Snap, Tag & Send

Snap a photo with the integrated digital camera, scribble a message with the Tag-It pen on the touch screen, and send your own personalized "MMS postcards."

Add Emotion to your Messages

- Tag-It for fun and easy messaging
- Touch screen
- MMS (Multimedia Messaging Service)
- "Fake" picture personalization

Capture and share your life

- Integrated VGA digital camera
- Digitally zoom up to 4 times
- Big storage capacity (7MB)

Maximize your Multimedia Experience

- TFT display with 65,536 gorgeous colors
- Mix your own polyphonic melodies and ringtones with BeDJ
- Java 2.0 technology
- 32-tone rich polyphonic melodies

Highlights

Tag-it

Use Tag-It messaging to personalize and heighten the emotion of any picture with your own handwriting, drawings, or effects using the touch screen and integrated stylus, then easily share with friends via MMS (Multimedia Messaging Service) or infrared.

Touch screen

Use the touch screen and integrated stylus to switch to an interface that is simple, intuitive, and comfortable to use. The easy-to-use touch screen lets you quickly navigate menus, write SMS, personalize and give emotion to your pictures, play games, and access other applications.

MMS messaging

MMS (Multimedia Messaging Service) allows you to use your mobile phone to send and receive pictures, video, and audio files with your text messages.

Fake

Use this Tag-It post-processing feature to personalize any picture in a funny way by superimposing part of one photo onto another to easily create unique pictures with your mobile phone wherever you are.

Integrated VGA digital camera

The integrated digital camera with VGA resolution (640x480 pixels) allows you to take high-quality pictures anytime, anywhere with your phone, then send them via MMS or email, or store the pictures in your phone's memory.

Digital zoom x4

Easily zoom the picture in and out up to 4 times, composing better and more meaningful pictures by capturing the right detail from the overall scene. In preview mode, activate the zoom function to take pictures of distant objects or to concentrate attention on a specific part of the picture.

Big storage capacity (7MB)

7MB built-in storage capacity allows you to save personal pictures, melodies, messages, games, and more.

65K color TFT display

Brilliant 65K color TFT display offers high contrast and high brightness with 65,536 gorgeous colors and ultra fine pitch for clear, bright color graphics and photos.

BeDJ

The amazing BeDJ feature allows you to easily create, enjoy, and share your own music mixes anytime, anywhere for unlimited creativity with this real, portable mixing studio. Create your own sounds using predefined styles provided by famous international DJs, your phone's own polyphonic ring tones, or by downloading content via WAP, infrared, or MMS to mix up to 9 different tracks in real time.

Java 2.0

Java 2.0 technology allows you to enhance and personalize your phone with new games and applications simply by downloading them.

32-tone polyphonic melodies

32-tone polyphonic melodies can create simultaneous tones of different notes using MIDI format for more natural and realistic musical results, sounding just like a small orchestra of different instruments for outstanding sound effects.

Specifications

Storage Media

Built-in memory (RAM): 16

User memory: 7 MB

Connectivity
