LCD monitor with Webcam, MultiView Quad HD 27" (68.6 cm), 2560 x 1440 display

Highlights

PLS Quad HD

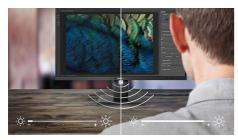

This professional Philips display uses the latest PLS Quad HD panel giving you ultra high-res brilliant wide angle images with 2560x1440 pixel resolution. With excellent 8 bit colour depth combined with 109 ppi density, you can now enjoy professional true colour sRGB images compared to limited 6 bit colour depth displays with 82ppi density. Its higher brightness and lower power consumption compared to conventional wide view angle displays ensure you always have brilliant performance, while saving energy too. It is best suited for professional applications like CAD, Graphics design, Image rendering etc.

CrystalClear images

These latest Philips screens deliver CrystalClear, Quad HD 2560x1440 or 2560x1080 pixel images. Utilising highperformance panels with a high-density pixel count, enabled by high-bandwidth sources like DisplayPort, HDMI, Dual link DVI, these new displays will make your images and graphics come alive. Whether you are a demanding professional requiring extremely detailed information for CAD-CAM solutions, using 3D graphic applications or a financial wizard working on huge spreadsheets, Philips displays will give you CrystalClear images.

PowerSensor

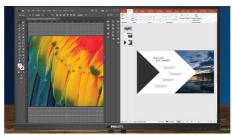

PowerSensor is a built-in 'people sensor' that transmits and receives harmless infrared

signals to determine if the user is present and then automatically reduces monitor brightness when then user steps away from the desk, cutting energy costs by up to 80 percent and prolonging monitor life

Socialise with webcam

Embedded 2 megapixel webcam with superb, bright and crisp images enables you to socialise with your family and friends. Its sensitive microphone ensures that your voice carries through clearly. You can hear clear audio either from its built-in stereo speakers, or attach your own headphones for private conversations. This simple built-in solution ensures you don't have to get in a tangle anymore with installing a camera and positioning microphones.

MultiView technology

With the ultra-high resolution Philips MultiView display you can now experience a world of connectivity in comfort whether at the office or at home. MultiView enables active dual connect and view so that you can work with multiple devices like a PC and Notebook side-by-side simultaneously, making complex multi-tasking work a breeze. Watching live football feeds from your set-top box on the right-hand side, while browsing the Internet from your notebook on the left is now easy. You may want to keep an eye on the live news feed with audio in the small window, while working on your latest blog.

SmartConnect

With a plethora of connectivity, these Philips displays come equipped with multiple connections like Dual link DVI, Display Port and universal HDMI connector, enabling you to enjoy high-resolution uncompressed video and audio content. Regardless of what source you use, you can rest assured that this Philips
