Highlights

Skin-friendly blades

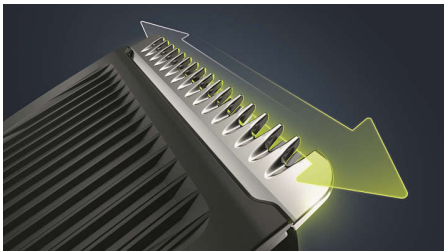

Designed to prevent scratches and irritation, the blades have rounded tips for smoother skin contact.

SkinProtect comb

Skin Protect Comb is designed to give you a comfortable clean look while providing extra skin protection. The comb guides the skin away from the blades for a close, smooth trim.

Self-sharpening blades

The self-sharpening steel blades stay as sharp and effective as on day 1 to deliver a perfect yet protective trim, time after time.

Choose your beard look

Use the 7mm comb to trim your long beard, the 3mm comb to create a 3-day stubble look or use your trimmer with SkinProtect comb to have a zero trim.

30 min cordless use

Charge your trimmer for 8 hours with your USB cable to get 30 minutes of cordless use.

Battery charging indicator

The green light on the handle lets you know when your device is charging.

USB charging

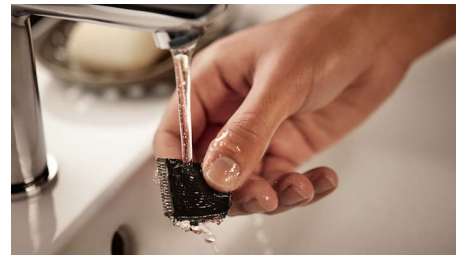

This beard trimmer comes with a USB cable for more flexible charging. The adaptor is not included (recommended adaptor Philips HQ87).

Ergonomic design

A fast trimmer that's comfortable to hold and use. So you can handle those hard-to-reach areas more easily.

Easy to clean

Detach the head of your Philips beard trimmer and rinse it under the tap for easy cleaning. Then dry it before you put it back on the appliance.

Built to last

All of our grooming products are built to last. They come with a 2 year warranty, never need to be oiled and are compatible with any voltage worldwide.
