A unique bedside TV

With incredible functionality for your patients

This unique Hospitality TV is the perfect solution to install near the patient's bed. Designed to complement healthcare environments, it avoids disturbance to other patients and maximises comfort by creating a private viewing experience

Specifically designed for Healthcare environments

- White aesthetics for the healthcare environment
- Medical-grade power supply ensures safety with low emission
- Illuminated front touch control keys with proximity detection
- Antimicrobial housing actively inhibits bacterial growth
- Galvanically isolated headphone connection

Great viewing experience and patient comfort

- LED TV for images with incredible contrast
- Low power consumption

Advanced healthcare features and future proof

- On-screen clock display for optimal guest convenience
- Smart TV apps with many dedicated services for hospitality
- SmartInfo for branded, interactive healthcare info pages
- MyChoice compatibility for recurring revenues
- Serial Xpress Protocol for interactive systems

PHILIPS

Highlights

LED TV

With LED backlight you can enjoy low power consumption and beautiful lines combined with high brightness, incredible contrast and vibrant colours.

White aesthetics

White design with round corners for a more friendly appearance in healthcare environments.

SmartInstall

SmartInstall makes the installation and maintenance of your TVs effortless. With a simple to use web tool, you can now remotely configure and install your TVs without visiting any rooms! This saves you time and makes sure your guests are not disturbed. Whether it is updating the hotel info pages or installing new channels, SmartInstall can handle all.

SmartInfo

SmartInfo allows you to easily provide hospital or healthcare information to your patients. Your patients have access to this interactive hospital webpage even when the TV is not connected to your intranet or internet. You can change the information regularly and easily keep your patients up to date with all the latest information.

Front touch control

The innovative Bedside TV features a smart touch control panel on the bottom of the TV for a personalised user experience. The illuminated control keys provide easy navigation even in the dark. The flat cleanable surface and keypad lock make it easy to clean.

Medical-grade power supply

Basic safety, essential performance and reliability are essential requirements in a professional clinical environment. Unlike standard TVs, Philips HeartLine employ special medical-grade power supplies in order to meet these requirements. It complies with EN/IEC 60601-1 standard ensuring basic safety and essential performance. Additionally it also complies with EN/IEC 60601-1-2 collateral standard for medical-grade electromagnetic tests and compatibility. Many countries, hospitals and clinics mandate compliance to these standards as a requirement.

headphone connection

The headphone connection is galvanically isolated to ensure the safest possible connection between the patient's headphone and the Philips HeartLine TV. Galvanic isolation is needed to ensure a fail-safe separation of the headphone connector from the electrical environment near the patient's bed.

Antimicrobial housing

Germs have become a growing problem in hospitals and clinical environments worldwide as they can cause life-threatening infections. Philips HeartLine TVs take care of this challenge by using a JIS Z2801-compliant antimicrobial additive in its housing material, making it an integral part of the display housing. The well-being of your patients is now assured by this protective shield that impedes the growth of most common microorganisms such as Staphylococcus aureus (Gastroenteritis), Escherichia coli (E Coli) and Klebsiella (Pneumonia), for example.

MyChoice compatible

MyChoice offers a simple and low-cost way to offer your guests premium TV channels. At the same time it delivers an additional revenue stream which allows you to recover your initial TV investment.

Smart TV apps

Philips Smart TV apps consist of an ever-growing choice of applications ranging from YouTube to social networking apps and many more. The dedicated version is tailored for hospitality use and has several added benefits, such as making sure guest information is securely deleted after use and avoiding illegal content that could harm your business.

Serial Xpress Protocol (SXP)

The TV can be connected to external decoders and set-top boxes of all major interactive system providers, through the Serial Xpress Protocol (SXP).

On-screen clock display

With our new on-screen clock display, guests can easily access the current time. At the push of a button the clock is displayed on the TV screen combining enhanced visibility and lower power consumption.

Low power consumption

Philips TVs are designed to minimise power consumption. This will not only reduce environmental impact but also lower operating costs.

Specifications

Picture/Display

- Aspect ratio: 16:9
- Diagonal screen size (inch): 19 inch
- Diagonal screen size (metric): 47 cm
- Display: LED HD TV
- Panel resolution: 1366 x 768p
- Brightness: 200 cd/m²
- Picture enhancement: 200 Hz Perfect Motion Rate, Pixel Plus HD
- Viewing angle: 170° (H)/160° (V)

Tuner/Reception/Transmission

- Digital TV: DVB-T/T2/C
- Analogue TV: PAL
- IP Playback: Multicast, Unicast

Features

- Ease of use: Picture Style, Sound Style

- Digital services: 8d EPG, Now and Next, MHEG, Teletext, HbbTV
- Local control: Capacitive Touch Control

- Bathroom speaker out: 1.5 W Mono 8 ohm
- Speakers: 2.0, Front Firing
- Sound Features: AVL, Incredible surround, Dynamic Bass, Dolby MS10

Power

- Ambient temperature: 0 °C to 40 °C
- Input: 12 V DC
- Standby power consumption: <0.5 W
- External power supply: 50-60Hz, AC 100-240 V, XXL DC cable 3.5 m, Medical cert. IEC/EN60601-1

- Energy Label Class: A+
- EU Energy Label power: 13 W
- Power Saving Features: Eco mode
- Annual energy consumption: 19 kW h

Accessories

- Included: DC Power Adapter, Warranty Leaflet, Legal and Safety brochure
- Optional: Healthcare RC 22AV1109H/12, Setup RC 22AV9573A, External Clock 22AV1120C/00

Side Connectivity

- HDMI 2: HDMI 1.4
- Headphone out: Mini-Jack
- USB1: USB 2.0

Rear Connectivity

- Bathroom speaker out: Mini-Jack
- External Control: RJ-48
- Antenna: IEC-75
- HDMI1: HDMI 1.4
- Ethernet (LAN): RJ-45

Connectivity Enhancements

- RJ48: IR-In/Out, Serial Xpress interface
- EasyLink (HDMI CEC): One touch play, System Standby, RC pass through, system audio control
- LAN: Wake up on LAN
- HDMI: ARC (all ports)
- USB: 'Charging port only' mode

Design

- Colour: White

Dimensions

- Product weight: 2.4 kg
- Wall-mount compatible: M4, 75 x 75 mm
- Set dimensions (excl. handle): (W x H x D): 446 x 293 x 38 mm
- Product weight (+handle): 2,6 kg

Issue date 2024-04-01

Version: 3.1.1
