- FotoTalk adds voice to your MMS pictures
- MMS (Multimedia Messaging Service)

Create and share your music

- Mix your own polyphonic melodies and ringtones with BeDJ

Maximize your Multimedia Experience

- 65,536 colors for a gorgeous display
- 32-tone rich polyphonic melodies

Highlights

Integrated digital camera

The integrated digital camera allows you to take pictures anytime, anywhere with your phone, then send them via MMS or email, or store the pictures in your phone's memory.

FotoTalk

FotoTalk allows you to instantaneously send pictures and recorded voice messages via MMS to friends and family. Access the camera application via camera hard key or multimedia menu to choose FotoTalk, then take a picture, record your voice, and go to MMS to finalize and send the message.

MMS messaging

MMS (Multimedia Messaging Service) allows you to use your mobile phone to send and receive pictures, video, and audio files with your text messages.

BeDJ

The amazing BeDJ feature allows you to easily create, enjoy, and share your own music mixes anytime, anywhere for unlimited creativity with this real, portable mixing studio. Create your own sounds using predefined styles provided by famous international DJs, your phone's own polyphonic ring tones, or by downloading content via WAP, infrared, or MMS to mix up to 9 different tracks in real time.

65K color display

65K color display uses RGB color synthesis theory to bring you pictures and other images that are gorgeous, clear, and bright for a more enjoyable experience.

32-tone polyphonic melodies

32-tone polyphonic melodies can create simultaneous tones of different notes using MIDI format for more natural and realistic musical results, sounding just like a small orchestra of different instruments for outstanding sound effects.

Specifications

Picture/Display
