# Highlights

## Android OS

android

Android is the customizable, easy to use operating system that powers more than a billion devices across the globe. Because it's so universal, Android works perfectly with your favorite apps. Android is also customized by you, for you. Put the stuff you care about right on your home screen: the latest news, weather, or a stream of your recent photos.

## All-in-one simplicity

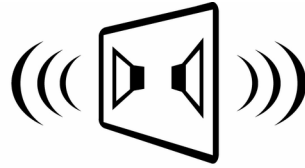

Enjoy multimedia with all-in-one simplicity

## HD widescreen looks great

The Smart All-in-One features a 16:9 HD (1366 x 768 resolution) screen for a fully-immersive entertainment experience. It produces brilliant progressive scan pictures with superb brightness and colors.

## Superb stereo sound

## Built-in Speakers

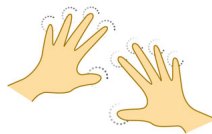

Immerse yourself with the high quality built-in stereo speakers.

## Side stereo headphone jack

Side stereo AV & headphone makes it more convenient to connect external devices like audio equipment, games and video cameras. It's the easy way to enjoy an extra audio sensation or a totally immersive gaming experience.

## Edge-to-edge touch display

## SmoothTouch

This Philips display uses latest projected-capacitive 10-point touch technology, with edge to edge glass for fluid response. Used with touch based applications, it offers you groovy touch gestures like tap, grab, pinch, rotate, zoom, swipe, etc. Now you can fully utilize the new capabilities of touch based applications, and bring your older applications to life. Touch-type with 10 fingers, or play exciting interactive games with your friends. Collaborate with colleagues interactively at work or school environment and increase your productivity and efficiency.

## Quad core for fast performance

Quad**Core**

Quad Core for HD images and super-fast performance. The power of multiple cores-spread over multiple processors-increases the overall speed of running applications while processing all images in real time. This provides you with vivid HD picture quality regardless of the content, allowing you to enjoy the clearest images, and smooth performance.

## Built-in wifi and web browser

In addition to convenient wireless this display also has a built-in web browser, gallery and music player for even more possibilities

## Expand your storage

You can expand your storage capacity by adding external SDHC card or USB flash using the built in slot.

## WiFi Miracast Technology

Watch what you want, where you want, when you want. Mirror the content on your devices and view it on the big screen. Share photos from your smartphone, laptop screen and more. Connections are easy to set up and the technology works across multiple devices.

## Lightweight for portability

This product is designed for transportability. Careful design choices were made aiming to take out any unnecessary weight.

## Screen tilts

Screen tilts to your ideal, individualized viewing angle
