- Few parts - easy to assemble and clean (dishwasher safe)

Bite-resistant spout

- Soft bite-resistant spout, for growing teeth

Easy to grip

- Contoured shape and anti-slip texture

Leak-proof, moms confirm*

- Advanced valve - leak-proof drinking

Highlights

Leak-proof, moms confirm*

There's nothing like a good adventure. Just ask your little one. And when they're on-the-go, this leak-proof sippy cup helps ensure mess-free drinking. The unique valve means liquid only flows when your toddler sips, so you don't have to worry about little spills, or toppling cups. Don't just take our word for it either – 91% of moms agree that this cup is leak-proof*

Soft bite-resistant spout

When it comes to comfortable and easy drinking, little ones need a spout that's not only gentle on gums, but that can also stand up to developing teeth. My Grippy spout cup delivers on both, thanks to its bite-resistant spout that's soft.

Easy to grip

Your toddler will be a confident, independent little drinker in no time, thanks to this cup's easy-grip design. It's contoured shape and anti-slip texture make it easy for little hands to hold.

Few parts - easy to clean

The Philips Avent My Grippy spout cup is made up of only a few parts, making it a breeze to assemble. It comes with a hygiene cap that keeps the spout clean, and all parts are dishwasher safe for your convenience.

BPA free (0% BPA)

Like all our toddler sippy cups, this spout cup is BPA free/0% BPA.

Healthy development

Learning to drink independently is an important step in a child's development. We try and make the transition from breast or bottle to a sippy cup as easy and as comfortable as we can. We teamed up with healthcare professionals to make sure every bottle and cup we develop stimulates and supports their growing motor and drinking skills. So whether your little one is using a nipple, soft or hard spout, straw or 360° drinking rim, you can be assured it was created with your little one's development in mind. All our drinking solutions are also premium quality, and are of course BPA-free/0%BPA.
