og tryk på **OK**.

3 - Vælg **Digital: Manuel installation**, og tryk på **OK**.

4 - Vælg **Søg**, og tryk på **OK**. Du kan selv indtaste en frekvens for at finde en kanal, eller du kan lade TV'et søge efter en kanal. Tryk på **➤** (højre) for at vælge **Søg**, og tryk på **OK** for automatisk at søge efter en kanal. Den fundne kanal vises på skærmen, og hvis der er dårlig modtagelse, skal du trykke på **Søg** igen. Hvis du vil gemme kanalen, skal du vælge **Udført** og trykke på **OK**.

---

### Analog: Manuel installation

Analoge TV-kanaler kan installeres manuelt en efter en.

Sådan installerer du analoge kanaler manuelt.

1 - Tryk på **🏠 / 🏠 Home > ⚙ Indstillinger > Installer kanaler**, og tryk på **OK**.

2 - Vælg **RF-kanalinstallation**, og tryk på **OK**.

3 - Vælg **Analoge: Manuel installation**, og tryk på **OK**.

#### • System

Konfigurer Tv-systemet ved at vælge **System**. Vælg dit land eller den del af verden, hvor du befinder dig nu, og tryk på **OK**.

#### • Søg efter

Du finder en kanal ved at vælge **Søg efter kanal** og trykke på **OK**. Du kan selv indtaste en frekvens for at finde en kanal, eller du kan lade TV'et søge efter en kanal. Tryk på **➤** (højre) for at vælge **Søg**, og tryk på **OK** for automatisk at søge efter en kanal. Den fundne kanal vises på skærmen, og hvis der er dårlig modtagelse, skal du trykke på **Søg** igen. Hvis du vil gemme kanalen, skal du vælge **Udført** og trykke på **OK**.

#### • Gem

Du kan gemme kanalen på det aktuelle kanalnummer eller som et nyt kanalnummer.

Vælg **Gem aktuel kanal** eller **Gem som ny kanal**, og tryk på **OK**. Det nye kanalnummer vises kortvarigt.

Trinene kan gentages, indtil du har fundet alle tilgængelige, analoge TV-kanaler.

## Internettet

### Start internettet

Du kan surfe på internettet på dit fjernsyn. Du kan se alle internet-websites, men de fleste er ikke egnet til visning på en TV-skærm.

- Visse tilføjelsesprogrammer (f.eks. til visning af sider eller videoer) er ikke til rådighed på dit TV.
- Du kan ikke sende eller downloade filer.
- Internetsider vises én side ad gangen og på fuldskræm.

Gør følgende for at starte internetbrowseren...

- 1 - Tryk på  /  HOME.
- 2 - Rul ned, og vælg  Apps >  Internet , og tryk på OK.
- 3 - Indtast en internetadresse, vælg , og tryk på OK.
- 4 - Luk internettet ved at trykke på  /  HOME eller .

### Muligheder på internettet

Nogle ekstrafunktioner er tilgængelige til internettet.

Gør følgende for at åbne ekstrafunktionerne...

- 1 - Hav webstedet åbent, og tryk på  OPTIONS.
- 2 - Vælg et af elementerne, og tryk på OK.
  - Føj til hurtigopkald: Sådan indtaster du en ny internetadresse.
  - Føj til bogmærker: Tilføj siden som bogmærke
  - Sikkerhed på side: Sådan ser du sikkerhedsniveauet for den aktuelle side.
  - Fanen Ny privat: Åbn fanen Ny privat, og få privat browsing
  - Indstillinger: Indstillinger for zoom, tekststørrelse, tilgængelighedstilstand, vis altid menulinjen og slet (browser) oversigt
  - Hjælp: Oplysninger om internetbrowser
  - Forlad internetbrowser: Luk internetbrowser

## Smartphones og tablets

## Software

## Opdater software

### Softwareversion

Sådan ser du den nuværende TV-softwareversion...

- 1 - Tryk på  / , vælg Indstillinger  og tryk på OK.
- 2 - Vælg Opdater software > Aktuel firmware, og tryk på OK.
- 3 - Versionen, frigivelsesnoterne og oprettelsesdatoen vises.
- 4 - Tryk om nødvendigt på  (venstre) gentagne gange for at lukke menuen.

### Opdatering fra websted

Du kan finde den aktuelle firmwareversion på TV'et i menuen Indstillinger under "Opdater software" > "Aktuel firmware".

Besøg [www.philips.com/support](http://www.philips.com/support) regelmæssigt for at se efter nye firmwareopdateringer.

Følg instruktionerne nedenfor for at opdatere firmwaren på dit TV.

Download den nyeste software...

- 1 - Start Internet Explorer.
- 2 - Gå ind på Philips' supportside på <http://www.philips.com/support>.
- 3 - Indtast modelnummeret. (Du kan finde dit modelnummer på en mærkat på bagsiden af TV'et).
- 4 - Når du indtaster TV'ets produktside, skal du vælge Support.
- 5 - Vælg "Software updates" (Softwareopdateringer), og klik på "Download file" (Download fil) for at downloade softwaren. (Softwaren er tilgængelig som en zip-fil).
- 6 - Hvis softwareversionen er højere end den version, der er installeret på dit TV, skal du klikke på link til download af softwaren.
- 7 - Accepter licensaftalen/Vilkår og betingelser, vælg "I agree" (Jeg accepterer), og derefter downloades zip-filen automatisk.
- 8 - Udpak zip-filen til en mappe ved hjælp af et arkivværktøj.
- 9 - Opret en mappe med navnet "opgraderinger" i hovedbiblioteket på dit USB-flashdrev.
- 10 - Kopier den upg-fil, du udpakke tidligere, ind i mappen med opgraderinger, som vist på billedet nedenfor.
- 11 - Tag dit USB-flashdrev ud af computeren.

Opdater softwaren...

- 1 - Tilslut dit USB-flashdrev (med softwareopdateringen) til USB-stikket på TV'et. Vent 30 sekunder, eller indtil USB-drevet genkendes af TV'et.
- 2 - TV'et begynder at indlæse softwaren automatisk.
- 3 - Når indlæsningen af softwaren er færdig, skal du trykke på "Start" for at aktivere opgraderingen af TV'et.

Everyone is permitted to copy and distribute  
verbatim copies  
of this license document, but changing it is not  
allowed.

[This is the first released version of the library GPL. It  
is  
numbered 2 because it goes with version 2 of the  
ordinary GPL.]

#### Preamble

The licenses for most software are designed to take  
away your  
freedom to share and change it. By contrast, the  
GNU General Public  
Licenses are intended to guarantee your freedom to  
share and change  
free software--to make sure the software is free for  
all its users.

This license, the Library General Public License,  
applies to some  
specially designated Free Software Foundation  
software, and to any  
other libraries whose authors decide to use it. You  
can use it for  
your libraries, too.

When we speak of free software, we are referring to  
freedom, not  
price. Our General Public Licenses are designed to  
make sure that you  
have the freedom to distribute copies of free software  
(and charge for  
this service if you wish), that you receive source code  
or can get it  
if you want it, that you can change the software or  
use pieces of it  
in new free programs; and that you know you can do  
these things.

To protect your rights, we need to make restrictions  
that forbid  
anyone to deny you these rights or to ask you to  
surrender the rights.  
These restrictions translate to certain responsibilities  
for you if  
you distribute copies of the library, or if you modify it.

For example, if you distribute copies of the library,  
whether gratis  
or for a fee, you must give the recipients all the rights  
that we gave  
you. You must make sure that they, too, receive or  
can get the source  
code. If you link a program with the library, you must  
provide

complete object files to the recipients so that they  
can relink them  
with the library, after making changes to the library  
and recompiling  
it. And you must show them these terms so they  
know their rights.

Our method of protecting your rights has two steps:  
(1) copyright  
the library, and (2) offer you this license which gives  
you legal  
permission to copy, distribute and/or modify the  
library.

Also, for each distributor's protection, we want to  
make certain  
that everyone understands that there is no warranty  
for this free  
library. If the library is modified by someone else  
and passed on, we  
want its recipients to know that what they have is not  
the original  
version, so that any problems introduced by others  
will not reflect on  
the original authors' reputations.

Finally, any free program is threatened constantly  
by software  
patents. We wish to avoid the danger that  
companies distributing free  
software will individually obtain patent licenses, thus  
in effect  
transforming the program into proprietary software.  
To prevent this,  
we have made it clear that any patent must be  
licensed for everyone's  
free use or not licensed at all.

Most GNU software, including some libraries, is  
covered by the ordinary  
GNU General Public License, which was designed for  
utility programs. This  
license, the GNU Library General Public License,  
applies to certain  
designated libraries. This license is quite different  
from the ordinary  
one; be sure to read it in full, and don't assume that  
anything in it is  
the same as in the ordinary license.

The reason we have a separate public license for  
some libraries is that  
they blur the distinction we usually make between  
modifying or adding to a  
program and simply using it. Linking a program with  
a library, without  
changing the library, is in some sense simply using the  
library, and is  
analogous to running a utility program or application  
program. However, in

a textual and legal sense, the linked executable is a combined work, a derivative of the original library, and the ordinary General Public License treats it as such.

Because of this blurred distinction, using the ordinary General Public License for libraries did not effectively promote software sharing, because most developers did not use the libraries. We concluded that weaker conditions might promote sharing better.

However, unrestricted linking of non-free programs would deprive the users of those programs of all benefit from the free status of the libraries themselves. This Library General Public License is intended to permit developers of non-free programs to use free libraries, while preserving your freedom as a user of such programs to change the free libraries that are incorporated in them. (We have not seen how to achieve this as regards changes in header files, but we have achieved it as regards changes in the actual functions of the Library.) The hope is that this will lead to faster development of free libraries.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, while the latter only works together with the library.

Note that it is possible for a library to be covered by the ordinary General Public License rather than by this special one.

## GNU LIBRARY GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Library General Public License (also called "this License").

Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the

Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library,

and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a

portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline

functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also compile or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of

definitions files in the

Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Accompany the work with a written offer, valid for at

least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

c) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

d) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise

permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to

this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted

interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Library General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

#### NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY

KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public

Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal

permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers less

of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

#### GNU LESSER GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other

program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of

warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of

the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to

produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the

license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work

based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is

implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write

to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

## NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

## ARPHIC PUBLIC LICENSE

Copyright (C) 1999 Arphic Technology Co., Ltd.  
11Fl. No.168, Yung Chi Rd., Taipei, 110 Taiwan  
All rights reserved except as specified below.

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is forbidden.

### Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the ARPHIC PUBLIC LICENSE specifically permits and encourages you to use this software, provided that you give the recipients all the rights that we gave you and make sure they can get the modifications of this software.

### Legal Terms

#### 0. Definitions:

Throughout this License, "Font" means the TrueType fonts "AR PL Mingti2L Big5", "AR PL KaitiM Big5" (BIG-5 character set) and "AR PL SungtiL GB", "AR PL KaitiM GB" (GB character set) which are originally distributed by Arphic, and the derivatives of those fonts created through any modification including modifying glyph, reordering glyph, converting format, changing font name, or adding/deleting some characters in/from glyph table.

"PL" means "Public License".

"Copyright Holder" means whoever is named in the copyright or copyrights for the Font.

"You" means the licensee, or person copying, redistributing or modifying the Font.

"Freely Available" means that you have the freedom to copy or modify the Font as well as redistribute copies of the Font under the same conditions you received, not price. If you wish, you can charge for this service.

#### 1. Copying & Distribution

You may copy and distribute verbatim copies of this Font in any medium, without restriction, provided that you retain this license file (ARPHICPL.TXT) unaltered in all copies.

#### 2. Modification

You may otherwise modify your copy of this Font in any way, including modifying glyph, reordering glyph, converting format, changing font name, or adding/deleting some characters in/from glyph table, and copy and distribute such modifications under the terms of Section 1 above, provided that the following conditions are met:

a) You must insert a prominent notice in each modified file stating how and when you changed that file.

b) You must make such modifications Freely Available as a whole to all third parties under the terms of this License, such as by offering access to copy the modifications from a designated place, or distributing the modifications on a medium customarily used for software interchange.

c) If the modified fonts normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the Font under these conditions, and telling the user how to view a copy of this License.

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Font, and can be reasonably considered independent and separate works in themselves, then this License and its terms, do not apply to those sections when you distribute them as separate works. Therefore, mere aggregation of another work not based on the Font with the Font on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

#### 3. Condition Subsequent

You may not copy, modify, sublicense, or distribute the Font except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Font will automatically retroactively void your rights under this License. However, parties who have received copies or rights from you under this License will keep their licenses valid so long as such parties remain in full compliance.

#### 4. Acceptance

You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to copy, modify, sublicense or distribute the Font. These actions are prohibited by law if you do not accept this License. Therefore, by copying, modifying, sublicensing or distributing the Font, you indicate your acceptance of this License and all its terms and conditions.

#### 5. Automatic Receipt

Each time you redistribute the Font, the recipient automatically receives a license from the original licensor to copy, distribute or modify the Font subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

#### 6. Contradiction

If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Font at all. For example, if a patent license would not permit royalty-free redistribution of the Font by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Font.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

#### 7. NO WARRANTY

BECAUSE THE FONT IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE FONT, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS OR OTHER PARTIES PROVIDE THE FONT "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE FONT IS WITH YOU. SHOULD THE FONT PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

#### 8. DAMAGES WAIVER

UNLESS REQUIRED BY APPLICABLE LAW OR

AGREED TO IN WRITING, IN NO EVENT WILL ANY COPYRIGHTT HOLDERS, OR OTHER PARTIES WHO MAY COPY, MODIFY OR REDISTRIBUTE THE FONT AS PERMITTED ABOVE, BE LIABLE TO YOU FOR ANY DIRECT, INDIRECT, CONSEQUENTIAL, INCIDENTAL, SPECIAL OR EXEMPLARY DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE FONT (INCLUDING BUT NOT LIMITED TO PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA OR PROFITS; OR BUSINESS INTERRUPTION), EVEN IF SUCH HOLDERS OR OTHER PARTIES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

#### Bitstream Vera Fonts Copyright

The fonts have a generous copyright, allowing derivative works (as long as "Bitstream" or "Vera" are not in the names), and full redistribution (so long as they are not \*sold\* by themselves). They can be bundled, redistributed and sold with any software.

