Highlights

Brushing with peace of mind

All Philips Sonicare brush heads are safe and gentle on teeth and gums. During tests, each brush head is put through its paces to ensure durability and an exceptional performance every time you brush.

Reminder bristles

Brush heads become less effective after 3 months of use, but we'll remind you before this happens. Just monitor your blue replacement bristles and when they turn white, you'll know it's time for a fresh brush head.

Say goodbye to plaque

Densely-packed, high-quality bristles remove up to 2x more plaque than a manual toothbrush. And the contoured bristles fit the shape of your teeth, so you can easily clean those hard-to-reach areas.

Easy to click on

Your C1 ProResults brush head fits perfectly with any Philips Sonicare toothbrush handle, except Philips One and Essence. Simply click on and off for easy replacement and cleaning.

The only true sonic technology

Philips Sonicare's advanced sonic technology pulses water between your teeth, and its brush strokes break plaque up and sweep it away for an exceptional daily clean.
