The versatile & interactive hospitality TV

HD LCD TV with SmartPlug

This system prepared LCD TV offers a razor sharp image with vivid colours and exciting viewing experience. With advanced features and optional accessories, this TV is fully prepared for interactive services and in-room entertainment.

Best total cost of ownership

- Wireless SmartLoader for fast cloning
- Installation menu locking
- External loudspeaker connector & extra power supply

System ready and future proof

- SmartPlug Xpress & Serial Xpress Control interfaces
- SmartCard Xpress Box compatible for interactive systems

Sustainable and safe

- SmartPower for energy saving
- Eco-friendly design & flame retardant housing

Great viewing experience and guest comfort

- Welcome message on screen display
- HDTV for Hospitality
- Pixel Plus HD for better details, depth and clarity

PHILIPS

Professional LCD TV
81 cm (32") LCD, HD Ready

Highlights

Wireless SmartLoader

Provides the ability to copy easy and wireless all programming settings from one TV set into other TV sets in less than a minute. The feature ensures uniformity between TV sets and significantly reduces installation time and costs.

Installation menu locking

Prevents unauthorized access to installation and configuration settings, to ensure maximum guest convenience and avoid unnecessary reprogramming costs.

External loudsp & power supply

The TV is equipped with an amplified audio connector for easy installation of external speakers (like for bathrooms), eliminating the need for investments in external equipment. The extra integrated power supply avoids the need for a separate power supply for an interactive system. In case of stand-alone use, the additional power supply can be switched off to save energy.

SmartPlug & Serial Xpress

The Smartplug interface permits OEM or 3rd party decoders and controllers to interface with the TV.

SmartCard Xpress Box

The optional SmartCard Xpress Box can be mounted at the rear side of the TV set and allows third party decoders and application cards to interface with the TV adding new functionality to the TV. The TV can also be

connected to external decoders and set-top boxes of all major interactive system providers, through the Serial Xpress Control Interface (supporting UART and RS232 protocols) and the SmartPlug Control interface.

HDTV for Hospitality

There are many ways you may choose to offer HDTV to your guests, but regardless of the source, Philips Hospitality televisions will always deliver the best viewing experience possible to your guests by utilizing the most advanced FlatTV displays and award winning technologies such as Pixel Plus HD.

Welcome message

A welcome greeting is displayed each time the TV set is switched on.

Pixel Plus HD

Pixel Plus HD is a picture processing technology that enables viewers to watch content that is vivid, natural, and real. The result means superbly life-like pictures with incredible details and depth from any HD source.

32HF7445/97

SmartPower

The backlight intensity can be controlled and pre-set by the system to reduce the power consumption by up to 50%, which saves substantially on energy costs.

Eco-friendly design

Sustainability is integral to the way Philips does business. Philips TVs are designed and produced according to our EcoDesign principles aimed at minimizing overall environmental impact, through lower power consumption, removal of hazardous substances, lower weight, more efficient packaging and better recyclability. Philips TVs also have a special housing of flame retardant material. Independent tests carried out by emergency fire services have shown that whereas TVs can sometimes intensify fires caused by external sources, Philips TVs will not contribute to the fire.

Specifications

Picture/Display

- Aspect ratio: Widescreen
- Diagonal screen size (inch): 32 inch
- Diagonal screen size (metric): 81 cm
- Color cabinet: Silver cabinet with Black Hi Gloss deco Frame
- Panel resolution: 1366 x 768p
- Brightness: 500 cd/m²
- Picture enhancement: Progressive scan, 3/2 - 2/2 motion pull down, 3D Combfilter, Digital Noise Reduction, Pixel Plus HD, 3D MA deinterlacing, Active Control, Automatic skin tone correction, Color Temperature Adjustment, Dynamic contrast enhancement, Smart Picture, White stretch, Blue stretch, Black stretch, Green enhancement
- Contrast ratio (typical): 4000:1
- Display screen type: LCD WXGA Active Matrix TFT
- Response time (typical): 8 ms
- Viewing angle (horizontal): 178 degree
- Viewing angle (vertical): 178 degree
- Screen enhancement: Anti-Reflection coated screen

Supported Display Resolution

- Computer formats: 1024 x 768, 60, 70, 75Hz, 800 x 600, 56, 60, 72, 75Hz, 640 x 480, 60, 67, 72, 75Hz
- Video Formats: 720 x 576i - 1Fh, 720 x 576p - 2Fh, 1280 x 720p - 3Fh, 1920 x 1080i - 2Fh