The fonts are distributed under the following copyright:

Copyright

=====

Copyright (c) 2003 by Bitstream, Inc. All Rights Reserved. Bitstream

Vera is a trademark of Bitstream, Inc.

Permission is hereby granted, free of charge, to any person obtaining a copy of the fonts accompanying this license ("Fonts") and associated documentation files (the "Font Software"), to reproduce and distribute the Font Software, including without limitation the rights to use, copy, merge, publish, distribute, and/or sell copies of the Font Software, and to permit persons to whom the Font Software is furnished to do so, subject to the following conditions:

The above copyright and trademark notices and this permission notice shall be included in all copies of one or more of the Font Software typefaces.

The Font Software may be modified, altered, or

added to, and in particular the designs of glyphs or characters in the Fonts may be modified and additional glyphs or characters may be added to the Fonts, only if the fonts are renamed to names not containing either the words "Bitstream" or the word "Vera".

This License becomes null and void to the extent applicable to Fonts or Font Software that has been modified and is distributed under the "Bitstream Vera" names.

The Font Software may be sold as part of a larger software package but no copy of one or more of the Font Software typefaces may be sold by itself.

THE FONT SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT OF COPYRIGHT, PATENT, TRADEMARK, OR OTHER RIGHT. IN NO EVENT SHALL BITSTREAM OR THE GNOME FOUNDATION BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, INCLUDING ANY GENERAL, SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF THE USE OR INABILITY TO USE THE FONT SOFTWARE OR FROM OTHER DEALINGS IN THE FONT SOFTWARE.

Except as contained in this notice, the names of Gnome, the Gnome Foundation, and Bitstream Inc., shall not be used in advertising or otherwise to promote the sale, use or other dealings in this Font Software without prior written authorization from the Gnome Foundation or Bitstream Inc., respectively. #### Copyright FAQ =====

1. I don't understand the resale restriction... What gives?

Bitstream is giving away these fonts, but wishes to ensure its

competitors can't just drop the fonts as is into a font sale system and sell them as is. It seems fair that if Bitstream can't make money from the Bitstream Vera fonts, their competitors should not be able to do so either. You can sell the fonts as part of any software package, however.

2. I want to package these fonts separately for distribution and sale as part of a larger software package or system. Can I do so?

Yes. A RPM or Debian package is a "larger software package" to begin with, and you aren't selling them independently by themselves. See 1. above.

3. Are derivative works allowed?  
Yes!

4. Can I change or add to the font(s)?  
Yes, but you must change the name(s) of the font(s).

5. Under what terms are derivative works allowed?

You must change the name(s) of the fonts. This is to ensure the quality of the fonts, both to protect Bitstream and Gnome. We want to ensure that if an application has opened a font specifically of these names, it gets what it expects (though of course, using fontconfig, substitutions could still could have occurred during font opening). You must include the Bitstream copyright. Additional copyrights can be added, as per copyright law. Happy Font Hacking!

6. If I have improvements for Bitstream Vera, is it possible they might get adopted in future versions?

Yes. The contract between the Gnome Foundation and Bitstream has provisions for working with Bitstream to ensure quality additions to the Bitstream Vera font family. Please contact us if you have such additions. Note, that in general, we will want such additions for the entire family, not just a single font, and that you'll have to keep both Gnome and Jim Lyles, Vera's designer,

happy! To make sense to add glyphs to the font, they must be stylistically in keeping with Vera's design. Vera cannot become a "ransom note" font. Jim Lyles will be providing a document describing the design elements used in Vera, as a guide and aid for people interested in contributing to Vera.

7. I want to sell a software package that uses these fonts: Can I do so?

Sure. Bundle the fonts with your software and sell your software with the fonts. That is the intent of the copyright.

8. If applications have built the names "Bitstream Vera" into them, can I override this somehow to use fonts of my choosing?

This depends on exact details of the software. Most open source systems and software (e.g., Gnome, KDE, etc.) are now converting to use fontconfig (see [www.fontconfig.org](http://www.fontconfig.org)) to handle font configuration, selection and substitution; it has provisions for overriding font names and substituting alternatives. An example is provided by the supplied local.conf file, which chooses the family Bitstream Vera for "sans", "serif" and "monospace". Other software (e.g., the XFree86 core server) has other mechanisms for font substitution.

## TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

### 1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1

through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition,

"control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by

name) to the interfaces of,  
the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including  
the original version of the Work and any modifications or additions  
to that Work or Derivative Works thereof, that is intentionally  
submitted to Licensor for inclusion in the Work by the copyright owner  
or by an individual or Legal Entity authorized to submit on behalf of  
the copyright owner. For the purposes of this definition, "submitted"  
means any form of electronic, verbal, or written communication sent  
to the Licensor or its representatives, including but not limited to  
communication on electronic mailing lists, source code control systems,  
and issue tracking systems that are managed by, or on behalf of, the  
Licensor for the purpose of discussing and improving the Work, but  
excluding communication that is conspicuously marked or otherwise  
designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity  
on behalf of whom a Contribution has been received by Licensor and  
subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of  
this License, each Contributor hereby grants to You a perpetual,  
worldwide, non-exclusive, no-charge, royalty-free, irrevocable  
copyright license to reproduce, prepare Derivative Works of,  
publicly display, publicly perform, sublicense, and distribute the  
Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of  
this License, each Contributor hereby grants to You a perpetual,  
worldwide, non-exclusive, no-charge, royalty-free, irrevocable  
(except as stated in this section) patent license to make, have made,  
use, offer to sell, sell, import, and otherwise transfer the Work,  
where such license applies only to those

patent claims licensable  
by such Contributor that are necessarily infringed by their  
Contribution(s) alone or by combination of their Contribution(s)  
with the Work to which such Contribution(s) was submitted. If You  
institute patent litigation against any entity (including a  
cross-claim or counterclaim in a lawsuit) alleging that the Work  
or a Contribution incorporated within the Work constitutes direct  
or contributory patent infringement, then any patent licenses  
granted to You under this License for that Work shall terminate  
as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the  
Work or Derivative Works thereof in any medium, with or without  
modifications, and in Source or Object form, provided that You  
meet the following conditions:

(a) You must give any other recipients of the Work or  
Derivative Works a copy of this License;  
and

(b) You must cause any modified files to carry prominent notices  
stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works  
that You distribute, all copyright, patent, trademark, and  
attribution notices from the Source form of the Work,  
excluding those notices that do not pertain to any part of  
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its  
distribution, then any Derivative Works that You distribute must  
include a readable copy of the attribution notices contained  
within such NOTICE file, excluding those notices that do not  
pertain to any part of the Derivative Works, in at least one  
of the following places: within a NOTICE text file distributed  
as part of the Derivative Works; within the Source form or

documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF

ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

## PREAMBLE

The goals of the Open Font License (OFL) are to stimulate worldwide development of collaborative font projects, to support the font creation efforts of academic and linguistic communities, and to provide a free and open framework in which fonts may be shared and improved in partnership with others.

The OFL allows the licensed fonts to be used, studied, modified and redistributed freely as long as they are not sold by themselves. The fonts, including any derivative works, can be bundled, embedded, redistributed and/or sold with any software provided that any reserved names are not used by derivative works. The fonts and derivatives, however, cannot be released under any other type of license. The requirement for fonts to remain under this license does not apply

to any document created using the fonts or their derivatives.

## DEFINITIONS

"Font Software" refers to the set of files released by the Copyright Holder(s) under this license and clearly marked as such. This may include source files, build scripts and documentation.

"Reserved Font Name" refers to any names specified as such after the copyright statement(s).

"Original Version" refers to the collection of Font Software components as distributed by the Copyright Holder(s).

"Modified Version" refers to any derivative made by adding to, deleting, or substituting -- in part or in whole -- any of the components of the Original Version, by changing formats or by porting the Font Software to a new environment.

"Author" refers to any designer, engineer, programmer, technical writer or other person who contributed to the Font Software.

## PERMISSION & CONDITIONS

Permission is hereby granted, free of charge, to any person obtaining a copy of the Font Software, to use, study, copy, merge, embed, modify, redistribute, and sell modified and unmodified copies of the Font Software, subject to the following conditions:

- 1) Neither the Font Software nor any of its individual components, in Original or Modified Versions, may be sold by itself.
- 2) Original or Modified Versions of the Font Software may be bundled, redistributed and/or sold with any software, provided that each copy contains the above copyright notice and this license. These can be included either as stand-alone text files, human-readable headers or in the appropriate machine-readable metadata fields within text or binary files as long as those fields can be easily viewed by the user.
- 3) No Modified Version of the Font Software may use the Reserved Font Name(s) unless explicit written permission is granted

by the corresponding Copyright Holder. This restriction only applies to the primary font name as presented to the users.

4) The name(s) of the Copyright Holder(s) or the Author(s) of the Font Software shall not be used to promote, endorse or advertise any Modified Version, except to acknowledge the contribution(s) of the Copyright Holder(s) and the Author(s) or with their explicit written permission.

5) The Font Software, modified or unmodified, in part or in whole, must be distributed entirely under this license, and must not be distributed under any other license. The requirement for fonts to remain under this license does not apply to any document created using the Font Software.

#### TERMINATION

This license becomes null and void if any of the above conditions are not met.

#### DISCLAIMER

THE FONT SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT OF COPYRIGHT, PATENT, TRADEMARK, OR OTHER RIGHT. IN NO EVENT SHALL THE COPYRIGHT HOLDER BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, INCLUDING ANY GENERAL, SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF THE USE OR INABILITY TO USE THE FONT SOFTWARE OR FROM OTHER DEALINGS IN THE FONT SOFTWARE.

#### Mini-XML

URL: <http://www.msweet.org/projects.php?Z3>

#### Mini-XML License

The Mini-XML library and included programs are provided under the terms of the GNU Library General Public License version 2 (LGPL2) with the following exceptions:

1. Static linking of applications to the Mini-XML library

does not constitute a derivative work and does not require the author to provide source code for the application, use the shared Mini-XML libraries, or link their applications against a user-supplied version of Mini-XML.

If you link the application to a modified version of Mini-XML, then the changes to Mini-XML must be provided under the terms of the LGPL2 in sections 1, 2, and 4.

2. You do not have to provide a copy of the Mini-XML license with programs that are linked to the Mini-XML library, nor do you have to identify the Mini-XML license in your program or documentation as required by section 6 of the LGPL2.

#### GNU LIBRARY GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1991 Free Software Foundation, Inc.  
59 Temple Place - Suite 330, Boston, MA 02111-1307, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the library GPL. It is numbered 2 because it goes with version 2 of the ordinary GPL.]

#### Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Library General Public License, applies to some specially designated Free Software Foundation software, and to any other libraries whose authors decide to use it. You can use it for your libraries, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library, or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the

recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link a program with the library, you must provide complete object files to the recipients so that they can relink them with the library, after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

Our method of protecting your rights has two steps: (1) copyright the library, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the library.

Also, for each distributor's protection, we want to make certain that everyone understands that there is no warranty for this free library. If the library is modified by someone else and passed on, we want its recipients to know that what they have is not the original version, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that companies distributing free software will individually obtain patent licenses, thus in effect transforming the program into proprietary software. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License, which was designed for utility programs. This license, the GNU Library General Public License, applies to certain designated libraries. This license is quite different from the ordinary one; be sure to read it in full, and don't assume that anything in it is the same as in the ordinary license.

The reason we have a separate public license for some libraries is that they blur the distinction we usually make between modifying or adding to a program and simply using it. Linking a program with a library, without changing the library, is in some sense simply using the library, and is analogous to running a utility program or application program. However, in a textual and legal sense, the linked executable is a combined work, a derivative of the original library, and the ordinary General Public License treats it as such.

Because of this blurred distinction, using the ordinary General Public License for libraries did not effectively promote software sharing, because most developers did not use the libraries. We concluded that weaker conditions might promote sharing better.

However, unrestricted linking of non-free programs would deprive the users of those programs of all

benefit from the free status of the libraries themselves. This Library General Public License is intended to permit developers of non-free programs to use free libraries, while preserving your freedom as a user of such programs to change the free libraries that are incorporated in them. (We have not seen how to achieve this as regards changes in header files, but we have achieved it as regards changes in the actual functions of the Library.) The hope is that this will lead to faster development of free libraries.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, while the latter only works together with the library.

Note that it is possible for a library to be covered by the ordinary General Public License rather than by this special one.

## TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Library General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of

the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on

the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also compile or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that

the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

c) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

d) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have

received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Library General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

## NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE

LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

## END OF TERMS AND CONDITIONS

### How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

one line to give the library's name and an idea of what it does.

Copyright (C) year name of author

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public License along with this library; if not, write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a

"copyright disclaimer" for the library, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the library 'Frob' (a library for tweaking knobs) written by James Random Hacker.

License

Version 2.0,

January 2004

<http://www.apache.org/licenses/>

TERMS AND CONDITIONS FOR USE,  
 REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,

and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by

the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all

other entities that control, are controlled by, or are under common

control with that entity. For the purposes of this definition,

"control" means (i) the power, direct or indirect, to cause the

direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted"

means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses

granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices

cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence),

contract, or otherwise,  
unless required by applicable law (such as  
deliberate and grossly  
negligent acts) or agreed to in writing, shall  
any Contributor be  
liable to You for damages, including any  
direct, indirect, special,  
incidental, or consequential damages of any  
character arising as a  
result of this License or out of the use or  
inability to use the  
Work (including but not limited to damages for  
loss of goodwill,  
work stoppage, computer failure or  
malfunction, or any and all  
other commercial damages or losses), even if  
such Contributor  
has been advised of the possibility of such  
damages.

9. Accepting Warranty or Additional Liability. While  
redistributing  
the Work or Derivative Works thereof, You may  
choose to offer,  
and charge a fee for, acceptance of support,  
warranty, indemnity,  
or other liability obligations and/or rights  
consistent with this  
License. However, in accepting such  
obligations, You may act only  
on Your own behalf and on Your sole  
responsibility, not on behalf  
of any other Contributor, and only if You agree  
to indemnify,  
defend, and hold each Contributor harmless  
for any liability  
incurred by, or claims asserted against, such  
Contributor by reason  
of your accepting any such warranty or  
additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to  
your work.

