### 7000 Series

### Hair Dryer

ThermoShield Advanced 30% Faster drying\* 25% more consistent heat Water ion, mineral ion, 8x ion

# **30% Faster\*. Lighter\*\*. Ultimate hair protection.** with ThermoShield Advanced Technology

Philips 7000 Series Hair Dryer delivers professional results fast. Millions of ions intensify your hair's shine, while ThermoShield Advanced Technology senses temperature to protect hair from overheating.

#### Easy to use

- Magnetic styling nozzle attaches effortlessly
- Volume diffuser with magnetic nozzle

#### Ease of use

- Adjustable heat and fan speed for any hair and style
- Now 20% lighter\*\* for comfortable styling

#### Care for your hair

- Mineral ions protect against UV rays\*\*\*\*\*
- Intelligent Hot & Cold Mode for year-round comfort
- Ionic care system with 8x\*\*\*\*\*\* more ions
- Water ions brings moisture to your hair

#### **Fast drying experience**

• Powerful airflow for 30% faster drying\*

#### **Sustainability**

### Highlights

#### **ThermoShield Advanced**

Dual-sensor system continuously reads the temperature in your room and actively adjusts the drying temperature 24,000 times\*\*\* per session to protect your hair from overheating. Enjoy 25% more consistent\*\*\*\* drying temperature in any environment.

#### **Powerful airflow**

Innovative fan blades and a specially designed heater work their magic for dry hair in just 4 minutes\*\*\*\*\*.

#### Water ion

Add moisture for soft, healthy-looking hair. Water ion technology generates over 1000 times more water content than without an ionizer.

#### **Mineral ions**

Keep your hair smooth and versatile. Mineral ion technology protects your hair against surface damage that can be caused by UV rays\*\*\*\*\*.

#### **Ionic care system**

lons intensify your hair's shine for frizz-free, glossy styling. Our powerful ionic system generates up to 80 million ions each drying session.

#### Now 20% lighter\*\*

The ergonomic design of the hair dryer is now 20% lighter\*\* so you can be stylish and comfortable at the same time.

#### **Intelligent Hot & Cold Mode**

Keep comfortable throughout the year. Intelligent Hot & Cold Mode automatically sets the best drying temperature for the season\*\*\*\*\*\*\*. Blow drying with hot-cold mode can also preserve your hairs natural shine.

#### 8 heat and speed settings

Take control of your style with 4 heat settings and 2 fan speeds on the intuitive LED panel. Use the Cool Shot button for an intense burst to set your style a must-have professional function for expert hair styling.

#### 22% less energy used\*\*\*\*\*\*\*

The hair dryer uses 22% less energy while delivering professional drying and styling results\*\*\*\*\*\*\*.

### Hair Dryer

7000 Series

BHD720/13

### Highlights

#### Better than a 2300W dryer\*\*\*\*\*\*\*\*

Improved airflow, air pressure, and heat transfer means this 1800 W hair dryer performs even better than a standard 2300 W hair dryer.

#### Magnetic styling nozzle

Aim hot air right where you need it. The slim styling nozzle attaches magnetically, snapping perfectly into place for quick touch-ups and details.

#### **Magnetic volume diffuser**

Style your curly hair effortlessly with our uniquely shaped diffuser. Enjoy stress-free use with our magnetic attachment nozzle that just makes sense.
