Highlights

Powerful cleaning

Highly efficient 2200 Watt motor generates max. 500 Watt suction power for perfect cleaning results.

HEPA AirSeal, HEPA 13 filter

This Philips vacuum cleaner has been designed in such a way that all the air taken in is passed through the washable HEPA 13 filter (99.95% filtration) before it is exhausted. No escape is possible.

s-bag in XXL 4 litre

This large dust bag capacity allows you to make optimal use of your dust bag, which means you have to change it less frequently.

Super Parquet nozzle

The Super Parquet nozzle allows you to clean hard floors of all kinds thoroughly in one go, without the risk of harming them. Using the absorption capacity of the micro-fibre pads, together with the suction power of the vacuum cleaner, you achieve the best results without requiring any detergents or brushes.

Turbo Brush nozzle

The Turbo Brush nozzle allows deep cleaning of carpets and quick hair and fluff removal from carpets. The rotating brush actively removes small dust particles and hairs, resulting in a 25% better cleaning performance on carpets. The wheels of the nozzle prevent damage during use on hard floors.

ECARF Seal of Quality Award

This ECARF certified vacuum cleaner guarantees with 99.95% certainty that almost all the air in the room will be filtered along with the normal vacuum action. This removes almost all allergens from carpets, furniture and other spaces in your house.

TriActive nozzle

The TriActive nozzle cleans your floor in 3 ways in one go: 1) A larger opening at the tip of the nozzle easily sucks up big bits. 2) It has maximum cleaning efficiency due to optimised airflow through the nozzle. 3) The two side brushes sweep up the dust and dirt closely alongside furniture and walls.
