#### **Easy to use, clean and assemble**

- Ergonomic shape for easy holding
- Few parts for quick and simple assembly
- Wide neck and only a few parts for easy cleaning
- Leak-free for enjoyable feeding

# Highlights

## Bottle and teat brush

Specially curved brush head and moulded handle-tip reach the corners of all types of bottles, teats and feeding equipment for thorough cleaning.

## Easy to hold

Due to the unique shape, the feeding bottle is easy to hold and grip in any direction for maximum comfort, even for baby's tiny hands.

## Less colic

In contrast to other bottles, the clinically proven anti-colic system is now integrated into the teat, making it easier to assemble the bottle correctly. As your baby feeds, the unique valve on the teat opens to allow air into the bottle instead of your baby's tummy.

## BPA free

In accordance with EU directive 2011/8/EU, the Philips Avent Classic+ feeding bottle is made of BPA-free material (polypropylene).

## Compatibility across range

The Philips Avent Classic+ bottle is compatible with most of the Philips Avent range. We recommend using the Classic+ bottle with Classic+ teats only.

## Easy to assemble in seconds

The new Classic+ bottle has only 4 parts for quick and simple assembly.

## Easy to clean

With only 4 parts, a wide bottle neck and rounded corners, our bottle is easy to clean quickly and thoroughly. Have peace of mind that your bottle is truly clean in no time.

## Less fussing\*

Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical trial was carried out to see whether infant baby

bottle design affects "infant behaviour". The Philips Avent Classic baby bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs. 74 min, p=0.05) This was especially true at night.\*

## Leak-free

The new Classic+ bottle is designed to prevent leakage whilst feeding, for a truly enjoyable feeding experience.

## Less spit-up, burping and wind

The unique valve on the teat flexes to your baby's feeding rhythm. Milk will only flow at the pace chosen by your baby to minimise overeating and spit-up, burping and wind.

## Fits your baby's growing needs

The Philips Avent Classic+ range offers different teat flow rates to keep up with your baby's growth. Remember that age indications are approximate as babies develop at different rates. All teats are available in twin packs: Newborn, Slow, Medium, Fast and Variable Flow.

# Specifications

## Convenience

Capacity: 4 oz

## Design

Bottle design: Wide neck, Ergonomic shape

## Features

Can be sterilised

## Material

Bottle: Polypropylene, BPA-free\*
