- Personalised experience, 8 + 16 setting levels
- Memory function

### Gentle and comfortable

- Soft and adaptive silicone cushion
- Express without leaning forward

### Quick expressing, more milk in less time\*

- Natural motion technology for a quick milk flow\*

# Highlights

## Quick milk flow\*

Express more milk in less time\* with a cushion that stimulates the breast to express milk just like baby. It seamlessly adjusts from stimulation mode to expression mode and applies just the right amount of teat stimulation and suction for maximum milk flow. Based on milk flow initiation time (time to Milk Ejection Reflex — MER) results.\*

## Adapts to your nipple

Because we all come in different shapes and sizes, the silicone cushion gently flexes and adapts to fit your nipple. It fits 99.98% of nipple sizes\* (up to 30 mm).

## Sit comfortably

Feel relaxed as you express thanks to a design that lets you sit upright rather than having to lean forward. No need to lean forward, a

clinically proven comfortable expressing position\*. Based on product clinical trial results with 20 participants (2019); 90% of participants find the expressing position comfortable (single electric); 95% of participants find the expressing position comfortable (double electric).

## Personalise to your needs

Finely tune every session to your needs with a wide range of stimulation and expression settings. Our breast pump offers 8 stimulation and 16 expression levels for a personalised experience.

## Express anywhere discreetly

Express whenever and wherever you like thanks to our quiet motor with a slimline design. Corded use only.

## Easy to clean and set up

Our closed expression system means milk stays out of the tubing so there's less to clean. Fewer parts also make it a breeze to put back together again.

## Pause whenever you like

If you need to adjust or take a break, the start/pause button is always at your fingertips.

## Save your favourite settings

Know what you like? The breast pump automatically remembers your last settings, so all you need to do is sit down and press start.

# Specifications

## What is included
