Reassurance anywhere

An eye on your baby, at home and away

Keep an eye on your baby securely and from anywhere with the Philips Avent Connected Baby Monitor. Our Secure Connect System keeps you linked to your little one throughout home. And with the Baby Monitor+ app you can check in from anywhere.

Connect from anywhere

- Designed to always keep you connected to baby
- Full HD camera with night vision and digital zoom

Reassurance day and night

- See every wiggle, hear every giggle
- Up to 400 meters of range at home, unlimited range beyond
- Up to 12 hours of cordless monitoring with the parent unit

Supporting your family

- Never too warm or cool, always just right
- Peaceful nap times with soothing ambient nightlight
- Ready for every day and every night

Monitor your way

- Speak and listen to your little one at the same time
- Sounds to settle and soothe

Highlights

Secure Connect System

Our very own Secure Connect System uses multiple, encrypted links from baby unit to the parent unit and app. For a reassuringly robust and private connection.

Baby Monitor+ app

See and hear your little one at home and away with the Philips Avent Baby Monitor+ app. Using Wi-Fi or mobile internet you can monitor and soothe from anywhere.

Baby unit with full HD

The baby unit uses a full HD camera with night vision and digital zoom, bringing clear pictures of your little one's room day and night.

Long-range monitoring

Stay confidently connected with the parent unit giving up to 400 meters of range* around your home. And the Baby Monitor+ app using mobile internet or Wi-Fi to provide unlimited range anywhere else.

Up to 12 hours of cordless use

The rechargeable parent unit offers up to 12 hours of battery life** and a 4.3 inch color display. So, you can easily monitor all day long and well into your evening before plugging it in.

Built-in room thermometer

With high and low temperature alerts the integrated room thermometer helps you keep your little one snug as a bug. Just the right amount of cozy for a perfect rest.

Soothing ambient nightlight

Give your little one's room a comforting glow with the baby unit's integrated ambient nightlight. Turn it on and off or adjust its glow from the parent unit and the Baby Monitor+ app.

True talk back

No more walkie-talkies! Our baby monitor only uses true talk back, so with the push of a button, you and your baby can hear each other sing, soothe or giggle without interruption.

Soothing sounds

Choose between 15 soothing tracks from garden birdsong and nighttime nature, to lullabies including Rock-a-Bye Baby. And record your own to play back on demand. After all, what is better than the sound of a parent's voice?
