Highlights

Up to 1 month standby time

The phone can be on and in standby mode continuously for up to 1 month on a single charge.

Up to 8.5 hours talk time

The phone can support up to 8.5 hours talk time on a single charge.

7MB built-in storage capacity

7MB built-in storage capacity allows you to save personal pictures, melodies, messages, games, and more.

1000 phonebook entries

Huge storage memory holds up to 1000 phonebook entries and up to 5 numbers each allowing convenient storage of all business and personal contacts.

Large message storage capacity

The phone's dynamic user storage can accommodate a maximum of 20 MMS (Multimedia Messaging Service) and 300 SMS (Short Message Service) messages simultaneously in its large-capacity memory

15 sets of voice recordings

The phone can store up to 15 sets of 1-minute voice recordings, giving you the flexibility to record important notes, conversations, and personalized ringtones.

Voice recognition/recording

Voice recognition allows you to dial numbers with a simple voice command, as well as record phone conversations and voice memos. Just say a name or word to dial a number from your names list or to activate a specific function. You can use voice recordings as ringtones, SMS alerts or MMS messages.

Phone conversation recording

Phone conversation recording is the simplest way to make a quick record of a phone conversation. Just press and hold the SMS key in talk mode to capture important phone discussions. The system can store up to 15 voice conversations of 1 minute each.

Triband phone GSM900/1800/1900

GSM mode including 900MHz, 1800MHz and 1900MHz gives your phone worldwide coverage.

Java 2.0

Java 2.0 technology allows you to enhance and personalize your phone with new games and applications simply by downloading them.
