# Do theilifís nua

---

## 1.1

### An teilifís a chur ar sos agus taifeadtaí

Má nascann tú Diosca Crua USB, is féidir leat craoladh a chur ar sos agus a thaifeadadh ó chainéal teilifíse digití.

Cuir do theilifís ar sos agus freagair an fón, nó díreach bódh briseadh agat i rith cluiche. Stórálaíonn an teilifís an craoladh ar an Diosca Crua USB agus is féidir leat féachaint air arís ar ball.

---

## 1.2

### EasyLink

Is féidir leat gléas nasctha, cosúil le seinnteoir Diosca Blu-ray, a oibriú le cianrialtán na teilifíse nuair atá **EasyLink** agat.

Baineann EasyLink úsáid as HDMI CEC chun cumarsáid a dhéanamh leis na gléasanna nasctha.

# Suiteáil

## 2.1

### Léigh sábháilteacht

Léigh na treoracha sábháilteachta i dtosach sula n-úsáideann tú an teilifís.

In Cabhair, téigh go **Sábháilteacht agus cúram > Sábháilteacht**.

## 2.2

### Seastán teilifíse agus gléasadh balla

#### Seastán teilifíse

Is féidir leat na treoracha chun an seastán teilifíse a ghléasadh a fháil sa Treoir Mhearthosaithe a tháinig leis an teilifís. Is féidir leat an treoir seo a íoslódáil ó [www.philips.com](http://www.philips.com) sa chás gur chaill tú í.

Úsáid uimhir chineáil táirge na teilifíse chun cuardach a dhéanamh don Treoir Mearthosaithe atá le híoslódáil.

#### Gléasadh balla

Tá do theilifís ullamh freisin do bhrac ghléasadh balla atá oiriúnach le VESA (díoltar as féin é).

Bain úsáid as an gcód VESA seo a leanas nuair atá an gléasadh balla á cheannach agat . . .

Úsáid scríúnná a bhfuil fad acu atá léirithe sa léaráid chun an brac a ghléasadh go daingean.

- 42Pxx5199 - VESA MIS-F 200x200, M6
- 47Pxx5199 - VESA MIS-F 400x400, M6
- 55Pxx5199 - VESA MIS-F 400x400, M6

#### Rabhadh

Teastaíonn scileanna sainiúla chun an teilifís a ghléasadh ar an mballa agus ní ceart d'aon duine ach pearsanra atá cáilithe tabhairt faoi. Ba cheart go gcomhlíonadh gléasadh balla na teilifíse caighdeáin sábháilteachta atá bunaithe ar mheáchan na teilifíse. Léigh na réamhchúraim sábháilteachta freisin sula suífidh tú an teilifís.

Ní ghlacann TP Vision Europe B.V. le haon fhreagracht as gléasadh míchuí ná aon ghléasadh a mbeidh tionóisc nó gortú mar thoradh air.

## 2.3

### Leideanna maidir le láithriú

- Cuir an teilifís in áit nach bhfuil solas ag lonnú go díreach ar an scáileán.

- Socraigh an teilifís suas le 15 cm ón mballa.

- Is é an t-achar is fearr le bheith ag féachaint ar an teilifís uaidh ná trí oiread méid fhiarthrasna an scáileáin. Nuair atá tú i do shuí, ba cheart go mbeadh do shúile ar an leibhéal céanna le lár an scáileáin.

## Cábla cumhachta

- Cuir isteach an cábla cumhachta sa nascóir **POWER** ar chúl na teilifíse.
- Bí cinnte go bhfuil an cábla cumhachta curtha isteach go daingean sa nascóir.
- Bí cinnte gur féidir leat rochtain a fháil i gcónaí ar an bpluga cumhachta sa soicéad balla.
- Nuair a díphlugáilann tú an cábla cumhachta, tarraing an pluga i gcónaí, ná tarraing an cábla go deo.

D'ainneoin go bhfuil tomhaltas cumhachta an-íseal ag an teilifís seo nuair atá sé ar fuireachas, bain amach an cábla cumhachta chun fuinneamh a shábháil mura mbeidh an teilifís in úsáid ar feadh tréimhse fada.

## Cábala na haeróige

Cuir isteach pluga na haeróige go daingean sa soicéad **ANTENNA** ar chúl na teilifíse.

Is féidir leat d'aeróg féin a nascadh nó nasc a dhéanamh le comhartha aeróige ó chóras dailte aeróige. Úsáid nascóir aeróige IEC Coax 75 Ohm RF.

Úsáid an nasc aeróige seo do chomharthaí ionchuir DVB-T agus DVB-C.

# Naisc

## 3.1

### Leideanna maidir le naisc

#### Treoir maidir le nascacht

Nasc gléas leis an teilifís i gcónaí leis an nasc is airde caighdeán atá ar fáil. Anuas air sin, úsáid cáblaí ar chaighdeán maith chun a chinntiú

go mbeidh aistriú maith pictiúr agus fuaimeanna ann..

Má tá cabhair ag teastáil uait chun roinnt gléasanna a nascadh leis an teilifís, is féidir leat cuairt a thabhairt ar threoir nascachta Philips TV. Tugann an treoir eolas maidir leis an gcaoi nascadh agus maidir leis na cáblaí atá le húsáid.

Téigh go dtí [www.connectivityguide.philips.com](http://www.connectivityguide.philips.com)

#### Aeróg

Má tá Bosca bairr (glacadóir digiteach) nó Taifeadán agat, nasc cáblaí na haeróige chun comhartha na haeróige a rith tríd an mBosca bairr agus/nó an Taifeadán i dtosach sula n-iontrálfaidh sé an teilifís. Ar an gcaoi sin, is féidir leis an aeróg agus an Bosca bairr cainéil bhreise fhéideartha a sheoladh go dtí an Taifeadán le haghaidh a dtaifeadta.

## HDMI

### HDMI CEC

Bíonn an caighdeán pictiúir agus fuaime is fearr ann le nasc HDMI. Bíonn na comharthaí físe agus fuaime araon le chéile in aon chábla HDMI amháin. Úsáid cábla HDMI le haghaidh comharthaí teilifíse Ardghléine (HD) nó Full HD (FHD). Úsáid cábla HDMI Ardluas chun an t-aistriú comhartha is fearr a fháil agus ná húsáid cábla HDMI níos faide ná 5 m.

### EasyLink HDMI CEC

Má tá do ghléasanna nasctha le HDMI agus má tá EasyLink acu, is féidir leat iad a oibriú leis an gciallaltán teilifíse. Ní mór EasyLink HDMI CEC a chasadh air ar an teilifís agus ar an ngléas nasctha.

### DVI go HDMI

Úsáid cuibheoir DVI go HDMI mura bhfuil ag do ghléas ach nasc DVI. Úsáid ceann de na naisc HDMI agus cuir cábla Fuaime Clé/Deas (mion-seac 3.5 mm) isteach san Audio In le haghaidh fuaime, ar chúil na teilifíse.

### Cosaint ar chóipeáil

Tacaíonn cáblaí DVI agus HDMI le HDCP (Cosaint Ábhar Digiteach Ard-Leitheadbhandá). Is comhartha chosaint ar chóipeáil HDCP a chuireann cosc ar chóipeáil ábhar ó dhiosca DVD nó Diosca Blu-ray. Tagraítear dó fresin mar DRM (Bainistíocht Ceart Digiteach).

### HDMI ARC

Tá HDMI ARC (Cainéal Fillte Fuaime) ag an nasc HDMI 1 ar an teilifís. Má tá nasc HDMI ARC ag an ngléas freisin, ar gnách gur Córas Amharclainne Baile (HTS) é, nasc le haon cheann de na naisc HDMI 1 ar an teilifís seo é. Ní chaithfidh an cábla fuaime breise a sheolann fuaim na teilifíse go dtí an HTS a bheith agat nuair atá nasc HDMI ARC ann. Tá an dá chomhartha sa nasc HDMI ARC.

Sa chás gur fearr leat ARC a chasadh as ar na naisc HDMI, brúigh **OK** agus roghnaigh **Suiteáil** agus brúigh **OK**. Roghnaigh **Socrúithe teilifíse > Fuaim > Ardsocrúithe > HDMI 1 - ARC**.

