Personalized IPL hair removal treatment

- Skin Tone Sensor and 5 intensity settings
- Optimize your routine with the Philips Lumea IPL app

PHILIPS

IPL Hair removal device

5 manual intensity settings 2 attachments: body, face, Lumea IPL App, Corded use

Highlights

2x a month for fast results

Every 2 weeks to get started — that's half as many treatments as other brands. Followed by touch-ups just once a month. That's it. Covering both lower legs takes 15 minutes.

Skin Tone Sensor

Choose from 5 intensity settings for a comfortable experience. The Skin Tone Sensor prevents you from treating areas of your skin that are too dark for IPL treatment.

Extra-long cable

Convenient to use thanks to an extra long cable for easy access and enhanced maneuverability.

2 dedicated attachments

Different heads for body and face work with speed and precision for gentle use, even on sensitive areas. The face attachment has an integrated light filter for precise treatment.

Developed with dermatologists

As a leader in health technology, Philips developed Lumea IPL in consultation with

SC1997/00

dermatologists, for easy and effective use in the safety of your home. Derived from technology used in professional salons, Lumea IPL offers gentle treatment, even on sensitive areas.

Philips Lumea IPL app

Our free coaching app helps you plan and stick to your treatment schedule, then takes you through each session step by step. Downloaded by more than 2.1 million users.

For many skin and hair types

Suitable skin tones

Suitable body hair colors

IPL needs contrast between the pigment in the hair color and the pigment in the skin tone, therefore works on naturally dark blonde, brown and black hair and on skin tones from fair to medium brown (I-IV).
