Stay connected

- Enhanced Data rates for GSM Evolution

PHILIPS

Highlights

Up to 12 hours talk time

The phone can support up to 12 hours conversation on a single charge.

3.2 Megapixel autofocus camera

Capturing memorable moments clearly is as simple as point and shoot. The autofocus works automatically when you press the

camera button halfway. Simply press the button all the way in order to capture a clear, sharp image.

Bluetooth stereo music

Your Philips mobile phone supports A2DP Bluetooth Profile. It lets you enjoy your favorite tunes wirelessly and in high quality stereo music from your Bluetooth headphones.

Video capture and playback

The video capture function lets you record precious moments in MPEG4 or H263 format. Play it back on your phone or PC.

FM radio on the go

Enjoy the convenience of tuning in to FM radio the way you want - play it out loud through the phone's speaker or via your headset. Just plug in the headset, which acts as an antenna and select your listening option in the menu.

MicroSD memory card slot

You can now enjoy extra capacity and storage of multimedia files by inserting a MicroSD

memory card into the built-in memory card slot of your phone.

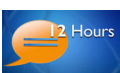

EDGE

EDGE provides up to three times the data capacity of GPRS, allows you to enjoy higher speed access to Internet and WAP, content download, email as well as fast sending/reception of MMS messages. Subscribe the GPRS service with your network operator and set up the GPRS profile in your EDGE enabled phone.

Up to 50 days standby time

The phone can be on and in standby mode continuously for up to 50 days on a single charge.
