White-light experience

- Daylight-like color temperature for comfortable driving

Enhanced fit with compact design

- Compact all-in-one design for easy installation

Long lasting performance

- Built to last up to 3,000 hours

Highlights

Safe, road-legal LED light

We are bringing our long expertise to public roads with our Philips Ultinon Pro6000 H4-LED bulbs, 100% road-legal* and homologated by the Ministry of Transport for use on public roads and for selected car models. You can now convert the low beam of your halogen headlights to our tested, safe, and road-approved* Philips Ultinon Pro6000 H4-LED lights to enjoy reliable illumination and an unrivaled LED driving experience. Visit our [Philips.com/roadlegalLED](https://philips.com/roadlegalLED) page* for further information.

Up to 230% brighter light**

Drive with greater confidence wherever you go with Philips Ultinon Pro6000 H4-LED. Its accurate and consistent beam pattern will illuminate the road exactly where you need it, giving you better visibility and greater control over your vehicle. With up to 230% brighter light**, the Philips Ultinon Pro6000 H4-LED offers remarkable clarity to spot obstacles and react faster, even in tough weather conditions.

Experience improved visibility

Beam pattern is just as important as brightness: a uniform, accurate beam pattern lets you see and be seen more clearly. Thanks to the perfect positioning of the LED chips on the Philips Ultinon Pro6000 bulbs, drivers have light exactly where they need it on the road without dazzling oncoming vehicles.

5800 K for crisp white light

With a color temperature of up to 5800 Kelvin, the Philips Ultinon Pro6000 bulbs produce a bright white light close to daylight. The clearer vision this provides makes it easier to spot obstacles and take the perfect driving line. The optimal color temperature avoids tiring or straining the eyes, giving you more comfortable and safer night-time driving.

Compact all-in-one design

The brand-new design of the Philips Ultinon Pro6000 H4-LED takes up little space into the headlights. Thanks to its one-piece design and its integrated driver, the installation is simple and easy. These Philips Ultinon Pro6000 H4-

LED lamps are compatible with a wide range of selected car models*. For further information, visit [Philips.com/roadlegalLED](https://philips.com/roadlegalLED).

Up to 3-year warranty***

You want bright, stylish headlights but you don't want to keep replacing failed lamps. LED bulbs generate heat that must be managed. Advanced AirBoost technology and a built-in fan for active cooling contribute to long-lasting reliability. This unique system diverts heat away from the bulb's critical components and enables Philips Ultinon Pro6000 H4-LED bulbs to last longer, providing up to 3,000 hours of use. Visit philips.com/auto-warranty to register for an extended warranty***.

Highest quality lighting

Technologically advanced Philips lighting is renowned in the automotive industry and has been for over 100 years. Philips Automotive Grade Quality products are designed and developed following strict quality-control processes, leading to consistently high production standards. Trust the Philips brand.
