Professional TV

65" B-Line
powered by Android™

65BFL2214

Professional productivity

with Chromecast built-in and HDMI hotplug

Boost productivity. Philips B-Line seamlessly integrates into corporate systems for efficient control. Chromecast built-in ensures that presentations run smoothly with instant wireless media sharing from Windows, Apple and Android™ devices.

Vibrant and efficient

- UHD resolution for attention-grabbing content
- Chromecast built-in for wireless content sharing
- HDMI hotplug detection with auto on/off function
- Superb audio quality without external speakers
- Android updates provide the latest functionality
- Google Play Store access for apps and media

Smart control features

- Crestron Connected certified system integration
- Compatible with Extron and Neets systems
- Scheduler for content playback at selected times
- SmartInfo for custom content even when offline
- Operate, monitor and maintain via CMND & Control
- Install and manage apps remotely with AppControl

PHILIPS

Highlights

Chromecast built in

Make meetings run smoother and faster with seamless wireless connectivity to the big screen from any Apple, Windows or Android™ device. Chromecast built-in enables instant casting of presentations and media from mobiles, laptops and tablets in up to 4K resolution. It's cost-effective, requires no extra hardware and is secure for corporate use.

HDMI hotplug detection

When wireless connectivity is not an option, HDMI hotplug detection recognises direct cabled connections from presentation sources and automatically handles source changes and on/off functioning.

Powered by Android

Android-powered Philips Professional Displays are fast, versatile and easy to navigate. The displays are optimised for native Android apps and you can install web apps directly to the

display too. Automatic updates ensure that apps stay up to date.

Google Play Store access

Full access to the entire Google Play Store makes it easy to add apps, games, music, movies and more to your Philips Professional Display. New business tools and extra entertainment options are added to the catalogue daily, ensuring that you always have access to the latest global trends.

Crestron Connected certified

Connect this Philips Professional Display to your Crestron network for full remote control via your laptop, desktop or mobile device. Switch the display on and off, schedule content, manage settings and easily connect external devices. Crestron Connected® provides a fast, reliable and secure enterprise level solution for wireless and wired content sharing from Apple, Windows, Android and Linux devices.

Scheduler for content playback

Built-in scheduler makes it easy to launch content and apps based on time of day for a more engaging environment with better results.

CMND and Control

Run your display network over a local (LAN or RF) connection. CMND & Control allows you to perform vital functions like updating software and settings, as well as monitoring display status. Whether you're in charge of one TV or more, CMND & Control makes managing your fleet easy.

AppControl

Take full, centralised control of the apps installed on your Philips Professional Displays. AppControl lets you install, delete and manage apps on selected Displays or your entire network so that you can offer personalised experiences to your guests and customers—no matter how many displays you are managing.

Specifications
