1. For Your Safety

Before operating the SMART All-in-One, please read this manual thoroughly. This manual should be retained for future reference.

FCC Class B Radio Frequency Interference Statement

WARNING: (FOR FCC CERTIFIED MODELS) NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- 1. Reorient or relocate the receiving antenna.
- 2. Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- 4. Consult the dealer or an experienced radio/TV technician for help.

NOTICE:

- The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- Shielded interface cables and AC power cord, if any, must be used in order to comply with the emission limits.

 The manufacturer is not responsible for any radio or TV interference caused by unauthorized modification to this equipment. It is the responsibilities of the user to correct such interference.

WARNING:

To prevent fire or shock hazard, do not expose the monitor to rain or moisture. Dangerously high voltages are present inside the monitor. Do not open the cabinet. Refer servicing to qualified personnel only.

1.1 Precautions

- Do not use the SMART All-in-One near water, e.g. near a bathtub, washbowl, kitchen sink, laundry tub, swimming pool or in a wet basement.
- Do not place the SMART All-in-One on an unstable cart, stand, or table. If the SMART All-in-One falls, it can injure a person and cause serious damage to the appliance. Use only a cart or stand recommended by the manufacturer or sold with the SMART Allin-One.
- Slots and openings in the back and bottom of the cabinet are provided for ventilation. To ensure reliable operation of the SMART All-in-One and to protect it from overheating, be sure these openings are not blocked or covered. Do not place the SMART All-in-One on a bed, sofa, rug, or similar surface. Do not place the SMART All-in-One near or over a radiator or heat register. Do not place the SMART All-in-One in a bookcase or cabinet unless proper ventilation is provided.
- The SMART All-in-One should be operated only from the type of power source indicated on the label. If you are not sure of the type of power supplied to your home, consult your dealer or local power company.

1. For your safety

- The SMART All-in-One is equipped with a three-pronged grounded plug, a plug with a third (grounding) pin. This plug will fit only into a grounded power outlet as a safety feature. If your outlet does not accommodate the three-wire plug, have an electrician install the correct outlet, or use an adapter to ground the appliance safely. Do not defeat the safety purpose of the grounded plug.
- Unplug the unit during a lightening storm or when it will not be used for long period of time. This will protect the SMART All-in-One from damage due to power surges.
- Do not overload power strips and extension cords. Overloading can result in fire or electric shock.
- Never push any object into the slot on the SMART All-in-One cabinet. It could short circuit parts causing a fire or electric shock. Never spill liquids on the SMART All-in-One.
- Do not attempt to service the SMART Allin-One by yourself; opening or removing covers can expose you to dangerous voltages and other hazards. Please refer all servicing to qualified service personnel.
- To ensure satisfactory operation, use the SMART All-in-One only with UL listed computers which have appropriate configured receptacles marked between 100 - 240V AC, Min. 5A.
- The wall socket shall be installed near the equipment and shall be easily accessible.
- For use only with the attached power adapter (Output 19V DC) which have UL, CSA listed licensed (only for monitor with power adapter).

Model: ADPC1965

(FUJIAN) CO., LTD.

Model: ADS-65LSI-19-1 19065G
Manufacturer: SHENZHZEN HONOR

ELECTRONIC CO., LTD.

1.2 Cleaning

- Clean the cabinet regularly with cloth. You can use soft-detergent to wipe out the stain, instead of strong-detergent which will cauterize the product cabinet.
- When cleaning, make sure no detergent is leaked into the product. The cleaning cloth should not be too rough as it will scratch the screen surface.
- Please disconnect the power cord before cleaning the product.

1.3 Special notes on SMART All-in-One

The following symptoms are normal with SMART All-in-One and do not indicate a problem.

■ Note

- Due to the nature of the fluorescent light, the screen may flicker during initial use. Turn off the Power Switch and then turn it on again to make sure the flicker disappears.
- You may find slightly uneven brightness on the screen depending on the desktop pattern you use.
- The LCD screen has effective pixels of 99.99% or more. It may include blemishes of 0.01% or less such as a missing pixel or a pixel lit all of the time.
- Due to the nature of the LCD screen, an afterimage of the previous screen may remain after switching the image when the same image has been displayed for a long time. The SMART All-in-One will slowly recover from this.
- When the screen becomes black or flashing, or cannot illuminate any more, contact your dealer or service center to replace parts. Don't repair the screen by yourself!

1.4 Disposal of product and packing material

Waste Electrical and Electronic Equipment-WEEE

This marking on the product or on its packaging illustrates that, under European Directive 2012/19/EU governing used electrical and electronic appliances, this product may not be disposed of with normal household waste. You are responsible for disposal of this equipment through a designated waste electrical and electronic equipment collection. To determine the locations for dropping off such waste electrical and electronic, contact your local government office, the waste disposal organization that serves your household or the store at which you purchased the product.

Your new monitor contains materials that can be recycled and reused. Specialized companies can recycle your product to increase the amount of reusable materials and to minimize the amount to be disposed of.

All redundant packing material has been omitted. We have done our utmost to make the packaging easily separable into mono materials. Please find out about the local regulations on how to dispose of your old monitor and packing from your sales representative.

Taking back/Recycling Information for Customers

Philips establishes technically and economically viable objectives to optimize the environmental performance of the organization's product, service and activities.

From the planning, design and production stages, Philips emphasizes the important of making products that can easily be recycled. At Philips, end-of-life management primarily entails participation in national take-back initiatives and recycling programs whenever possible, preferably in cooperation with competitors, which recycle all materials (products and related packaging material) in accordance with all Environmental Laws and taking back program with the contractor company.

Your display is manufactured with high quality materials and components which can be recycled and reused.