To apply the Apache License to your work,  
attach the following  
boilerplate notice, with the fields enclosed by  
brackets "[ ]"  
replaced with your own identifying  
information. (Don't include  
the brackets!) The text should be enclosed in  
the appropriate  
comment syntax for the file format. We also  
recommend that a  
file or class name and description of purpose  
be included on the  
same "printed page" as the copyright notice  
for easier

identification within third-party archives.

TERMS AND CONDITIONS FOR USE,  
REPRODUCTION, AND DISTRIBUTION

## 1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition,

"control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications

represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable

(except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative

Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or

agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

## TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

### 1. Definitions.

"License" shall mean the terms and conditions

for use, reproduction,  
and distribution as defined by Sections 1  
through 9 of this document.

"Licensor" shall mean the copyright owner or  
entity authorized by  
the copyright owner that is granting the  
License.

"Legal Entity" shall mean the union of the  
acting entity and all  
other entities that control, are controlled by, or  
are under common  
control with that entity. For the purposes of  
this definition,  
"control" means (i) the power, direct or  
indirect, to cause the  
direction or management of such entity,  
whether by contract or  
otherwise, or (ii) ownership of fifty percent  
(50%) or more of the  
outstanding shares, or (iii) beneficial  
ownership of such entity.

"You" (or "Your") shall mean an individual or  
Legal Entity  
exercising permissions granted by this License.

"Source" form shall mean the preferred form  
for making modifications,  
including but not limited to software source  
code, documentation  
source, and configuration files.

"Object" form shall mean any form resulting  
from mechanical  
transformation or translation of a Source form,  
including but  
not limited to compiled object code,  
generated documentation,  
and conversions to other media types.

"Work" shall mean the work of authorship,  
whether in Source or  
Object form, made available under the  
License, as indicated by a  
copyright notice that is included in or attached  
to the work  
(an example is provided in the Appendix  
below).

"Derivative Works" shall mean any work,  
whether in Source or Object  
form, that is based on (or derived from) the  
Work and for which the  
editorial revisions, annotations, elaborations,  
or other modifications  
represent, as a whole, an original work of  
authorship. For the purposes  
of this License, Derivative Works shall not

include works that remain  
separable from, or merely link (or bind by  
name) to the interfaces of,  
the Work and Derivative Works thereof.

"Contribution" shall mean any work of  
authorship, including  
the original version of the Work and any  
modifications or additions  
to that Work or Derivative Works thereof, that  
is intentionally  
submitted to Licensor for inclusion in the Work  
by the copyright owner  
or by an individual or Legal Entity authorized  
to submit on behalf of  
the copyright owner. For the purposes of this  
definition, "submitted"  
means any form of electronic, verbal, or  
written communication sent  
to the Licensor or its representatives, including  
but not limited to  
communication on electronic mailing lists,  
source code control systems,  
and issue tracking systems that are managed  
by, or on behalf of, the  
Licensor for the purpose of discussing and  
improving the Work, but  
excluding communication that is  
conspicuously marked or otherwise  
designated in writing by the copyright owner  
as "Not a Contribution."

"Contributor" shall mean Licensor and any  
individual or Legal Entity  
on behalf of whom a Contribution has been  
received by Licensor and  
subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms  
and conditions of  
this License, each Contributor hereby grants to  
You a perpetual,  
worldwide, non-exclusive, no-charge, royalty-  
free, irrevocable  
copyright license to reproduce, prepare  
Derivative Works of,  
publicly display, publicly perform, sublicense,  
and distribute the  
Work and such Derivative Works in Source or  
Object form.

3. Grant of Patent License. Subject to the terms  
and conditions of  
this License, each Contributor hereby grants to  
You a perpetual,  
worldwide, non-exclusive, no-charge, royalty-  
free, irrevocable  
(except as stated in this section) patent license  
to make, have made,  
use, offer to sell, sell, import, and otherwise

transfer the Work,  
where such license applies only to those  
patent claims licensable  
by such Contributor that are necessarily  
infringed by their  
Contribution(s) alone or by combination of  
their Contribution(s)  
with the Work to which such Contribution(s)  
was submitted. If You  
institute patent litigation against any entity  
(including a  
cross-claim or counterclaim in a lawsuit)  
alleging that the Work  
or a Contribution incorporated within the Work  
constitutes direct  
or contributory patent infringement, then any  
patent licenses  
granted to You under this License for that  
Work shall terminate  
as of the date such litigation is filed.

4. Redistribution. You may reproduce and  
distribute copies of the  
Work or Derivative Works thereof in any  
medium, with or without  
modifications, and in Source or Object form,  
provided that You  
meet the following conditions:

(a) You must give any other recipients of the  
Work or  
Derivative Works a copy of this License;  
and

(b) You must cause any modified files to carry  
prominent notices  
stating that You changed the files; and

(c) You must retain, in the Source form of any  
Derivative Works  
that You distribute, all copyright, patent,  
trademark, and  
attribution notices from the Source form  
of the Work,  
excluding those notices that do not  
pertain to any part of  
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as  
part of its  
distribution, then any Derivative Works  
that You distribute must  
include a readable copy of the  
attribution notices contained  
within such NOTICE file, excluding those  
notices that do not  
pertain to any part of the Derivative  
Works, in at least one  
of the following places: within a NOTICE  
text file distributed

as part of the Derivative Works; within  
the Source form or  
documentation, if provided along with  
the Derivative Works; or,  
within a display generated by the  
Derivative Works, if and  
wherever such third-party notices  
normally appear. The contents  
of the NOTICE file are for informational  
purposes only and  
do not modify the License. You may add  
Your own attribution  
notices within Derivative Works that You  
distribute, alongside  
or as an addendum to the NOTICE text  
from the Work, provided  
that such additional attribution notices  
cannot be construed  
as modifying the License.

You may add Your own copyright statement to  
Your modifications and  
may provide additional or different license  
terms and conditions  
for use, reproduction, or distribution of Your  
modifications, or  
for any such Derivative Works as a whole,  
provided Your use,  
reproduction, and distribution of the Work  
otherwise complies with  
the conditions stated in this License.

5. Submission of Contributions. Unless You  
explicitly state otherwise,  
any Contribution intentionally submitted for  
inclusion in the Work  
by You to the Licensor shall be under the  
terms and conditions of  
this License, without any additional terms or  
conditions.

Notwithstanding the above, nothing herein  
shall supersede or modify  
the terms of any separate license agreement  
you may have executed  
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant  
permission to use the trade  
names, trademarks, service marks, or product  
names of the Licensor,  
except as required for reasonable and  
customary use in describing the  
origin of the Work and reproducing the  
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by  
applicable law or  
agreed to in writing, Licensor provides the  
Work (and each  
Contributor provides its Contributions) on an

"AS IS" BASIS,  
WITHOUT WARRANTIES OR CONDITIONS OF  
ANY KIND, either express or  
implied, including, without limitation, any  
warranties or conditions  
of TITLE, NON-INFRINGEMENT,  
MERCHANTABILITY, or FITNESS FOR A  
PARTICULAR PURPOSE. You are solely  
responsible for determining the  
appropriateness of using or redistributing the  
Work and assume any  
risks associated with Your exercise of  
permissions under this License.

8. Limitation of Liability. In no event and under no  
legal theory,  
whether in tort (including negligence),  
contract, or otherwise,  
unless required by applicable law (such as  
deliberate and grossly  
negligent acts) or agreed to in writing, shall  
any Contributor be  
liable to You for damages, including any  
direct, indirect, special,  
incidental, or consequential damages of any  
character arising as a  
result of this License or out of the use or  
inability to use the  
Work (including but not limited to damages for  
loss of goodwill,  
work stoppage, computer failure or  
malfunction, or any and all  
other commercial damages or losses), even if  
such Contributor  
has been advised of the possibility of such  
damages.

9. Accepting Warranty or Additional Liability. While  
redistributing  
the Work or Derivative Works thereof, You may  
choose to offer,  
and charge a fee for, acceptance of support,  
warranty, indemnity,  
or other liability obligations and/or rights  
consistent with this  
License. However, in accepting such  
obligations, You may act only  
on Your own behalf and on Your sole  
responsibility, not on behalf  
of any other Contributor, and only if You agree  
to indemnify,  
defend, and hold each Contributor harmless  
for any liability  
incurred by, or claims asserted against, such  
Contributor by reason  
of your accepting any such warranty or  
additional liability.

TERMS AND CONDITIONS FOR USE,  
REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions  
for use, reproduction,  
and distribution as defined by Sections 1  
through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common

control with that entity. For the purposes of this definition,

"control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their

Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the

Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions

to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You

institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational

purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the

appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

## TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

### 1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting

entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has

been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

You must give any other recipients of the Work or Derivative Works a copy of this License; and  
You must cause any modified files to carry prominent notices stating that You changed the files; and  
You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and  
If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own

attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While

redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

All Rights Reserved except as specified below.

Permission is hereby granted to use, copy, modify, and distribute this software (or portions thereof) for any purpose, without fee, subject to these conditions:

- (1) If any part of the source code for this software is distributed, then this README file must be included, with this copyright and no-warranty notice unaltered; and any additions, deletions, or changes to the original files must be clearly indicated in accompanying documentation.
- (2) If only executable code is distributed, then the accompanying documentation must state that "this software is based in part on the work of the Independent JPEG Group".
- (3) Permission for use of this software is granted only if the user accepts full responsibility for any undesirable consequences; the authors accept NO LIABILITY for damages of any kind.

These conditions apply to any software derived from or based on the IJG code, not just to the unmodified library. If you use our work, you ought to acknowledge us.

Permission is NOT granted for the use of any IJG author's name or company name in advertising or publicity relating to this software or products derived from it. This software may be referred to only as "the Independent JPEG Group's software".

#### 5. Time Zone Database

ICU uses the public domain data and code derived from Time Zone Database

for its time zone support. The ownership of the TZ database is explained

in BCP 175: Procedure for Maintaining the Time Zone Database section 7.

#### 7. Database Ownership

The TZ database itself is not an IETF Contribution or an IETF

document. Rather it is a pre-existing and regularly updated work

that is in the public domain, and is intended to remain in the public

domain. Therefore, BCPs 78 [RFC5378] and 79 [RFC3979] do not apply

to the TZ Database or contributions that individuals make to it.

Should any claims be made and substantiated against the TZ Database,

the organization that is providing the IANA Considerations defined in

this RFC, under the memorandum of understanding with the IETF,

currently ICANN, may act in accordance with all competent court

orders. No ownership claims will be made by ICANN or the IETF Trust

on the database or the code. Any person making a contribution to the database or code waives all rights to future claims in that contribution or in the TZ Database.

## TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

### 1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition,

"control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but

not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of

this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While

redistributing

the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this

License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

## TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

### 1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition,

"control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed

by, or on behalf of, the  
Licensor for the purpose of discussing and  
improving the Work, but  
excluding communication that is  
conspicuously marked or otherwise  
designated in writing by the copyright owner  
as "Not a Contribution."

"Contributor" shall mean Licensor and any  
individual or Legal Entity  
on behalf of whom a Contribution has been  
received by Licensor and  
subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms  
and conditions of  
this License, each Contributor hereby grants to  
You a perpetual,  
worldwide, non-exclusive, no-charge, royalty-  
free, irrevocable  
copyright license to reproduce, prepare  
Derivative Works of,  
publicly display, publicly perform, sublicense,  
and distribute the  
Work and such Derivative Works in Source or  
Object form.

3. Grant of Patent License. Subject to the terms  
and conditions of  
this License, each Contributor hereby grants to  
You a perpetual,  
worldwide, non-exclusive, no-charge, royalty-  
free, irrevocable  
(except as stated in this section) patent license  
to make, have made,  
use, offer to sell, sell, import, and otherwise  
transfer the Work,  
where such license applies only to those  
patent claims licensable  
by such Contributor that are necessarily  
infringed by their  
Contribution(s) alone or by combination of  
their Contribution(s)  
with the Work to which such Contribution(s)  
was submitted. If You  
institute patent litigation against any entity  
(including a  
cross-claim or counterclaim in a lawsuit)  
alleging that the Work  
or a Contribution incorporated within the Work  
constitutes direct  
or contributory patent infringement, then any  
patent licenses  
granted to You under this License for that  
Work shall terminate  
as of the date such litigation is filed.

4. Redistribution. You may reproduce and  
distribute copies of the  
Work or Derivative Works thereof in any

medium, with or without  
modifications, and in Source or Object form,  
provided that You  
meet the following conditions:

(a) You must give any other recipients of the  
Work or  
Derivative Works a copy of this License;  
and

(b) You must cause any modified files to carry  
prominent notices  
stating that You changed the files; and

(c) You must retain, in the Source form of any  
Derivative Works  
that You distribute, all copyright, patent,  
trademark, and  
attribution notices from the Source form  
of the Work,  
excluding those notices that do not  
pertain to any part of  
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as  
part of its  
distribution, then any Derivative Works  
that You distribute must  
include a readable copy of the  
attribution notices contained  
within such NOTICE file, excluding those  
notices that do not  
pertain to any part of the Derivative  
Works, in at least one  
of the following places: within a NOTICE  
text file distributed  
as part of the Derivative Works; within  
the Source form or  
documentation, if provided along with  
the Derivative Works; or,  
within a display generated by the  
Derivative Works, if and  
wherever such third-party notices  
normally appear. The contents  
of the NOTICE file are for informational  
purposes only and  
do not modify the License. You may add  
Your own attribution  
notices within Derivative Works that You  
distribute, alongside  
or as an addendum to the NOTICE text  
from the Work, provided  
that such additional attribution notices  
cannot be construed  
as modifying the License.

You may add Your own copyright statement to  
Your modifications and  
may provide additional or different license  
terms and conditions

for use, reproduction, or distribution of Your modifications, or  
for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special,

incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

The authors make NO WARRANTY or representation, either express or implied, with respect to this software, its quality, accuracy, merchantability, or fitness for a particular purpose. This software is provided "AS IS", and you, its user, assume the entire risk as to its quality and accuracy.

