Product highlights

Video capture
The video recording function lets you capture precious moments in motion at 4, 6, or 9 frames per second.

MMS video
MMS video lets you record and share exciting multimedia messages with your friends and family just by attaching a video clip.

Integrated VGA digital camera
The integrated digital camera with VGA resolution (640x480 pixels) allows you to take high-quality pictures anytime, anywhere with your phone, then send them via MMS or email, or store the pictures in your phone's memory.

40-tone polyphonic melodies
40-tone polyphonic melodies can create simultaneous tones of different notes using MIDI format for more natural and realistic musical results, sounding just like a small orchestra of different instruments for outstanding sound effects.

Voice ringtones
Voice ringtones lets you use your phone's built-in recording function in AMR format to create a voice clip from a loved one or other source to use as a fun and memorable ringtone.

Triband phone GSM900/1800/1900
GSM mode including 900MHz, 1800MHz and 1900MHz gives your phone worldwide coverage.

Java 2.0
Java 2.0 technology allows you to enhance and personalize your phone with new games and applications simply by downloading them.

WAP 2.0
WAP 2.0 optimizes the usage of packet-based connection technology with higher bandwidths to more easily connect your phone to WAP-enabled web sites, allowing you to access comprehensive information whenever you need it.
