- Net weight: approx. 3kg
- Main materials: Mesh cloth, Poly urethane

Main parameters

- Auto shut-off time: 15 minutes

- Rated Power: 24 W
- Cord length of adapter: 1.8 m

Country of origin

- Made in: China

Service

- Warranty period: 2 years

PPM4501BU/97

Highlights

Multi-node massage

Up to 12 massage nodes are arranged on both the left and right side. A large area rotation can cover the back to massage all parts precisely.

Comfort-Fit surface

In-depth study of the human body curve in order to make the massager more compliant with the body and achieve a purer massage experience

Thermostatically hot compress

42 degrees (3 degrees) hot compress thermostat. While the massage nodes are kneading and massaging, it can also heat the massaged area to accelerate blood circulation, eliminate swelling and pain, and relieve muscle soreness.

Imitate human massage skill

Use 3D stereo massage nodes, which are different from ordinary 2D flat massage nodes. It can simulate real person's pushing, pulling and kneading massage techniques to deeply soothe muscles and eliminate fatigue.

3D floating massage

Design of floating massage nodes provides protection. When the body is close to the massager, it will stretch back and forth to avoid damage caused by squeezing the body tissues.

Timed massage

15 minutes preset massage function to prevent damage caused by excessive massage or hot compress

One-key control

Make hard things simple: complete all the functional procedures with one touch.

Personalized massage settings

Experience in four different modes

Color status indicator

Buttons and massage heads are equipped with colored status lights. Orange light indicates heated mode while blue light indicates no heat.