To learn more about our recycling program please visit: http://www.philips.com/sites/philipsglobal/about/sustainability/ourenvironment/productrecyclingservices.page.

2. Setting up the monitor

2.1 Installation

Package contents

Note

- Use only the AC/DC adapter provided by Philips.
- Do not install the SMART All-in-One in a location near heat sources such as radiators or air ducts, or in a place subject to direct sunlight, or excessive dust or mechanical vibration or shock.
- Save the original shipping carton and packing materials, as they will come in handy if you ever have to ship your monitor.
- For maximum protection, repackage your monitor as it was originally packed at the factory.
- To keep the SMART All-in-One looking new, periodically clean it with a soft cloth. Stubborn stains may be removed with a cloth lightly dampened with a mild detergent solution. Never use strong solvents such as thinner, benzene, or abrasive cleaners, since these will damage

- the cabinet. As a safety precaution, always unplug the SMART All-in-One before cleaning it.
- Do not scratch the screen with hard things, it may cause permanent damage.
- Don't leak liquid into monitor which will result in the damage of component.

2 Connection

- 1 DC Power Input
- 2 SDHC Card Slot
- 3 VGA Input (D-Sub)
- 4 HDMI Input
- **5** LAN Port (RJ-45)
- 6 USB Downstream (Type-A)
- **7** USB Upstream (Type-B)
- 8 Micro-USB (Mini-A)
- **9** Earphone Output (3.5 mm Stereo)
- 10 Audio Input (3.5 mm Stereo)
- 11 Kensington Anti-theft Lock

2. Setting up the monitor

Insert your SD card

- 1. Disconnect the power cord.
- 2. Insert your SDHC card to the card slot.

Connect for VGA/HDMI input

- Connect with VGA or HDMI cable from your PC or AV device to SMART All-in-One.
- Connect power cord to SMART All-in-One firmly and press the power button on.
- 3. The SMART All-in-One turns on and enters the previous source input selected.
- Press the input button ⊕ to select VGA or HDMI source.

Connect to either WiFi or Ethernet for SMART All-in-One input

- Connect RJ-45 LAN cable to your LAN port for wired connection.
- 2. Connect power cord to SMART All-in-One firmly and press the power button on.
- 3. The SMART All-in-One turns on and enters the previous source input, selected
- 4. Press the input button **⊕** to select Android source.
- 5. Turn on the WiFi or Ethernet function in the Android system settings screen.

3 Adjusting viewing angle

For optimal viewing, it is recommended to look at the full face of the SMART All-in-One, then adjust the SMART All-in-One's angle to your own preference.

The SMART All-in-One's tilted angle is adjustable from 12° to 54°.

Note

- Do not touch the LCD screen when you adjust the angle. It may cause damage or break the LCD screen.
- Careful attention is required not to catch your fingers or hands when you adjust the angle.
- It is recommended to stabilize with a fixed point in order to lock the stand if the tilted angle is equal to or over 12°.
- Do not adjust the tilt angle less than 12°. The monitor may fall caused by instability.
- For displays with glossy bezels the user should consider the placement of the display as the bezel may cause disturbing reflections from surrounding light and bright surfaces.

2.2 Operating the monitor

SMART All-in-One allows you to either use it as a stand-alone SMART All-in-One in Android system without any PC connection required, or as a normal PC monitor when connecting with PC.

1 Front control

0	0	Power indicator		
2	Ф	Press to turn SMART All-in- One's power ON or OFF.		
3	■/OK	Press to access the OSD menu for VGA and HDMI input. In the OSD menu, press to confirm the OSD adjustment.		
4	▲ ▼	In the OSD menu, adjust the OSD menu.		
5	I	Hotkey for internal speakers volume control.		
6	•	Press to select the input source: VGA, HDMI, or Android.		
7	•	In the OSD menu, return to previous OSD layer.		
8	回	Hotkey for SmartImage selection.

Description of the On Screen Display

What is On-Screen Display (OSD)?

On-Screen Display (OSD) is a feature in all Philips SMART All-in-Ones. It allows user to adjust screen performance or to select functions of the monitor directly through an on-screen instruction window.

To enter OSD menu

- 1. Press the hotkey a on the front bezel.
- 2. Press ▲ ▼ buttons to select the menu options.
- 3. Press ■ button to confirm the OSD selection
- 4. Press **◀** button to return to previous OSD layer.
- 5. Press ◀ button several times to exit the OSD menu.

2. Setting up the monitor

A user-friendly OSD menu is shown below:

The OSD menu tree

Here is an overall view of the OSD structure for your reference to work your way around the different adjustments.

Resolution notification

This monitor is designed for optimal performance at its native resolution, 1920×1080@60Hz.

Display of the native resolution alert can be switched off from Setup in the OSD menu.

2.3 Detach the hinge for VESA

Before you start detaching the hinge, please follow the instructions below to avoid any possible damage or injury.

 Place the monitor face down on a smooth surface. Pay attention not to scratch or damage the screen.

Use your fingers to squeeze the hinge cover gently till the hook slip out of the slot.

3. Use a screwdriver to loosen 4 screws.

4. Remove the stand from the monitor body.

Note

This monitor accepts a $75 \text{mm} \times 75 \text{mm} \text{VESA-Compliant mounting interface}$.

2.4 SMART All-in-One Operation

Philips SMART All-in-One bundles with Android system which applies touch panel technology for users to use it as a stand-along PC. It does not require any PC connections and can be controlled with figures – touching the panel for selection and confirmation. To enter the Android **Home** screen, press the hotkey \odot on the front bezel, and select Android as the input source.

2.4-1 Home screen

The **Home** screen is composed of five screen panels. By tapping and sliding on the screen, you can move left or right across the central **Home** screen, and look for more widgets, shortcuts, or other items located on each screen panel.

