

Philips
LCD monitor with Touch
Control

18.5" w (47 cm) E-line
HD

191E2SB1

Slim, attractive HD display offers great value

With a slim, attractive design, this new generation 191E2 HD display with SmartContrast and SmartImage Lite is a great choice for all your needs

Great picture quality

- Ready to display HD content
- 16:9 display for best widescreen gaming and video
- SmartContrast 500,000:1 for incredible rich black details
- SmartImage Lite for an enhanced LCD viewing experience

Design that complements any interior

- Glossy finish to enhance your decor
- Slim design for a modern look
- Modern Touch controls

Environmentally friendly green design

- Energy Star for energy efficiency and low power consumption
- Eco-friendly materials that meet international standards

Great convenience

- Easy picture format control switching between wide and 4:3 formats
- Easy display performance tuning with SmartControl Lite

PHILIPS

Highlights

Slim design

The new range of Philips monitors use the latest new generation Slim CCFL or LED, thereby allowing designs to be much slimmer than the previous generation. Slim looks not only allow the monitors to look aesthetically pleasing, but also save space on the desk!!

High definition monitor

A high definition monitor is a display device designed to deliver the exceptional picture quality of high definition pictures, one fully prepared for HD sources like HD set top boxes. A HD monitor offers picture quality beyond that of progressive scan, conforming to strict standards for HD screens that display high resolution, top picture quality signals through a universal connection for either analogue VGA or uncompressed DVI digital connections and supports HDCP. It displays 720p (1280 x 720p @ 50 and 60 Hz progressive) and 1080i (1920 x 1080i @ 50 and 60 Hz interlaced) signals.

16:9 widescreen aspect ratio

An aspect ratio is an expression of a video image's width compared to its height. The 16:9 widescreen aspect ratio is standard for universal to high-definition television and European digital television. A native 16:9 aspect ratio means outstanding game and video display without bars at top and bottom of the picture and without the quality loss than comes from scaling, altering an image to fit on a different screen size.

SmartImage Lite

SmartImage Lite is an exclusive, leading edge Philips technology that analyses the content displayed on your screen. Based on a scenario you select, SmartImage Lite dynamically enhances the contrast, colour saturation and sharpness of images and videos for ultimate display performance - all in real time with the press of a single button.

SmartControl Lite

SmartControl Lite is the next generation 3D icon-based GUI monitor control software.

This allows the user to fine-tune most parameters of the monitor like Colour, Brightness, screen calibration, Multimedia, ID management etc. with the mouse.

SmartContrast ratio 500,000:1

You want the LCD flat display with the highest contrast and most vibrant images. Philips advanced video processing combined with unique extreme dimming and backlight-boosting technology results in vibrant images. SmartContrast will increase the contrast with excellent black level and accurate rendition of dark shades and colours. It gives a bright, lifelike picture with high contrast and vibrant colours.

Touch controls

Touch controls are intelligent, touch-sensitive icons that replace protruding buttons to allow users to adjust the monitor to their requirements. Responding to the lightest touch, Touch control gives the monitor a modern feel.

Energy Star 5.0

Energy Star is a US EPA sponsored energy efficiency programme also adopted by many other countries. Energy Star certification ensures that you are buying a product which meets the latest power efficiency standards

and which operates with maximum power efficiency at all operational levels. New Philips monitors are certified for Energy Star 5.0 specifications and meet or exceed the standard. For example, in sleep mode Energy Star 5.0 requires less than 1 Watt power consumption, whereas Philips monitors consume less than 0.5 Watts. Further details can be obtained from www.energystar.gov

Easy picture format control

Widescreen format

4:3 format

Philips easy picture format control on OSD switches from the 4:3 aspect ratio to the widescreen mode and back again to match the display's aspect ratio with your content; it allows you to work with wide documents without scrolling or viewing widescreen media in the widescreen mode and gives you distortion-free, native mode display of 4:3 ratio content.

Glossy finish

An attractive, elegantly finished glossy finish that fits in with and complements your decor.

Eco-friendly materials

"Philips is committed to using sustainable, eco-friendly materials across its monitor range. All body plastic parts, metal chassis parts and packing materials use 100% recyclable materials. In some selected models we utilise up to 65% post-consumer recycled plastics. Strict adherence to RoHS standards ensures substantial reduction or elimination of toxic substances like lead, for example. Mercury content in monitors with CCFL backlights has been reduced significantly and eliminated completely in monitors with LED backlights. Visit Philips at <http://www.asimpleswitch.com/global/> to learn more.

Specifications

Connectivity

- Signal Input: VGA (Analogue), DVI-D (digital, HDCP)
- Sync Input: Separate Sync, Sync on Green

Picture/Display

- Panel Size: 18.5 inch/47 cm
- Aspect ratio: 16:9
- LCD panel type: TFT-LCD
- Pixel pitch: 0.30 x 0.30 mm
- Optimum resolution: 1366 x 768 @ 60 Hz
- Brightness: 250 cd/m²
- Display colours: 16.7 M
- SmartContrast: 500,000:1
- Response time (typical): 5 ms
- Viewing angle: 176° (H)/170° (V), @ C/R > 5
- Picture enhancement: SmartImage Lite
- Scanning Frequency: 30–83 kHz (H)/56–75 Hz (V)
- sRGB

Convenience

- Plug and Play Compatibility: DDC/CI, Mac OS X, Windows 7/Vista/XP/2000/98
- User convenience: SmartImage Lite, Menu, Input, Auto, Power On/Off
- OSD Languages: English, French, German, Spanish, Italian, Russian, Simplified Chinese, Portuguese, Turkish
- Other convenience: Kensington lock

Stand

- Tilt: -3/+12 degree

Power

- Power supply: External

- Off mode: < 0.5 W
- On mode: < 16.3 W (EnergyStar 5.0 test method)
- Standby mode: < 0.5 W
- Power LED indicator: Operation - White, Standby mode - White (flashing)

Dimensions

- Product with stand (mm): 338 x 457 x 189 mm
- Packaging in mm (W x H x D): 383 x 503 x 125 mm
- Product without stand (mm): 293 x 457 x 41 mm

Weight

- Product with packaging (kg): 3.58 kg
- Product with stand (kg): 2.38 kg
- Product without stand (kg): 2.22 kg

Operating conditions

- Temperature range (operation): 0°C to 40°C °C
- MTBF: 50,000 hour(s)
- Relative humidity: 20%–80% %
- Temperature range (storage): -20°C to 60°C °C

Sustainability

- Environmental and energy: EPEAT Silver, RoHS, EnergyStar 5.0
- Recyclable packaging material: 100 %

Compliance and standards

- Regulatory Approvals: CE Mark, FCC, Class B, TCO 5.0, GOST, BSMI, UL/cUL

Cabinet

- Colour: Black/Black
- Finish: Glossy
