Designed to Explore

"Plug & Play" MMS

The Philips 350 is packed with 100 great pictures that you can use for MMS or as screensavers/wallpaper!

Add Emotion to your Messages

- MMS starter kit with large picture library
- MMS (Multimedia Messaging Service)

Maximize your Multimedia Experience

- 4096 colors for a vivid display
- Built-in handsfree mode
- 32-tone rich polyphonic melodies

Highlights

MMS starter kit

MMS starter kit with large picture library is a database of fun pictures stored in the phone that you can use to send fun MMS (Multimedia Messaging Service) messages. Create an MMS, then link a picture from the library to send to friends and family.

MMS messaging

MMS (Multimedia Messaging Service) allows you to use your mobile phone to send and receive pictures, video, and audio files with your text messages.

4K color display

4K color display uses RGB color synthesis theory to bring you vivid pictures and other images for a more enjoyable experience.

Handsfree mode

Handsfree mode uses a built-in loud speaker to amplify the voice of your caller, allowing you to speak and listen during a call without holding the phone to your ear, which is especially useful if you'd like to share the call with some friends or take notes during the call.

32-tone polyphonic melodies

32-tone polyphonic melodies can create simultaneous tones of different notes using MIDI format for more natural and realistic musical results, sounding just like a small orchestra of different instruments for outstanding sound effects.

Specifications

Picture/Display

Diagonal screen size (inch): 1.1 inch
Lines of text: up to 8