This software is copyright (C) 1991-1998, Thomas G. Lane.

All Rights Reserved except as specified below.

Permission is hereby granted to use, copy, modify, and distribute this software (or portions thereof) for any purpose, without fee, subject to these conditions:

- (1) If any part of the source code for this software is distributed, then this README file must be included, with this copyright and no-warranty notice unaltered; and any additions, deletions, or changes to the original files must be clearly indicated in accompanying documentation.
- (2) If only executable code is distributed, then the accompanying documentation must state that "this software is based in part on the work of the Independent JPEG Group".
- (3) Permission for use of this software is granted only if the user accepts full responsibility for any undesirable consequences; the authors accept NO LIABILITY for damages of any kind.

These conditions apply to any software derived from or based on the IJG code, not just to the unmodified library. If you use our work, you ought to acknowledge us.

Permission is NOT granted for the use of any IJG author's name or company name in advertising or publicity relating to this software or products derived from it. This software may be referred to only as "the

Independent JPEG Group's software".

We specifically permit and encourage the use of this software as the basis of commercial products, provided that all warranty or liability claims are assumed by the product vendor.

ansi2knr.c is included in this distribution by permission of L. Peter Deutsch, sole proprietor of its copyright holder, Aladdin Enterprises of Menlo Park, CA. ansi2knr.c is NOT covered by the above copyright and conditions, but instead by the usual distribution terms of the Free Software Foundation; principally, that you must include source code if you redistribute it. (See the file ansi2knr.c for full details.) However, since ansi2knr.c is not needed as part of any program generated from the IJG code, this does not limit you more than the foregoing paragraphs do.

The Unix configuration script "configure" was produced with GNU Autoconf. It is copyright by the Free Software Foundation but is freely distributable. The same holds for its supporting scripts (config.guess, config.sub, ltconfig, ltmain.sh). Another support script, install-sh, is copyright by M.I.T. but is also freely distributable.

It appears that the arithmetic coding option of the JPEG spec is covered by patents owned by IBM, AT&T, and Mitsubishi. Hence arithmetic coding cannot legally be used without obtaining one or more licenses. For this reason, support for arithmetic coding has been removed from the free JPEG software. (Since arithmetic coding provides only a marginal gain over the unpatented Huffman mode, it is unlikely that very many implementations will support it.) So far as we are aware, there are no patent restrictions on the remaining code.

The IJG distribution formerly included code to read and write GIF files. To avoid entanglement with the Unisys LZW patent, GIF reading support has been removed altogether, and the GIF writer has been simplified to produce "uncompressed GIFs". This technique does not use the LZW algorithm; the

resulting GIF files are larger than usual, but are readable by all standard GIF decoders.

We are required to state that

"The Graphics Interchange Format(c) is the Copyright property of CompuServe Incorporated. GIF(sm) is a Service Mark property of CompuServe Incorporated."

## GNU LESSER GENERAL PUBLIC LICENSE Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation,  
 Inc.

51 Franklin Street, Fifth Floor, Boston, MA  
 02110-1301 USA

Everyone is permitted to copy and distribute  
 verbatim copies  
 of this license document, but changing it is not  
 allowed.

[This is the first released version of the Lesser GPL. It  
 also counts  
 as the successor of the GNU Library Public License,  
 version 2, hence  
 the version number 2.1.]

### Preamble

The licenses for most software are designed to take  
 away your  
 freedom to share and change it. By contrast, the  
 GNU General Public  
 Licenses are intended to guarantee your freedom to  
 share and change  
 free software--to make sure the software is free for  
 all its users.

This license, the Lesser General Public License,  
 applies to some  
 specially designated software packages--typically  
 libraries--of the  
 Free Software Foundation and other authors who  
 decide to use it. You  
 can use it too, but we suggest you first think carefully  
 about whether  
 this license or the ordinary General Public License is

the better  
 strategy to use in any particular case, based on the  
 explanations below.

When we speak of free software, we are referring to  
 freedom of use,  
 not price. Our General Public Licenses are designed  
 to make sure that  
 you have the freedom to distribute copies of free  
 software (and charge  
 for this service if you wish); that you receive source  
 code or can get  
 it if you want it; that you can change the software and  
 use pieces of  
 it in new free programs; and that you are informed  
 that you can do  
 these things.

To protect your rights, we need to make restrictions  
 that forbid  
 distributors to deny you these rights or to ask you to  
 surrender these  
 rights. These restrictions translate to certain  
 responsibilities for  
 you if you distribute copies of the library or if you  
 modify it.

For example, if you distribute copies of the library,  
 whether gratis  
 or for a fee, you must give the recipients all the rights  
 that we gave  
 you. You must make sure that they, too, receive or  
 can get the source  
 code. If you link other code with the library, you  
 must provide  
 complete object files to the recipients, so that they  
 can relink them  
 with the library after making changes to the library  
 and recompiling  
 it. And you must show them these terms so they  
 know their rights.

We protect your rights with a two-step method: (1)  
 we copyright the  
 library, and (2) we offer you this license, which gives  
 you legal  
 permission to copy, distribute and/or modify the  
 library.

To protect each distributor, we want to make it very  
 clear that  
 there is no warranty for the free library. Also, if the  
 library is  
 modified by someone else and passed on, the  
 recipients should know  
 that what they have is not the original version, so that  
 the original  
 author's reputation will not be affected by problems  
 that might be  
 introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is

that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

## GNU LESSER GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software

library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and

copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees

extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the

terms of Section 6.

Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system,

rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined

library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further

restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

#### NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING

THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

#### END OF TERMS AND CONDITIONS

#### How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the library's name and a brief idea of what it does.>

Copyright (C) <year> <name of author>

This library is free software; you can redistribute it and/or

modify it under the terms of the GNU Lesser General Public

License as published by the Free Software Foundation; either

version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful,

but WITHOUT ANY WARRANTY; without even the implied warranty of

MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU

Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public

License along with this library; if not, write to the Free Software

#### Additional IP Rights Grant (Patents)

-----

"These implementations" means the copyrightable works that implement the WebM codecs distributed by Google as part of the WebM Project.

Google hereby grants to you a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, transfer, and otherwise run, modify and propagate the contents of these implementations of WebM, where such license applies only to those patent claims, both currently owned by Google and acquired in the future, licensable by Google that are necessarily infringed by these implementations of WebM. This grant does not include claims that would be infringed only as a consequence of

further modification of these implementations. If you or your agent or exclusive licensee institute or order or agree to the institution of patent litigation or any other patent enforcement activity against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that any of these implementations of WebM or any code incorporated within any of these implementations of WebM constitute direct or contributory patent infringement, or inducement of patent infringement, then any patent rights granted to you under this License for these implementations of WebM shall terminate as of the date such litigation is filed.

GNU LIBRARY GENERAL PUBLIC LICENSE  
Version 2, June 1991

Copyright (C) 1991 Free Software Foundation, Inc.  
675 Mass Ave, Cambridge,  
MA 02139, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the library GPL. It is numbered 2 because it goes with version 2 of the ordinary GPL.]

#### Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Library General Public License, applies to some specially designated Free Software Foundation software, and to any other libraries whose authors decide to use it. You can use it for your libraries, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library, or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link a program with the library, you must

provide complete object files to the recipients so that they can relink them with the library, after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

Our method of protecting your rights has two steps: (1) copyright the library, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the library.

Also, for each distributor's protection, we want to make certain that everyone understands that there is no warranty for this free library. If the library is modified by someone else and passed on, we want its recipients to know that what they have is not the original version, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that companies distributing free software will individually obtain patent licenses, thus in effect transforming the program into proprietary software. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License, which was designed for utility programs. This license, the GNU Library General Public License, applies to certain designated libraries. This license is quite different from the ordinary one; be sure to read it in full, and don't assume that anything in it is the same as in the ordinary license.

The reason we have a separate public license for some libraries is that they blur the distinction we usually make between modifying or adding to a program and simply using it. Linking a program with a library, without changing the library, is in some sense simply using the library, and is analogous to running a utility program or application

program. However, in a textual and legal sense, the linked executable is a combined work, a derivative of the original library, and the ordinary General Public License treats it as such.

Because of this blurred distinction, using the ordinary General Public License for libraries did not effectively promote software sharing, because most developers did not use the libraries. We concluded that weaker conditions might promote sharing better.

However, unrestricted linking of non-free programs would deprive the users of those programs of all benefit from the free status of the libraries themselves. This Library General Public License is intended to permit developers of non-free programs to use free libraries, while preserving your freedom as a user of such programs to change the free libraries that are incorporated in them. (We have not seen how to achieve this as regards changes in header files, but we have achieved it as regards changes in the actual functions of the Library.) The hope is that this will lead to faster development of free libraries.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, while the latter only works together with the library.

Note that it is possible for a library to be covered by the ordinary General Public License rather than by this special one.

#### GNU LIBRARY GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Library General Public License (also called "this License").

Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the

Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library,

and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a

portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline

functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also compile or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of

definitions files in the

Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

c) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

d) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise

permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to

this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted

interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Library General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

#### NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY

KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

#### END OF TERMS AND CONDITIONS

Appendix: How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the library's name and a brief idea of what it does.>

Copyright (C) <year> <name of author>

This library is free software; you can redistribute

it and/or

modify it under the terms of the GNU Library  
General Public

License as published by the Free Software  
Foundation; either

version 2 of the License, or (at your option) any  
later version.

This library is distributed in the hope that it will  
be useful,

but WITHOUT ANY WARRANTY; without even the  
implied warranty of

MERCHANTABILITY or FITNESS FOR A  
PARTICULAR PURPOSE. See the GNU

Library General Public License for more details.

You should have received a copy of the GNU  
Library General Public

License along with this library; if not, write to the  
Free

Software Foundation, Inc., 675 Mass Ave,  
Cambridge, MA 02139, USA.

Also add information on how to contact you by  
electronic and paper mail.

You should also get your employer (if you work as a  
programmer) or your

school, if any, to sign a "copyright disclaimer" for the  
library, if

necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright  
interest in the

library 'Frob' (a library for tweaking knobs) written  
by James Random Hacker.

Apache

License

Version 2.0,

January 2004

<http://www.apache.org/licenses/>

TERMS AND CONDITIONS FOR USE,  
REPRODUCTION, AND DISTRIBUTION

## 1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting

from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been

received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry

prominent notices  
stating that You changed the files; and

(c) You must retain, in the Source form of any  
Derivative Works  
that You distribute, all copyright, patent,  
trademark, and  
attribution notices from the Source form  
of the Work,  
excluding those notices that do not  
pertain to any part of  
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as  
part of its  
distribution, then any Derivative Works  
that You distribute must  
include a readable copy of the  
attribution notices contained  
within such NOTICE file, excluding those  
notices that do not  
pertain to any part of the Derivative  
Works, in at least one  
of the following places: within a NOTICE  
text file distributed  
as part of the Derivative Works; within  
the Source form or  
documentation, if provided along with  
the Derivative Works; or,  
within a display generated by the  
Derivative Works, if and  
wherever such third-party notices  
normally appear. The contents  
of the NOTICE file are for informational  
purposes only and  
do not modify the License. You may add  
Your own attribution  
notices within Derivative Works that You  
distribute, alongside  
or as an addendum to the NOTICE text  
from the Work, provided  
that such additional attribution notices  
cannot be construed  
as modifying the License.

You may add Your own copyright statement to  
Your modifications and  
may provide additional or different license  
terms and conditions  
for use, reproduction, or distribution of Your  
modifications, or  
for any such Derivative Works as a whole,  
provided Your use,  
reproduction, and distribution of the Work  
otherwise complies with  
the conditions stated in this License.

5. Submission of Contributions. Unless You  
explicitly state otherwise,  
any Contribution intentionally submitted for

inclusion in the Work  
by You to the Licensor shall be under the  
terms and conditions of  
this License, without any additional terms or  
conditions.

Notwithstanding the above, nothing herein  
shall supersede or modify  
the terms of any separate license agreement  
you may have executed  
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant  
permission to use the trade  
names, trademarks, service marks, or product  
names of the Licensor,  
except as required for reasonable and  
customary use in describing the  
origin of the Work and reproducing the  
content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by  
applicable law or  
agreed to in writing, Licensor provides the  
Work (and each  
Contributor provides its Contributions) on an  
"AS IS" BASIS,  
WITHOUT WARRANTIES OR CONDITIONS OF  
ANY KIND, either express or  
implied, including, without limitation, any  
warranties or conditions  
of TITLE, NON-INFRINGEMENT,  
MERCHANTABILITY, or FITNESS FOR A  
PARTICULAR PURPOSE. You are solely  
responsible for determining the  
appropriateness of using or redistributing the  
Work and assume any  
risks associated with Your exercise of  
permissions under this License.

8. Limitation of Liability. In no event and under no  
legal theory,  
whether in tort (including negligence),  
contract, or otherwise,  
unless required by applicable law (such as  
deliberate and grossly  
negligent acts) or agreed to in writing, shall  
any Contributor be  
liable to You for damages, including any  
direct, indirect, special,  
incidental, or consequential damages of any  
character arising as a  
result of this License or out of the use or  
inability to use the  
Work (including but not limited to damages for  
loss of goodwill,  
work stoppage, computer failure or  
malfunction, or any and all  
other commercial damages or losses), even if  
such Contributor  
has been advised of the possibility of such

damages.

9. Accepting Warranty or Additional Liability. While redistributing

the Work or Derivative Works thereof, You may choose to offer,

and charge a fee for, acceptance of support, warranty, indemnity,

or other liability obligations and/or rights consistent with this

License. However, in accepting such obligations, You may act only

on Your own behalf and on Your sole responsibility, not on behalf

of any other Contributor, and only if You agree to indemnify,

defend, and hold each Contributor harmless for any liability

incurred by, or claims asserted against, such Contributor by reason

of your accepting any such warranty or additional liability.