You can also add shortcuts, widgets or change the desktop wallpaper on each screen panel.

No.	lcon	Descriptions			
1	Google U	Short cut for Google Search			
2	\bigoplus	Back to previous page			
3		Back to Android Home Screen			
4	Ō	Display recently used application			
5	5 Snap for screen shot				
6	Ħ	Application Gallery			
7	9:07 Notification / Local Time / Settings				

2.4-2 Customizing your Home Screen

Adding application icons, shortcuts, or widgets to the home screen as your preference. You can also change the wallpaper.

Add an item to the Home Screen:

- 1. Tap on the icon in the ststem bar to enetr the APPS gallery screen.
- 2. Select [APPS] or [WIDGETS].
- Tap and hold the item until it enlarged. Drag the item to the place you preferred on the Home Screen.

Move an item on the Home Screen:

- 1. tap and hold the item until it enlarged.
- 2. Drag the item to the place you preferred on the Home Screen.

Remove an item from the Home Screen:

- 1. Tap and hold the item until it enlarged. The Trash Can icon displayed.
- 2. Drag the item to the Trash Can icon to remove the item from the Home Screen.

Change the wallpaper:

- 1. Make a long tap (click and hold) on an empty space on the Home Screen.
- 2. A [Choose wallpaper from] configuration screen will appear.
- 3. Click one of the wallpaper sources among [Gallery], [Live Wallpapers], [Select], or [Wallpapers].
- 4. In the selected wallpaper source screen, select one and click [Set wallpaper] to change the wallpaper. Or right-click to exit the wallpaper source screen and go back to Home screen.
- 5. Some wallpapers allow changing the wallpaper color, such as [Magic Smoke]. If a [Settings...] prompt displays on screen, tap on it, a [Tap to change] prompt displays on the top of screen. Tap on the screen to configure and cycle through the different colors.
- 6. You can click the button to go back previous screen without renewing any changed settings.

Note

 All five Home Screen panels share the same background. You cannot set different wallpapers for each of them.

2.4-3 Google Search

1. Click on the Google U icon in the Home screen. The on-screen keyboard displayed.

- 2. Type a keyword or text in the URL box. As you type, the search results that fully or partially match the text being typed appear.
- 3. Scroll the listed search results and clcik the desired result.
- 4. The matching application or the browser with matching web links opens.
- 5. Click the desired link if you want to view a web page.

2.4-4 APPS Gallery

1. Click on the icon in the system bar to enter the APPS gallery screen.

- 2. Click on the application icon to open it.
- 3. Click on the icon to return to the Home Screen, or click on the icon to return to the previous screen..

2.4-5 Android system settings

Click the icon

in the central Android **Home** screen.

3. Image Optimization

1 What is it?

SmartImage provides presets that optimize display for different types of content, dynamically adjusting brightness, contrast, color and sharpness in real time. Whether you're working with text applications, displaying images or watching a video, Philips SmartImage delivers great optimized monitor performance.

2 Why do I need it?

You want a monitor that delivers optimized display all your favorite types of content, SmartImage software dynamically adjust brightness, contrast, color and sharpness in real time to enhance your monitor viewing experience.

3 How does it work?

SmartImage is an exclusive, leading edge Philips technology that analyzes the content displayed on your screen. Based on a scenario you select, SmartImage dynamically enhances the contrast, color saturation and sharpness of images to enhance the contents being displayed - all in real time with the press of a single button.

3.1 SmartImage

- 1. Press hotkey 17 to launch the SmartImage OSD
- Press ▼ or ▲ button to select one of the SmartImage settings.
- The SmartImage OSD will remain on screen for 5 seconds, or you can also press button to confirm.

 When SmartImage is enabled, the sRGB scheme is disabled automatically. To use sRGB, you need to disable select {Off} for the SmartImage.

There are seven modes to select: Text, Office, Photo, Movie, Game, Economy and Off.

- Text: Helps improve reading of text based application like PDF ebooks. By using a special algorithm which increases the contrast and boundary sharpness of text content, the display is optimized for a stress-free reading by adjusting the brightness, contrast and color temperature of the monitor.
- Office: Enhances text and dampens brightness to increase readability and reduce eye strain. This mode significantly enhances readability and productivity when you're working with spreadsheets, PDF files, scanned articles or other general office applications.
- Photo: This profile combines color saturation, dynamic contrast and sharpness enhancement to display photos and other images with outstanding clarity in vibrant colors - all without artifacts and faded colors.
- Movie: Ramped up luminance, deepened color saturation, dynamic contrast and razor sharpness displays every details in darker areas of your videos without color washout in brighter areas maintaining a dynamic natural values for the ultimate video display.

3. Image Optimization

- Game: Turn on over drive circuit for best response time, reduce jaggy edges for fast moving objects on screen, enhance contrast ratio for bright and dark scheme, this profile delivers the best gaming experience for gamers.
- Economy: Under this profile, brightness, contrast are adjusted and backlighting finetuned for just right display of everyday office applications and lower power consumption.
- Off: No optimization by SmartImage.

70.64	1440×900	74.98
65.29	1680×1050	59.95
67.50	1920×1080	60.00

■ Note

Please notice that your display works best at native resolution of 1920×1080@60Hz. For best display quality, please follow this resolution recommendation.

5. Power Management

If you have VESA DPM compliance display card or software installed in your PC, the monitor can automatically reduce its power consumption when not in use. If an input from a keyboard, mouse or other input device is detected, the monitor will 'wake up' automatically. The following table shows the power consumption and signaling of this automatic power saving feature:

Power Management Definition							
VESA Mode	Video	H-sync V-sync		Power Used	LED Color		
Active	ON	Yes	Yes	26.76 W (typ.) 44.7 W(max.)	White		
Sleep	OFF	No	No	0.5 W (typ.)	White (blink)		
Switch Off	OFF	-	-	0.5 W (typ.)	OFF		

The following setup is used to measure power consumption on this monitor:

Native resolution: 1920x1080

Contrast: 50%

• Brightness: 250 nits

Color temperature: 6500k with full white pattern

This data is subject to change without notice.

