- Full-key rollover anti-ghosting for complex fast inputs
- Dialled-in mechanical cyan switches for fast reaction

PHILIPS

Wired mechanical gaming keyboard
Rainbow backlight Mechanical switches, Conflict free, Magnetic wrist rest

SPK8605/01

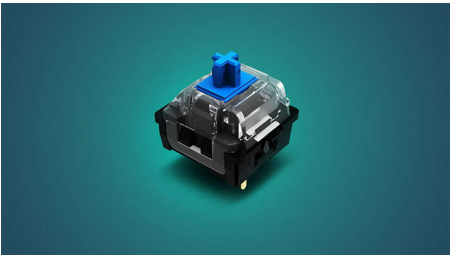

Highlights

Full n-key rollover

Fast complex gaming key strokes demand advanced performance. With full N-key rollover, every key is registered independently without confusion so that each keystroke is correctly registered regardless of how many other keys are being pressed or held down at the time.

Fast mechanical switches

The most popular mechanical switches for gaming keyboards, cyan mechanical switches

offer gamers a light, tactile clicky key for rapid activation and performance.

Aluminium alloy frame

The high-quality and durable aluminium alloy structure ensures the long-term service life of the keyboard.

Dual-mode switchable

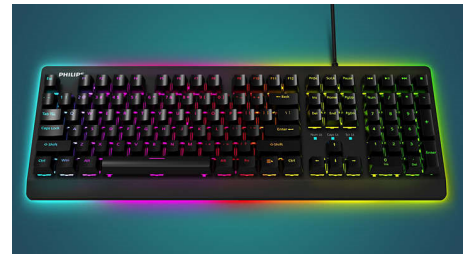

Cool rotary controller allowing you to easily switch between gaming and work modes. Quickly adapt backlight and volume to any atmosphere.

Detachable palm rest

This magnetic palm rest can be easily connected to or detached from the keyboard as needed. It gently protects your wrists, so that you are free from exhaustion even after a long time gaming.

Rainbow backlight

Cool rainbow backlight gives you a more immersive gaming experience. Secure your victory every time.
