Highlights

Integrated VGA digital camera
Integrated digital camera with VGA resolution (640x480 pixels) allows you to take high-quality pictures any time, anywhere. Share your photos: send them via MMS or email, or link pictures in your phonebook.

Incredible storage capacity
Flash memory enables you to store ringtones, games, pictures, personal applications, messages, and up to 500 names in the phonebook. Store hundreds of images in your phone's photo album to use for slideshows, wallpaper, or send via MMS (Multimedia Messaging Service). Up to 500 entries can be stored in the Smart Phonebook (depending on available picture format memory).

MMS messaging
MMS (Multimedia Messaging Service) allows you to use your mobile phone to send and receive pictures, video, and audio files with your text messages.

65K color display
65K color display uses RGB color synthesis theory to bring you pictures and other images that are gorgeous, clear, and bright for a more enjoyable experience.

BeDJ
The amazing BeDJ feature allows you to easily create, enjoy, and share your own music mixes anytime, anywhere for unlimited creativity with this real, portable mixing studio. Create your own sounds using predefined styles provided by famous international DJs, your phone's own polyphonic ring tones, or by downloading content via WAP, infrared, or MMS to mix up to 9 different tracks in real time.

64 tone polyphonic melodies
64-tone polyphonic melodies can create simultaneous tones of different notes using MIDI format for more natural and realistic musical results, sounding just like a small orchestra of different instruments for outstanding sound effects.

Superb loudspeaker
The superb loudspeaker uses the best in acoustics and design for excellent audio quality and aesthetics.

Triband phone GSM900/1800/1900
GSM mode including 900MHz, 1800MHz and 1900MHz gives your phone worldwide coverage.

Java 2.0
Java 2.0 technology allows you to enhance and personalize your phone with new games and applications simply by downloading them.
