Highlights

P5 Perfect Picture Engine
The Philips P5 engine delivers a picture as brilliant as the content you love. Details have noticeably more depth. Colors are vivid, while skin tones look natural. Contrast is so crisp you'll feel every detail. Motion is perfectly smooth.

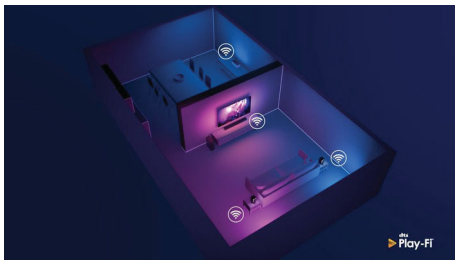

Dolby Vision and Dolby Atmos
Support for Dolby's premium sound and video formats means the HDR content you watch will look-and sound-gloriously real. Whether it's the latest streaming series or a Blu-Ray disc set, you'll enjoy contrast, brightness, and color that reflect the director's original intentions. And hear spacious sound with clarity, detail, and depth.

Android Display. Simply Smart
Make your Philips Android Display your own. If it's all about Amazon and YouTube this week, and Rakuten D isplay and Netflix next week-no problem. A clear, intuitive interface lets you put the content you love front and center. Easily pick up where you left off in the latest series, or check out the new movie releases.

Google Assistant
Control your Philips Android Display with your voice. Want to play a game, watch Netflix, or find content and apps in the Google Play store? Just tell your Display. You can even command all Google Assistant-compatible smart home devices-like dimming the lights and setting the thermostat on movie night. Without leaving the sofa.

HDR

High Dynamic Range redefines in-home entertainment. Experience a sensory journey with its advanced processing power. Capture the richness and liveliness of the content just as the creator intented. Get ready to enjoy brighter highlights, greater contrast, a broader range of colors and detail like never before.

DTS Play-Fi

With DTS Play-Fi on your Philips Display you can connect to compatible speakers in any room. Got wireless speakers in the kitchen? Listen to the movie while you make a snack, or keep up with the sports commentary while you get everyone a drink.
