Highlights

Sleek, elegant design

A sleek, elegant design look that complements home furnishings in any room.

Compact and slim design

This design style emphasizes a slim, compact look that saves space and fits in anywhere.

WideScreen Design

This wide screen design employs a wider aspect ratio to enable it to display more information.

Wide viewing angle

A wide viewing angle provides the clearest display with little reflection from virtually any angle.

sRGB ready

sRGB is an industry standard that ensures the best possible match between the colors displayed on your screen and those in your printouts.

TV module

A television tuner built into a monitor to display television signals as well as computer data.

AV device

Display signals from a rich variety of AV devices.

Built-in speakers

A pair of high quality stereo speakers built into a display device. It can be visible front firing, or invisible down firing, top firing, rear firing, etc depending on model and design.

Adjustable tilt

Adjustable tilt is backward and forward movement of a screen on its base to achieve custom positioning for an ideal viewing angle and more comfort for people who spend long hours working on the computer.

Cable management

Cable management is a system that maintains tidy workspace by organizing cables and wires required for the operation of a display device.