6. Regulatory Information

EPEAT

(www.epeat.net)

The EPEAT (Electronic Product Environmental Assessment Tool) program evaluates computer

desktops, laptops, and monitors based on 51 environmental criteria developed through an extensive stakeholder consensus process supported by US EPA.

EPEAT system helps purchasers in the public and private sectors evaluate, compare and select desktop computers, notebooks and monitors based on their environmental attributes. EPEAT also provides a clear and consistent set of performance criteria for the design of products, and provides an opportunity for manufacturers to secure market recognition for efforts to reduce the environmental impact of its products.

Benefits of EPEAT

Reduce use of primary materials Reduce use of toxic materials

Avoid the disposal of hazardous waste EPEAT'S requirement that all registered products meet ENERGY STAR's energy efficiency specifications, means that these products will consume less energy throughout their life.

CE Declaration of Conformity

This product is in conformity with the following standards

- EN60950-1:2006+A11:2009+A1:20 10+A12:2011 (Safety requirement of Information Technology Equipment).
- EN55022:2010 (Radio Disturbance requirement of Information Technology Equipment).
- EN55024:2010 (Immunity requirement of Information Technology Equipment).
- EN61000-3-2:2006 +A1:2009+A2:2009 (Limits for Harmonic Current Emission).

- EN61000-3-3:2008 (Limitation of Voltage Fluctuation and Flicker) following provisions of directives applicable.
- EN 50581:2012 (Technical documentation for the assessment of electrical and electronic products with respect to the restriction of hazardous substances).
- 2006/95/EC (Low Voltage Directive).
- 2004/108/EC (EMC Directive).
- 2009/125/EC (ErP Directive, EC No. 1275/2008 Implementing Directive for Standby and Off mode power consumption).
- 2011/65/EU (RoHS Directive) and is produced by a manufacturing organization on ISO9000 level.

Energy Star Declaration

(www.energystar.gov)

As an ENERGY STAR® Partner, we have determined that this product meets the ENERGY STAR® guidelines for energy efficiency.

⊜ Note

We recommend you switch off the monitor when it is not in use for a long time.

Federal Communications Commission (FCC) Notice (U.S. Only)

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Use only RF shielded cable that was supplied with the monitor when connecting this monitor to a computer device.

To prevent damage which may result in fire or shock hazard, do not expose this appliance to rain or excessive moisture.

THIS CLASS B DIGITAL APPARATUS MEETS ALL REQUIREMENTS OF THE CANADIAN INTERFERENCE-CAUSING EQUIPMENT REGULATIONS.

FCC Declaration of Conformity

Declaration of Conformity for Products Marked with FCC Logo,

United States Only

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Commission Federale de la Communication (FCC Declaration)

© Cet équipement a été testé et déclaré conforme auxlimites des appareils numériques de class B,aux termes de l'article 15 Des règles de la FCC. Ces limites sont conçues de façon à fourir une protection raisonnable contre les interférences nuisibles dans le cadre d'une installation résidentielle. CET appareil produit, utilise et peut émettre des hyperfréquences qui, si l'appareil n'est pas installé et utilisé selon les consignes données, peuvent causer des interférences

nuisibles aux communications radio.

6. Regulatory Infomation

Cependant, rien ne peut garantir l'absence d'interférences dans le cadre d'une installation particulière. Si cet appareil est la cause d'interférences nuisibles pour la réception des signaux de radio ou de télévision, ce qui peut être décelé en fermant l'équipement, puis en le remettant en fonction, l'utilisateur pourrait essayer de corriger la situation en prenant les mesures suivantes:

- Réorienter ou déplacer l'antenne de réception.
- Augmenter la distance entre l'équipement et le récepteur.
- Brancher l'équipement sur un autre circuit que celui utilisé par le récepteur.
- Demander l'aide du marchand ou d'un technicien chevronné en radio/télévision.
- ◆ Toutes modifications n'ayant pas reçu l'approbation des services compétents en matière de conformité est susceptible d'interdire à l'utilisateur l'usage du présent équipement.

N'utiliser que des câbles RF armés pour les connections avec des ordinateurs ou périphériques.

CET APPAREIL NUMERIQUE DE LA CLASSE B RESPECTE TOUTES LES EXIGENCES DU REGLEMENT SUR LE MATERIEL BROUILLEUR DU CANADA.

CAN ICES-3 (B)/ NMB-3 (B)

EN 55022 Compliance (Czech Republic Only)

This device belongs to category B devices as described in EN 55022, unless it is specifically stated that it is a Class A device on the specification label. The following applies to devices in Classa A of EN 55022 (radius of protection up to 30 meters). The user of the device is obliged to take all steps necessary to remove sources of interference to tele-communication or other devices.

Pokud není na typovém štitku počítače uvedeno, že spadá do do třídy A podle EN 55022, spadá automatícký do třídy B podle EN 55022. Pro zařízení zařazená do třídy A (chramé pásmo 30m) podle EN 55022 platí následující. Dojde-li k rušení telekomunikačních nebo jiných zařízení je užívatel povinnen prověst taková opatřyní, aby rušení odstranil.

Polish Center for Testing and Certification Notice

The equipment should draw power from a socket with an attached protection circuit (a three-prong socket). All equipment that works together (computer, monitor, printer, and so on) should have the same power supply source.

The phasing conductor of the room's electrical installation should have a reserve short-circuit protection device in the form of a fuse with a nominal value no larger than 16 amperes (A).

