PHILIPS

Highlights

AeroSeal nozzle

The AeroSeal nozzle captures more dust and fluff per stroke thanks to the special designed soleplate. It gently opens up the carpet to remove the dust deep down. Thanks to the optimal sealing the dust is transported into the cyclone with maximum airflow.

PowerCyclone technology

The PowerCyclone technology delivers best cleaning results in one go through 3 highly efficient steps: 1) Air enters fast into the PowerCyclone thanks to the straight and smooth air inlet. 2) The curved airpass quickly accelerates the air upwards in the cyclonic chamber. 3) At the top of the cyclone, the exit blades effectively cut out the dust from the air.

2100 Watt motor

This powerful 2100 Watt motor generates max. 370 Watt suction power for excellent cleaning results.

Easy to empty dust container

The dust container is carefully designed to dispose collected dirt without creating a dust cloud. It is one-hand operated and thanks to its unique shape and smooth surface, you can easily control the emptying of the dust container.

10 m action radius

10 m action radius for cleaning with less effort.
