Designed for snapshots

- 180° swivel hinge
- Real digital cam design
- Super-bright flash
- Multi-shot for continuous pictures

Connect and enjoy

- WAP
- Java 2.0 technology

PHILIPS

Highlights

Real digital cam design

'Real digital cam design means that the phone's exterior looks like a high-quality digital camera, but underneath is a fully functional mobile phone with integrated megapixel camera.

180° swivel hinge

'The 180° swivel hinge allows you to use your mobile display just like a real digital camera preview screen.

Multi-shot

Multi-shot for continuous pictures allows you to use a single click to take a sequence of photos to capture movement. Select continuous shooting: time and interval.

Super bright torch light

'Super-bright flash is a light generated by LED to take pictures in low light conditions, such as night. Manually activate and deactivate the

super-bright flash by pressing and releasing the "+" or "-" volume side key (super-bright flash is automatically de-activated once the photo has been taken).

MMS messaging

MMS (Multimedia Messaging Service) allows you to use your mobile phone to send and receive pictures, video, and audio files with your text messages.

TV SlideShow

TV SlideShow allows you to display pictures from your phone's photo album directly on a TV screen for the fun of sharing pictures from your phone's camera with friends and family. Simply connect your mobile phone and TV with the TV Link accessory to run an automatic or manual slideshow.

Up to 70 high resolution pics

You can use the phone's built-in memory to store up to 70 high-resolution, high-definition photos (1280 × 1024 pixels each). Simply take and store photos until the phone's built-in memory of 18 MB is full, then download or delete them

WAP

Wireless Application Protocol (WAP) version 1.2.1 is a standardized way for a mobile phone to talk to a server in the mobile phone network to connect your phone to WAP-enabled web sites, allowing you to access comprehensive information whenever you need it.

Java 2.0

Java 2.0 technology allows you to enhance and personalize your phone with new games and applications simply by downloading them.

Specifications