## SCART

Nasc ar chaighdeán maith é SCART. Is féidir an nasc SCART a úsáid le haghaidh comharthaí físe CVBS agus RGB ach ní féidir é a úsáid le haghaidh comharthaí teilifíse Ardghléine (HD). Bíonn idir comharthaí físe agus fuaime i gceist leis an nasc SCART.

Úsáid an cábla cuibheora SCART chun do ghléas a nascadh.

## Fuaim Amach - Optúil

Nasc ar ardchaighdeán é Fuaim Amach - Optúil. Tá an nasc optúil seo in ann 5.1 cainéal fuaim a iompar. Mura bhfuil nasc HDMI ARC ag do ghléas, ar gnách gur Córas Amharclainne Baile (HTS) é, is féidir leat an nasc seo a úsáid leis an nasc Optúil - Fuaim Amach ar an HTS. Seolann an nasc Optúil - Fuaim Amach an fhuaim ón teilifís go dtí an HTS.

Is féidir leat cineál an chomhartha fuaim amach a shocrú chun dul in oiriúint do chumais fuaim do Chóras Amharclainne Baile.

Mura mbeidh an fhuaim ag meaitseáil an fhís ar an scáileán, is féidir leat an sioncronú fuaim go físe a choigeartú.

3.2

## EasyLink HDMI CEC

### EasyLink

Is féidir leat gléas nasctha a oibriú le cianrialtán na teilifíse le EasyLink. Úsáideann EasyLink HDMI CEC (Consumer Electronics Control) chun cumarsáid a dhéanamh leis na gléasanna nasctha. Ní mór do ghléasanna tacú le HDMI CEC agus a bheith nasctha le nasc HDMI.

### Suiteáil EasyLink

Tagann an teilifís le EasyLink casta air. Bí cinnte go bhfuil na socruithe HDMI CEC suiteáilte i gceart ar na gléasanna EasyLink atá nasctha. Tá an seans ann nach n-oibreoidh EasyLink le gléasanna ó bhrandaí eile.

### HDMI CEC ar bhrandaí eile

Tá ainmneacha éagsúla ag feidhmiúlacht HDMI CEC ar bhrandaí éagsúla. Seo roinnt samplaí: Anynet, Aquos Link, Bravia Theatre Sync, Kuro Link, Simplink agus Viera Link. Níl gach branda comhoiriúnach go hiomlán le EasyLink.

Is lena n-úinéirí faoi seach ainmneacha branda HDMI CEC.

## Gléasanna a oibriú

Chun gléas atá nasctha le HDMI a oibriú agus é a shuiteáil le EasyLink, roghnaigh an gléas - nó a ghníomhaíocht - sa liosta nasc teilifíse. Brúigh **SOURCES**, roghnaigh gléas atá nasctha le nasc HDMI agus brúigh **OK**.

Chomh luath is a bheidh an gléas roghnaithe, is féidir le cianrialtán na teilifíse an gléas a rialú. Mar sin féin, ní chuirtear ar aghaidh chuig an ngléas na heochracha **HOME** agus **OPTIONS** agus roinnt méaracha teilifíse eile.

Mura bhfuil an eochair atá uait ar chianrialtán na teilifíse, is féidir leat an eochair a roghnú sa roghchlár Roghanna.

Brúigh **OPTIONS** agus roghnaigh **Rialuithe** ar an mbarra roghchláir. Roghnaigh an eochair gléis atá uait ar an scáileán agus brúigh **OK**.

Tá an seans ann nach mbeidh roinnt méaracha gléis an-sainiúil ar fáil sa roghchlár Rialtáin.

Nóta: Ní fhreagróidh ach gléasanna a thacaíonn leis an bhfeidhm **cianrialtán Easylink** do chianrialtán na teilifíse.

## Socruithe EasyLink

Tagann an teilifís le gach socrú EasyLink casta air. Is féidir leat aon socrú EasyLink a chasadh as go neamhspleách.

### EasyLink

Chun EasyLink a chasadh as go hiomlán . . .

1. Brúigh **HOME** agus roghnaigh **Suiteáil** agus brúigh **OK**.

2. Roghnaigh **Socruithe teilifíse > Socruithe ginearálta > EasyLink**.
3. Roghnaigh **EasyLink**.
4. Roghnaigh **As** agus brúigh **OK**.
5. Brúigh **↔**, arís agus arís eile, más gá, chun an roghchlár a dhúnladh.

### Cianrialtán EasyLink

Má theastaíonn uait go mbeidh cumarsáid idir gléasanna ach níl tú ag iarraidh iad a oibriú le cianrialtán na teilifíse, is féidir leat cianrialtán EasyLink a chasadh as leis féin. Is féidir leat ilghléasanna atá oiriúnach le HDMI-CEC a rialú le cianrialtán do theilifíse.

I roghchlár socruithe EasyLink, roghnaigh **Cianrialtán EasyLink** agus roghnaigh **As**.

### Seinn aon-iarracht

Nuair a sheinneann tú gléas atá oiriúnach le HDMI-CEC, athraíonn an teilifís ó fuireachas go dtí an fhoinsé cheart.

### Fuireachas aon-iarracht

Nuair a bhrúnn tú **⏻** ar chianrialtán na teilifíse, athraíonn an teilifís agus gach gléas atá oiriúnach le HDMI-CEC go dtí mód fuireachais.

### Rialú fuaime córais

Má nascann tú gléas atá oiriúnach le HDMI-CEC a bhfuil callairí san áireamh leis tríd an nascóir HDMI ARC, is féidir leat an rogha a dhéanamh fuaim na teilifíse a chlosteáil ó na callairí sin seachas callairí na teilifíse.

3.3

## Comhéadan Coiteann - CAM

### CI+

Tá an teilifís seo réidh do Rochtain Choinníollach CI+.

Is féidir leat féachaint ar scothchláir HD, cosúil le scannáin agus cláir spóirt atá curtha ar fáil ag craoltóirí teilifíse digití i do réigiún le CI+. Scrobhann craoltóirí teilifíse na cláir seo agus díscrobhann modúl CI+ réamhíoctha iad.

Cuireann craoltóirí teilifíse digití an modúl CI+ seo (Modúl Rochtana Coinníolláir - CAM) ar fáil nuair a liostálann tú lena scothchláir. Bíonn leibhéal an-ard cosaint cóipe ag na cláir sin.

Déan teagmháil le craoltóirí teilifíse digití le haghaidh tuilleadh eolais maidir le téarmaí agus coinníollacha.

## CAM

### Cuir isteach modúl CAM

Cas as an teilifís sula gcuirfidh tú CAM isteach.

Beidh an modh ceart chun an CAM a chur isteach le feiceáil ar an gCAM. Má chuireann tú isteach mícheart é, d'fhéadfá damáiste a dhéanamh don CAM agus don teilifís.

Úsáid slótán an Chomhéadain Choitianta ar an teilifís chun an cárta CAM a chur isteach.

Agus tú ag féachaint ar aghaidh an chárta, cuir isteach an CAM go réidh chomh fada is atá tú in ann.

Fág an cárta sa slótán go buan.

D'fhéadfadh roinnt nóiméad a bheith i gceist sula ngníomhófar an CAM. Díghníomhófar an tseirbhís craolta ar an teilifís má bhaintear an CAM amach.

Má tá CAM curtha isteach agus má tá na táillí liostála íoctha (tá bealaí nasctha in ann a bheith éagsúil), is féidir leat féachaint ar an gcráoladh teilifíse. Is do do theilifís féin go heisiach an CAM atá curtha isteach.

3.4

## Bosca bairr - STB

Úsáid 2 cábla aeróige chun an aeróg a nascadh leis an mBosca bairr (ar glacadóir digiteach é) agus an teilifís.

Cuir isteach cábla HDMI in aice leis na naisc aeróige chun an Bosca bairr a nascadh leis an teilifís.

Mar rogha air sin, is féidir leat cábla SCART a úsáid mura bhfuil aon nasc HDMI ag an mBosca bairr.

Múch go huathoibríoch

Cas as an t-uaineadóir uathoibríoch seo mura n-úsáideann tú ach cianrialtán an bhosca bhairr amháin. Mura ndéanfaidh tú é seo, casfaidh an teilifís as go huathoibríoch tar éis tréimhse 4 huaire gan aon eochair a bheith brúite ar chianrialtán na teilifíse.

