- Massage type: Hot compress, Kneading
- Main materials: Poly urethane, Mesh cloth

Main parameters

- Auto shut-off time: 15 minutes
- Temperature of heating: 42 (±3) °C
- Working voltage: 3.7 V
- Working power: 12 W

- Battery: 3200 mAh
- Charging current: 1 A
- Charging port: USB Type-C
- Charging voltage: 5 V
- Massage strength levels: 2

Country of origin

- Made in: China

Service

- Warranty period: 2 years

Highlights

Imitate manual acupressure

Equipped with 4 high-fitting kneading massage nodes, it fully covers the levator scapula and trapezius muscles without missing any fatigued area. Simulating real fingers to physically rotate and knead, and adjust the intensity in 2 strength levels, which can easily cope with the fatigue and soreness of the neck muscles.

Thermostatically hot compress

A constant temperature hot compress at 42°C can effectively promote blood circulation, relax rigid muscles, and let the warmth reach the texture, for further enhancing the therapeutic effect of massage.

Ergonomic design

Designed according to ergonomics, it adapts to the natural shape of the neck, fits the neck curve, prevents crooked neck, and effectively reduces the compression of the cervical spine to protect the health of the neck.

Slow rebound memory sponge

The main body uses slow rebound memory foam, which has a soft touch and can provide good support, assist the vertical cervical spine and avoid bad habits such as tilting the head. It helps users release stress and relax their minds and bodies.

Voice prompt

Built-in voice prompt module, which makes it easy to operate the massager for users.

Detachable design

The pillowcase of the massager is removable and washable, which is convenient for daily care. You can maintain the pillowcase clean and hygienic for the health protection of the skin.