## END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following

boilerplate notice, with the fields enclosed by brackets "[ ]"

replaced with your own identifying information. (Don't include

the brackets!) The text should be enclosed in the appropriate

comment syntax for the file format. We also recommend that a

file or class name and description of purpose be included on the

same "printed page" as the copyright notice for easier

identification within third-party archives.

## TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

### 1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or

Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable

copyright license to reproduce, prepare  
Derivative Works of,  
publicly display, publicly perform, sublicense,  
and distribute the

Work and such Derivative Works in Source or  
Object form.

3. Grant of Patent License. Subject to the terms  
and conditions of  
this License, each Contributor hereby grants to  
You a perpetual,  
worldwide, non-exclusive, no-charge, royalty-  
free, irrevocable  
(except as stated in this section) patent license  
to make, have made,  
use, offer to sell, sell, import, and otherwise  
transfer the Work,  
where such license applies only to those  
patent claims licensable  
by such Contributor that are necessarily  
infringed by their  
Contribution(s) alone or by combination of  
their Contribution(s)  
with the Work to which such Contribution(s)  
was submitted. If You  
institute patent litigation against any entity  
(including a  
cross-claim or counterclaim in a lawsuit)  
alleging that the Work  
or a Contribution incorporated within the Work  
constitutes direct  
or contributory patent infringement, then any  
patent licenses  
granted to You under this License for that  
Work shall terminate  
as of the date such litigation is filed.

4. Redistribution. You may reproduce and  
distribute copies of the  
Work or Derivative Works thereof in any  
medium, with or without  
modifications, and in Source or Object form,  
provided that You  
meet the following conditions:

(a) You must give any other recipients of the  
Work or  
Derivative Works a copy of this License;  
and

(b) You must cause any modified files to carry  
prominent notices  
stating that You changed the files; and

(c) You must retain, in the Source form of any  
Derivative Works  
that You distribute, all copyright, patent,  
trademark, and  
attribution notices from the Source form  
of the Work,

excluding those notices that do not  
pertain to any part of  
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as  
part of its  
distribution, then any Derivative Works  
that You distribute must  
include a readable copy of the  
attribution notices contained  
within such NOTICE file, excluding those  
notices that do not  
pertain to any part of the Derivative  
Works, in at least one  
of the following places: within a NOTICE  
text file distributed  
as part of the Derivative Works; within  
the Source form or  
documentation, if provided along with  
the Derivative Works; or,  
within a display generated by the  
Derivative Works, if and  
wherever such third-party notices  
normally appear. The contents  
of the NOTICE file are for informational  
purposes only and  
do not modify the License. You may add  
Your own attribution  
notices within Derivative Works that You  
distribute, alongside  
or as an addendum to the NOTICE text  
from the Work, provided  
that such additional attribution notices  
cannot be construed  
as modifying the License.

You may add Your own copyright statement to  
Your modifications and  
may provide additional or different license  
terms and conditions  
for use, reproduction, or distribution of Your  
modifications, or  
for any such Derivative Works as a whole,  
provided Your use,  
reproduction, and distribution of the Work  
otherwise complies with  
the conditions stated in this License.

5. Submission of Contributions. Unless You  
explicitly state otherwise,  
any Contribution intentionally submitted for  
inclusion in the Work  
by You to the Licensor shall be under the  
terms and conditions of  
this License, without any additional terms or  
conditions.

Notwithstanding the above, nothing herein  
shall supersede or modify  
the terms of any separate license agreement  
you may have executed

with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights

consistent with this

License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

## Unlimited Commercial Use

We try to make it clear that you may use all clipart from Openclipart even for unlimited commercial use. We believe that giving away our images is a great way to share with the world our talents and that will come back around in a better form.

## May I Use Openclipart for?

We put together a small chart of as many possibilities and questions we have heard from people asking how they may use Openclipart. If you have an additional question, please email [love@openclipart.org](mailto:love@openclipart.org).

All Clipart are Released into the Public Domain. Each artist at Openclipart releases all rights to the images they share at Openclipart. The reason is so that there is no friction in using and sharing images authors make available at this website so that each artist might also receive the same benefit in using other artists clipart totally for any possible reason.

## TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

### 1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition,

"control" means (i) the power, direct or indirect, to cause the direction or management of such entity,

whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or

written communication sent  
to the Licensor or its representatives, including  
but not limited to  
communication on electronic mailing lists,  
source code control systems,  
and issue tracking systems that are managed  
by, or on behalf of, the  
Licensor for the purpose of discussing and  
improving the Work, but  
excluding communication that is  
conspicuously marked or otherwise  
designated in writing by the copyright owner  
as "Not a Contribution."

"Contributor" shall mean Licensor and any  
individual or Legal Entity  
on behalf of whom a Contribution has been  
received by Licensor and  
subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms  
and conditions of  
this License, each Contributor hereby grants to  
You a perpetual,  
worldwide, non-exclusive, no-charge, royalty-  
free, irrevocable  
copyright license to reproduce, prepare  
Derivative Works of,  
publicly display, publicly perform, sublicense,  
and distribute the  
Work and such Derivative Works in Source or  
Object form.

3. Grant of Patent License. Subject to the terms  
and conditions of  
this License, each Contributor hereby grants to  
You a perpetual,  
worldwide, non-exclusive, no-charge, royalty-  
free, irrevocable  
(except as stated in this section) patent license  
to make, have made,  
use, offer to sell, sell, import, and otherwise  
transfer the Work,  
where such license applies only to those  
patent claims licensable  
by such Contributor that are necessarily  
infringed by their  
Contribution(s) alone or by combination of  
their Contribution(s)  
with the Work to which such Contribution(s)  
was submitted. If You  
institute patent litigation against any entity  
(including a  
cross-claim or counterclaim in a lawsuit)  
alleging that the Work  
or a Contribution incorporated within the Work  
constitutes direct  
or contributory patent infringement, then any  
patent licenses  
granted to You under this License for that

Work shall terminate  
as of the date such litigation is filed.

4. Redistribution. You may reproduce and  
distribute copies of the  
Work or Derivative Works thereof in any  
medium, with or without  
modifications, and in Source or Object form,  
provided that You  
meet the following conditions:

(a) You must give any other recipients of the  
Work or  
Derivative Works a copy of this License;  
and

(b) You must cause any modified files to carry  
prominent notices  
stating that You changed the files; and

(c) You must retain, in the Source form of any  
Derivative Works  
that You distribute, all copyright, patent,  
trademark, and  
attribution notices from the Source form  
of the Work,  
excluding those notices that do not  
pertain to any part of  
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as  
part of its  
distribution, then any Derivative Works  
that You distribute must  
include a readable copy of the  
attribution notices contained  
within such NOTICE file, excluding those  
notices that do not  
pertain to any part of the Derivative  
Works, in at least one  
of the following places: within a NOTICE  
text file distributed  
as part of the Derivative Works; within  
the Source form or  
documentation, if provided along with  
the Derivative Works; or,  
within a display generated by the  
Derivative Works, if and  
wherever such third-party notices  
normally appear. The contents  
of the NOTICE file are for informational  
purposes only and  
do not modify the License. You may add  
Your own attribution  
notices within Derivative Works that You  
distribute, alongside  
or as an addendum to the NOTICE text  
from the Work, provided

as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise,

unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

## END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[ ]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

GNU GENERAL PUBLIC  
LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation,  
Inc.,  
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301

USA

Everyone is permitted to copy and distribute  
verbatim copies  
of this license document, but changing it is not  
allowed.

## Preamble

The licenses for most software are designed to take  
away your  
freedom to share and change it. By contrast, the  
GNU General Public  
License is intended to guarantee your freedom to  
share and change free  
software--to make sure the software is free for all its  
users. This  
General Public License applies to most of the Free  
Software  
Foundation's software and to any other program  
whose authors commit to  
using it. (Some other Free Software Foundation  
software is covered by  
the GNU Lesser General Public License instead.) You  
can apply it to  
your programs, too.

When we speak of free software, we are referring to  
freedom, not  
price. Our General Public Licenses are designed to  
make sure that you  
have the freedom to distribute copies of free software  
(and charge for  
this service if you wish), that you receive source code  
or can get it  
if you want it, that you can change the software or  
use pieces of it  
in new free programs; and that you know you can do  
these things.

To protect your rights, we need to make restrictions  
that forbid  
anyone to deny you these rights or to ask you to  
surrender the rights.  
These restrictions translate to certain responsibilities  
for you if you  
distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a  
program, whether  
gratis or for a fee, you must give the recipients all the  
rights that  
you have. You must make sure that they, too,  
receive or can get the  
source code. And you must show them these terms  
so they know their  
rights.

We protect your rights with two steps: (1) copyright  
the software, and  
(2) offer you this license which gives you legal

permission to copy,  
distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

## GNU GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program

is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under

these conditions, and telling the user how to view a copy of this

License. (Exception: if the Program itself is interactive but

does not normally print such an announcement, your work based on

the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three

years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights,

from you under  
this License will not have their licenses terminated so  
long as such  
parties remain in full compliance.

5. You are not required to accept this License, since  
you have not  
signed it. However, nothing else grants you  
permission to modify or  
distribute the Program or its derivative works. These  
actions are  
prohibited by law if you do not accept this License.  
Therefore, by  
modifying or distributing the Program (or any work  
based on the  
Program), you indicate your acceptance of this  
License to do so, and  
all its terms and conditions for copying, distributing or  
modifying  
the Program or works based on it.

6. Each time you redistribute the Program (or any  
work based on the  
Program), the recipient automatically receives a  
license from the  
original licensor to copy, distribute or modify the  
Program subject to  
these terms and conditions. You may not impose  
any further  
restrictions on the recipients' exercise of the rights  
granted herein.  
You are not responsible for enforcing compliance by  
third parties to  
this License.

7. If, as a consequence of a court judgment or  
allegation of patent  
infringement or for any other reason (not limited to  
patent issues),  
conditions are imposed on you (whether by court  
order, agreement or  
otherwise) that contradict the conditions of this  
License, they do not  
excuse you from the conditions of this License. If  
you cannot  
distribute so as to satisfy simultaneously your  
obligations under this  
License and any other pertinent obligations, then as a  
consequence you  
may not distribute the Program at all. For example, if  
a patent  
license would not permit royalty-free redistribution of  
the Program by  
all those who receive copies directly or indirectly  
through you, then  
the only way you could satisfy both it and this  
License would be to  
refrain entirely from distribution of the Program.

If any portion of this section is held invalid or

unenforceable under  
any particular circumstance, the balance of the  
section is intended to  
apply and the section as a whole is intended to apply  
in other  
circumstances.

It is not the purpose of this section to induce you to  
infringe any  
patents or other property right claims or to contest  
validity of any  
such claims; this section has the sole purpose of  
protecting the  
integrity of the free software distribution system,  
which is  
implemented by public license practices. Many  
people have made  
generous contributions to the wide range of software  
distributed  
through that system in reliance on consistent  
application of that  
system; it is up to the author/donor to decide if he or  
she is willing  
to distribute software through any other system and a  
licensee cannot  
impose that choice.

This section is intended to make thoroughly clear  
what is believed to  
be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is  
restricted in  
certain countries either by patents or by copyrighted  
interfaces, the  
original copyright holder who places the Program  
under this License  
may add an explicit geographical distribution  
limitation excluding  
those countries, so that distribution is permitted only  
in or among  
countries not thus excluded. In such case, this  
License incorporates  
the limitation as if written in the body of this License.

9. The Free Software Foundation may publish  
revised and/or new versions  
of the General Public License from time to time.  
Such new versions will  
be similar in spirit to the present version, but may  
differ in detail to  
address new problems or concerns.

Each version is given a distinguishing version  
number. If the Program  
specifies a version number of this License which  
applies to it and "any  
later version", you have the option of following the  
terms and conditions  
either of that version or of any later version published

by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

#### NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

#### END OF TERMS AND CONDITIONS

##### How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>

Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year  
name of author

Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type 'show w'.

This is free software, and you are welcome to redistribute it

under certain conditions; type 'show c' for details.

The hypothetical commands 'show w' and 'show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than 'show w' and 'show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program  
'Gnomovision' (which makes passes at compilers)  
written by James Hacker.

<signature of Ty Coon>, 1 April 1989  
Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License.

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation,  
Inc.

51 Franklin Street, Fifth Floor, Boston, MA

Everyone is permitted to copy and distribute verbatim  
copies

of this license document, but changing it is not  
allowed.

Preamble

The licenses for most software are designed to take  
away your freedom to share and change it. By

contrast, the GNU General Public License is intended

to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it.

(Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it. For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations. Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

#### TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term

"modification".) Each licensee is addressed as "you". Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their

licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder

who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

#### NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER

PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

#### Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below. When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it. For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we

copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library.

Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs. When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library. We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that

the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library. The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

#### TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or

work under the terms of Section 1 above, provided that you also meet all of these conditions:

☒a) The modified work must itself be a software library.

☒b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

☒c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

☒d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.) These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU

General Public License applies to all subsequent copies and derivative works made from that copy. This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work.