Chun an t-uaineadóir Casadh as a chasadh as, brúigh 🏠 agus roghnaigh **Suiteáil** agus brúigh **OK**.  
Roghnaigh **Socruithe teilifíse** > **Socruithe ginearálta** > **Cas as uathobríoch** agus athraigh an barra sleamhnáin go **As**.

3.5

## Glacadóir satailíte

- Do theilifíseanna a bhfuil tiúnóir satailíte ionsuite acu.

Nasc cábla na méise aeróige leis an nglacadóir Satailíte.

Cuir isteach cábla HDMI in aice leis an nasc aeróige chun an gléas a nascadh leis an teilifís.  
Mar rogha air sin, is féidir leat cábla SCART a úsáid mura bhfuil aon nasc HDMI ag an ngléas.

### Múch go huathobríoch

Cas as an t-uaineadóir uathobríoch seo mura n-úsáideann tú ach cianrialtán an bhosca bhairr amháin. Mura ndéanfaidh tú é seo, casfaidh an teilifís as go huathobríoch tar éis tréimhse 4 huairé gan aon eochair a bheith brúite ar cianrialtán na teilifíse.

Chun an t-uaineadóir Casadh as a chasadh as, brúigh 🏠 agus roghnaigh **Suiteáil** agus brúigh **OK**.  
Roghnaigh **Socruithe teilifíse** > **Socruithe ginearálta** > **Cas as uathobríoch** agus athraigh an barra sleamhnáin go **As**.

3.6

## Córas Amharclainne Baile - HTS

### Nasc HTS

Úsáid an cábla HDMI chun Córas Amharclainne Baile (HTS) a nascadh leis an teilifís. Is féidir leat Philips Soundbar a nascadh nó HTS a bhfuil seinnteoir díosca ionsuite aige.

Mar rogha air sin, is féidir leat cábla SCART a úsáid mura bhfuil aon nasc HDMI ag an ngléas.

### HDMI ARC

Má tá nasc HDMI ARC ag do Chóras Amharclainne Baile, is féidir leat aon nasc HDMI ar an teilifís a úsáid chun nascadh. Ní gá an cábla fuaim breise a nascadh nuair atá HDMI ARC ann. Tá an dá chomhartha sa nasc HDMI ARC.

Tá gach nasc HDMI ar an teilifís in ann an comhartha Cainéal Fille Fuaime (ARC) a thairiscint. Ach nuair atá an Córas Amharclainne Baile nasctha agat, ní féidir leis an teilifís ach an comhartha ARC a sheoladh chuig an nasc HDMI seo.

Mura bhfuil aon nasc HDMI ARC ag an gCóras Amharclainne Baile, úsáid cábla fuaim optúil (Toslink) chun fuaim na teilifíse a sheoladh go dtí an Córas Amharclainne Baile.

### Sioncronú fuaime go físe (sionc)

Mura meaitseálann an fhuaim an fhís ar an scáileán, is féidir leat moill a shocrú ar an gcuid is mó de Chórais Amharclainne Baile a bhfuil seinnteoir díosca acu chun an fhuaim a mheaitseáil leis an fhís.

---

## Socrathe d'Fhuaim Amach

---

### Moill ar Fhuaim Amach

Nuair atá Córas Amharclainne Baile (HTS) nasctha leis an teilifís, ba cheart go mbeadh an pictiúr ar an teilifís agus an fhuaim ón HTS sioncronaithe.

### Sioncronú uathoibríoch fuaime go físe

Bíonn an sioncronú fuaime go físe sioncronaithe go huathoibríoch leis na Córais Amharclainne Baile is nua ó Philips, agus bíonn sé i gcónaí ceart.

### Moill sionc Fuaime

I gcás roinnt Córas Amharclainne Baile, tá an seans ann go mbeidh ort an mhoill sionc Fuaime a mhionathrú chun an fhuaim a shioncronú leis an bhfís. Ardaigh an luach moille ar an gCóras Amharclainne Baile go dtí go meaitseálann an pictiúr agus an fhuaim. D'fhéadfadh luach moille de 180ms a bheith ag teastáil. Léigh treoir úsáideora an Chórais Amharclainne Baile. Beidh ort an mhoill ar Fhuaim amach ar an teilifís a chasadh as nuair atá luach moille socraithe ar an gCóras Amharclainne Baile.

Chun an mhoill ar Fhuaim amach a chasadh as . . .

1. ☐ agus roghnaigh **Suiteáil** agus brúigh **OK**.
2. Roghnaigh **Socruithe teilifíse > Fuaim > Ardsocruithe > Moill ar Fhuaim Amach**.
3. Roghnaigh **As** agus brúigh **OK**.
4. Brúigh **↵**, arís agus arís eile, más gá, chun an roghchlár a dhúnadh.

### Cas as gléasanna neamhghníomhacha

Cas as gléasanna nasctha atá comhoiriúnach le EasyLink HDMI-CEC (Consumer Electronic Control) nach bhfuil gníomhach.

### Bainistíocht cumhachta

Cintíonn ardbhainistíocht cumhachta na teilifíse seo an úsáid fuinnimh is éifeachtaí. Is féidir leat an tionchar atá ag do shocrúithe pearsanta teilifíse, leibhéal gile na bpictiúr atá ar an scáileán faoi láthair, agus na riochtaí solais comhthimpeallaigh ar tomhaltas cumhachta coibhneasta.

Chun an tomhaltas cumhachta coibhneasta a sheiceáil . . .

1. Brúigh  agus roghnaigh **Suiteáil** agus brúigh **OK**.
2. Roghnaigh **Féach ar fhíseáin thaispeána > Físeán taispeána ar Rialú gníomhach agus brúigh OK**.
3. Roghnaigh socrú chun na luachanna comhfhreagracha a

sheiceáil.

## Lipéad fuinnimh na hEorpa

Cuireann **Lipéad Fuinnimh na hEorpa** ar an eolas tú maidir le haicme éifeachtacht fuinnimh an táirge seo. Dá ghlaise aicme éifeachtacht fuinnimh an táirge, is ea is lú fuinnimh a thomhlaíonn sé.

Is féidir leat aicme éifeachtacht fuinnimh, meántomhaltas cumhachta an táirge seo nuair atá sé i mbun úsáide agus meántomhaltas cumhachta ar feadh 1 bliain a fháil ar an lipéad. Is féidir leat freisin luachanna tomhaltas cumhachta don táirge seo a fháil ar shuíomh gréasáin Philips i do thír féin ag [www.philips.com/TV](http://www.philips.com/TV)

## Deireadh úsáide

### Do sheantáirge agus do cheallraí a dhiúscairt

Dearadh agus monaraíodh do tháirge le hábhair agus comhpháirteanna ar ardchaighdeán ar féidir iad a athchúrsáil agus a athúsáid.

Nuair atá an tsiombail seo d'araid rothaí a bhfuil cros air ar tháirge, ciallaíonn sé go bhfuil an táirge clúdaithe ag Treoir Eorpach 2002/96/CE.

Cuir tú féin ar an eolas le do thoil faoin gcóras bailiúcháin áitiúil ar leith do tháirgí leictreacha agus leictreonacha.

Cloígh leis na rialacha áitiúla atá i bhfeidhm le do thoil agus ná diúscairt do sheantáirgí le do ghnáthdhramhaíl tí. Nuair a dhiúscairt tú do sheantáirge i gceart, cabhraíonn sé iarmhairtí a d'fhéadfadh a bheith díobhálach don chomhshaol agus do shláinte an duine a chosc.

Tá ceallraí i do tháirge atá san áireamh i dTreoir an Chomhphobail Eorpaigh 2006/66/EC, nach féidir iad a dhiúscairt le gnáthdhramhaíl tí.

Cuir tú féin ar an eolas le do thoil faoi rialacha áitiúla maidir le bailiú ar leith ceallraí mar go gcabhróidh diúscairt chuí iarmhairtí díobhálacha don chomhshaol agus do shláinte an duine a chosc.