To completely switch off the equipment, the power supply cable must be removed from the power supply socket, which should be located near the equipment and easily accessible.

A protection mark "B" confirms that the equipment is in compliance with the protection usage requirements of standards PN-93/T-42107 and PN-89/E-06251.

Wymagania Polskiego Centrum Badań i Certyfikacji

Urządzenie powinno być zasilane z gniazda z przyłączonym obwodem ochronnym (gniazdo z kolkiem). Współpracujące ze sobą urządzenia (komputer, monitor, drukarka) powinny być zasilane z tego samego źródła.

Intalająci elektryczną pomieszczenia powinna zawierać w przewodnie fazowym rezerwową celtomą przed zwacianii, w postaci bezpiecznika o watości zamianionowej nie więczej niż 16A (augnerów). W celu calkowitego wyłączenia urządzenia z ścieci zasilania, należy wyjąć wtyczęk abała zasilającego z galiadka, które powinno zasijować się w polikiu urządzenia i pył atwo dostępne. Zauk bezpieczeństwa "B" potwierdza zgodność urządzenia z wymaganiami bezpieczeństwa użytkowania zawarymi w PN-947-12/01 FN-98-96-6621.

Pozostałe instrukcje bezpieczeństwa

- Nie należy używać wtyczek adapterowych lub usuwać kolka obwodu ochronnego z wtyczki. Jeżeli konieczne jest użycie przedłużacza to należy użyć przedłużacza 3-żyłowego z prawidowo polężczonym przewodem ochronnym.
 - System komputerowy należy zabezpieczyć przed nagłymi, chwilowymi wzrostami lub spadkami napięcia, używając eliminatora przepięć, urządzenia dopasowującego lub bezzakłoceniowego źródza zasiania.
- Należy upewnić się, aby nic nie leżało na kablach systemu komputerowego, oraz aby kable nie były umieszczone w miejscu, gdzie można byłoby na nie nadeptywać lub potykać się o nie.
- Nie należy rozlewać napojów ani innych płynów na system komputerowy.
- Nie należy wpychać żadnych przedmiotów do otworów systemu komputerowego, gdyż może
 to spowodować pożar lub porażenie prądem, poprzez zwarcie elementów wewnętrznych.
- System komputerowy powinien znajdować się z dala od grzejników i źródeł ciepla. Ponadto, nie należy błokować otworów wentylacyjnych. Należy unikać kładzenia lużnych papierów pod komputer oraz unieszezania komputera w ciasnym miejscu bez możliwości cyrkulacji powietrza wokół niego.

符合乙類資訊產品之標準

Ergonomie Hinweis (nur Deutschland)

Der von uns gelieferte Farbmonitor entspricht den in der "Verordnung über den Schutz vor Schäden durch Röntgenstrahlen" festgelegten Vorschriften.

Auf der Rückwand des Gerätes befindet sich ein Aufkleber, der auf die Unbedenklichkeit der Inbetriebnahme hinweist, da die Vorschriften über die Bauart von Störstrahlern nach Anlage III ¤ 5 Abs. 4 der Röntgenverordnung erfüllt sind.

Damit Ihr Monitor immer den in der Zulassung geforderten Werten entspricht, ist darauf zu achten, daß

- 1. Reparaturen nur durch Fachpersonal durchgeführt werden.
- 2. nur original-Ersatzteile verwendet werden.
- 3. bei Ersatz der Bildröhre nur eine bauartgleiche eingebaut wird.

Aus ergonomischen Gründen wird empfohlen, die Grundfarben Blau und Rot nicht auf dunklem Untergrund zu verwenden (schlechte Lesbarkeit und erhöhte Augenbelastung bei zu geringem Zeichenkontrast wären die Folge). Der arbeitsplatzbezogene Schalldruckpegel nach DIN 45 635 beträgt 70dB (A) oder weniger.

⚠ ACHTUNG: BEIM AUFSTELLEN DIESES GERÄTES DARAUF ACHTEN, DAß NETZSTECKER UND NETZKABELANSCHLUß LEICHT ZUGÄNGLICH SIND

EU Energy Label

EU Energy Label

The European Energy Label informs you on the energy efficiency class of this product. The greener the energy efficiency class of this product is the lower the energy it consumes.

On the label, you can find the energy efficiency class, the average power consumption of this product in use and the average energy consumption for 1 year.

Note

The EU Energy Label will be ONLY applied on the models bundling with HDMI and TV tuners.

China RoHS

The People's Republic of China released a regulation called "Management Methods for Controlling Pollution by Electronic Information Products" or commonly referred to as China RoHS. All products produced and sold for China market have to meet China RoHS request.

EU Declaration of Conformity

This device complies with the essential requirements of the R&TTE Directive 1999/5/EC. The following test methods have been applied in order to prove presumption of conformity with the essential requirements of the R&TTE Directive 1999/5/EC:

- EN60950-1
 Safety of Information Technology Equipment
- EN 62311
 Assessment of electronic and electrical equipment related to human exposure restrictions for electromagnetic fields (0 Hz-300 GHz)
- EN 300 328 (For 802.11b/g/n)
 Electromagnetic compatibility and Radio
 spectrum Matters (ERM); Wideband
 Transmission systems; Data transmission
 equipment operating in the 2,4 GHz ISM
 band and using spread spectrum modulation
 techniques; Harmonized EN covering
 essential requirements under article 3.2 of
 the R&TTE Directive
- EN 301 893 (For 802.11a)
 Broadband Radio Access Networks
 (BRAN); 5 GHz high performance RLAN;
 Harmonized EN covering essential requirements of article 3.2 of the R&TTE Directive

- EN 301 489-17
 - Electromagnetic compatibility and Radio spectrum Matters (ERM); ElectroMagnetic Compatibility (EMC) standard for radio equipment and services; Part 17: Specific conditions for 2,4 GHz wideband transmission systems and 5 GHz high performance RLAN equipment
- EN 301 489-1
 Electromagnetic compatibility and Radio
 Spectrum Matters (ERM); ElectroMagnetic
 Compatibility (EMC) standard for radio
 equipment and services; Part 1: Common
 technical requirements

 When entering sleep mode (backlight off), the system will shut down after a week (typical) of time.

