#### Premium experience

- Convenient charging with Wireless Qi Pad
- Built to last: 7 year motor and battery lifetime
- Choose a convenient dry or refreshing wet shave
- Customize your shave with Personal Comfort Settings
- One-touch open for easy cleaning
- Digital display with intuitive icons for convenience & ease
- Click-on beard styler with 5 length settings
- Made with care for you and the planet

#### Our closest electric shave

# Highlights

## Lift & Cut System

Our patented, unique Lift & Cut rotary shaving system lifts the hair gently out of its root before cutting it precisely at skin level close (up to 0.00 mm to the skin) without the blades even touching your skin. Precision at its best, for a clean shave until evening\*.

## NanoTech Dual Precision blades

Philips rotary shavers are specifically designed to match your natural hair growth, capturing all the hairs growing in any direction, thanks to 360-degree rotating blades cutting in all directions. With up to 165,000 cutting actions per minute, the NanoTech Dual Precision blades deliver extremely close results at skin level.

## Ultraflex Suspension system

Ultraflex Suspension System with fully flexible heads completely adapt to every contour of your face, catching even difficult hairs in the neck. The result is an exceptionally smooth and comfortable shave.

## Hydro SkinGlide coating

Our best protective coating lies between the shaver heads and your skin. Made of up to 500,000 microtech beads with hydrophilic properties per square centimeter, creating smoother gliding on skin by 50%\* for maximum skin comfort.

## 7 years motor&battery lifetime

Our shaver motor and battery are engineered for durability with 7 years motor & battery lifetime, having long lasting power for a powerful shave. Our self-sharpening blades stay like new for 2 years.

## Power Adapt sensor

The electric shaver has intelligent facial-hair sensing technology that reads hair density 500 times per second. The Power Adapt Sensor auto-adapts the cutting power for an effortless and gentle shave.

## Top-spin digital motor

Maximum high-speed rotations for maximum efficiency. Our most advanced Top Spin Digital Motor ensures a precise shave for any facial contour or hair density.

## Personal Comfort settings

Adjust the speed of your shaver to low, medium or high speed with the Personal Comfort Settings. Personalize your shaving routine to your own skin and preferences.

## One-Touch open

Clean the shaver with ease. At the touch of a button, flip open the shaver head and rinse with water.

## Wireless Qi charging pad

Plugging in cords in wet areas is a thing of the past. Simply lay your cordless electric shaver on the Qi charging pad for a wireless charge.
