- MicroSD memory card slot for extra memory/ data storage
- Enjoy Bluetooth stereo music
- Easy tuning with on-screen display on RDS FM radio stations

Stay connected

- Enhanced Data rates for GSM Evolution

PHILIPS

Highlights

Up to 2 months standby time

The phone can be on and in standby mode continuously for up to 2 months on a single charge.

Bluetooth stereo music

Your Philips mobile phone supports A2DP Bluetooth Profile. It lets you enjoy your favorite tunes wirelessly and in high quality stereo music from your Bluetooth headphones.

EDGE

EDGE provides up to three times the data capacity of GPRS, allows you to enjoy higher

speed access to Internet and WAP, content download, email as well as fast sending/reception of MMS messages. Subscribe the GPRS service with your network operator and set up the GPRS profile in your EDGE enabled phone.

MicroSD memory card slot

You can now enjoy extra capacity and storage of multimedia files by inserting a MicroSD memory card into the built-in memory card slot of your phone.

RDS FM Radio

Enjoy quick and easy tuning to your favorite stations with Radio Data System (RDS) display, which shows the name of the station instead of frequency numbers. RDS also allows stations to transmit text messages and information directly to your radio display, so you can keep updated with news updates and radio promotions.

Up to 16 hours talk time

The phone can support up to 16 hours of conversation on a single charge.

Up to 40 hours music playback

Enjoy music playback for up to 40 hours on a single charge.

Video capture and playback

The video capture function lets you record precious moments in MPEG4 or H263 format. Play it back on your phone or PC.