### Nuashonrú bogearraí

#### Nuashonraigh ó USB

D'fhéadfadh sé a bheith riachtanach bogearraí na teilifíse a nuashonrú. Teastaíonn ríomhaire uait agus gléas cuimhne USB chun na bogearraí a uaslódáil ar an teilifís. Úsáid gléas cuimhne USB a bhfuil 256MB de spás saor air. Bí cinnte go bhfuil cosaint ar scríobh casta as.

##### 1. Tosaigh an nuashonrú ar an teilifís

Chun an nuashonrú bogearraí a thosú . . .

Brúigh , roghnaigh **Suiteáil** agus brúigh **OK**.

Roghnaigh **Nuashonraigh bogearraí > USB** agus brúigh **OK**.

##### 2. Aithin an teilifís

Cuir an chuimhne USB isteach i gceann de na naisc USB ar an teilifís.

Roghnaigh **Tosaigh** agus brúigh **OK**. Scríobhtar comhaid aitheantais ar an ngléas cuimhne USB.

##### 3. Íoslódáil bogearraí na teilifíse

Cuir an chuimhne USB isteach i do ríomhaire.

Ar an ngléas cuimhne USB, aimsigh an comhad **update.htm** agus cliceáil faoi dhó air.

Cliceáil ar **Seol ID**.

Má tá bogearraí nua ar fáil, íoslódáil an comhad .zip.

I ndiaidh na híoslódála, dízipeáil agus cóipeáil an comhad **autorun.upg** go dtí an gléas cuimhne USB.

Ná cuir an comhad seo i bhfillteán.

##### 4. Nuashonraigh bogearraí na teilifíse

Cuir an chuimhne USB isteach sa teilifís arís. Tosóidh an nuashonrú go huathoibríoch.

Casann an teilifís í féin as ar feadh 10 soicind agus ansin casann sí air arís. Fan le do thoil.

Ná. . .

- úsáid an cianrialtán

- bain an gléas cuimhne USB amach ón teilifís

Má chliseann ar an gcumhacht i rith an nuashonraithe, ná bain as an gléas cuimhne USB ón teilifís go deo. Nuair a thiocfaidh an cumhacht ar ais, leanfaidh an nuashonrú ar aghaidh.

## Leagan bogearraí

Chun féachaint ar leagan reatha bogearraí na teilifíse . . .

1. Brúigh , agus roghnaigh **Suiteáil** agus brúigh **OK**.

2. Roghnaigh **Socruithe bogearraí** agus brúigh **OK**.

3. Roghnaigh **Eolas faoin mbogearraí reatha** agus féach ar **Leagan Eisiúna**.

4. Brúigh , arís agus arís eile, más gá, chun an roghchlár a dhúnadh.

MTD utility (1.5.0) MTD subsystem (Memory Technology Devices) provides an abstraction layer for raw flash devices. It makes it possible to use the same API when working with different flash types and technologies, e.g. NAND, OneNAND, NOR, AG-AND, ECC'd NOR, etc. MTD subsystem does not deal with block devices like MMC, eMMC, SD, CompactFlash, etc. These devices are not raw flashes but they have a Flash Translation layer inside, which makes them look like block devices. These devices are the subject of the Linux block subsystem, not MTD.

Independent JPEG Group's free JPEG software This package contains C software to implement JPEG image encoding, decoding, and transcoding. JPEG is a standardized compression method for full-color and gray-scale images.

The distributed programs provide conversion between JPEG "JFIF" format and image files in PBMPLUS PPM/PGM, GIF, BMP, and Targa file formats. The core compression and decompression library can easily be reused in other programs, such as image viewers. The package is highly portable C code; we have tested it on many machines ranging from PCs to Crays. We are releasing this software for both noncommercial and commercial use.

Companies are welcome to use it as the basis for JPEG-related

products. We do not ask a royalty, although we do ask for an acknowledgement in product literature (see the README file in the distribution for details). We hope to make this software industrial-quality --- although, as with anything that's free, we offer no warranty and accept no liability. GNU General Public LICENSE version 2 (GPLv2) Copyright (C) 1989, 1991 Free Software Foundation, Inc. 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it. For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software. Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations. Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and

modification follow.

## TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language.

(Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions: a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change. b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as

part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following: a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer; in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License.

Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License.

If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or

new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

SQLite Copyright All of the deliverable code in SQLite has been dedicated to the public domain by the authors. All code authors, and representatives of the companies they work for, have signed affidavits dedicating their contributions to the public domain and originals of those signed affidavits are stored in a firesafe at the main offices of Hwaci. Anyone is free to copy, modify, publish, use, compile, sell, or distribute the original SQLite code, either in source code form or as a compiled binary, for any purpose, commercial or non-commercial, and by any means.

The previous paragraph applies to the deliverable code in SQLite - those parts of the SQLite library that you actually bundle and ship with a larger application. Portions of the documentation and some code used as part of the build process might fall under other licenses. The details here are unclear. We do not worry about the licensing of the documentation and build code so much because none of these things are part of the core deliverable SQLite library.

All of the deliverable code in SQLite has been written from scratch. No code has been taken from other projects or from the open internet. Every line of code can be traced back to its original author, and all of those authors have public domain dedications on file. So the SQLite code base is clean and is uncontaminated with licensed code from other projects.

**Obtaining An Explicit License To Use SQLite** Even though SQLite is in the public domain and does not require a license, some users want to obtain a license anyway. Some reasons for obtaining a license include:

You are using SQLite in a jurisdiction that does not recognize the public domain. You are using SQLite in a jurisdiction that does not recognize the right of an author to dedicate their work to the public domain. •You want to hold a tangible legal document as evidence that you have the legal right to use and distribute SQLite. •Your legal department tells you that you have to purchase a license.

If you feel like you really have to purchase a license for SQLite, Hwaci, the company that employs the architect and principal developers of SQLite, will sell you one.

**Contributed Code** In order to keep SQLite completely free and unencumbered by copyright, all new contributors to the SQLite code base are asked to dedicate their contributions to the public domain. If you want to send a patch or enhancement for possible inclusion in the SQLite source tree, please accompany the patch with the following statement:

The author or authors of this code dedicate any and all copyright interest in this code to the public domain. We make this dedication for the benefit of the public at large and to the detriment of our heirs and successors. We intend this dedication to be an overt act of relinquishment in perpetuity of all present and future rights to this code under copyright law.

We are not able to accept patches or changes to SQLite that are not accompanied by a statement such as the above. In addition, if you make changes or enhancements as an employee, then a simple statement such as the above is insufficient. You must also send by surface mail a copyright release signed by a company officer. A signed original of the copyright release should be mailed to:

GNU GENERAL PUBLIC LICENSE Version 2, June 1991  
Copyright (C) 1989, 1991 Free Software Foundation, Inc. 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA  
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

#### Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share

and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too. When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it. For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software. Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations. Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

**TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION** 0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions: a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change. b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License. c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.) These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following: a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of

physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for non-commercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. #### Preamble

The GNU General Public License is a free, copyleft license for software and other kinds of works.

The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users. We, the Free Software Foundation, use the GNU General Public License for most of our software; it applies also to any other work released this way by its authors. You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things.

To protect your rights, we need to prevent others from denying you these rights or asking you to surrender the rights. Therefore, you have certain responsibilities if you distribute copies of the software, or if you modify it: responsibilities to respect the freedom of others.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must pass on to the recipients the same freedoms that you received. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

Developers that use the GNU GPL protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License giving you legal permission to copy, distribute and/or modify it.

For example, if you distribute copies of such a program, whether

gratis or for a fee, you must pass on to the recipients the same freedoms that you received. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

Developers that use the GNU GPL protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License giving you legal permission to copy, distribute and/or modify it.

Finally, every program is threatened constantly by software patents. States should not allow patents to restrict development and use of software on general-purpose computers, but in those that do, we wish to avoid the special danger that patents applied to a free program could make it effectively proprietary. To prevent this, the GPL assures that patents cannot be used to render the program non-free.

The precise terms and conditions for copying, distribution and modification follow.

## TERMS AND CONDITIONS

0. Definitions. "This License" refers to version 3 of the GNU General Public License. "Copyright" also means copyright-like laws that apply to other kinds of works, such as semiconductor masks. "The Program" refers to any copyrightable work licensed under this License. Each licensee is addressed as "you".

"Licensees" and "recipients" may be individuals or organizations. To "modify" a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a "modified version" of the earlier work or a work "based on" the earlier work.