低功率電波輻射性電機管理辦法:

設計之特性及功能。

- 第十二條 經型式認證合格之低功率射頻電機, 非經許可,公司、商號或使用者均不 得擅自變更頻率、加大功率或變更原
- 第十四條

功率射頻電機之使用不得影響飛航安 全及干擾合法通信;經發現有干擾現 象時,應立即停用,並改善至無干擾 時方得繼續使用。

前項合法通信,指依電信法規定作業 之無線電通信。

低功率射頻電機須忍受合法通信或工 業、科學及醫療用電波輻射性電機設 備之干擾。

 在 5.25-5.35 秭赫頻帶內操作之無線資 訊傳輸設備,限於室內使用。

USA

Federal Communication Commission Interference Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter:

Operations in the 5GHz products are restricted to indoor usage only.

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Note: The country code selection is for non-US model only and is not available to all US model. Per FCC regulation, all WiFi product marketed in US must fixed to US operation channels only.

CANADA

Industry Canada statement:

This device complies with RSS-210 of the Industry Canada Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Ce dispositif est conforme à la norme CNR-210 d'Industrie Canada applicable aux appareils radio exempts de licence. Son fonctionnement est sujet aux deux conditions suivantes: (1) le dispositif ne doit pas produire de brouillage préjudiciable, et (2) ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable

Caution:

- (i) the device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to cochannel mobile satellite systems;
- (ii) high-power radars are allocated as primary users (i.e. priority users) of the bands 5250-5350 MHz and 5650-5850 MHz and that these radars could cause interference and/ or damage to LE-LAN devices.

6. Regulatory Infomation

Avertissement:

- (i) les dispositifs fonctionnant dans la bande 5 150-5 250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux;
- (ii) De plus, les utilisateurs devraient aussi être avisés que les utilisateurs de radars de haute puissance sont désignés utilisateurs principaux (c.-à-d., qu'ils ont la priorité) pour les bandes 5 250-5 350 MHz et 5 650-5 850 MHz et que ces radars pourraient causer du brouillage et/ou des dommages aux dispositifs LAN-EL.

Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

MEXICO

Cofetel notice is: (Mexico COFETEL aviso:)

"La operación de este equipo está sujeta a las siguientes dos condiciones: (1) es posible que este equipo o dispositivo no cause interferencia perjudicial y (2) este equipo o dispositivo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operación no deseada."

BRAZIL

ANATEL RF STATEMENT

Per Article 6 of Resolution 506, equipment of restricted radiation must carry the following statement in a visible location

"Este equipamento opera em caráter secundário, isto é, não tem direito a proteção contra interferência prejudicial, mesmo de estações do mesmo tipo, e não pode causar interferência a sistemas operando em caráter primário."

ANATEL BODY SAR STATEMENT

"Este produto atende aos requisitos técnicos aplicados, incluindo os limites de exposição da Taxa de Absorção Específica referente a campos elétricos, magnéticos e eletromagnéticos de radiofrequência, de acordo com as resoluções n°303/2002 e 533/2009. Este produto atende às diretrizes de exposição à RF na posição normal de uso a pelo menos X centímetros longe do corpo, tendo sido os ensaios de SAR para corpo realizado a X cm de acordo com o informativo de recomendação apresentado no manual do fabricante."

Customer care and warranty

7.1 Philips' Flat Panel Monitors Pixel Defect Policy

Philips strives to deliver the highest quality products. We use some of the industry's most advanced manufacturing processes and practice stringent quality control. However, pixel or sub pixel defects on the TFT Monitor panels used in flat panel monitors are sometimes unavoidable. No manufacturer can guarantee that all panels will be free from pixel defects, but Philips guarantees that any monitor with an unacceptable number of defects will be repaired or replaced under warranty. This notice explains the different types of pixel defects and defines acceptable defect levels for each type. In order to qualify for repair or replacement under warranty, the number of pixel defects on a TFT Monitor panel must exceed these acceptable levels. For example, no more than 0.0004% of the sub pixels on a monitor may be defective. Furthermore, Philips sets even higher quality standards for certain types or combinations of pixel defects that are more noticeable than others. This policy is valid worldwide.

Pixels and Sub pixels

A pixel, or picture element, is composed of three sub pixels in the primary colors of red, green and blue. Many pixels together form an image. When all sub pixels of a pixel are lit, the three colored sub pixels together appear as a single white pixel. When all are dark, the three colored sub pixels together appear as a single

black pixel. Other combinations of lit and dark sub pixels appear as single pixels of other colors.

Types of Pixel Defects

Pixel and sub pixel defects appear on the screen in different ways. There are two categories of pixel defects and several types of sub pixel defects within each category.

Bright Dot Defects

Bright dot defects appear as pixels or sub pixels that are always lit or 'on'. That is, a bright dot is a sub-pixel that stands out on the screen when the monitor displays a dark pattern. There are the types of bright dot defects.

One lit red, green or blue sub pixel.

Two adjacent lit sub pixels:

- Red + Blue = Purple
- Red + Green = Yellow
- Green + Blue = Cyan (Light Blue)

Three adjacent lit sub pixels (one white pixel).

7. Customer care and warranty

A red or blue bright dot must be more than 50 percent brighter than neighboring dots while a green bright dot is 30 percent brighter than neighboring dots.

