- Shoot in dim conditions with 2 megapixel camera with flash
- High-quality integrated FM radio

Effortless style
- Activate any one of three Sim cards with a single button
- Three Sim cards to keep your bills slim

Highlights

Up to 1 month standby time

The phone can be on and in standby mode continuously for up to 1 month on a single charge.

FM radio

An FM radio application allows you to listen to your favorite FM radio programs wherever you are thanks to your mobile phone and its stereo headset.

Bluetooth stereo music

Your Philips mobile phone supports A2DP Bluetooth Profile. It lets you enjoy your favorite tunes wirelessly and in high quality stereo music from your Bluetooth headphones.

Up to 8 hours talk time

The phone can support up to 8 hours conversation on a single charge.

2 megapixel camera with flash

Capture pictures on the go with your phone's built-in 2 megapixel camera – even in dim lighting conditions, thanks to the built-in flash.

6cm/2.4" QVGA 262K TFT display

Add fun and excitement to vivid and colorful graphics and photos with your phone's 6.1 cm (2.4") QVGA 262K color TFT display. Enjoy excellent image quality and response time right at your fingertips!

Single button for Sim switch

Hit a single button to swap your mobile phone operation between three Sim cards. This dedicated button feature sitting on the side of your phone is a lifesaver when it comes to using and managing multiple cards. Besides allowing you to change the Sim cards without having to turn your phone off, it also eliminates the risk of losing any of your cards while

shuffling them around. And last but not least, when it comes to tariff plans and network coverage, you can now enjoy the best of three worlds.

Three Sim cards

Your Philips mobile phone now comes with the capacity to house not just one, or even two Sim cards, but three Sim cards in total. The overriding benefit of this feature is the flexibility it offers both in terms of network coverage and maximizing tariff value as you travel from place to place. Not only can you choose the network with the best coverage wherever you go, you can also opt for the operator with the best tariff plan or most economical call charges depending on where you are.