A "covered work" means either the unmodified Program or a work based on the Program.

To "propagate" a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well.

To "convey" a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.

An interactive user interface displays "Appropriate Legal Notices" to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2) tells the user that there is no warranty for the work (except to the extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.

### 1. Source Code.

The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work.

A "Standard Interface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming

language, one that is widely used among developers working in that language.

The "System Libraries" of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A "Major Component", in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.

The "Corresponding Source" for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control flow between those subprograms and other parts of the work. The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source.

The Corresponding Source for a work in source code form is that same work.

### 2. Basic Permissions.

All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you. Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.

3. Protecting Users' Legal Rights From Anti-Circumvention Law. No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty

adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures. When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's users, your or third parties' legal rights to forbid circumvention of technological measures.

#### 4. Conveying Verbatim Copies.

You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice; keep intact all notices stating that this License and any non-permissive terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program.

You may charge any price or no price for each copy that you convey, and you may offer support or warranty protection for a fee.

#### 5. Conveying Modified Source Versions.

You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:

- a) The work must carry prominent notices stating that you modified it, and giving a relevant date.
- b) The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to "keep intact all notices".

c) You must license the entire work, as a whole, under this License to anyone who comes into possession of a copy. This License will therefore apply, along with any applicable section 7 additional terms, to the whole of the work, and all its parts, regardless of how they are packaged. This License gives no permission to license the work in any other way, but it does not invalidate such permission if you have separately received it.

- d) If the work has interactive user interfaces, each must display Appropriate Legal Notices; however, if the Program has interactive interfaces that do not display Appropriate Legal Notices, your work need not make them do so.

A compilation of a covered work with other separate and independent works, which are not by their nature extensions of the covered work, and which are not combined with it such as to form a larger program, in or on a volume of a storage or distribution medium, is called an "aggregate" if the compilation and its resulting copyright are not used to limit the access or legal rights of the compilation's users beyond what the individual works permit. Inclusion of a covered work in an aggregate does not cause this License to apply to the other parts of the aggregate.

#### 6. Conveying Non-Source Forms.

You may convey a covered work in object code form under the terms of sections 4 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License, in one of these ways:

- a) Convey the object code in, or

- embodied in, a physical product (including a physical distribution medium), accompanied by the Corresponding Source fixed on a durable physical medium customarily used for software interchange.
- b) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by a written offer, valid for at least three years and valid for as long as you offer spare parts or customer support for that product model, to give anyone who possesses the object code either (1) a copy of the Corresponding Source for all the software in the product that is covered by this License, on a durable physical medium customarily used for software interchange, for a price no more than your reasonable cost of physically performing this conveying of source, or (2) access to copy the Corresponding Source from a network server at no charge.
- c) Convey individual copies of the object code with a copy of the written offer to provide the Corresponding Source. This alternative is allowed only occasionally and noncommercially, and only if you received the object code with such an offer, in accord with subsection 6b.
- d) Convey the object code by offering access from a designated place (gratis or for a charge), and offer equivalent access to the Corresponding Source in the same way through the same place at no further charge. You need not require recipients to copy the Corresponding Source along with the object code. If the place to copy the object code is a network server, the Corresponding Source may be on a different server (operated by you or a third party) that supports equivalent copying facilities, provided you maintain clear directions next to the object code saying where to find the Corresponding Source. Regardless of what server hosts the Corresponding Source, you remain obligated to ensure that it is available for as long as needed to satisfy these requirements.
- e) Convey the object code using peer-to-peer transmission, provided you inform other peers where the object code and Corresponding Source of the work are being offered to the general public at no charge under subsection 6d.

A separable portion of the object code, whose source code is excluded from the Corresponding Source as a System Library, need not be included in conveying the object code work.

A "User Product" is either (1) a "consumer product", which means any tangible personal property which is normally used for personal, family, or household purposes, or (2) anything designed or sold for incorporation into a dwelling. In determining whether a product is a consumer product, doubtful cases shall be resolved in favor of coverage. For a particular product received by a particular user, "normally used" refers to a typical or common use of that class of product, regardless of the status of the particular user or of the way in which the particular user actually uses, or expects or is expected to use, the product. A product is a consumer product regardless of whether the product has substantial commercial, industrial or non-consumer uses, unless such uses represent the only significant mode of use of the product.

"Installation Information" for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. The information must suffice to ensure that the continued functioning of the modified object code is in

no case prevented or interfered with solely because modification has been made.

If you convey an object code work under this section in, or with, or specifically for use in, a User Product, and the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is characterized), the Corresponding Source conveyed under this section must be accompanied by the Installation Information. But this requirement does not apply if neither you nor any third party retains the ability to install modified object code on the User Product (for example, the work has been installed in ROM).

The requirement to provide Installation Information does not include a requirement to continue to provide support service, warranty, or updates for a work that has been modified or installed by the recipient, or for the User Product in which it has been modified or installed. Access to a network may be denied when the modification itself materially and adversely affects the operation of the network or violates the rules and protocols for communication across the network.

Corresponding Source conveyed, and Installation Information provided, in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.

#### 7. Additional Terms.

"Additional permissions" are terms that supplement the terms of this License by making exceptions from one or more of its conditions. Additional permissions that are applicable to the entire Program shall be treated as though they were included in this License, to the extent that they are valid under applicable law. If additional permissions apply only to part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions.

When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission.

Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:

- a) Disclaiming warranty or limiting liability differently from the terms of sections 15 and 16 of this License; or
- b) Requiring preservation of specified reasonable legal notices or author attributions in that material or in the Appropriate Legal Notices displayed by works containing it; or
- c) Prohibiting misrepresentation of the origin of that material, or requiring that modified versions of such material be marked in reasonable ways as different from the original version; or
- d) Limiting the use for publicity purposes of names of licensors or authors of the material; or
- e) Declining to grant rights under trademark law for use of some trade names, trademarks, or service marks; or

- f) Requiring indemnification of licensors and authors of that material by anyone who conveys the material (or modified versions of it) with contractual assumptions of liability to the recipient, for any liability that these contractual assumptions directly impose on those licensors and authors.

All other non-permissive additional terms are considered "further restrictions" within the meaning of section 10. If the Program as you received it, or any part of it, contains a notice stating that it is governed by this License along with a term that is a further restriction, you may remove that term. If a license document contains a further restriction but permits relicensing or conveying under this License, you may add to a covered work material governed by the terms of that license document, provided that the further restriction does not survive such relicensing or conveying.

If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating where to find the applicable terms.

Additional terms, permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions; the above requirements apply either way.

#### 8. Termination.

You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11).

However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation.

Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright holder, and you cure the violation prior to 30 days after your receipt of the notice.

Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10.

#### 9. Acceptance Not Required for Having Copies.

You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.

#### 10. Automatic Licensing of Downstream Recipients.

Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to

run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License.

An “entity transaction” is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts.

You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it.

#### 11. Patents.

A “contributor” is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's “contributor version”. A contributor's “essential patent claims” are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, “control” includes the right to grant patent sublicenses in a manner consistent with the requirements of this License. Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version.

In the following three paragraphs, a “patent license” is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a patent or covenant not to sue for patent infringement). To “grant” such a patent license to a party means to make such an agreement or commitment not to enforce a patent against the party.

If you convey a covered work, knowingly relying on a patent license, and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent license to downstream recipients. “Knowingly relying” means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient's use of the

covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid.

If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a covered work, and grant a patent license to some of the parties receiving the covered work authorizing them to use, propagate, modify or convey a specific copy of the covered work, then the patent license you grant is automatically extended to all recipients of the covered work and works based on it.

A patent license is “discriminatory” if it does not include within the scope of its coverage, prohibits the exercise of, or is conditioned on the non-exercise of one or more of the rights that are specifically granted under this License. You may not convey a covered work if you are a party to an arrangement with a third party that is in the business of distributing software, under which you make payment to the third party based on the extent of your activity of conveying the work, and under which the third party grants, to any of the parties who would receive the covered work from you, a discriminatory patent license (a) in connection with copies of the covered work conveyed by you (or copies made from those copies), or (b) primarily for and in connection with specific products or compilations that contain the covered work, unless you entered into that arrangement, or that patent license was granted, prior to 28 March 2007.