(Executables containing this object code plus portions of the Library will still fall under Section 6.) Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such

modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

☒a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

☒b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

☒c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

☒d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

☒e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

☒a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

☒b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

#### NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY

"AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

## TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

### 1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1

through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by

name) to the interfaces of,  
the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including  
the original version of the Work and any modifications or additions  
to that Work or Derivative Works thereof, that is intentionally  
submitted to Licensor for inclusion in the Work by the copyright owner  
or by an individual or Legal Entity authorized to submit on behalf of  
the copyright owner. For the purposes of this definition, "submitted"  
means any form of electronic, verbal, or written communication sent  
to the Licensor or its representatives, including but not limited to  
communication on electronic mailing lists, source code control systems,  
and issue tracking systems that are managed by, or on behalf of, the  
Licensor for the purpose of discussing and improving the Work, but  
excluding communication that is conspicuously marked or otherwise  
designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity  
on behalf of whom a Contribution has been received by Licensor and  
subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of  
this License, each Contributor hereby grants to You a perpetual,  
worldwide, non-exclusive, no-charge, royalty-free, irrevocable  
copyright license to reproduce, prepare Derivative Works of,  
publicly display, publicly perform, sublicense, and distribute the  
Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of  
this License, each Contributor hereby grants to You a perpetual,  
worldwide, non-exclusive, no-charge, royalty-free, irrevocable  
(except as stated in this section) patent license to make, have made,  
use, offer to sell, sell, import, and otherwise transfer the Work,  
where such license applies only to those

patent claims licensable  
by such Contributor that are necessarily infringed by their  
Contribution(s) alone or by combination of their Contribution(s)  
with the Work to which such Contribution(s) was submitted. If You  
institute patent litigation against any entity (including a  
cross-claim or counterclaim in a lawsuit) alleging that the Work  
or a Contribution incorporated within the Work constitutes direct  
or contributory patent infringement, then any patent licenses  
granted to You under this License for that Work shall terminate  
as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the  
Work or Derivative Works thereof in any medium, with or without  
modifications, and in Source or Object form, provided that You  
meet the following conditions:

(a) You must give any other recipients of the Work or  
Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices  
stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works  
that You distribute, all copyright, patent, trademark, and  
attribution notices from the Source form of the Work,  
excluding those notices that do not pertain to any part of  
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its  
distribution, then any Derivative Works that You distribute must  
include a readable copy of the attribution notices contained  
within such NOTICE file, excluding those notices that do not  
pertain to any part of the Derivative Works, in at least one  
of the following places: within a NOTICE text file distributed  
as part of the Derivative Works; within the Source form or

documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF

ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work,  
attach the following  
boilerplate notice, with the fields enclosed by  
brackets "[ ]"  
replaced with your own identifying  
information. (Don't include  
the brackets!) The text should be enclosed in  
the appropriate  
comment syntax for the file format. We also  
recommend that a  
file or class name and description of purpose  
be included on the  
same "printed page" as the copyright notice  
for easier  
identification within third-party archives.

Introduction  
=====

The FreeType Project is distributed in several archive packages; some of them may contain, in addition to the FreeType font engine, various tools and contributions which rely on, or relate to, the FreeType Project.

This license applies to all files found in such packages, and which do not fall under their own explicit license. The license affects thus the FreeType font engine, the test programs, documentation and makefiles, at the very least.

This license was inspired by the BSD,

Artistic, and IJG (Independent JPEG Group) licenses, which all encourage inclusion and use of free software in commercial and freeware products alike. As a consequence, its main points are that:

- o We don't promise that this software works. However, we will be interested in any kind of bug reports. ('as is' distribution)

- o You can use this software for whatever you want, in parts or full form, without having to pay us. ('royalty-free' usage)

- o You may not pretend that you wrote this software. If you use it, or only parts of it, in a program, you must acknowledge somewhere in your documentation that you have used the FreeType code. ('credits')

We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products. We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project.

Finally, many people asked us for a preferred form for a credit/disclaimer to use in compliance with this license. We thus encourage you to use the following text:

```
""""
Portions of this software are copyright ©<year>
The FreeType
Project (www.freetype.org). All rights reserved.
""""
```

Please replace <year> with the value from the FreeType version you actually use.

## Legal Terms

=====

### 0. Definitions

-----

Throughout this license, the terms 'package', 'FreeType Project', and 'FreeType archive' refer to the set of

files originally distributed by the authors (David Turner, Robert Wilhelm, and Werner Lemberg) as the 'FreeType Project', be they named as alpha, beta or final release.

'You' refers to the licensee, or person using the project, where 'using' is a generic term including compiling the project's source code as well as linking it to form a 'program' or 'executable'. This program is referred to as 'a program using the FreeType engine'.

This license applies to all files distributed in the original FreeType Project, including all source code, binaries and documentation, unless otherwise stated in the file in its original, unmodified form as distributed in the original archive. If you are unsure whether or not a particular file is covered by this license, you must contact us to verify this.

The FreeType Project is copyright (C) 1996-2000 by David Turner, Robert Wilhelm, and Werner Lemberg. All rights reserved except as specified below.

### 1. No Warranty

-----

THE FREETYPE PROJECT IS PROVIDED 'AS IS' WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL ANY OF THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY DAMAGES CAUSED BY THE USE OR THE INABILITY TO USE, OF THE FREETYPE PROJECT.

### 2. Redistribution

-----

This license grants a worldwide, royalty-free, perpetual and irrevocable right and license to use, execute, perform, compile, display, copy, create derivative works of, distribute and sublicense the FreeType Project (in both source

and object code forms) and derivative works thereof for any purpose; and to authorize others to exercise some or all of the rights granted herein, subject to the following conditions:

- o Redistribution of source code must retain this license file ('FTL.TXT') unaltered; any additions, deletions or changes to the original files must be clearly indicated in accompanying documentation. The copyright notices of the unaltered, original files must be preserved in all copies of source files.

- o Redistribution in binary form must provide a disclaimer that states that the software is based in part of the work of the FreeType Team, in the distribution documentation. We also encourage you to put an URL to the FreeType web page in your documentation, though this isn't mandatory.

These conditions apply to any software derived from or based on the FreeType Project, not just the unmodified files. If you use our work, you must acknowledge us. However, no fee need be paid to us.

### 3. Advertising

-----

Neither the FreeType authors and contributors nor you shall use the name of the other for commercial, advertising, or promotional purposes without specific prior written permission.

We suggest, but do not require, that you use one or more of the following phrases to refer to this software in your documentation or advertising materials: 'FreeType Project', 'FreeType Engine', 'FreeType library', or 'FreeType Distribution'.

As you have not signed this license, you are not required to accept it. However, as the FreeType Project is copyrighted material, only this license, or another one contracted with the

authors, grants you the right to use, distribute, and modify it.

Therefore, by using, distributing, or modifying the FreeType

Project, you indicate that you understand and accept all the terms of this license.

### 4. Contacts

-----

There are two mailing lists related to FreeType:

- o freetype@nongnu.org

Discusses general use and applications of FreeType, as well as

future and wanted additions to the library and distribution.

If you are looking for support, start in this list if you

haven't found anything to help you in the documentation.

- o freetype-devel@nongnu.org

Discusses bugs, as well as engine internals, design issues, specific licenses, porting, etc.

Version 1.1

### 1. Definitions.

1.0.1. "Commercial Use" means distribution or otherwise making the Covered Code available to a third party.

1.1. "Contributor" means each entity that creates or contributes to the creation of Modifications.

1.2. "Contributor Version" means the combination of the Original Code, prior Modifications used by a Contributor, and the Modifications

made by that particular Contributor.

1.3. "Covered Code" means the Original Code or Modifications or the combination of the Original Code and Modifications, in each case including portions thereof.

1.4. "Electronic Distribution Mechanism" means a mechanism generally accepted in the software development community for the electronic transfer of data.

1.5. "Executable" means Covered Code in any form other than Source Code.

1.6. "Initial Developer" means the individual or entity identified as the Initial Developer in the Source Code notice required by Exhibit A.

1.7. "Larger Work" means a work which combines Covered Code or portions thereof with code not governed by the terms of this License.

1.8. "License" means this document.

1.8.1. "Licensable" means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently acquired, any and all of the rights conveyed herein.

1.9. "Modifications" means any addition to or deletion from the substance or structure of either the Original Code or any previous Modifications. When Covered Code is released as a series of files, a Modification is:

A. Any addition to or deletion from the contents of a file containing Original Code or previous Modifications.

B. Any new file that contains any part of the Original Code or previous Modifications.

1.10. "Original Code" means Source Code of computer software code which is described in the Source Code notice required by Exhibit A as Original Code, and which, at the time of its release under this

License is not already Covered Code governed by this License.

1.10.1. "Patent Claims" means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor.

1.11. "Source Code" means the preferred form of the Covered Code for making modifications to it, including all modules it contains, plus any associated interface definition files, scripts used to control compilation and installation of an Executable, or source code differential comparisons against either the Original Code or another well known, available Covered Code of the Contributor's choice. The Source Code can be in a compressed or archival form, provided the appropriate decompression or de-archiving software is widely available for no charge.

1.12. "You" (or "Your") means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License or a future version of this License issued under Section 6.1. For legal entities, "You" includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, "control" means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

## 2. Source Code License.

2.1. The Initial Developer Grant.  
The Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license, subject to third party intellectual property claims:

(a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer to use, reproduce,

modify, display, perform, sublicense and distribute the Original Code (or portions thereof) with or without Modifications, and/or as part of a Larger Work; and

(b) under Patents Claims infringed by the making, using or selling of Original Code, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Code (or portions thereof).

(c) the licenses granted in this Section 2.1(a) and (b) are effective on the date Initial Developer first distributes Original Code under the terms of this License.

(d) Notwithstanding Section 2.1(b) above, no patent license is granted: 1) for code that You delete from the Original Code; 2) separate from the Original Code; or 3) for infringements caused by: i) the modification of the Original Code or ii) the combination of the Original Code with other software or devices.

## 2.2. Contributor Grant.

Subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license

(a) under intellectual property rights (other than patent or trademark) Licensable by Contributor, to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof) either on an unmodified basis, with other Modifications, as Covered Code and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor Version (or portions of such combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of: 1) Modifications made by that

Contributor (or portions thereof); and 2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination).

(c) the licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first makes Commercial Use of the Covered Code.

(d) Notwithstanding Section 2.2(b) above, no patent license is granted: 1) for any code that Contributor has deleted from the Contributor Version; 2) separate from the Contributor Version; 3) for infringements caused by: i) third party modifications of Contributor Version or ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or 4) under Patent Claims infringed by Covered Code in the absence of Modifications made by that Contributor.

## 3. Distribution Obligations.

### 3.1. Application of License.

The Modifications which You create or to which You contribute are governed by the terms of this License, including without limitation Section 2.2. The Source Code version of Covered Code may be distributed only under the terms of this License or a future version of this License released under Section 6.1, and You must include a copy of this License with every copy of the Source Code You distribute. You may not offer or impose any terms on any Source Code version that alters or restricts the applicable version of this License or the recipients' rights hereunder. However, You may include an additional document offering the additional rights described in Section 3.5.

### 3.2. Availability of Source Code.

Any Modification which You create or to which You contribute must be made available in Source Code form under the

terms of this License

either on the same media as an Executable version or via an accepted

Electronic Distribution Mechanism to anyone to whom you made an

Executable version available; and if made available via Electronic

Distribution Mechanism, must remain available for at least twelve (12)

months after the date it initially became available, or at least six

(6) months after a subsequent version of that particular Modification

has been made available to such recipients.

You are responsible for

ensuring that the Source Code version remains available even if the

Electronic Distribution Mechanism is maintained by a third party.

### 3.3. Description of Modifications.

You must cause all Covered Code to which You contribute to contain a

file documenting the changes You made to create that Covered Code and

the date of any change. You must include a prominent statement that

the Modification is derived, directly or indirectly, from Original

Code provided by the Initial Developer and including the name of the

Initial Developer in (a) the Source Code, and (b) in any notice in an

Executable version or related documentation in which You describe the

origin or ownership of the Covered Code.

### 3.4. Intellectual Property Matters

#### (a) Third Party Claims.

If Contributor has knowledge that a license under a third party's

intellectual property rights is required to exercise the rights

granted by such Contributor under Sections 2.1 or 2.2,

Contributor must include a text file with the Source Code

distribution titled "LEGAL" which describes the claim and the

party making the claim in sufficient detail that a recipient will

know whom to contact. If Contributor obtains such knowledge after

the Modification is made available as described in Section 3.2,

Contributor shall promptly modify the LEGAL file in all copies

Contributor makes available thereafter and shall take other steps

(such as notifying appropriate mailing

lists or newsgroups)

reasonably calculated to inform those who received the Covered

Code that new knowledge has been obtained.

#### (b) Contributor APIs.

If Contributor's Modifications include an application programming

interface and Contributor has knowledge of patent licenses which

are reasonably necessary to implement that API, Contributor must

also include this information in the LEGAL file.

#### (c) Representations.

Contributor represents that, except as disclosed pursuant to

Section 3.4(a) above, Contributor believes that Contributor's

Modifications are Contributor's original creation(s) and/or

Contributor has sufficient rights to grant the rights conveyed by

this License.

### 3.5. Required Notices.

You must duplicate the notice in Exhibit A in each file of the Source

Code. If it is not possible to put such notice in a particular Source

Code file due to its structure, then You must include such notice in a

location (such as a relevant directory) where a user would be likely

to look for such a notice. If You created one or more Modification(s)

You may add your name as a Contributor to the notice described in

Exhibit A. You must also duplicate this License in any documentation

for the Source Code where You describe recipients' rights or ownership

rights relating to Covered Code. You may choose to offer, and to

charge a fee for, warranty, support, indemnity or liability

obligations to one or more recipients of Covered Code. However, You

may do so only on Your own behalf, and not on behalf of the Initial

Developer or any Contributor. You must make it absolutely clear than

any such warranty, support, indemnity or liability obligation is

offered by You alone, and You hereby agree to indemnify the Initial

Developer and every Contributor for any liability incurred by the

Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer.

### 3.6. Distribution of Executable Versions.

You may distribute Covered Code in Executable form only if the

requirements of Section 3.1-3.5 have been met for that Covered Code,

and if You include a notice stating that the Source Code version of

the Covered Code is available under the terms of this License,

including a description of how and where You have fulfilled the

obligations of Section 3.2. The notice must be conspicuously included

in any notice in an Executable version, related documentation or

collateral in which You describe recipients' rights relating to the

Covered Code. You may distribute the Executable version of Covered

Code or ownership rights under a license of Your choice, which may

contain terms different from this License, provided that You are in

compliance with the terms of this License and that the license for the

Executable version does not attempt to limit or alter the recipient's

rights in the Source Code version from the rights set forth in this

License. If You distribute the Executable version under a different

license You must make it absolutely clear that any terms which differ

from this License are offered by You alone, not by the Initial

Developer or any Contributor. You hereby agree to indemnify the

Initial Developer and every Contributor for any liability incurred by

the Initial Developer or such Contributor as a result of any such

terms You offer.

### 3.7. Larger Works.

You may create a Larger Work by combining Covered Code with other code

not governed by the terms of this License and distribute the Larger

Work as a single product. In such a case, You must make sure the

requirements of this License are fulfilled for the Covered Code.

