PHILIPS

Mobile projector
Up to 80" Android TV experience, Stereo speakers & 4h battery, USB-C video and HDMI

PPX360/INT

Highlights

Advanced LED Light Source

The powerful LED light source displays rich, vivid colors and will last up to 30,000 hours. You won't need to replace it since it lasts 20 years with an average usage of 4 hours per day! Additionally, the power consumption is far lower than a regular lamp based projector, which means you benefit from a bigger screen and fully immersive experience, all through an eco friendly device!

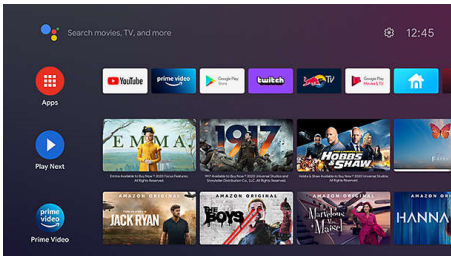

ARC and CEC

ARC and CEC

Control your HDMI connected devices with only 1 remote control thanks to CEC. ARC allows you to connect the projector to your AV receiver via HDMI for a truly immersive sound

Built-in Android TV

Get the full Android TV experience thanks to the built-in Android TV dongle. All your favorite apps are there, Google Cast and more!

Customize the perfect image

Place the product where ever you want! The auto keystone and auto rotation corrections combined with the focus technology allow you to fine-tune images to your needs and place your projector at any distance.

Project images up to 80"

Project images and videos up to 80" (200cm) from less than 2 meters from the wall.

Smart remote for many controls

Our convenient remote control lets you easily browse content and option. Just ask Google Assistant to play, pause, search and more!

Stereo speakers

Integrated stereo speakers with equalization and surround sound.

Tripod mount

Built-in tripod mount to project straight in front of you or project on the ceiling for a comfortable view from your bed!

Super Compact

Compact, powerful, and Apple ready: take it everywhere, project anywhere. This is your perfect travel companion.

Mobile projector
