

## Readiness Management

Our AED Remote Monitoring Suite completely redefines the concept of managing AEDs. It is designed to be simple and easy to use with a carefree service subscription plan to help give you peace of mind. The AED Remote Monitoring Suite allows you to monitor the readiness of your AED assets, wherever they are. It utilizes a maintenance-free transmitter that connects your Philips AED to an automatic monitoring and notification dashboard.

### 1. Philips HeartStart AEDs

Start with the industry standard, Philips HeartStart AEDs

- Proven safe, reliable and effective<sup>1</sup>
- Designed to be easy to use by trained or minimally trained users
- Fast, confident shock delivery < 8 sec<sup>2</sup>
- Daily checks, including pads functionality
- Ability to treat both children and adults in a variety of environments

### 2. Monitoring

Connect your AEDs, with the innovative SmartLink transmitter

- Remote monitoring; AED, pads and battery check
- Prompt notifications in case the AED needs attention
- Convenient status alerts
- Philips managed relationship with top cellular provider for cloud connectivity

### 3. Connected service

Enjoy simple set-up, planning and ownership, with our remote monitoring service

- Easy system for tracking parts that need replenishment
- Pre-paid subscription plan
- Downloadable snapshot of fleet readiness with one click
- Minimal visual inspections, enhancing sustainability

**How can you be  
sure your AED will  
be ready?**

# How AED Remote Monitoring could benefit you

## Comprehensive support at every step, whatever your scale

Delivered on a subscription basis, our all-in-one carefree remote monitoring software provides you with a safe and reliable AED, an intuitive, subscription-based software platform and one-stop shop for device readiness tracking. Whatever your location or scale, we are by your side providing the confidence you need.

## Key benefits

- Helps to be prepared if a sudden cardiac arrest (SCA) occurs
- Gain peace of mind and stay informed
- Focus on other priorities knowing your AEDs are being monitored
- High-quality, well maintained, 24/7 monitored AEDs
- Stay compliant with current local requirements
- Low total cost of ownership and predictable cost
- Improve sustainability by reducing unnecessary site inspections
- A truly carefree approach – we are your partner by your side

## Are you ready to be confident, connected and carefree?

Let's discuss how Philips can help you with your AED program.