Nothing in this License shall be construed as excluding or limiting any implied license or other defenses to infringement that may otherwise be available to you under applicable patent law.

#### 12. No Surrender of Others' Freedom.

If conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a covered work so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not convey it at all. For example, if you agree to terms that obligate you to collect a royalty for further conveying from those to whom you convey the Program, the only way you could satisfy both those terms and this License would be to refrain entirely from conveying the Program.

#### 13. Use with the GNU Affero General Public License.

Notwithstanding any other provision of this License, you have permission to link or combine any covered work with a work licensed under version 3 of the GNU Affero General Public License into a single combined work, and to convey the resulting work. The terms of this License will continue to apply to the part which is the covered work, but the special requirements of the GNU Affero General Public License, section 13, concerning interaction through a network will apply to the combination as such.

#### 14. Revised Versions of this License.

The Free Software Foundation may publish revised and/or new versions of the GNU General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Program specifies that a certain numbered version of the GNU

General Public License “or any later version” applies to it, you have the option of following the terms and conditions either of that numbered version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of the GNU General Public License, you may choose any version ever published by the Free Software Foundation.

If the Program specifies that a proxy can decide which future versions of the GNU General Public License can be used, that proxy's public statement of acceptance of a version permanently authorizes you to choose that version for the Program.

Later license versions may give you additional or different permissions. However, no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version.

#### 15. Disclaimer of Warranty.

THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM “AS IS” WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

#### 16. Limitation of Liability.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

#### 17. Interpretation of Sections 15 and 16.

If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Program, unless a warranty or assumption of liability accompanies a copy of the Program in return for a fee.

GNU LESSER GENERAL PUBLIC LICENSE Version 2.1,  
February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc. 51  
Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Everyone is permitted to copy and distribute verbatim copies of

this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

#### Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it. For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public

License. We use this license for certain libraries in order to permit linking those libraries into non-free programs. When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

#### TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you". A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or

translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions: a) The modified work must itself be a software library. b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change. c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License. d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful. (For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is

to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices. Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy. This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License. However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library".

The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the

Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License.

Also, you must do one of these things: a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.) b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1)

uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with. c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution. d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place. e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy. For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is

otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above. b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

#### NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE

## POSSIBILITY OF SUCH DAMAGES.

GNU LESSER GENERAL PUBLIC LICENSE Version 3, 29 June 2007 Copyright © 2007 Free Software Foundation, Inc.  
<http://fsf.org/>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed. This version of the GNU Lesser General Public License incorporates the terms and conditions of version 3 of the GNU General Public License, supplemented by the additional permissions listed below.

### 0. Additional Definitions.

As used herein, “this License” refers to version 3 of the GNU Lesser General Public License, and the “GNU GPL” refers to version 3 of the GNU General Public License.

“The Library” refers to a covered work governed by this License, other than an Application or a Combined Work as defined below.

An “Application” is any work that makes use of an interface provided by the Library, but which is not otherwise based on the Library. Defining a subclass of a class defined by the Library is deemed a mode of using an interface provided by the Library. A “Combined Work” is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the “Linked Version”.

The “Minimal Corresponding Source” for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that, considered in isolation, are based on the Application, and not on the Linked Version.

The “Corresponding Application Code” for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for reproducing the Combined Work from the Application, but excluding the System Libraries of the Combined Work.

### 1. Exception to Section 3 of the GNU GPL.

You may convey a covered work under sections 3 and 4 of this License without being bound by section 3 of the GNU GPL.

### 2. Conveying Modified Versions.

If you modify a copy of the Library, and, in your modifications, a facility refers to a function or data to be supplied by an Application that uses the facility (other than as an argument passed when the facility is invoked), then you may convey a copy of the modified version: a) under this License, provided that you make a good faith effort to ensure that, in the event an Application does not supply the function or data, the facility still operates, and performs whatever part of its purpose remains meaningful, or b) under the GNU GPL, with none of the additional permissions of this License applicable to that copy.

### 3. Object Code Incorporating Material from Library Header Files.

The object code form of an Application may incorporate material from a header file that is part of the Library. You may convey such object code under terms of your choice, provided that, if the incorporated material is not limited to numerical parameters, data structure layouts and accessors, or small macros, inline functions and templates (ten or fewer lines in length), you do both of the following: a) Give prominent notice

with each copy of the object code that the Library is used in it and that the Library and its use are covered by this License. b) Accompany the object code with a copy of the GNU GPL and this license document.

### 4. Combined Works.

You may convey a Combined Work under terms of your choice that, taken together, effectively do not restrict modification of the portions of the Library contained in the Combined Work and reverse engineering for debugging such modifications, if you also do each of the following: a) Give prominent notice with each copy of the Combined Work that the Library is used in it and that the Library and its use are covered by this License. b) Accompany the Combined Work with a copy of the GNU GPL and this license document. c) For a Combined Work that displays copyright notices during execution, include the copyright notice for the Library among these notices, as well as a reference directing the user to the copies of the GNU GPL and this license document. d) Do one of the following: 0) Convey the Minimal Corresponding Source under the terms of this License, and the Corresponding Application Code in a form suitable for, and under terms that permit, the user to recombine or relink the Application with a modified version of the Linked Version to produce a modified Combined Work, in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source. 1) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (a) uses at run time a copy of the Library already present on the user's computer system, and (b) will operate properly with a modified version of the Library that is interface-compatible with the Linked Version. e) Provide Installation Information, but only if you would otherwise be required to provide such information under section 6 of the GNU GPL, and only to the extent that such information is necessary to install and execute a modified version of the Combined Work produced by recombining or relinking the Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code. If you use option 4d1, you must provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.)

### 5. Combined Libraries.

You may place library facilities that are a work based on the Library side by side in a single library together with other library facilities that are not Applications and are not covered by this License, and convey such a combined library under terms of your choice, if you do both of the following: a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License. b) Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

### 6. Revised Versions of the GNU Lesser General Public License.

The Free Software Foundation may publish revised and/or new versions of the GNU Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or

concerns.

Each version is given a distinguishing version number. If the Library as you received it specifies that a certain numbered version of the GNU Lesser General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that published version or of any later version published by the Free Software Foundation. If the Library as you received it does not specify a version number of the GNU Lesser General Public License, you may choose any version of the GNU Lesser General Public License ever published by the Free Software Foundation.

If the Library as you received it specifies that a proxy can decide whether future versions of the GNU Lesser General Public License shall apply, that proxy's public statement of acceptance of any version is permanent authorization for you to choose that version for the Library.

Apache LICENSE Version 2.0, January 2004

<http://www.apache.org/licenses/> TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

## 1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to

You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that you meet the following conditions: (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and (b) You must cause any modified files to carry prominent notices stating that You changed the files; and (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms

and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE.

You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor; and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

# Fabhtcheartú agus tacaíocht

16.1

## Fabhtcheartú

### Cainéil

#### Níor aimsíodh aon chainéal digiteach i rith na suiteála

Féach ar na sonraíochtaí teicniúla chun a chinntiú go dtacaíonn do theilifís le DVB-T nó DVB-C i do thír. Cinntigh go bhfuil na cáblaí nasctha i gceart agus go bhfuil an líonra ceart roghnaithe.

#### Níl na cainéil a suiteáladh roimhe seo sa liosta cainéal

Cinntigh go bhfuil an liosta cainéal ceart roghnaithe.

### Ginearálta

#### Ní chasann an teilifís air

- Tarraing an cábla cumhachta amach as an asraon cumhachta. Fan ar feadh nóiméid agus ansin cuir isteach arís é.
- Cinntigh go bhfuil an cábla cumhachta nasctha go daingean.

#### Tá fuaim dhíosacánach ann nuair a chastar air nó as é

Nuair atá tú ag casadh an teilifís air, as nó ar Fhuireachas, cloiseann tú fuaim dhíosacánach ó fhonnadh na teilifíse. Is mar gheall ar ghnáthleathadh agus cungú na teilifíse an fuaim dhíosacánach sin, agus an teilifís ag fuarú agus ag téamh. Ní chuireann sé isteach ar fheidhmíocht.

