Highlights

1GHz dual core processor

Now you can experience an even smoother and slicker smart phone performance, thanks to the 1GHz dual core processor on your Philips mobile phone. With this feature, multitasking between all of your phone's applications is an utter breeze. Better yet, brace yourself for lightning-fast web browsing, remarkable picture quality and seamless gaming visuals.

4" WVGA TFT touch screen

Enjoy brilliant colors and vibrant images with the lightest of touch or tap. With a highly responsive 4" WVGA TFT capacitive touch screen, the phone lets you enjoy smooth

navigation like never before. Whether you are zipping through file images or Internet websites, or zooming through menus and applications, the touch screen is a pleasure to behold.

5 megapixel camera

Indulge in trigger-happy moments with clear and razor-sharp images, thanks to your phone's 5 megapixel camera.

Android 4.2

Empowered by Android, your Philips mobile now comes with a fully customizable mobile platform that is open to a wide range of smart

applications and functions. Find your pocket PC, games console and telephone all rolled conveniently into one.

Dual mode (WCDMA and GSM)

Your Philips mobile phone incorporates two SIM cards to allow you access to WCDMA and GSM network connections at the same time. Now you can enjoy wider mobile coverage on two networks with just one phone.

Unique curvilinear design

Your Philips mobile phone comes with a unique 63 degree curve at both ends that will revolutionize the way you hold your phone. It manages to be both trendy and ergonomic to appeal to your sense of quality and aesthetics. Its sensible design features a large screen within an optimal size that fits snugly in your hand and also incorporates a speaker at the bottom of the phone to deliver the greatest volume when you speak.