Black Dot Defects

Black dot defects appear as pixels or sub pixels that are always dark or 'off'. That is, a dark dot is a sub-pixel that stands out on the screen when the monitor displays a light pattern. These are the types of black dot defects.

Proximity of Pixel Defects

Because pixel and sub pixels defects of the same type that are near to one another may be more noticeable, Philips also specifies tolerances for the proximity of pixel defects.

Pixel Defect Tolerances

In order to qualify for repair or replacement due to pixel defects during the warranty period, a TFT Monitor panel in a Philips flat panel monitor must have pixel or sub pixel defects exceeding the tolerances listed in the following tables.

BRIGHT DOT DEFECTS	ACCEPTABLE LEVEL
1 lit subpixel	3
2 adjacent lit subpixels	1
3 adjacent lit subpixels (one white pixel)	0
Distance between two bright dot defects*	>15mm
Total bright dot defects of all types	3
BLACK DOT DEFECTS	ACCEPTABLE LEVEL
1 dark subpixel	5 or fewer
2 adjacent dark subpixels	2 or fewer
3 adjacent dark subpixels	0
Distance between two black dot defects*	>15mm
Total black dot defects of all types	5 or fewer
TOTAL DOT DEFECTS	ACCEPTABLE LEVEL
Total bright or black dot defects of all types	5 or fewer

1. 1 or 2 adjacent sub pixel defects = 1 dot defect

Troubleshooting & FAQs (TBC)

8.1 Troubleshooting

This page deals with problems that can be corrected by a user. If the problem still persists after you have tried these solutions, contact Philips customer service representative.

1 Common Problems

No Picture (Power LED not lit)

- Make sure the power cord is plugged into the power outlet and into the back of the monitor.
- First, ensure that the power button on the front of the monitor is in the OFF position, then press it to the ON position.

No Picture (Power LED is White)

- Make sure the computer is turned on.
- Make sure the signal cable is properly connected to your computer.
- Make sure the monitor cable has no bent pins on the connect side. If yes, repair or replace the cable.
- The Energy Saving feature may be activated

Screen says

- Make sure the monitor cable is properly connected to your computer. (Also refer to the Quick Start Guide).
- Check to see if the monitor cable has bent pins.
- Make sure the computer is turned on.

AUTO button doesn't function

 The auto function is applicable only in VGA-Analog mode. If the result is not satisfactory, you can do manual adjustments via the OSD menu.

Note

The Auto Function is not applicable in DVI-Digital mode as it is not necessary.

Visible signs of smoke or sparks

- Do not perform any troubleshooting steps
- Disconnect the monitor from mains power source immediately for safety
- Contact with Philips customer service representative immediately.

2 Imaging Problems

Image is not centered

- Adjust the image position using the "Auto" function in OSD Main Controls.
- Adjust the image position using the Phase/ Clock of Setup in OSD Main Controls. It is valid only in VGA mode.

Image vibrates on the screen

 Check that the signal cable is properly securely connected to the graphics board or PC.

Vertical flicker appears

- Adjust the image using the "Auto" function in OSD Main Controls.
- Eliminate the vertical bars using the Phase/ Clock of Setup in OSD Main Controls. It is valid only in VGA mode.

Horizontal flicker appears

 Adjust the image using the "Auto" function in OSD Main Controls.

8. Troubleshooting & FAQ:

 Eliminate the vertical bars using the Phase/ Clock of Setup in OSD Main Controls. It is valid only in VGA mode.

Image appears blurred, indistinct or too dark

 Adjust the contrast and brightness on On-Screen Display.

An "after-image", "burn-in" or "ghost image" remains after the power has been turned off.

- Uninterrupted display of still or static images over an extended period may cause "burn in", also known as "after-imaging" or "ghost imaging", on your screen. "Burnin", "after-imaging", or "ghost imaging" is a well-known phenomenon in LCD panel technology. In most cases, the "burned in" or "after-imaging" or "ghost imaging" will disappear gradually over a period of time after the power has been switched off.
- Always activate a moving screen saver program when you leave your monitor unattended.
- Always activate a periodic screen refresh application if your SMART All-in-One will display unchanging static content.
- Failure to activate a screen saver, or a
 periodic screen refresh application may
 result in severe "burn-in" or "after-image"
 or "ghost image" symptoms that will not
 disappear and cannot be repaired. The
 damage mentioned above is not covered
 under your warranty.

Image appears distorted. Text is fuzzy or blurred.

 Set the PC's display resolution to the same mode as monitor's recommended screen native resolution.

Green, red, blue, dark, and white dots appears on the screen

 The remaining dots are normal characteristic of the liquid crystal used in today's technology, Please refer the pixel policy for more detail.

The "power on" light is too strong and is disturbing

 You can adjust "power on" light using the power LED Setup in OSD main Controls.

For further assistance, refer to the Consumer Information Centers list and contact Philips customer service representative.

8.2 General FAQs

Q1: When I install my monitor what should I do if the screen shows 'Cannot display this video mode'?

Ans.: Recommended resolution for this monitor: 1920x1080@60Hz.

- Unplug all cables, then connect your PC to the monitor that you used previously.
- In the Windows Start Menu, select Settings/ Control Panel. In the Control Panel Window, select the Display icon. Inside the Display Control Panel, select the 'Settings' tab. Under the setting tab, in box labelled 'desktop area', move the sidebar to 1920×1080 pixels.
- Open 'Advanced Properties' and set the Refresh Rate to 60Hz, then click OK.
- Restart your computer and repeat step 2 and 3 to verify that your PC is set at 1920x1080@60Hz.
- Shut down your computer, disconnect your old monitor and reconnect your Philips SMART All-in-One.
- Turn on your monitor and then turn on your PC.

