

Philips s-bag
disposable dust bag

s-bag Green

FC8020/01

100% natural 100% performance

Greener every day

Environmentally friendly Philips s-bag[®] FC8020/01 with the performance you are used to. The s-bag[®] GREEN is designed to fit cylinder vacuum cleaners from Philips and the Electrolux Group (Electrolux, Volta, Tornado, Zanussi, AEG-Electrolux).

100% natural

- 100% renewable sources for a better environment
- Recycled cardboard for natural decomposition
- Natural rubber for better recycling

Outstanding performance

- TÜV-certified for trusted results
- Longer-lasting suction power for better cleaning
- High resistance for more powerful cleaning

One Standard, No Hassle

- A universal standard for an easy choice
- Hygienic closing system for easy disposal

PHILIPS

Highlights

100% renewable sources

The main ingredient of the Philips s-bag is dextrose (sugar), which is sourced from non-edible field corn. The use of 100% renewable sources for the creation of the s-bag Green lowers the impact on the environment, not only in terms of production, but also because it is biodegradable.

Recycled cardboard

The cardboard used in the Philips s-bag Green is made of 100% recycled materials, and decomposes in nature within only 15 weeks.

Natural rubber

The rubber used in the Philips s-bag Green is natural rubber, ideal for recycling.

TÜV certified

The Philips s-bag Green has been independently tested, and certified, by TÜV Rheinland Group. It is proven to have a 50% longer lifetime compared to normal paper dust bags, thanks to its 4-layer filtration.

Longer-lasting suction power

Like all s-bags, the s-bag Green has a longer lifetime thanks to the efficient absorption of dust. The dust is absorbed in such a way that the pores of the bag aren't blocked, maintaining the high airflow for longer.

High resistance

The Philips s-bag's advanced construction gives it a high resistance, preventing it from bursting under powerful suction, but also preventing damage by sharp objects (like broken glass) that are vacuumed up.

Universal standard

The Philips s-bag can be used for all Philips and Electrolux Group (Electrolux, Volta, Tornado and AEG-Electrolux) bag vacuum cleaners. Skip the hassle of endlessly searching for a dust bag — simply choose the s-bag.

Hygienic closing system

The patented closing system of the Philips s-bag allows for easy and clean disposal, without spilling the trapped dirt that is inside.

Specifications

Accessory specifications

- Number of dust bags: 3

Suitable for

- AirStar: FC8220 - FC8229
- ...: FC8200 - FC8219
- Electrolux Group: AEG bag vacuum cleaners, Electrolux bag vacuum cleaners, Tornado bag vacuum cleaners, Zanussi bag vacuum cleaners