#### Ní fhreagraíonn an teilifís don chianrialtán

Teastaíonn roinnt ama ón teilifís tosú. I rith an ama sin, ní fhreagraíonn an teilifís don chianrialtán ná do rialuithe na teilifíse. Gnáthiompar é sin.

Má leanann an teilifís gan freagairt don chianrialtán, is féidir leat seiceáil an bhfuil an cianrialtán ag obair trí úsáid a bhaint as ceamara ar fhón soghluaiste. Cuir an fón i mód ceamar agus pointeáil an cianrialtán i dtreo lionsa an cheamara. Má bhrúnn tú aon eochair ar an gcialrialtán agus má thugann tú faoi deara caochaíl inífridhearg an LED tríd an gceamara, tá an cianrialtán ag obair. Ní mór an teilifís a sheiceáil.

Mura bhfuil an chaochaíl le tabhairt faoi deara, d'fhéadfadh an cianrialtán a bheith briste nó d'fhéadfadh a gceallraí a bheith briste.

Ní féidir an modh seo chun an cianrialtán a sheiceáil a úsáid le cianrialtáin atá péireáilte leis an teilifís gan sreang.

**Téann an teilifís ar ais go Fuireachas tar éis scáileán tosaithe Philips a thaispeáint**

Nuair atá an teilifís i bhFuireachas, taispeántar scáileán tosaithe Philips, ansin fillteann an teilifís ar mhód Fuireachais. Gnáthiompar é sin. Nuair a dínasctar an teilifís agus nuair a nasctar arís í leis an soláthar cumhachta, taispeántar an scáileán tosaithe an chéad uair eile a thosaítear í. Chun an teilifís a chasadh ó Fhuireachas, brúigh ar an gcialrialtán nó ar an teilifís.

#### Coinníonn an solas fuireachais leis ag caochail

Bain an cábla cumhachta amach as an asraon cumhachta. Fan 5 nóiméad sula nascann tú an cábla cumhachta arís. Má tharlaíonn an chaochaíl arís, déan teagmháil le Philips TV Consumer Care.

#### Teanga mhícheart roghchláir

Athraigh an teanga ar ais do do theanga féin.

1. Brúigh  agus roghnaigh **Suiteáil** agus brúigh **OK**.
2. Roghnaigh **Socrúithe teilifíse** > **Socrúithe ginearálta** > **Teanga roghchláir** agus brúigh **OK**.
3. Roghnaigh an teanga atá uait agus brúigh **OK**.
4. Brúigh , arís agus arís eile, más gá, chun an roghchlár a dhúnadh.

### Pictiúr

#### Gan pictiúr / pictiúr díchumtha

- Cinntigh go bhfuil an aeróg nasctha leis an teilifís i gceart.
- Cinntigh go bhfuil an gléas ceart roghnaithe mar an fhoinsé taispeána.
- Cinntigh go bhfuil an gléas nó foinse sheachtrach nasctha i gceart.

#### Tá fuaim ann ach níl aon phictiúr

- Cinntigh go bhfuil na socruithe pictiúr socraithe i gceart.

#### Glacadh aeróige lag

- Cinntigh go bhfuil an aeróg nasctha leis an teilifís i gceart.
- Tá callairí arda, gléasanna fuaim nach bhfuil talmhaithe, soilse neon, foirgnimh arda agus rudaí móra eile in ann tionchar a imirt ar chaighdeán an ghlactha. Más féidir, déan iarracht caighdeán an ghlactha a fheabhsú trí threo na haeróige a athrú nó gléasanna a bhogadh amach ón teilifís.
- Má tá an glacadh go dona díreach ar chainéal amháin, déan míntiúnadh ar an gchainéal sin.

#### Drochphictiúr ó ghléas

- Cinntigh go bhfuil an gléas nasctha i gceart.
- Cinntigh go bhfuil na socruithe pictiúr socraithe i gceart.

#### Athraíonn socruithe pictiúr tar éis scathaimh

Cinntigh go bhfuil **Location** socraithe do **Home**. Is féidir socruithe a athrú agus a shábháil sa mhód seo.

#### Tá meirge tráchtála ar taispeáint

Cinntigh go bhfuil **Location** socraithe do **Home**.

#### Ní oireann an pictiúr don scáileán

Athraigh go formáid pictiúr éagsúil. Brúigh .

## Coinníonn an fhormaid pictiúr air ag athrú ó chainéal go cainéal

Roghnaigh formáid pictiúr nach mbaineann 'Uath' leis.

## Tá suíomh an phictiúir mícheart

D'fhéadfadh sé tarlú nach n-oireann comharthaí pictiúr ó ghléasanna áirithe don scáileán i gceart. Seiceáil aschur comhartha an ghléis nasctha.

## Níl an pictiúr ríomhaire cobhsaí

Cinntigh go n-úsáideann do ríomhaire an taifeach agus ráta athnuacha a dtacaítear leo.

---

## Fuaim

### Gan aon fhuaim nó droch-chaighdeán fuaime

Mura mbraitear aon chomhartha fuaime, casanna an teilifís an aschur fuaime as go huathoibríoch — ní chiallaíonn sé sin mífhaidhm.

- Cinntigh go bhfuil na socruithe fuaime socraithe i gceart.
- Cinntigh go bhfuil gach cábla nasctha i gceart.
- Cinntigh nach bhfuil an airde fuaime balbhaithe nó socraithe go nialas.
- Cinntigh go bhfuil aschur fuaime na teilifíse nasctha le hionchur fuaime an Chóras Amharclainne Baile.
- Ba cheart go mbeadh fuaim le cloisteáil ó challairí an HTS.
- D'fhéadfadh roinnt gléasanna iarraidh ort aschur fuaime HDMI a chumasú de láimh. Má tá fuaim HDMI cumasaithe cheana féin, ach fós ní chloiseann tú aon fhuaim, bain triail as an fhormaid fuaime digitéil a athrú go PCM (Modhnú Bíogchóid). Féach ar an gcáipéisíocht a tháinig le do ghléas le haghaidh treoracha.

## Naisc

### HDMI

- Tabhair faoi deara go bhféadfadh tacaíocht HDCP (Cosaint Ábhar Digiteach Ard-Bandaleithead) in ann moill a chur ar an méid ama a thógann sé do theilifís ábhar ó ghléas HDMI a thaispeáint.
- Mura n-aithníonn an teilifís an gléas HDMI agus mura bhfuil aon phictiúr ar taispeáint, athraigh an fhoinsé ó ghléas amháin go gléas eile agus ar ais arís.
- Má chuirtear isteach ar an bhfuaim go heatramhach, cinntigh go bhfuil na socruithe aschuir ón ghléas HDMI ceart.
- Má tá cuibheoir HDMI-go-DVI nó cábla HDMI-go-DVI in úsáid agat, cinntigh go bhfuil cábla fuaime breise nasctha le AUDIO IN (mion-seac amháin), más ann dó.

### Ní oibríonn EasyLink

- Cinntigh go bhfuil do ghléasanna HDMI comhoiriúnach le

HDMI-CEC. Ní oibríonn gnéithe EasyLink ach amháin le gléasanna atá comhoiriúnach le HDMI-CEC.

## Níl an deilbhín don airde fuaime ar taispeáint

- Gnáth-iompar é sin nuair atá gléas fuaime HDMI-CEC nasctha.

## Ní thaispeántar grianghraif, físeáin agus ceol ó ghléas USB

- Cinntigh go bhfuil an gléas stórála USB socraithe chun a bheith comhoiriúnach le hAicme Ollstórála, mar atá curtha síos air i gcáipéisíocht an ghléis stórála.
- Cinntigh go bhfuil the gléas stórála USB comhoiriúnach leis an teilifís.
- Cinntigh go dtacaíonn an teilifís na formáidí comhaid fuaime agus pictiúir.

## Athsheinnt briste comhad USB

- D'fhéadfadh feidhmíocht aistrithe an ghléis stórála USB srian a chur ar an ráta aistrithe sonraí chuig an teilifís, a bhfuil athsheinnt briste mar thoradh uirthi.

### Uimhir mhúnla na teilifíse agus sraithuimhir

D'fhéadfadh sé go n-iarraí ort uimhir mhúnla an táirge teilifíse agus an tsraithuimhir a thabhairt. Aimsigh na huimhreacha seo ar an lipéad pacáistithe nó ar an lipéad cineáil ar chúl nó ar bhun na teilifíse.