Q2: What is the recommended refresh rate for SMART All-in-One?

Ans.: Recommended refresh rate in SMART All-in-Ones is 60Hz, In case of any disturbance on screen, you can set it up to 75Hz to see if that removes the disturbance.

Q3: What are the .inf and .icm files on the CD-ROM? How do I install the drivers (.inf and .icm)?

Ans.: These are the driver files for your monitor. Follow the instructions in your user manual to install the drivers. Your computer may ask you for monitor drivers (.inf and .icm files) or a driver disk when you first install your monitor. Follow the instructions to insert the (companion CD-ROM) included in this package. Monitor drivers (.inf and .icm files) will be installed automatically.

Q4: How do I adjust the resolution?

Ans.: Your video card/graphic driver and monitor together determine the available resolutions. You can select the desired resolution under Windows® Control Panel with the "Display properties".

Q5: What if I get lost when I am making monitor adjustments via OSD?

Ans.: Simply press the OK button, then select 'Reset' to recall all of the original factory settings.

Q6: Is the LCD screen resistant to scratches?

Ans.: In general it is recommended that the panel surface is not subjected to excessive shocks and is protected from sharp or blunt objects. When handling the monitor, make sure that there is no pressure or force applied to the panel surface side. This may affect your warranty conditions.

O7: How should I clean the LCD surface?

Ans.: For normal cleaning, use a clean, soft cloth. For extensive cleaning, please use isopropyl alcohol. Do not use other solvents such as ethyl alcohol, ethanol, acetone, hexane, etc.

Q8: Can I change the color setting of my monitor?

Ans.: Yes, you can change your color setting through OSD control as the following procedures,

- Press "OK" to show the OSD (On Screen Display) menu
- Press "Down Arrow" to select the option "Color" then press "OK" to enter color setting, there are three settings as below.
 - Color Temperature; With settings in the 6500K range the panel appears "warm, with a red-white color tone", while a 9300K temperature yields "cool, bluewhite toning".
 - sRGB; this is a standard setting for ensuring correct exchange of colors between different device (e.g. digital cameras, monitors, printers, scanners, etc)
 - User Define; the user can choose his/ her preference color setting by adjusting red, green blue color.

Note

A measurement of the color of light radiated by an object while it is being heated. This measurement is expressed in terms of absolute scale, (degrees Kelvin). Lower Kevin temperatures such as 2004K are red; higher temperatures such as 9300K are blue. Neutral temperature is white, at 6504K.

Q9: Can I connect my SMART All-in-One to any PC, workstation or Mac?

Ans.: Yes. All Philips SMART All-in-Ones are fully compatible with standard PCs, Macs and workstations. You may need a cable adapter to connect the monitor to your Mac system. Please contact your Philips sales representative for more information.

Q10: Are Philips SMART All-in-Ones Plugand- Play?

Ans.: Yes, the monitors are Plug-and-Play compatible with Windows 7/Vista/XP/

Q11: What is Image Sticking, or Image Burnin, or After Image, or Ghost Image in LCD panels?

Ans.: Uninterrupted display of still or static images over an extended period may cause "burn in", also known as "after-imaging" or "ghost imaging", on your screen. "Burn-in", "after-imaging", or "ghost imaging" is a well-known phenomenon in LCD panel technology. In most cases, the "burned in" or "atter-imaging" or "ghost imaging" will disappear gradually over a period of time after the power has been switched off.

Always activate a moving screen saver program when you leave your monitor unattended.

Always activate a periodic screen refresh application if your SMART Allin-One will display unchanging static content.

Warning

Failure to activate a screen saver, or a periodic screen refresh application may result in severe "burn-in" or "after-image" or "ghost image" symptoms that will not disappear and cannot be repaired. The damage mentioned above is not covered under your warranty.

Q12: Why is my Display not showing sharp text, and is displaying jagged characters?

Ans.: Your SMART All-in-One works best at its native resolution of 1920×1080@60Hz. For best display, please use this resolution.

Q13: What is the recommended refresh rate for SMART All-in-One?

Ans.: Recommended refresh rate in SMART All-in-Ones is 60 Hz, In case of any disturbance on screen, you can set it up to 75 Hz to see if that removes the disturbance

8.3 SMART All-in-One FAQs

Q1: How can I download the Apps?

Ans.: You can download APPS from dedicated Google Play store or Philips app store depends on the country you are. A preset Icon on the desktop is already configured to take you there with one click of the mouse.

Q2: How can I connect to Internet when it's on the SMART All-in-One mode?

Ans.: You can connect to Internet with built in Ethernet or WiFi.

Q3: Can I change my built in Android OS to Windows or Linux?

Ans.: No, you cannot replace the built in Android OS

Q4: How can I use it as a multi-OS display?

Ans.: This SMART All-in-One is powered by built-in Android system and therefore is a stand-alone product on its own without any additional requirement. Additionally, it is also equipped with a standard VGA / HDMI connector. This enables it to also operate as a standard desktop monitor, while connected your standard notebook or desktop computer. Your PC may have OS of your choice. You can now "switch" between its built-in Android system and external PC system as you wish.

8. Troubleshooting & FAO:

Q5: Can I upgrade/ update the built in Android system?

Ans.: Yes, you can do that provided an official update is made available. Please contact the technical personnel to achieve system upgrade/update accuracy.

Q6: Can I rotate my display?

Ans.: No, you cannot rotate your display. Its default and only mode is landscape mode

Q7: Can I use Facebook?

Ans.: please try to download Facebook via Google play. If can't, suggest to link facebook website with browser.

Q8: Can I use Facebook?

Ans.: please try to download Facebook via Google play. If can't, suggest to link facebook website with browser.