## 4. Inability to Comply Due to Statute or Regulation.

If it is impossible for You to comply with any of

the terms of this

License with respect to some or all of the Covered Code due to

statute, judicial order, or regulation then You must: (a) comply with

the terms of this License to the maximum extent possible; and (b)

describe the limitations and the code they affect. Such description

must be included in the LEGAL file described in Section 3.4 and must

be included with all distributions of the Source Code. Except to the

extent prohibited by statute or regulation, such description must be

sufficiently detailed for a recipient of ordinary skill to be able to

understand it.

## 5. Application of this License.

This License applies to code to which the Initial Developer has

attached the notice in Exhibit A and to related Covered Code.

## 6. Versions of the License.

### 6.1. New Versions.

Netscape Communications Corporation

("Netscape") may publish revised

and/or new versions of the License from time to time. Each version

will be given a distinguishing version number.

### 6.2. Effect of New Versions.

Once Covered Code has been published under a particular version of the

License, You may always continue to use it under the terms of that

version. You may also choose to use such Covered Code under the terms

of any subsequent version of the License published by Netscape. No one

other than Netscape has the right to modify the terms applicable to

Covered Code created under this License.

### 6.3. Derivative Works.

If You create or use a modified version of this License (which you may

only do in order to apply it to code which is not already Covered Code

governed by this License), You must (a) rename Your license so that

the phrases "Mozilla", "MOZILLAPL", "MOZPL", "Netscape",

"MPL", "NPL" or any confusingly similar phrase do not appear in your

license (except to note that your license differs

from this License)  
and (b) otherwise make it clear that Your  
version of the license  
contains terms which differ from the Mozilla  
Public License and  
Netscape Public License. (Filling in the name of  
the Initial  
Developer, Original Code or Contributor in the  
notice described in  
Exhibit A shall not of themselves be deemed to  
be modifications of  
this License.)

## 7. DISCLAIMER OF WARRANTY.

COVERED CODE IS PROVIDED UNDER THIS  
LICENSE ON AN "AS IS" BASIS,  
WITHOUT WARRANTY OF ANY KIND, EITHER  
EXPRESSED OR IMPLIED, INCLUDING,  
WITHOUT LIMITATION, WARRANTIES THAT  
THE COVERED CODE IS FREE OF  
DEFECTS, MERCHANTABLE, FIT FOR A  
PARTICULAR PURPOSE OR NON-INFRINGEMENT.  
THE ENTIRE RISK AS TO THE QUALITY AND  
PERFORMANCE OF THE COVERED CODE  
IS WITH YOU. SHOULD ANY COVERED CODE  
PROVE DEFECTIVE IN ANY RESPECT,  
YOU (NOT THE INITIAL DEVELOPER OR ANY  
OTHER CONTRIBUTOR) ASSUME THE  
COST OF ANY NECESSARY SERVICING, REPAIR  
OR CORRECTION. THIS DISCLAIMER  
OF WARRANTY CONSTITUTES AN ESSENTIAL  
PART OF THIS LICENSE. NO USE OF  
ANY COVERED CODE IS AUTHORIZED  
HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

## 8. TERMINATION.

8.1. This License and the rights granted  
hereunder will terminate  
automatically if You fail to comply with terms  
herein and fail to cure  
such breach within 30 days of becoming aware  
of the breach. All  
sublicenses to the Covered Code which are  
properly granted shall  
survive any termination of this License.  
Provisions which, by their  
nature, must remain in effect beyond the  
termination of this License  
shall survive.

8.2. If You initiate litigation by asserting a  
patent infringement  
claim (excluding declaratory judgment actions)  
against Initial Developer  
or a Contributor (the Initial Developer or  
Contributor against whom  
You file such action is referred to as  
"Participant") alleging that:

(a) such Participant's Contributor Version  
directly or indirectly  
infringes any patent, then any and all rights  
granted by such  
Participant to You under Sections 2.1 and/or 2.2  
of this License  
shall, upon 60 days notice from Participant  
terminate prospectively,  
unless if within 60 days after receipt of notice  
You either: (i)  
agree in writing to pay Participant a mutually  
agreeable reasonable  
royalty for Your past and future use of  
Modifications made by such  
Participant, or (ii) withdraw Your litigation claim  
with respect to  
the Contributor Version against such  
Participant. If within 60 days  
of notice, a reasonable royalty and payment  
arrangement are not  
mutually agreed upon in writing by the parties  
or the litigation claim  
is not withdrawn, the rights granted by  
Participant to You under  
Sections 2.1 and/or 2.2 automatically terminate  
at the expiration of  
the 60 day notice period specified above.

(b) any software, hardware, or device, other  
than such Participant's  
Contributor Version, directly or indirectly  
infringes any patent, then  
any rights granted to You by such Participant  
under Sections 2.1(b)  
and 2.2(b) are revoked effective as of the date  
You first made, used,  
sold, distributed, or had made, Modifications  
made by that  
Participant.

8.3. If You assert a patent infringement claim  
against Participant  
alleging that such Participant's Contributor  
Version directly or  
indirectly infringes any patent where such claim  
is resolved (such as  
by license or settlement) prior to the initiation of  
patent  
infringement litigation, then the reasonable  
value of the licenses  
granted by such Participant under Sections 2.1  
or 2.2 shall be taken  
into account in determining the amount or  
value of any payment or  
license.

8.4. In the event of termination under Sections  
8.1 or 8.2 above,  
all end user license agreements (excluding  
distributors and resellers)

which have been validly granted by You or any distributor hereunder prior to termination shall survive termination.

#### 9. LIMITATION OF LIABILITY.

UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED CODE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU.

#### 10. U.S. GOVERNMENT END USERS.

The Covered Code is a "commercial item," as that term is defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer software" and "commercial computer software documentation," as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Code with only those rights set forth herein.

#### 11. MISCELLANEOUS.

This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License

shall be governed by

California law provisions (except to the extent applicable law, if any, provides otherwise), excluding its conflict-of-law provisions.

With respect to disputes in which at least one party is a citizen of,

or an entity chartered or registered to do business in the United

States of America, any litigation relating to this License shall be

subject to the jurisdiction of the Federal Courts of the Northern

District of California, with venue lying in Santa Clara County,

California, with the losing party responsible for costs, including

without limitation, court costs and reasonable attorneys' fees and

expenses. The application of the United Nations Convention on

Contracts for the International Sale of Goods is expressly excluded.

Any law or regulation which provides that the language of a contract

shall be construed against the drafter shall not apply to this

License.

#### 12. RESPONSIBILITY FOR CLAIMS.

As between Initial Developer and the Contributors, each party is

responsible for claims and damages arising, directly or indirectly,

out of its utilization of rights under this License and You agree to

work with Initial Developer and Contributors to distribute such

responsibility on an equitable basis. Nothing herein is intended or

shall be deemed to constitute any admission of liability.

#### 13. MULTIPLE-LICENSED CODE.

Initial Developer may designate portions of the Covered Code as

"Multiple-Licensed". "Multiple-Licensed" means that the Initial

Developer permits you to utilize portions of the Covered Code under

Your choice of the NPL or the alternative licenses, if any, specified

by the Initial Developer in the file described in Exhibit A.

# Hjælp og support

## 13.1

### Fejlfinding

#### Tænd og fjernbetjening

##### TV'et tænder ikke

- Tag strømkablet ud af stikkontakten. Vent et minut, og sæt det derefter i igen.
- Sørg for, at strømledningen sidder ordentligt i stikket.

##### Knirkende lyd ved tænd og sluk

Når du tænder, slukker eller sætter TV'et på standby, kan du høre en knirkende lyd fra TV-kabinettet. Den knirkende lyd forårsages af normal udvidelse og sammentrækning af TV'et, når det køler af og varmer op. Dette påvirker ikke ydeevnen.

##### TV'et reagerer ikke, når jeg anvender fjernbetjeningen.

TV'et bruger noget tid på at starte op. I det tidsrum reagerer TV'et ikke på fjernbetjeningen eller TV-betjeningsknapperne. Dette er normalt. Hvis TV'et fortsætter med ikke at reagere på fjernbetjeningen, kan du kontrollere, om fjernbetjeningen virker ved hjælp af et mobiltelefonkamera. Sæt telefonen i kameratilstand og lad fjernbetjeningen pege mod kameraobjektivet. Hvis du trykker på en vilkårlig tast på fjernbetjeningen, og du ser den infrarøde LED flimre gennem kameraet, så virker fjernbetjeningen. TV'et skal efterses. Hvis du ikke ser en flimren, kan fjernbetjeningen være i stykker, eller dens batterier er afladet. Denne metode til kontrol af fjernbetjeningen er ikke mulig med fjernbetjeningen, der er parret trådløst med TV'et.

##### TV'et vender tilbage til standby, efter det har vist Philips-opstartsskærbilledet

Når TV'et er på standby, vises et Philips-opstartsskærbillede, og TV'et vender tilbage til standbytilstand. Dette er normalt. Når TV'et har været frakoblet strømmen og tilsluttes til strømforsyningen igen, vises opstartsskærbilledet, næste gang TV'et startes op. Tryk på **⏻** på fjernbetjeningen eller på TV'et for at tænde TV'et fra standby.

##### Standby-lyset bliver ved med at blinke

Tag strømkablet ud af stikkontakten. Vent i 5 minutter, før du tilslutter strømkablet igen. Hvis TV'et bliver ved med at blinke, kontaktes Philips TV Consumer Care.

## Kanaler

Der blev ikke fundet nogen digitale kanaler under installationen

Se de tekniske specifikationer for at sikre dig, at TV'et understøtter DVB-T eller DVB-C i dit land.

Sørg for, at alle kabler er tilsluttet korrekt, samt at der er valgt det rigtige netværk.

##### Allerede installererede kanaler fremgår ikke af kanallisten

Sørg for, at den rigtige kanalliste er valgt.

## Billede

##### Intet billede/forvrænget billede

- Sørg for, at antennen er tilsluttet korrekt til TV'et.
- Sørg for, at den korrekte enhed er valgt som visningskilde.
- Sørg for, at den eksterne enhed eller kilde er korrekt tilsluttet.

##### Lyd, men intet billede

- Sørg for, at billedindstillingerne er korrekte.

##### Dårlig antennemodtagelse

- Sørg for, at antennen er tilsluttet korrekt til TV'et.
- Højttalere, ikke-jordede lydenheder, neonlys, høje bygninger og andre store genstande kan have indvirkning på modtagekvaliteten. Prøv om muligt at forbedre modtagekvaliteten ved at ændre antenneretningen eller flytte enheder væk fra TV'et.
- Hvis modtagelsen kun er dårlig for en enkelt kanal, kan du forsøge at finindstille den pågældende kanal.

##### Dårligt billede fra en enhed

- Sørg for, at enheden er korrekt tilsluttet.
- Sørg for, at billedindstillingerne er korrekte.

##### Billedet passer ikke til skærmen

Skift til et andet billedformat.

##### Billedpositionen er ikke korrekt

Billedsignaler fra nogle enheder passer ikke helt korrekt til skærmen. Kontroller den tilsluttede enheds signaludgang.

##### Computerbilledet er ikke stabilt

Sørg for, at pc'en kører med den understøttede opløsning og opdateringshastighed.

---

## Lyd

### Ingen lyd eller dårlig lyd kvalitet

Hvis der ikke registreres noget lydsignal, deaktiverer TV'et automatisk lyd gengivelsen – dette indikerer ikke nogen funktionsfejl.

- Kontroller, at lydindstillingerne er indstillet korrekt.
- Sørg for, at alle kabler er korrekt tilsluttet.
- Sørg for, at lyden ikke er slået fra eller indstillet til nul.
- Sørg for, at TV-lydudgangen er sluttet til lydindgangen på Home Theatre System. Der bør komme lyd fra HTS-højttalerne.
- Nogle enheder kræver muligvis, at du aktiverer HDMI-lydudgangen manuelt. Hvis HDMI-lyden allerede er aktiveret, men du stadig ikke kan høre lyden, så prøv at ændre enhedens digitale lydformat til PCM (Pulse Code Modulation). Se anvisningerne i din enheds medfølgende dokumentation.

---

## Tilslutninger

### HDMI

- Vær opmærksom på, at understøttelse af HDCP (High-bandwidth Digital Content Protection) kan forsinke TV'ets gengivelse af indhold fra en HDMI-enhed.
- Hvis TV'et ikke genkender HDMI-enheden, og der ikke vises noget billede, skal du skifte kilde fra en enhed til en anden og tilbage igen.
- Hvis der forekommer periodiske lydforstyrrelser, skal du sørge for at udgangsindstillingerne fra HDMI-enheden er korrekte.
- Hvis du benytter en HDMI-til-DVI-adapter eller et HDMI-til-DVI-kabel, skal du sørge for, at der er tilsluttet et ekstra lydkabel til AUDIO IN (kun mini-jackstik), hvis dette er tilgængeligt.

### EasyLink virker ikke

- Sørg for, at dine HDMI-enheder er HDMI-CEC-kompatible. EasyLink-funktioner virker kun på enheder, der er HDMI-CEC-kompatible.

### Der vises intet lydstyrkeikon

- Dette er normalt, når en HDMI-CEC-lydenhed er tilsluttet.

### Fotos, videoer og musik fra en USB-enhed vises ikke

- Sørg for, at USB-lagringsenheden er indstillet til kompatibel med masselagringsenhed som beskrevet i dokumentationen til lagringsenheden.
- Sørg for, at USB-lagringsenheden er kompatibel med TV'et.
- Sørg for, at lyd- og billedfilformater understøttes af TV'et.

### Hakkende afspilning af USB-filer

- USB-enhedens overførselsydeevne begrænser muligvis overførselshastigheden til TV'et, hvilket fører til dårlig afspilning.

---

## Wi-Fi, internet og Bluetooth

### Wi-Fi-netværk blev ikke fundet eller er forvrænget.

- Mikrobølgeovne, DECT-telefoner eller andre Wi-Fi 802.11b/g/n/ac-enheder kan forstyrre et trådløst netværk.
- Kontroller, at firewalls i dit netværk tillader adgang for den trådløse TV-forbindelse.
- Hvis det trådløse netværk i dit hjem ikke fungerer korrekt, kan du prøve med en kablet netværksinstallation.

