The right suction power for every surface

- Electronic power control

Good cleaning results

- 1200 Watt motor generating max. 200 Watt suction power

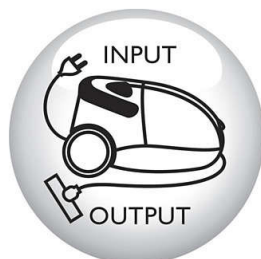

Scratch protection for parquet floors

- Soft rubber wheels

PHILIPS

Highlights

1200 Watt motor

This vacuum cleaner has an efficient 1200 Watt motor generating max. 200 Watt suction power for good cleaning results.

Electronic power control

The electronic power control on the appliance makes it possible to select the right suction power for the surface you are vacuuming.

Compact design

Thanks to its very compact design the appliance can easily be stored in small spaces and cupboards.

Two parking hooks

With a parking hook on the rear and bottomside the appliance can be stored in different positions. The parking hook at the rear side is also very convenient for temporary parking of the tube during cleaning.

Soft rubber wheels

This vacuum cleaner has rubber wheels making it glide smoothly over hard floors without the risk of scratches.

Permanent dust bag

Since this cotton dust bag can easily be emptied, you will not encounter the hassle of buying dust bags anymore. It saves money and time.

Comfortable carrying handles

This vacuum cleaner has not one, but two carrying handles. When it is on its wheels, there is a handle on top which enables you to easily move the cleaner around with very little bending. The second handle on the front side of the appliance enables you to comfortably carry it around in an upright position.
