- Create precise edges & sharp lines with the dual-sided blade

Comfortable shave

- Fits on all OneBlade handles

Clean shave

- Unique OneBlade Technology

Protective shave

- Anti-friction blade

Easy to use

- Wet & dry

Highlights

Unique OneBlade Technology

It's fast. Like really fast. Philips OneBlade Anti-friction blade uses a revolutionary cutter to power through any length of hair, giving you a fast, clean shave while caring for skin.

Fits on all OneBlade handles

Fits with all OneBlade products: OneBlade (QP25xx, QP26xx, QP27XX, QP28XX), OneBlade Pro (QP6504, QP653x, QP654x, QP665x)

Anti-friction blade

It's smooth. Like really smooth. We added a layer of micro-glass beads to dial down friction while you shave. And because that helps reduce razor burn, you don't need foam or water.

Blade that doesn't fade easily

Durable stainless steel blade that lasts up to 4 months of use* to keep that fresh feel. Replacement is easy and hassle free. When the replacement indicator - eject icon - will appear on the blade, the blade performance may no longer be optimal. It is time to consider changing the blade for the best shaving experience.

Contour Following

OneBlade follows the contours of your face allowing you to effectively and comfortably shave all areas of your face

Dual-sided blade

Cuts both up and down, so you can shave in any direction. Get the shave you want in seconds with the dual-sided blade!

Wet & dry

OneBlade is waterproof (IPX7), so it is easy to clean, just rinse it under the tap. You can also shave in the shower, with or without foam – whatever you prefer.