### Internettet fungerer ikke

- Hvis forbindelsen til routeren er i orden, skal du kontrollere routerens forbindelse til internettet.

### PC'en og internetforbindelsen er langsom

- Se brugervejledningen til den trådløse router for at få oplysninger om indendørs rækkevidde, overførselshastighed og andre faktorer, der påvirker signalkvaliteten.
- Brug en internetforbindelse med høj hastighed (bredbånd) til din router.

### DHCP

- Hvis forbindelsen mislykkes, kan du kontrollere routerens DHCP-indstilling (Dynamic Host Configuration). DHCP skal være sat på Til.

### Bluetooth-forbindelsen blev afbrudt

- Steder med en stor mængde trådløs aktivitet – lejligheder med mange trådløse routere – kan hæmme den trådløse forbindelse.

---

## Netværk

### Wi-Fi-netværk blev ikke fundet eller er forvrænget.

- Mikrobølgeovne, DECT-telefoner eller andre Wi-Fi 802.11b/g/n/ac-enheder kan forstyrre et trådløst netværk.
- Kontroller, at firewalls i dit netværk tillader adgang for den trådløse TV-forbindelse.
- Hvis det trådløse netværk i dit hjem ikke fungerer korrekt, kan du prøve med en kablet netværksinstallation.

### Internettet fungerer ikke

- Hvis forbindelsen til routeren er i orden, skal du kontrollere routerens forbindelse til internettet.

### PC'en og internetforbindelsen er langsom

- Se brugervejledningen til den trådløse router for at få oplysninger om indendørs rækkevidde, overførselshastighed og andre faktorer, der påvirker signalkvaliteten.
- Brug en internetforbindelse med høj hastighed (bredbånd) til din router.

## DHCP

• Hvis forbindelsen mislykkes, kan du kontrollere routerens DHCP-indstilling (Dynamic Host Configuration). DHCP skal være sat på Til.

### TV'ets modelnummer og serienummer

Du bliver muligvis bedt om at oplyse TV'ets modelnummer og serienummer. Find disse numre på pakkesedlen eller på typeetiketten på bagsiden eller i bunden af TV'et.

### Advarsel

Prøv ikke at reparere TV'et selv. Dette kan medføre alvorlig personskade, uoprettelige skader på TV'et og gøre garantien ugyldig.

# Sikkerhed og pleje

## 14.1

### Sikkerhed

#### Vigtigt!

Sørg for at læse og forstå alle sikkerhedsinstruktioner, før du bruger TV'et. Hvis der opstår skader, fordi instruktionerne ikke følges, bortfalder garantien.

Dette udstyr må ikke ændres uden producentens godkendelse.

#### Risiko for elektrisk stød eller brand

- Udsæt ikke TV'et for regn eller vand. Placer aldrig væskeholdige beholdere, såsom vaser, i nærheden af TV'et.
- Hvis der spildes væsker på eller ned i TV'et, skal det straks tages ud af stikkontakten. Kontakt Philips' kundeservice for at få TV'et undersøgt før brug.
- Udsæt ikke TV'et, fjernbetjeningen eller batterierne for ekstrem varme. Anbring dem aldrig i nærheden af brændende stearinlys, åben ild eller andre varmekilder, herunder direkte sollys.
- Indsæt aldrig genstande i ventilationsristene eller andre åbninger på TV'et.
- Stil ikke tunge genstande oven på netledningen.
- Undgå belastning af strømstik. Løse strømstik kan forårsage lysbuer eller brand. Sørg for ikke at belaste netledningen, når du drejer TV-skærmen.
- Du kan tage strømmen fra TV'et ved at frakoble TV'ets strømstik. Ved frakobling af strømmen må du kun trække i strømstikket, ikke i ledningen. Sørg for, at du til enhver tid har nem adgang til strømstik, strømkabel og stikkontakt.

#### Risiko for personskade eller beskadigelse af TV'et

- Der skal to personer til at løfte og bære et TV, som vejer over 25 kilo.
- Hvis du monterer TV'et på en fod, må du kun anvende den, der fulgte med TV'et. Fastgør foden sikkert på TV'et.
- Anbring TV'et på en flad, plan overflade, der kan bære den vægten af TV'et med fod.
- Hvis du vil vægmontere TV'et, skal du sikre dig, at vægmonteringen er i stand til at bære TV'et. TP Vision er ikke ansvarlig for ukorrekte vægmonteringer, der medfører ulykker, kvæstelse eller skader.
- Dele af dette produkt er fremstillet af glas. Vær

forsigtig for at undgå personskade og beskadigelse af produktet.

#### Risiko for beskadigelse af TV'et!

Før du slutter TV'et til strømmen, skal du sikre dig, at spændingen svarer til den værdi, der er trykt bagpå TV'et. Tilslut aldrig TV'et til stikkontakten, hvis spændingen er forskellig fra denne værdi.

#### Faremomenter i forbindelse med stabilitet

Et TV-apparat kan falde ned og forårsage alvorlig personskade eller dødsfald. Mange skader, især for børn, kan undgås ved at tage enkle forholdsregler som f.eks.:

- Sørg ALTID for, at TV'et ikke hænger ud over kanten af det understøttende møbel.
- ALTID at bruge kabinetter, stativer eller monteringsmetoder, som anbefales af producenten af TV-apparatet.
- ALTID at bruge møbler, der kan understøtte TV-apparatet på en sikker måde.
- ALTID at lære børn om farerne ved at klatre op på møbler for at nå TV-apparatet eller dets betjeningsknapper.
- ALTID at føre ledninger og kabler, der er sluttet til dit TV, så der ikke er risiko for at snuble over dem, trække eller gribe fat i dem.
- ALDRIG at placere et TV-apparat et ustabil sted.
- ALDRIG at placere TV-apparatet på høje møbler (f.eks. skabe eller bogreoler) uden at forankre både møblet og TV-apparatet, så det udgør en passende støtte.
- ALDRIG at placere TV-apparatet på et stykke klæde eller andre materialer, der kan være placeret mellem TV-apparatet og det understøttende møbel.
- ALDRIG at placere genstande, der kan friste børn til at klatre op, f.eks. legetøj og fjernbetjeningen, oven på TV-apparatet eller på møbler, hvor TV'et er placeret.

Hvis det nuværende TV-apparat skal gemmes og flyttes, skal ovenstående også tages i betragtning.

#### Risici ved batterier

- Slug ikke batteriet. Fare for kemisk ætsning.
- Fjernbetjeningen kan indeholde et knapcellebatteri. Hvis knapcellebatteriet sluges, kan det forårsage alvorlige indre ætsninger på blot 2 timer og medføre dødsfald.
- Opbevar nye og brugte batterier uden for børns rækkevidde.
- Hvis batterirummet ikke lukker helt til, bør man ikke bruge produktet, og det bør opbevares uden for børns rækkevidde.
- Hvis du har mistanke om, at batterier er blevet slugt

eller kommet ind i kroppen på anden vis, skal du straks kontakte lægen.

- Risiko for brand eller eksplosion, hvis batteriet udskiftes med en forkert type.
- Udskiftning af et batteri med en forkert type, der kan omgå en beskyttelsesforanstaltning (f.eks. i forbindelse med visse typer litiumbatterier).
- Bortskaffelse af et batteri i ild eller en varm ovn eller mekanisk knusning eller skæring af et batteri kan resultere i en eksplosion.
- Hvis et batteri efterlades i omgivelser med ekstremt høj temperatur kan det resultere i en eksplosion eller lækage af brandfarlig væske eller gas.
- Et batteri, der udsættes for ekstremt lavt lufttryk kan resultere i en eksplosion eller lækage af brandfarlig væske eller gas.

---

## Risiko for overophedning

Installer ikke TV'et på et trangt sted. Sørg altid for, at der er mindst 10 cm rundt om TV'et til ventilation. Sørg for, at gardiner eller andre genstande ikke dækker ventilationsristene på TV'et.

---

## Tordenvejr

Afbryd strømmen til TV'et og antennen før tordenvejr.

Rør aldrig ved nogen dele af TV'et, strømkablet eller antennekablet under tordenvejr.

---

## Risiko for høreskade

Undgå at bruge øretelefoner eller hovedtelefoner ved høj lydstyrke eller i længere perioder.

---

## Lave temperaturer

Hvis TV'et transporteres ved temperaturer under 5 °C, skal du pakke TV'et ud og vente, indtil TV'et når stuetemperatur, før du slutter det til stikkontakten.

---

## Fugtighed

I sjældne tilfælde, afhængigt af temperatur og luftfugtighed, kan der forekomme en smule kondensering på den indvendige side af TV-glasset (på nogle modeller). Du kan undgå dette ved ikke at udsætte TV'et for direkte sollys, varme eller ekstrem luftfugtighed. Hvis der opstår kondensering, forsvinder den af sig selv, når TV'et har været tændt i et par timer.  
Kondensfugten skader ikke TV'et eller forårsager

fejlfunktion.

---

14.2

## Vedligeholdelse af skærmen

- Du må aldrig røre ved, skubbe til, gnide på eller slå til skærmen med nogen genstand.
- Tag stikket ud af TV'et, før du rengør skærmen.
- Rengør TV'et og rammen med en blød, fugtig klud, og tør forsigtigt. Brug aldrig stoffer som sprit, kemikalier eller rengøringsmidler på TV'et.
- For at undgå deformationer og falmede farver skal du tørre vanddråber af så hurtigt som muligt.
- Undgå så vidt muligt statiske billeder. Statiske billeder er billeder, der vises på skærmen i lang tid ad gangen. Statiske billeder omfatter skærmmenuer, sorte bjælker, tidsvisninger m.v. Hvis du er nødt til at benytte statiske billeder, kan du reducere skærmens kontrast og lysstyrke for at forebygge skader på skærmen.

## Brugsvilkår – TV

2020 © TP Vision Europe B.V. Alle rettigheder forbeholdes.

Dette produkt er sendt på markedet af TP Vision Europe B.V. eller et af dets associerede selskaber, i det følgende benævnt TP Vision, som er producenten af produktet. TP Vision er garantigiver i forhold til TV'et, som er pakket sammen med denne brochure. Philips og skjoldlogoet fra Philips er registrerede varemærker tilhørende Koninklijke Philips N.V.

Specifikationer kan ændres uden varsel. Varemærkerne tilhører Koninklijke Philips N.V. eller de respektive ejere. TP Vision forbeholder sig retten til at ændre produkter til enhver tid uden at være forpligtet til at justere tidligere tilbehør herefter.

Det skriftlige materiale, der fulgte med TV'et, og den manual, der findes i TV'ets hukommelse eller kan downloades fra

Philips-webstedet [www.philips.com/support](http://www.philips.com/support), anses for at være passende til den påtænkte brug af systemet.

Materialet i denne brugervejledning anses for at være passende til den påtænkte brug af systemet. Hvis produktet, eller dets enkeltmoduler eller procedurer, anvendes til andre formål end de heri angivne, skal der opnås godkendelse af deres gyldighed og egnethed. TP Vision garanterer, at selve materialet ikke er i strid med US-patenter. Ingen yderligere garanti er udtrykt eller underforstået. TP Vision kan hverken drages til ansvar for fejl i indholdet af dette dokument eller for problemer opstået på baggrund af indholdet i dette dokument. Fejl, der rapporteres til Philips, vil snarest muligt blive tilpasset og offentliggjort på Philips-supportwebstedet.

**Garantivilkår – Risiko for personskade, beskadigelse af TV'et eller bortfald af garantien!**

Forsøg aldrig selv at reparere TV'et. Brug kun TV'et og dets tilbehør som tilsigtet af producenten.

Advarselsskiltet på bagsiden af TV'et angiver risiko for elektrisk stød. Fjern aldrig TV-inddækningen. Kontakt altid Philips TV-kundeservice i forbindelse med service eller reparationer. Find telefonnummeret i den trykte dokumentation, der fulgte med TV'et. Eller gå til vores websted [www.philips.com/support](http://www.philips.com/support), og vælg dit land, hvis det er nødvendigt. Enhver aktivitet, der udtrykkeligt er forbudt i denne betjeningsvejledning, eller tilpasninger og monteringsvejledninger, der ikke anbefales eller er godkendt i henhold til denne

brugervejledning, gør garantien ugyldig.

**Pixelegenskaber**

Dette LCD/LED-produkt har et højt antal farvepixels. Selv om det har en pixeleffektivitet på 99,999 % eller mere, kan der forekomme sorte prikker eller klare lyspunkter (røde, grønne eller blå) på skærmen. Dette er en konstruktionsmæssig egenskab ved skærmen (ligger inden for normale industristandarder) og er ikke en fejl.

**CE-overensstemmelseserklæring**

Hermed erklærer TP Vision Europe B.V., at dette TV er i overensstemmelse med de væsentlige krav og andre relevante bestemmelser i direktiverne 2014/53/EU (RED), 2009/125/EF (miljøvenligt design) og 2011/65/EF (RoHS).

**Overensstemmelse med EMF-standarderne**

TP Vision producerer og sælger mange forbrugerrelaterede produkter, som for ethvert andet elektronisk apparat generelt er i stand til at udsende og modtage elektromagnetiske signaler. Et af TP Visions overordnede forretningsprincipper er at tage alle nødvendige sundheds- og sikkerhedsforanstaltninger i forbindelse med vores produkter, så de på produktionstidspunktet overholder alle gældende lovkrav og ligger langt inden for de til enhver tid gældende standarder for elektromagnetiske felter (EMF).

TP Vision har forpligtet sig til at udvikle, producere og sende produkter på markedet, der ikke har sundhedsskadelige virkninger. TP Vision bekræfter, at dets produkter, så længe de håndteres korrekt i overensstemmelse med deres tiltænkte formål, kan anvendes sikkert i henhold til den videnskabelige dokumentation, der foreligger i dag. TP Vision spiller en aktiv rolle i udviklingen af internationale EMF- og sikkerhedsstandarder, der gør TP Vision i stand til at forudse yderligere udvikling inden for standardisering, som kan integreres i deres produkter på et tidligt stadie.
