- MMS (Multimedia Messaging Service)

Maximize your Multimedia Experience

- · 4096 colors for a vivid display
- 32-tone rich polyphonic melodies

Mobile Phone CT3508/00SSEURO

Highlights

MMS starter kit

MMS starter kit with large picture library is a database of fun pictures stored in the phone that you can use to send fun MMS (Multimedia Messaging Service) messages. Create an MMS, then link a picture from the library to send to friends and family.

MMS messaging

MMS (Multimedia Messaging Service) allows you to use your mobile phone to send and receive pictures, video, and audio files with your text messages.

4K color display

4K color display uses RGB color synthesis theory to bring you vivid pictures and other images for a more enjoyable experience.

32-tone polyphonic melodies

32-tone polyphonic melodies can create simultaneous tones of different notes using MIDI format for more natural and realistic musical results, sounding just like a small orchestra of different instruments for outstanding sound effects.