### Rabhadh

Ná triail an teilifíse a athdheisiú tú féin. D'fhéadfá tú féin a ghortú go dona, damáiste nach féidir é a leigheas a dhéanamh do do theilifís nó do bharánta a chur ar ceal.

# Sábháilteacht agus cúram

17.1

## Sábháilteacht

### Tábhachtach

Léigh agus tuig gach treoir sábháilteachta sula n-úsáidfidh tú an teilifís. Má tharlaíonn díobháil mar nár leanadh treoracha, ní bheidh feidhm ag an mbaránta.

### Daingnigh an teilifís sa chaoi is nach dtitfidh sí

Úsáid an brac balla atá istigh leis an teilifís i gcónaí chun nach dtitfidh an teilifís. Gléas an brac agus daingnigh an teilifís ar an mbrac, fiú má chuireann tú an teilifís ar an urlár.

Is féidir leat na treoracha do ghléasadh balla a fháil sa Treoir Mearthosaithe a tháinig leis an teilifís. Sa chás go bhfuil an treoir seo cailte agat, is féidir leat an treoir a íoslódáil ó [www.philips.com](http://www.philips.com)

Úsáid uimhir chineáil táirge na teilifíse chun cuardach a dhéanamh don Treoir Mearthosaithe atá le híoslódáil.

### Baol turrainge leictrí nó tine

- Ná noch an teilifís don bháisteach nó d'uisce. Ná cuir soithí ina mbíonn leachtanna, cosúil le vásaí, in aice leis an teilifís. Má dhoirtear leachtanna ar an teilifís, nó isteach inti, dínasc an teilifís ón asraon cumhachta láithreach. Déan teagmháil le Cúram Custaiméirí Philips TV chun an teilifís a sheiceáil sula n-úsáidfidh í.

- Ná noch an teilifís, an cianrialtán ná na ceallraí go deo do theas iomarcach. Ná cuir in aice le coinnle ar lasadh nó lasracha gan chosaint iad, ná in aice le foinsí teasa iad, lena n-áirítear teas díreach na gréine.

- Ná cuir aon rud isteach sna sliotáin aeraithe go deo, ná sna hoscailtí eile ar an teilifís.

- Ná cuir rudaí troma go deo ar an seolán cumhachta.

- Ná bíodh aon neart á imirt ar na plugaí cumhachta. Tá plugaí cumhachta scaoilte in ann a bheith ina n-údar do stuáil nó do thine. Bí cinnte nach mbeidh aon straidhn ar an seolán cumhachta nuair a sclóineann tú scáileán na teilifíse.

- Chun an teilifís a dínascadh ó bpríomhchumhacht, ní mór pluga cumhachta na teilifíse a dínascadh. Nuair atá an chumhacht a dínascadh agat, tarraing an pluga cumhachta i gcónaí, ná tarraing

an seolán go deo. Bí cinnte go bhfuil rochtain iomlán agat ar an bpluga cumhachta, an seolán cumhachta agus ar an soicéad asraoin i gcónaí.

### Baol gortuithe nó díobháil don teilifís

- Teastaíonn beirt chun teilifís atá níos troime ná 25 cileagram nó 55 punt a iompar.

- Má ghléasann tú an teilifís ar sheastán, ná húsáid ach an seastán a tháinig léi. Daingnigh an seastán leis an teilifís go maith. Lonnaigh an teilifís ar dhromchla réidh cothrom atá in ann glacadh le meáchan na teilifíse agus an seastáin.

- Nuair atá sé gléasta ar an mballa, bí cinnte go bhfuil an gléasadh balla in ann meáchan na teilifíse a iompar go sábháilte. Ní ghlacann TP Vision le haon fhreagracht as gléasadh balla míchuí a mbeidh tionóisc, gortú nó damáiste mar thoradh air.

- Is as gloine atá píosáí den táirge déanta. Láimhseáil go cúramach é chun gortú nó damáiste a sheachaint.

### Baol damáiste don teilifís

Sula nascfaidh tú an teilifís leis an asraon cumhachta, cinntigh go bhfuil an voltas cumhachta ag meaitseáil an luach atá priontáilte ar chúl na teilifíse. Ná nasc an teilifís go deo leis an asraon cumhachta má tá voltas éagsúil ann.

### Baol gortuithe do pháistí

Lean na réamhchúraim seo chun nach mbeidh an teilifís ina údar gortuithe do pháistí má thiteann sé ón seastán:

- Ná cuir an teilifís go deo ar dhromchla atá clúdaithe le héadach nó le hábhar eile ar féidir é a tharraingt.

- Bí cinnte nach bhfuil aon chuid den teilifís ag gobadh amach thar imeall an dromchla gléasta.

- Ná cuir an teilifís go deo ar throsacán ard, cosúil le leabhragán, gan an troscán agus an teilifís araon a bheith daingnithe don bhalla nó do thaca feiliúnach.

- Labhair le leanaí faoi na contúirtí a bhaineann le bheith ag dreapadóireacht ar throsacán chun dul chomh fada leis an teilifís.

### An baol a bhaineann le ceallraí a shlogadh

D'fhéadfadh ceallraí atá cosúil le boinn airgid a bheith sa chianrialtán agus d'fhéadfadh leanaí óga iad a shlogadh go héasca. Ná bíodh leanaí in ann rochtain a fháil ar na ceallraí seo go deo.

---

## Baol róthéite

Ná cuir an teilifís go deo in áit a bhfuil an spás cúng ann. Bíodh spás 20 ceintiméadar nó 4 orlach ar a laghad timpeall na teilifíse i gcónaí le haghaidh aeraithe. Bí cinnte nach gclúdaíonn cuirtíní nó rudaí eile sliotáin aeraithe na teilifíse.

---

## Stoirmeacha tintrí

Dínasc an teilifís ón asraon cumhachta agus ón aeróg roimh stoirmeacha tintrí.  
Ná leag do lámh ar aon chuid den teilifís, an seológ cumhachta nó cábla na haeróige i rith stoirmeacha tintrí.

---

## Baol damáiste éisteachta

Ná húsáid cluasáin ar feadh tréimhsí fada nuair a bhíonn an fhuaim an-ard agat.

---

## Teochtaí ísle

Má iompraítear an teilifís nuair atá an teocht níos lú ná 5°C nó 41°F, díphacáil an teilifís agus fan go dtí go mbeidh teocht an tseomra bainte amach ag an teilifís sula nascfaidh tú an teilifís leis an asraon cumhachta.

---

## Bogthaise

Tá sé in ann tarlú go hannamh, ag brath ar theocht agus ar bhogthaise, go mbeidh mion-comhdhlúthú ar an taobh istigh d'aghaidh ghloine na teilifíse (ar roinnt múnlaí). Chun é seo a chosc, ná nocht an teilifís do sholas díreach na gréine, do theas ná do an-bhogthaise. Má bhíonn comhdhlúthú ann, imeoidh sé leis féin tar éis don teilifís a bheith air ar feadh roinnt uaireanta. Ní dhéanfaidh taisé an bhogthaise aon dochar don teilifís agus ní bheidh sé ina údar mífhaidhme.

## Cúram scáileáin

- Ná bíodh aon rud i dteagmáil leis an scáileán agus ná húsáid aon rud chun an scáileán a bhrú, a chuimilt nó a bhualadh.
- Bain amach pluga na teilifíse sula nglanann tú í.
- Glan an teilifís agus an fráma le ceirt bhog thais agus cuimil go séimh iad. Ná húsáid substaintí cosúil le halcól, ceimiceáin nó glantóirí tí ar an teilifís go deo.
- Glan braonta uisce chomh tapaidh agus is féidir chun dífhoirmiúcháin agus téaltú dathanna a sheachaint.

Seachain íomhánna cónaitheacha a mhéid is mó is atá tú in ann. Íomhánna a fhanann ar an scáileán ar feadh tréimhsí fada iad íomhánna cónaitheacha. Áirítear le híomhánna cónaitheacha roghchláir ar an scáileán, barraí dubha, taispeántaí ama, srl. Má chaitheann tú íomhánna cónaitheacha a úsáid, laghdaigh codarsnacht agus gile an scáileán chun damáiste don scáileán a sheachaint.
