FC8010/01

Highlights

Allergy exhaust filter

The kit contains 1 x Allergy exhaust filter. The filter catches even the finest dust before the air is expelled back into the room. This results in clean, dust-free air in your home. It is recommended to replace the filter once a year.

Washable motor filter

The kit contains 1 x washable motor filter. This provides high filtration levels and prevents fine dust from reaching the motor and damaging it. The filter can be washed. It is recommended to replace the filter once a year.

Washable motor foam filter

The kit contains 1 x motor inlet filter (foam). This filter provides additional protection to the motor and should be placed next to the washable motor filter. The filter can be washed. It is recommended to replace the filter once a year.
