- Allows air into the bottle instead of your baby's tummy

# Highlights

## BPA Free (0% Bisphenol A)

This bottle is made from PES – a BPA-Free material

## Combine breast and bottle

The wide breast-shaped teat promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding

## Helps settle your baby

Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical trial was carried out to see whether infant baby

bottle design affects "infant behaviour". The Philips Avent Classic baby bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs. 74 min,  $p=0.05$ ). This was especially true at night.\*\*

## Completely interchangeable

All Philips Avent Teats, Spouts and Bottles can be used with: Storage Cups, Breast Milk Containers, Magic Cups and Breast Pumps

## Fits your baby's growing needs

Five different teat flow rates are available.

## Unique anti-colic valve

As your baby feeds, the unique skirt on the Avent Nipple flexes to allow air into the bottle instead of your baby's tummy. Like breastfeeding, your baby controls the milk flow.

# Specifications
