Highlights

Browse the web

The PicoPix 3610 offers an integrated web browser which allows you to go directly online without connecting a Smartphone or Notebook. All you need is Wi-Fi connection.

120" (305cm) image size

Enjoy the biggest mobile screen you ever had and share your HD media content wherever you want. With your PicoPix you are carrying a personal cinema in your pocket.

Personal Wi-Fi Hotspot

Whenever there is no Wi-Fi network available, the PicoPix will become a Personal Hotspot and set up its own network for all DLNA compatible devices, enabling you to share content on a large screen

Integrated Media player

The integrated MP4 player supports all common video and audio formats. This makes the PicoPix pocket projector a standalone device, retrieving its content from the internal 2 GB memory, USB stick or one of various different types of memory cards.

Internal battery

The PicoPix comes with a compact built-in rechargeable battery for long-lasting power. Up to 2 hours of continuous movie, photo and music playback enjoyment can be achieved on a single charge. This makes the PicoPix your perfect pocket companion.

LED-Technology

Your pictures and videos deserve the best quality when it comes to sharing them with those around you. This is why the PicoPix mobile projector uses high quality LED technology to project your pictures and videos in brilliant colours and breathtaking contrast.

Wi-Fi function

With Wi-Fi you can connect your PicoPix 3610 to DLNA compatible devices on your home network, and project your content from these devices.

Free-to-air digital TV

With the PicoPix 3610 you always have your personal TV with you. Just connect the antenna and enjoy digital free-to-air TV on a really big screen in the park, on the beach or anywhere you like
