Highlights

Integrated Media player
The integrated MP4 player supports all common video and audio formats. This makes the PicoPix pocket projector a standalone device, retrieving its content from the internal 2 GB memory, USB stick or one of various different types of memory cards.

Internal battery
The PicoPix comes with a compact built-in rechargeable battery for long-lasting power. Up to 2 hours of continuous movie, photo and music playback enjoyment can be achieved on a single charge. This makes the PicoPix your perfect pocket companion.

LED-Technology
Your pictures and videos deserve the best quality when it comes to sharing them with those around you. This is why the PicoPix mobile projector uses high quality LED technology to project your pictures and videos in brillinat colours and breathtaking contrast.

Browse the web
The PicoPix 3610 offers an integrated web browser which allows you to go directly online without connecting a Smartphone or Notebook. All you need is WiFi connection.

120" (305cm) image size
Enjoy the biggest mobile screen you ever had and share your HD media content wherever you want. With your PicoPix you are carrying a personal cinema in your pocket.

Personal WiFi Hotspot
Whenever there is no WiFi network available, the PicoPix will become a Personal Hotspot and set up its own network for all DLNA compatible devices, enabling you to share content on a large screen

WiFi function
With WiFi you can connect your PicoPix 3610 to DLNA compatible devices on your home network, and project your content from these devices.
